OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS

VOL. 48

SATURDAY, JANUARY 7, 1956

No. 1

DEEP-ROOTED FINANCIAL PROBLEMS STILL PLAGUE CITY, WARNS MAYOR JOHN B. HYNES IN THIRD INAUGURAL — SEES GOOD CAUSE FOR OPTIMISM — WAGE INCREASES MUST AWAIT NEW INCOME SOURCES — LOOKS FOR ECONOMIC REBIRTH OF BOSTON.

In his third inaugural address delivered at Symphony Hall on New Year's Day, Hon. John B. Hynes, Mayor of Boston, spoke as follows:

Today I begin my seventh consecutive year as Mayor of the City of Boston.

I have no illusions concerning the honored post my fellow citizens have once again entrusted to me. I know that only by unrelenting effort, and by devotion to duty and to principle, can the affairs of our city government be properly managed and directed.

It is in that spirit I have again taken the oath of office. It is in the full meaning and significance of that oath that I enter upon my new term as Mayor.

It is not my purpose this morning to exhaust your patience by a full accounting of every phase of municipal administration, nor do I intend to enumerate the accomplishments and improvements made in our city government over the past six years.

Rather than to delve into the past, I would prefer to set my sights on the present and the future. Sufficient be it for me to state that within our means, and within the legal limitations imposed upon us, the Boston city government has made progress in every direction during the six years which have elapsed since I first became Mayor. This progress is self-evident. Boston is, today, basically sound. Its financial rating is good. The reputation of its city government is good.

It would be misleading, however, for me to imply that all of the problems facing the city are well in hand. There are some problems of a deep-rooted nature which cannot, and will not, be overcome, until such time as the city is provided the essential tools, by way of financial assistance, to solve those problems.

The institution of efficient methods of administration and operating economies are desirable and necessary steps toward the goal we seek to achieve, but they are not the simple cures for the ills which take shape and form in a high tax rate. If they were the antidotes, our troubles would be aggravating, but not serious.

During the past six years, every unit of government, federal, state, city, and town, and, for that matter, every business corporation, has been faced with the necessity of meeting increased operating costs.

In this comparatively short period of time, the appropriation allowances for city, county, and school departments have risen almost twenty-two million dollars. Eighty-six per cent of this increase results from higher allowances for personal service, and this despite the fact that the number of employees in the city service is less today than it was in 1950.

Another major increase in operating expenses is reflected in appropriations provided for pension requirements for retired employees. These appropriations have risen eighty-one per cent in six years.

No one will deny the obligation of government to provide a reasonable pay schedule for its officials, employees, and pensioners. No one will deny the justice of advancing those pay schedules to meet increased costs of living.

It must be kept in mind, however, that any increase in pay schedules affecting any sizable number of employees can be met, under present conditions, only by an increase in the tax rate. We have no other means of meeting higher personnel costs. For example, if the city, this year, were to meet all of the current requests for salary adjustments, for higher pension allotments, and for other personnel benefits, the Boston tax rate, for these purposes alone, would be increased some five dollars per thousand of valuation.

It is obvious, therefore, that the increased cost of government in recent years is largely attributable to greater appropriations for personnel requirements.

It is equally obvious that the granting of all of the current personnel requests, which seem to come in a never-ending stream, would result in a tax rate considerably higher than the present rate.

Many of these requests must, necessarily, be deferred to a later date when the income picture of the city is brighter, and when the additional costs can be absorbed without a startling and alarming increase in the tax rate.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

THIRD INAUGURAL ADDRESS OF MAYOR HYNES.

(Continued from page 1.)

City Needs New Income Source.

It is not difficult to understand why I must continue to resist any major increase in operating expenditures, when it is realized that the main source of the city's income has been shrinking, rather than increasing.

Property valuations, which carry the load of municipal expenditures, have dropped over four hundred million dollars in the last twenty-five years, fifty million of which has been lost during the past six years. If our property valuations were the same today as they were twenty-five years ago, our tax rate would be close to fifty dollars per thousand, rather than the present figure of \$69.80. If that happy condition existed, our financial troubles would be of minor consequence.

Because of this tremendous loss in valuations and basic income, and because of unavoidable annual increases in administrative costs, it is generally accepted that Boston needs another source of income if the city is to meet all of its obligations, and also meet reasonable requests of employees and reasonable requests for expanded services.

Until there is such a new and substantial source of income available, we must be extremely hesitant in assuming new obligations which will add further strain to our already heavy tax burden, and which will make it even more difficult, if not impossible, to attract new, taxable construction, so ardently desired and so necessary for the healthy progress of our city.

Plea to Legislature.

In this vein, I most earnestly implore the Massachusetts Legislature to be reluctant in the passage of any legislation that will add to the costs of municipal administration, unless such legislation provides the city with the means to meet whatever increased costs may be entailed. I also request the Legislature to keep in mind that a bill which, in and of itself, represents but a minor outlay, might very well be the wedge to pry open the floodgates of expenditures reaching a major figure.

Also in this vein, I request the members of the School Committee, and county officials, to carefully scrutinize every request which represents greater costs, for all of us, city, county, and school officials, must share in the responsibility of increasing the load now carried by the taxpayer.

Aside from our vexing financial situation, the city government is making progress. New schools are being built, and more are in the planning stage. The parking facility program for both the downtown area and the suburban shopping areas is proceeding with all possible speed. The first project in our urban redevelopment program is nearing fulfillment. Other urban redevelopment and renewal projects which will stay the growth of blight and decay, and which will change the face of our city, are taking form. The internal reorganization of the city government is proving most effective and most efficient. One remaining problem is still the cause of much concern, and that is the long-standing problem of fair and equitable assessments and valuations. We propose to make a frontal attack on this problem by means of an equalization of values of all properties with the exception of those residential properties having four apartments or less.

To accomplish such an equalization will require the expenditure of about two hundred and fifty thousand dollars, and will take two years. With the approval of the City Council, we shall begin, this year, a scientific survey of these properties. When this study is completed, we should not only have a foundation for a stabilized valuation procedure, but we should, at the same time, have a marked reduction in the flood of petitions for abatements. When this equalization is effected, it can then be truthfully stated that every activity, every function, and every service provided by the city has been improved during my tenure of office.

The economic future of Boston, its place in the scheme of things, its competitive position among the large cities of our country, and its attraction to business is predicated, to no little extent, on the character, the motives, and the attitude of the city administration.

For these reasons, and for the more weighty reason that business is the lifeblood of any large city, I have endeavored to create an atmosphere which would encourage the expansion of business and the establishment of new business in our city.

Reason to Be Optimistic.

The going has not been easy. New business seeks those areas where the tax burden is the least heavy and the least oppressive. Though our situation is not ideal, we have reason to be optimistic. Present prospects for new business in our city are better than they have been for a generation. I am confident that Boston is on the way to an economic rebirth, provided we do not disregard the elemental economic laws, and by so doing make it completely impossible for a concern to settle in our city without fear that all of its profits will be eaten up by local taxes.

For too long a period Boston has not been a magnet for new business. This has meant a great loss to our citizens who seek opportunity to earn their daily bread. Happily, that situation has taken a turn for the better. Business establishments are again looking our way. There is a new feeling of confidence in the future destiny of our city, the centre, the core, the vibrant heart of the sixth largest metropolitan area in our country.

It is also gratifying to report that among the citizens of our own community, especially those who hold the purse strings of venture capital, there is a more enthusiastic view of the future.

We have, in all truth, begun to flex our muscles. We have come to the realization that our old city of charm and substance could become a city of waning charm and substance, a decrepit old city unattractive to both residents and business alike, unless we adopt appropriate measures to avert such a possibility.

It is good that we have come to this realization. It is good that there has been an awakening of civic pride and civic conscience, engendered by the Boston College Seminars, which have prompted us to probe our strengths and our weaknesses, to evaluate them, and formulate a concerted course of action.

We must take advantage, not some time in the dim and distant future, but now, of this upsurge of determination, this new spirit of stimulating, militant zeal, which can mean so much to our city and community in the years ahead.

I am most hopeful that those in our own community who are possessed of the requisite material means will accept the challenge before us, and give impetus and direction to this new spirit of faith and confidence.

(Continued on page 4.)

Our city government will extend itself to the very limits, and add the full weight of its power and influence behind any and all proposals and efforts to revitalize the City of Boston.

The task is not an impossible one. There is no better time than now to put our thoughts and hopes into action. Great changes are taking place all about us. Other large cities in our country have begun to move forward. The economy of the nation is expanding by leaps and bounds. We must share and profit by that expanding economy, and that, too, should not be impossible, for we live in an area where the economic base is far more flexible than it is in many other parts of our country, and certainly our combined skills and talents are second to none in the nation.

In our land there are great tomorrows yet to come. Future generations of Bostonians will charge us with being blind to the potentialities of the present if we do not make the valiant and courageous moves warranted by the prospects of this very hour.

New Arteries a Boom.

Even now, the face of Boston is undergoing an uplifting. Within a short two years our city will have the finest network of highways within, and touching, its borders, of any large city in the United States. Traffic movement will be revolutionized. Traffic congestion will be at a minimum. The cost of doing business in Boston will be lessened. It is not day-dreaming to envision expansion and new construction along the routes of these new highways and especially along the route of the Fitzgerald Highway, or Central Artery, as it wends its way through the heart of the city. The opportunities for an improved city which can flow in the wake of this ultramodern network of highways excite the mind and fire the imagination.

The Commonwealth of Massachusetts, I am happy to say, is cognizant of the necessity for a healthy, progressive, capital city, and to that end is unsparing in its efforts to help our city cut through the bonds which have encircled us and impeded our progress in the past.

In addition to the new radial highways, the Commonwealth is proceeding to attack two problems of no mean consequence, which, if solved, or only partially solved, will bring great benefits to Boston.

The mass transportation problem, which grows more acute as more automobiles take to the roads, is now undergoing study by Boston College, M.I.T., and Harvard University, in conjunction with competent transportation experts. Unlike previous studies which were mainly concerned with the M.T.A., this study will include the present and future transportation necessities for all those communities now being served by a variety of transportation systems including railroads, as well as those areas which, though fast growing, have no accessible transportation system. Out of this study will come, I believe, a logical solution of the

transportation problem as it affects Boston, and the entire Greater Boston area. This is a consummation devoutly to be desired, for now the financial woes of the M.T.A. are a heavy annual expense to the City of Boston.

The proposal of the Governor of our Commonwealth for a Port Authority, which would combine the assets of the Mystic River Bridge, the airports owned by the state, the properties of the present Port Commission, and the Sumner Tunnel, seems to have general approval. Such an authority, patterned after the successful Port Authority of New York and New Jersey, and to be financed by revenue bonds, bids fair to be another skillful move in the chessboard of major improvements which are just around the bend in the road, and which give us cause to predict that Boston is coming out of its long period of looking backward, and entering a new period of looking ahead.

Certain of Progress.

In conclusion, may I state that, despite our shrunken tax base, our increased expenditure requirements, and our lack of new income sources, the city government of Boston is essentially sound. If our city were fortunate enough to have the kind of income available to other large cities, we would be considered, I know, as one of the most desirable cities in which to live or do business.

It is my hope that before long, and before our tax rate reaches the breaking point, more income will become available.

In the meantime, we shall bend every effort to keep the costs of government at the lowest possible level consistent with good public service. We shall continue to encourage new building and new business in our city, for it is through these means that we can absorb the seemingly inevitable increases in municipal operations.

To the City Council, my associates in city government, may I extend my heartiest congratulations on this eventful day. With your understanding cooperation, which I am certain will be generously given, I am sure Boston will continue to make forward progress.

To the members of the School Committee, I also offer my congratulations. You have assumed a high duty, for yours is the great responsibility of imparting knowledge to those who will be the citizens of tomorrow. I know you will not take lightly this responsibility, nor the wider responsibility to all of our citizens.

All of us who will share in the conduct of the city's affairs in the coming years will have our moments of elation which spring from the knowledge that duty has been well done. We will also have our moments of worry and frustration. Whatever may be the joys or trials ahead, may we, at all times, seek the guidance of Him Who is the Way, the Truth and the Light.

"As With Our Fathers, So God Be With Us."

CITY TO TAKE LAND IN SOUTH BOSTON TO MAKE PLAY AREA FOR SCHOOL.

At the request of James H. Mooney, Superintendent of Construction, Department of School Buildings, Mayor Hynes on December 29 approved the taking of a parcel of land to extend the playground space of the Bigelow School, South Boston.

Superintendent Mooney's communication to the Mayor was as follows:

DEAR MR. MAYOR:

In accordance with chapter 351 of the Acts of 1929, I have decided, subject to the approval of your Honor, to request

the Public Improvement Commission (who by chapter 2 of the Ordinances of 1954 has the powers and performs the duties conferred or imposed by statute on the Board of Street Commissioners) to take, for the purpose of supplementing the play space for pupils of the Bigelow School, a parcel of land in the Bigelow District, South Boston, located on the southwesterly side of Silver street and numbered 197, said parcel bounded by land within the control of the School Committee, land now or formerly owned by Charles J. Holderried, numbered 330 West Fourth street, and land now or formerly owned by Edward T. Walsh and numbered 322-324 West Fourth street, comprising approximately 1,566 square feet.

The Bigelow District is bounded as follows:

Beginning on the northern shore at the center of Dorchester street, thence by the centers of Dorchester street, West Eighth street, E street, Old Colony avenue, D street, and D street extended to the South Bay, and the water to the point of beginning.

The Superintendent of Public Schools has approved of the taking of this parcel of land, and I respectfully request your approval of said taking by eminent domain.

Respectfully yours,

JAMES H. MOONEY.

TIE-UP OF COMMUTER TRAINS A REAL EMERGENCY, SAYS MAYOR HYNES—MAKES STRONG PLEA FOR CORRECTIVE MEASURES.

President Patrick B. McGinnis of the New Haven Railroad received a request December 29 from Mayor Hynes to take emergency steps to alleviate the tie-up of trains on many of the New Haven's commuter lines serving the Hub.

"I most earnestly request that you extend your service to the fullest to meet the present emergency," Mayor Hynes wrote.

Further, in a letter to Allen Davidson, president of the Boston Retail Trade Board, Mayor Hynes pledged the support of the city to the Commonwealth and all other agencies currently concerned with the solution of the "present transportation dilemma which is causing so much inconvenience to commuters and loss of business to our Boston establishments."

Mayor Hynes' letter to McGinnis read as follows:

"I am in receipt of a communication from the president of the Retail Trade Board of Boston in which he calls my attention to the inconvenience and loss of time to commuters using the New Haven Road and the serious effect certain commuter service is having on business in Boston.

"It would appear, from all accounts, that complaints concerning commuter service are well justified. I realize that cold weather brings with it many difficulties in the operation of a railroad, but there is general expectancy that any public service such as a railroad will be prepared for such exigencies that will occur during the winter months so that service may be maintained on a reasonably steady schedule.

"We are now in that period of the year when we can expect inclement weather. Certainly, I know that you do not want the commuting public to be without adequate service regardless of the weather. It occurs to me that if your new equipment is not ready for service that it may be possible for you to borrow serviceable equipment for the next few months.

"As you well know, over 800,000 people come to Boston each day to shop or do business. Many of these people must rely on railroad service. For this reason, I most earnestly request that you extend your service to the fullest to meet the present emergency."

In his letter to Allen Davidson, president of the Retail Trade Board, Mayor Hynes said:

"I have your letter concerning the service now being rendered by the New Haven Railroad. I send you herewith copy of letter I am delivering to Mr. McGinnis today.

"As you perhaps know, there is now a study being made, at the direction of Governor Herter, and under the auspices of Boston College, M.I.T., Harvard, and competent transportation experts, for the purpose of determining the future of transportation in Greater Boston area. Manifestly, the present emergency emphasizes the need of such a study, which very likely will result in recommendations for a coordinated, single transportation system for the entire community.

"I shall be pleased to cooperate with your Board and with the Governor and with any other agency in the present transportation dilemma which is causing so much inconvenience to commuters and loss of business to our Boston establishments."

SWAN BOAT CONTRACT IS EXTENDED TO 1961.

The Swan Boat fleet in the Public Garden will continue to be operated by the Paget family of West Roxbury for at least another five years, under the terms of a contract approved December 29 by Mayor Hynes.

In his letter to the Mayor, recommending approval of the contract without advertising it for competitive bids, Commissioner Frank R. Kelley of Parks and Recreation wrote:

"For at least three generations, if not longer, one of the outstanding features in the City of Boston has been the Swan Boats on the Public Garden Pond. This unusual type of entertainment is exclusively Boston's own and does not exist in any other city in this country. In fact, we have received much favorable comment about the Swan Boats from all sections of the world.

"The privilege of operating the Swan Boats and rowboats on the Public Garden Pond has always been held by the Paget family. This family owns the plans for the boats, constructing new boats when necessary and making all repairs required.

"The current license is held by Mr. Paul G. Paget and was made for a five-year period which terminates on December 31, 1955. The annual rental is \$800, having been increased from \$600 five years ago. The income from this concession depends entirely on the weather, dropping sharply if we have a rainy spring and summer, and therefore I believe that \$800 per year is a fair rental.

"As the work of reconditioning the Swan Boats must be done during the winter season, Mr. Paget has requested a renewal of his license to operate them for another term of five years starting January 1, 1956. I believe that nothing would be gained by publicly advertising for bids as we would be unable to engage anyone else who has the equipment to operate this concession.

"Therefore, I request your approval for the award of a license, without publicly advertising for bids, to Mr. Paul G. Paget, 4 Sherman road, West Roxbury, for operation of Swan Boats and rowboats on the Public Garden Pond, for a period of five years beginning January 1, 1956, and terminating on December 31, 1960, at a rental of \$800 per year."

COUNCIL PRESIDENT AND SCHOOL BOARD CHAIRMAN ELECTED FOR YEAR 1956.

Edward J. McCormack, Jr., was unanimously elected president of the Boston City Council on Tuesday. The School Committee unanimously elected Joseph Lee as its chairman for 1956.

Eight members of the City Council and all the five members of the School Committee took their oaths of office during the inaugural ceremony at Symphony Hall on Monday, January 2.

Mayor Hynes administered the oath of office to Councillor John F. Collins in a unique ceremony at the Collins home in Jamaica Plain immediately following the inauguration exercises. Councillor Collins is recovering from a siege of polio. He attended the opening session of the Council on Tuesday in a wheel chair.

Elected and qualified to serve in the Boston City Council for the next two years are:

Councillor Edward J. McCormack, Jr., *Dorchester, President.*

Councillor Francis X. Ahearn, *Brighton.*

*Councillor John F. Collins, *Jamaica Plain.*

Councillor William J. Foley, Jr., *South Boston.*

Councillor John E. Kerrigan, *South Boston.*

*Councillor Patrick F. McDonough, *Dorchester.*

Councillor Edward J. McLaughlin, Jr., *Jamaica Plain.*

Councillor Gabriel F. Piemonte, *North End.*

Councillor Joseph C. White, *West Roxbury.*

Elected and qualified to serve on the Boston School Committee for the next two years are:

Joseph Lee, *Back Bay, Chairman.*

*George F. Hurley, *West Roxbury.*

William F. Carr, *South Boston.*

*Timothy J. McInerney, *Roxbury.*

*John P. McMorro, *Dorchester.*

* Newly elected.

OMIT WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

J. J. Bonavire, Inc., has been directed to omit the following work under the contract dated February 9, 1955, for construction of new garage, Public Works Department Yard, 315 Western avenue, Brighton:

Omit the furnishing and erecting of 133 linear feet of chain link fence.

Estimated cost of omitted work, \$373.32.

CHANGE IN CONTRACT.

PUBLIC WORKS DEPARTMENT.

Suffolk Electric Company has been directed to make the following substitution under the contract dated November 28, 1955, for electrical work at 624 Albany street, Boston:

Under Item 1, substitute a "Square D type M.H.P. circuit breaker distribution panel board" for the 30-inch x 24-inch x 4-inch deep Columbia Type A steel cabinet and pertinent cut-outs.

Estimated increase in cost, \$290.

NEARLY ALL THE TWO-FAMILY VET. HOUSING UNITS ARE SOLD—95 PER CENT OF NEW OWNERS ARE EX-SERVICEMEN.

A total of 480 two-family frame dwellings of the 504 constructed by the city following World War II, under a special ex-servicemen's housing act, have been conveyed to private hands as of the close of 1955, according to Thomas E. Cimeno, Chief of Disposition, Boston Housing Authority. Ninety-five per cent of the new owners are veterans.

Of the five multiple-dwelling units erected to serve the needs of the returning veterans, one has been conveyed to private owners, and the others will soon follow, in compliance with the statutes. Cimeno sent the following letter to Mayor Hynes on the subject:

MY DEAR MR. MAYOR:

The following summary regarding the Chapter 372 Disposition Program may be of interest to you at this time:

Sales Value of Properties Sold.

480 two-family houses.....	\$6,972,705
5 multiples.....	1,434,801

Total..... \$8,407,506

Assessed Value of Properties Sold.

480 two-family houses.....	\$4,166,000
5 multiples.....	1,300,500

Total..... \$5,466,500

Of the 504 frame houses in this program, 480 have been conveyed to their new owners, 95 per cent of whom are veterans. Of the five multiple developments, Arborway has been conveyed, and the others will be conveyed in the near future.

These title transfers insure the placing of these properties on tax rolls. (Two hundred and two of the frame houses have been on since January 1, 1955.)

In the case of the four multiples under agreement, the contract calls for a sum equal to 1956 taxes to be added to the purchase price in the event the title passes after January 1, 1956, thus protecting the city against tax loss for the year.

Very truly yours,

THOMAS E. CIMENO,
Chief of Disposition.

TRAFFIC COMMISSION RULING.

Voted, That the Traffic Rules and Regulations of the City of Boston are amended as follows, effective January 9, 1956:

Article IV-A, Section 4, Part 3, is amended by adding in the first phrase of the second paragraph after the word "plate" the following:

"nor to any vehicle bearing a handicapped operator plate"

so that the paragraph will read as follows:

"The provisions of the preceding section shall not apply to any vehicle bearing a 'V' registration plate nor to any vehicle bearing a handicapped operator plate, issued by the Registrar of Motor Vehicles under the provisions of section 2 of chapter 90 of the General Laws, except in streets in the section of Downtown Boston, hereinafter described and bounded, where parking of vehicles is otherwise prohibited under the provisions of Article IV-A, Section 4, Part 2, of these Traffic Rules and Regulations."

SEVENTH STRAIGHT YEAR AS MAYOR SETS A RECORD.

Mayor Hynes has established a record for consecutive service as Boston's chief executive.

He started his seventh straight year as mayor on January 2. The record of six years was held by Josiah Quincy, who served from 1823 through 1828.

James M. Curley served four four-year terms as mayor, but not consecutively.

Mayor Hynes served five months as an appointee in 1947. In 1949 he was elected to a two-year term. In 1951 he was re-elected, to a four-year term. He now starts a second four-year term.

POLICE DEPARTMENT ORDERS.

General Order No. 2,147.

Due to the number of persons still absent from their homes as members of some branch of the United States military services, it is doubly important that all officers detailed to listing work exercise the greatest care to the end that absolute accuracy be obtained in the listing of all residents twenty years of age and over, and particularly the above-mentioned persons, male and female, in the armed services who must be listed from their last legal Boston residence.

The particular branch in which men and women are enrolled in the United States military services shall be indicated in the space on the card that is set aside for "occupation" as Army, Navy, Air Force, Marine Corps, etc.

It is imperative that all listing officers visit each and every building to secure the names and required information of the occupants. UNDER NO CIRCUMSTANCES SHALL THE PRINTED LIST OF THE PREVIOUS YEAR BE REFERRED TO AS A BASIS OF RESIDENCE, NOR SHALL IT BE ASSUMED THAT A RESIDENT ACCORDING TO THE 1955 PRINTED LIST IS NOW AN OCCUPANT OF THE SAME DWELLING.

The attention of the department is called to Superintendent's order of December 27, 1955, in reference to police listing which begins on Tuesday, January 3, 1956.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,148.

The resignation of Patrolman John J. Lydon, Division 2, having been presented, it is hereby accepted, to take effect on Tuesday, January 3, 1956, at 7:45 o'clock A.M., seven days' notice waived.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

CLAIM ALLOWED.

The Mayor, upon recommendation of the Corporation Counsel, has approved the following claim:

Joseph L. General, 8 Everdean street, Dorchester, in the sum of \$485, as compensation for damage to property stored in cellar of above premises caused by a break in the water main at Linden street and Dorchester avenue, February 16, 1955.

FAIR RENT BOARD NAMED TO IRON OUT LANDLORD AND TENANT DISPUTES.

A Fair Rent Board was appointed January 3 by Mayor John B. Hynes. The board has already begun its activities. It will maintain headquarters at 600 Washington street. Although it has no legal powers its purpose is to iron out differences between landlords and tenants.

In setting up the board, Mayor Hynes said:

In the creation of the Fair Rent Board which will be without legal power or authority, I am hopeful that many instances of dispute between landlord and tenant can be amicably settled.

It seems apparent that some landlords are taking advantage of the termination of legal rent controls. If this occurs to any great extent, it will warrant new legislation. On the whole, tenants do not object to a reasonable increase in their rentals. They do, however, and rightfully so, have reason to object when the rental increase goes beyond what can be considered a fair increase.

The Boston Fair Rent Board will endeavor to impress upon landlords who seek sharp increases in rentals the inability of the tenant to pay such an increase and the injustice which follows. I therefore publicly request all landlords who feel that an increase must be made to be moderate in their demands. If they are not, undoubtedly, a new rent control act will be necessary.

The following persons were named as members of the Fair Rent Board:

Edward W. O'Hearn, Chairman, 1441 Dorchester avenue, Dorchester.

Elliott Henderson, 250 Boylston street, Boston.

Samuel L. Pope, 68 Welles avenue, Dorchester.

Daniel M. Driscoll, 18 Oliver street, Boston.

Joseph Stefani, 30 Pemberton square, Boston.

Duncan T. Foley, Director.

ADDITIONS TO CONTRACT.

DEPARTMENT OF SCHOOL BUILDINGS.

Joseph Rugo, Inc., has been ordered to do the following additional site work at the J. J. Chittick School, as per Drawing 1-R, dated November 21, 1955, with revisions:

Remove existing curb and remove sufficient material to allow new paving to meet existing yard; widen drive to 18 feet; eliminate the 4-inch cracked stone base under new paving and also the patching of existing curb for the sum of \$12,605, making the account as follows: contract price \$307,307; total additions, \$13,702.14; amount of contract, \$321,009.14.

AMENDMENT TO ORIGINAL AWARD OF DAMAGES.

The Public Improvement Commission has voted as follows:

That the amount of \$67,610 be, and the same hereby is, awarded to M. DeMatteo Construction Company for all damages sustained under the order of the Public Improvement Commission and Mayor of December 30, 1954, for the taking of land for Public Works Department purposes bounded by Gardner street and High street, West Roxbury district.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with contractors, etc., for furnishing labor, supplies, etc. Communications from the heads of departments interested were as follows:

ADMINISTRATIVE SERVICES DEPARTMENT.

Purchasing Division.

BOSTON, December 19, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On July 21, 1955, your Honor approved the award of a contract for an air compressor to Moore-Norris Company, who had submitted a proposal in response to publicly advertising for bids on this equipment. Subsequent to your approval, a contract was processed for this company. However, this company has made no delivery of the equipment. By inquiry we have learned that the company is in the process of dissolution and consequently will not be able to make delivery at any time.

Morrissey Brothers Tractor Company have an identical compressor on hand ready for immediate delivery, and this company will deliver it at the same price offered by Moore-Norris Company. Inasmuch as the Traffic Commission is in immediate need of this equipment, permission is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Morrissey Brothers Tractor Company.

Approximate total amount of contract will be \$1,384, less trade-in allowance for Schramm 60-pound air compressor, \$200, making a total of \$1,184, less 2 per cent discount, time of payment.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

CITY PLANNING BOARD.

BOSTON, December 21, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On Tuesday, December 20, 1955, at a meeting of the City Planning Board the following vote was taken:

"That Adams, Howard & Greeley, City Planning Consultants, 15 Ash street, Cambridge, be engaged by contract covering a period of six months from January 15, 1956, to July 15, 1956, at a total cost of \$2,500, to furnish services, guidance, and assistance as consultants to the Board in the rezoning study now being conducted, and, further, that the chairman be authorized to sign the contract."

Therefore, if this meets with your approval, it is respectfully requested that your authorization be given for the awarding of the proposed contract, without public advertising, to Adams, Howard & Greeley, City Planning Consultants, to cover the period from January 15, 1956,

to July 15, 1956, for furnishing the above-mentioned services at a cost not to exceed \$2,500.

It is felt, in view of the nature of the professional services involved, as well as the fact that this firm has so satisfactorily and efficiently performed a similar service for the Board during the past two years, that nothing would be gained by publicly advertising for bids for this work.

Very truly yours,

THOMAS F. McDONOUGH,
Chairman.

LIBRARY DEPARTMENT.

BOSTON, December 20, 1955.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

The Trustees respectfully request that you approve the signing of a lease, without public advertising, with the Woodside Realty Corporation for the rental of the premises located at 18 Barnes avenue, East Boston. These premises have served as quarters for the Orient Heights Branch Library since 1929. The lease will be for the period January 1, 1956, through December 31, 1956. There will be no change in the basic rate of rent. The rental will be \$4,000, plus "additional rent" of \$260. It is not possible to obtain competitive bidding by public advertising for this purpose.

For the purpose of this lease the "additional rent" referred to is defined as that sum of money by which the real estate tax on the premises assessed for the year 1956 exceeds the 1949 real estate tax. It is further agreed that until such time as the real estate tax rate for the year 1956 is finally determined, the sum of \$260 shall represent the "additional rent." Further, if the 1956 real estate tax as finally determined should be less than the 1949 real estate tax, no "additional rent" shall be payable, and the lessor covenants and agrees to pay the lessee the difference.

Inasmuch as the total rental will exceed \$1,000, your permission to enter into this lease without publicly advertising for bids is hereby requested.

Respectfully,

THE TRUSTEES OF THE PUBLIC LIBRARY
OF THE CITY OF BOSTON,
by MILTON E. LORD,
Director, and Librarian.

BOSTON, December 20, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Trustees respectfully request that you approve the signing of a lease, without public advertising, with David S. Green, Abraham Kaplan, A. Murray Ginsberg, Irene Lebowich, Joan Becker, Leopold M. Sonnabend, and the estate of Sarah Kaplan for the rental of the premises located at 161 Harvard avenue, Allston. These premises have served as quarters for the Allston Branch Library since 1939. The lease will be for the period January 1, 1956, through December 31, 1956. There will be no change in the rate of rent, which will be in the sum of \$3,800. It is not possible to obtain competitive bidding by public advertising for this purpose.

Inasmuch as the total rental will exceed \$1,000, your permission to enter into this lease without publicly advertising for bids is hereby requested.

Respectfully,

THE TRUSTEES OF THE PUBLIC LIBRARY
OF THE CITY OF BOSTON,
by MILTON E. LORD,
Director, and Librarian.

PARKS AND RECREATION DEPARTMENT.

BOSTON, December 19, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

This department has an agreement with the Bay Realty Company, Inc., 70 Bristol street, Boston, for furnishing steam for the heating and operation of our laundry and bathhouse building on Dover street. The present agreement was made for a one-year period which ends on December 15, 1955.

For a number of years the Fire Department furnished steam to our Dover Street building from its own building in the rear, but this arrangement had to be discontinued when the Fire Department moved to its new location on South npton street. The Bay Realty Company, Inc., then took over the abandoned Fire Department building and by contract with the Parks and Recreation Department has been furnishing the necessary steam for the operation of our Dover Street building.

The agreement now expiring was made for the sum of \$42,600 for the year, payable at the rate of \$3,550 per month. We are in receipt of information from the company that furnishes the steam for the laundry to the effect that, in compliance with the Massachusetts Department of Public Safety regulations, they have been required to make major repairs to Boiler No. 1 and Boiler No. 3, at a cost of \$655, and, further, that during the year 1955 three distinctive increases in price were made on No. 5 oil, so that as of the present time they are losing money under the contract and have requested that an increase be made.

In order to continue this service they are asking that the monthly payment be increased to \$3,920. Under the present agreement, which will continue under the new one if approved, the company furnishes all employees and fuel to operate the steam plant and in addition assumes the responsibility for workman's compensation, public liability, insurance, maintenance, etc. The company furnishes the service to us at cost, plus only an overhead of 10 per cent to cover supervision and maintenance of the power plant, taxes, light, etc.

We are now in the process of constructing a new laundry at Dover street, and present plans call for finishing the laundry in the early fall of 1956. Immediately upon completion of this building the contract for furnishing steam will be terminated, as we will then be in a position to supply our own steam and heat requirements.

As the exact date of completion is in doubt, we are desirous of awarding a contract, without publicly advertising for bids, to the Bay Realty Company, Inc., 70 Bristol street, Boston, for furnishing steam to the Dover Street laundry and bathhouse, for a one-year period commencing December 15, 1955, the first payment to be made on or after January 15, 1956. The amount of the contract, \$47,040, is to be charged to Item 229, Parks and Recreation Department budget.

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

EXTENSION OF CONTRACTS.**PUBLIC WORKS DEPARTMENT.**

Approval has been given for an extension of time for the completion of the contract with William Banfield, 50 Terminal street, Charlestown, to clean catch basins in City Proper, Roxbury, South Boston, East Boston, and Charlestown, from November 26, 1955, to March 31, 1956. This extension was requested because the contractor was delayed by inclement weather.

Approval has been given for an extension of time for the completion of the contract dated June 30, 1955, with John McCourt Company, 28 Wolcott street, Readville, for sheet asphalt pavement in Arlington street, etc., from November 1, 1955, to December 31, 1955. This extension was requested because of inclement weather.

This extension was requested because the contractor was delayed by inclement weather.

Approval has been given for an extension of time for the completion of the contract dated October 26, 1954, with Dooley Brothers, Inc., 39 George street, Roxbury, for bituminous concrete pavement in Grampian Way, etc., from December 31, 1955, to June 30, 1956. This extension was requested because the contractor was delayed by inclement weather.

Approval has been given for an extension of time for the completion of the contract dated August 31, 1955, with Underground Construction, Inc., for rebuilding of sewerage works in Back street, between Exeter street and Embankment road, City Proper, from November 29, 1955, to March 16, 1956. This extension was requested because the contractor was delayed by inclement weather.

Approval has been given for an extension of time for the completion of the contract with James A. Freaney, Inc., to clean catch basins in Brighton, West Roxbury, Hyde Park, and Dorchester, from December 17, 1955, to March 17, 1956. This extension was requested because the contractor was delayed by inclement weather.

Approval has been given for an extension of time for the completion of the contract dated September 26, 1955, with P. V. Barone Corporation, 70 Glencoe street, Brighton, for bituminous concrete pavement in Ackley place, etc., from December 31, 1955, to July 31, 1956. This extension was requested because the contractor was delayed due to inclement weather.

Approval has been given for an extension of time for the completion of the contract dated August 24, 1955, with C. Russo, Inc., for building sewerage works in Joan road, Dodge road, Leighton road, Belnap road, and Perry court, Hyde Park, from December 24, 1955, to March 24, 1956. This extension

was requested because more rock was encountered than was anticipated, and also due to inclement weather.

Approval has been given for an extension of time for the completion of the contract dated December 1, 1955, with S. J. Tomasello Corporation, 25 Huntington avenue, for corner cutbacks, sidewalk narrowings, and installation of traffic islands in Austin street, etc., from December 31, 1955, to June 30, 1956. This extension was requested because the contractor was unable to complete the work due to inclement weather.

Approval has been given for an extension of time for the completion of the contract dated November 7, 1955, with Iver Carlson, 23 Belle avenue, West Roxbury, for concrete-filled steel columns in Washington Street pedestrian islands, from Waltham street to Massachusetts avenue, from December 31, 1955, to June 30, 1956. This extension was requested because the contractor was unable to complete the work due to inclement weather.

Approval has been given for an extension of time for the completion of the contract dated August 10, 1955, with John McCourt Company, 28 Wolcott street, Readville, for sheet asphalt pavement and installation of traffic divisional islands and sidewalk narrowing in Dock square, etc., from December 31, 1955, to June 30, 1956. This extension was requested because the contractor was unable to complete the work due to inclement weather.

OMIT AND SUBSTITUTE WORK UNDER CONTRACT.**PUBLIC WORKS DEPARTMENT.**

J. J. Bonavire, Inc., has been directed to omit and substitute the following work under the contract dated February 9, 1955, for construction of new garage, Public Works Department Yard, 315 Western avenue, Brighton:

Omit the furnishing and installing of corrugated steel flashings, gutters, downspouts, and roof deck. Substitute the furnishing and installing of corrugated aluminum flashings, gutters, downspouts, and roof deck. Approximately 3,912 square feet of corrugated steel omitted and approximately 3,912 square feet of corrugated aluminum substituted at an approximate increase in cost of \$0.023 per square foot.

Estimated increase in cost, \$90.

S. J. Tomasello Corporation has been directed to omit and substitute the following work under the contract dated July 13, 1955, for bituminous concrete pavement in Burr street, Carolina avenue, Cheshire street, Dane street, Hawthorne street, Heathcote street, Perkins street, and Sedgwick street:

In Perkins street, omit the furnishing and laying of approximately 48 linear feet of 10-inch minor drain at \$5 per linear foot. Substitute the furnishing and laying of approximately 48 linear feet of heavy-weight cast-iron pipe to be used for three catch-basin connections to below surface level of Jamaica Pond at \$10 per linear foot.

Estimated cost of substituted work, \$480; estimated cost of omitted work, \$240; estimated increase in cost, \$240.

EXTRA WORK UNDER CONTRACT.**PUBLIC WORKS DEPARTMENT.**

Kane & Diaferio Construction Company has been directed to perform the following extra work under the contract dated August 31, 1955, for construction of addition to Public Works Department Garage at Highland street, Roxbury.

Furnish all labor, materials, and incidental work necessary to install conduit in roof slab for the lump sum of \$30.

John J. Amara & Sons has been directed to perform the following extra work under the contract dated May 31, 1955, for artificial stone, bituminous concrete sidewalks, edgestone, and roadway repairs for hurricane damage in various locations in the city.

In District 12 furnish and set two granite corners at \$20 each and remove one gas lamp post including excavating to main in street for the lump sum of \$20. Trim posts and cut stumps below grade, where directed, in approximately fifty locations for the lump sum of \$330.

Defina & Sons has been directed to perform the following extra work under the contract dated April 1, 1955, for reinforced concrete retaining wall and chain link fence in Westglow street, Ward 16, at dead end:

Remove and post in wall set according to plan and extend fence to end of wall. Price to be paid in addition to contract price for fence, \$15. Place mastic stripe around existing manhole to prevent bond of concrete when wall is poured for lump sum of \$15.

AWARD OF DAMAGES CANCELED.

The Public Improvement Commission has voted as follows:

Whereas, Through inadvertence there was awarded to J & M Corporation of Quincy an amount of \$67,610 for damages sustained under an order of the Public Improvement Commission, approved by his Honor the Mayor December 30, 1954, providing for the taking of land near Gardner street, West Roxbury district, for Public Works Department purposes; and

Whereas, The M. DeMatteo Construction Company is the true owner of the land taken, it is

Voted, That the award of damages to the J & M Corporation of Quincy made by this commission and Mayor November 16, 1955, be, and the same hereby is, rescinded.

FIRE DEPARTMENT ORDERS.**General Order No. 67.****I. FIRE ALARM BOX ESTABLISHED.**

In the near future, the following fire alarm box will be established:

12-2252, Dudley School, 20 Dudley street.

The circuit number for this fire alarm box will be announced when the box is installed.

Company commanders will add the above box to assignment card for Box 2252.

II. CHANGE IN DESIGNATION OF FIRE ALARM BOX.

Due to the change in name of Winslow street to Sherbrook street, the designation of Fire Alarm Box 2861 will be changed to read as follows:

2861, Perham and Sherbrook streets. Company commanders will make the above change in designation on assignment card for Box 2861.

The Henry Grew School on Gordon avenue has been demolished. The words "Auxiliary, Henry Grew School" shall be deleted from assignment card for Box 3816.

The designation for this box will be changed to read as follows:

3816, Gordon avenue and Austin street. Company commanders will make the above change for designation for Box 3816.

III. CORRECTION IN DESIGNATION OF FIRE ALARM BOXES.

Last spring there was distributed a printed list of street changes. On that list Caspar street was given as changed to Kiernan road, and the designation of Fire Alarm Box 2845 was changed accordingly in General Order No. 32, May 24, 1955.

However, only a portion of Caspar street was changed to Kiernan road, as follows:

Caspar street, from Veterans of Foreign Wars Parkway to Addington road.

Kiernan road (formerly part of Caspar street), from Veterans of Foreign Wars Parkway to 40 Furbush road.

The designation of Fire Alarm Box 2845 will be corrected to read as follows:

2845, Caspar and Lasell streets. In establishing Box 12-3564 in General Order No. 37, dated June 20, 1955, the address of the Tileston School was given as 106 Babson street. This address should be 108 Babson street.

Company commanders shall make the necessary changes on the assignment cards for the aforementioned boxes.

IV. COMMENDATIONS.

Fire Fighter Edwin I. Milchunes of Engine Company 32 is hereby commended for responding to and working at fire, Box 4136, two alarms, December 19, 1955, while off duty.

Fire Fighter Robert N. Anderson and Fire Fighter on Probation Arthur M. Turk of Engine Company 29 are hereby commended for responding to and working at fire, Box 5422, December 20, 1955, while off duty.

Fire Alarm Operator Charles A. O'Dowd is hereby commended for responding to and working at fire, Box 5348, December 18, 1955, while off duty.

V. RETIREMENT.

The following retirement in accordance with chapter 347, Acts of 1892, as amended by chapter 237, Acts of 1939, is hereby announced, effective at 8 A.M., Wednesday, December 28, 1955:

Fire Fighter William F. Gilmore, Headquarters.

Fire Fighter Gilmore was appointed to the Fire Department December 28, 1917. He leaves the department with the best wishes of his associates.

By order of Fire Commissioner FRANCIS X. COTTER.

JOHN V. STAPLETON,
Chief of Department.

AMENDMENT TO CONTRACT.

The Mayor has approved the request contained in the following letter:

LIBRARY DEPARTMENT.

BOSTON, December 8, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On October 19, 1955, your Honor approved the written request of the Trustees of the Public Library, dated October 17, 1955, to award a contract without public advertising, to Paul E. Dutelle & Co., Inc., 153 Pearl street, Newton, for certain roof repairs at the West End Branch Library.

In the letter it was stated that the Trustees voted to enter into a contract with Paul E. Dutelle & Co., Inc., for this work in an amount not to exceed \$3,000. Inasmuch as the total appropriation for the work was \$3,000, including a fee of \$300 for professional services of an engineer, the contract with the roofing firm should have been in the amount of \$2,700.

The Trustees have therefore taken the following action to amend their vote:

Voted, That the vote of the Trustees taken at their meeting of October 7, 1955, in connection with entering into with Paul E. Dutelle & Co., Inc., a contract for certain roof repairs at the West End Branch Library, be, and the same hereby is, amended to read as follows:

"That there be entered into without public advertising with Paul E. Dutelle & Co., Inc., 153 Pearl street, Newton, a contract for certain roof repairs at the West End Branch Library, in an amount not to exceed \$2,700."

Permission of your Honor is hereby requested to amend the letter of the Trustees under date of October 17, 1955, as set forth above.

Respectfully,

THE TRUSTEES OF THE PUBLIC LIBRARY
OF THE CITY OF BOSTON,
by MILTON E. LORD,
Director.

PROCEEDINGS OF CITY COUNCIL.

Monday, December 19, 1955.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President HURLEY in the chair. Absent, Councillor Ahearn.

The Right Reverend Eftimios Saba, Protosynce of Antioch, former secretary to the Patriarch of Antioch, Eastern Rite of the Catholic Church, and Provincial of the Byzantine Salvatore Fathers in the United States and Canada, of our Lady of the Annunciation Catholic Church, was escorted to the rostrum together with Mr. James Maloof.

INVOCATION BY RT. REV. EFTIMIOS SABA.

Heavenly King, Spirit of Truth, who art everywhere and fillest all things, Treasury of Goodness and Counsel, come and take up Thine abode in these Thy servants; O Thou who hast said in Your Holy Book: "Designs are strengthened by Counsels" (Prov. 20:18); "Designs are brought to nothing where there is no counsel; but where there are many counselors, they are established" (Prov. 15:22); "There is safety where there is much counsel" (Prov. 11:14); "They that do all things with counsel are ruled by wisdom" (Prov. 13:10); "The knowledge of a wise man shall abound like a flood, and his counsel continueth like a fountain of life" (Eccl. 21:16); open Thou their hearts, their minds, their lips, that they wisely decide and successfully apprehend what is most useful to the profit and building up of our dear city; that they may understand Thy good and perfect will of ruling everything in peace, harmony, honesty, and justice.

May the blessing of the Lord and His mercies descend upon you by His divine grace and love for mankind, now and always and forever and ever. Amen.

The meeting was opened with the salute to the Flag.

APPOINTMENT BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointment:

Constable with authority to serve civil process upon filing of bond for the term ending April 30, 1956: Leonard Linskey, 247 Walnut avenue, Roxbury.

Referred to the Committee on Confirmations.

MATTERS BEFORE COMMITTEES.

President HURLEY announced that the last meeting of the Boston City Council for 1955 would be held on Thursday, December 29, 1955, at 11 A.M. President HURLEY requested that all matters before committees be acted upon, if possible, and returned for disposition at the last meeting of the Council.

The Chairman of the Executive Committee, Coun. WHITE, announced a meeting of the Executive Committee on Wednesday, December 21, 1955, at 11 A.M., to dispose of as many matters before it as possible.

AMENDMENT TO CLASSIFICATION AND COMPENSATION PLAN.

The following was received:

City of Boston,
Office of the Mayor, December 19, 1955.
To the City Council.

Gentlemen:
I transmit herewith communication from the Supervisor of Personnel relative to your order of November 28, 1955, concerning reducing the term of years of service required before attaining the maximum salary grade from the present term of twenty years to ten years.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Administrative Services Department,
December 5, 1955.
Harry B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:
Receipt is acknowledged of City Council order passed November 28, 1955, and reading as follows:

Ordered, That his Honor the Mayor review the City of Boston payroll schedule for its employees with a view to reducing the term of years of service required before attaining the maximum salary grade from the present term of twenty years to ten years.

His Honor the Mayor, prior to the passage of the above order, directed the Board of Administrative Services to make a study of the Compensation Schedule for the Employees of the City of Boston with a view to revising the longevity provisions.

Upon completion of its study, the Board will report its recommendations to the Mayor.

Respectfully,

JOHN A. SULLIVAN,
Supervisor of Personnel.

Placed on file.

SITE FOR NEW GIRLS' LATIN SCHOOL.

The following was received:

City of Boston,
Office of the Mayor, December 19, 1955.
To the City Council.
Gentlemen:

I transmit herewith communication from the Commissioner of Parks and Recreation relative to your order of December 5, 1955, concerning a survey being made in order to select a site for the construction of a new Girls' Latin School in the Fenway area of the Park Department.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Parks and Recreation Department,
December 13, 1955.

Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:

I desire to acknowledge your memorandum of December 8, with attached City Council order that the Boston Park Commission be requested, through his Honor the Mayor, to make a study or survey in order to select a site for the construction of a new Girls' Latin School in the Fenway area of the Park Department.

We are only too pleased to cooperate in this matter but believe it is one that rests entirely with the Boston School Department.

The Board of Parks and Recreation Commission has gone on record as not favoring the sale of any park land in the Fenway section of Boston.

Very truly yours,

FRANK R. KELLEY,
Commissioner.

Placed on file.

APPROPRIATION FROM PARKMAN FUND INCOME.

The following was received:

City of Boston,
Office of the Mayor, December 15, 1955.
To the City Council.
Gentlemen:

I am in receipt of the attached communication from the Commissioner of Parks and Recreation, requesting the appropriation of \$13,441.72 from the income of the George F. Parkman Fund, to be expended under the direction of the Commissioner of Parks and Recreation, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

The 1955 budget estimates for the personal service requirements of the Park Department included an estimate of the total yearly income from the George F. Parkman Fund. The budget allowances made provision for the appropriation of this income as it accrued for the purpose of defraying the cost of work actually performed on the Common and Parks in Existence on January 12, 1887.

I submit herewith an order appropriating the sum of \$13,441.72, the accrued income now available from the Parkman Fund, and respectfully recommend its immediate passage by your Honorable Body.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Parks and Recreation Department,
December 15, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

You are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of \$13,441.72 which is now available, to be expended under the direction of the Park Commissioner as follows:

Common and Parks in Existence on
January 12, 1887, Maintenance
and Improvement of.....\$13,441.72

When making up the budget estimates for the year 1955, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item 100, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1955, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Parks and Recreation Department.

Respectfully yours,

FRANK R. KELLEY, Commissioner.

Ordered, That the sum of \$13,441.72 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Commissioner of Parks and Recreation for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on	
January 12, 1887, Maintenance	
and Improvement of.....	\$13,441.72

Referred to the Executive Committee.

STATEMENT BY COUNCILLOR PIEMONTE.

Coun. PIEMONTE inquired of the Chair whether or not there was a further communication from the Mayor on the orders adopted by the Council November 28, 1955, and December 12, 1955, concerning tax assessing information on certain properties.

The Chair advised that no further communications were received.

Coun. PIEMONTE commented that the reply of the Mayor received by the Council on December 12, 1955, could be used among other purposes as a basis for revaluation. Coun. PIEMONTE also commented on the reduction in assessments on certain properties.

PORT OF BOSTON IN KEEN BATTLE FOR TRANS-ATLANTIC SHIPPING AS PIER RESTORATION PLANS FORGE AHEAD.

Large-scale plans for physical improvement of the Port of Boston are scheduled to move forward in 1956 as the result of rekindled interest in building up our water front to meet the vigorous competition of other ports along the Atlantic seaboard. Boston's fight for trans-Atlantic cargoes grows more keenly competitive every day against such well-financed, well-equipped ports as New York, Philadelphia, Baltimore, and Norfolk.

The Port of Boston Commission has received the wholehearted support of Mayor John B. Hynes, the Boston City Council, Governor Christian A. Herter, and the Massachusetts Legislature in pursuance of long-range improvements on the port scheduled to become a reality this year.

Considerable work has already been accomplished by the Port Commission in the completion of facilities at the Hoosac and Mystic piers in Charlestown and the Boston and Albany piers in East Boston, while continuing improvement of the huge Castle Island terminal presses forward every day.

The Army Base rebuilding job, in which the Boston city government took an active interest, is expected this year to give Boston another first-class pier facility helping to make this water front attractive to port users.

Also scheduled for revamping is Commonwealth pier, one of the world's finest combination passenger and freight facilities.

Members of the Boston Port Commission, who are charged with the direct responsibility for these improvements, are optimistic about Boston's ability to press its case for more business, knowing it is becoming equipped to offer just about any service desired by any shipper.

The Port Commission intends to press Boston's case to remedy unjust discrimination in railroad freight rates under which this port has long labored. Since 1877, the ports of Baltimore and Philadelphia have been able to quote lower rates than railroads serving Boston and New York may charge. The Port of New York Authority has joined with the Boston group in an all-out program to end, once and for all, this ancient penalty imposed on Boston and New York.

Another matter of concern to New England is the possible hamstringing of the Port of Boston's future in the potential business of being a receiving port for iron ore from Labrador. Now pending before the Interstate Commerce Commission in Washington is a bid by Boston to give it a fair shake once again in the form of uniform equal rates for all north Atlantic ports in the shipment of ore by rail out of the Hub.

The eventual completion of the St. Lawrence seaway, several years hence, will pose far less of a threat to the Port of Boston than had been previously feared, according to present thinking in Boston shipping circles.

Boston is the nearest principal seacoast port to the St. Lawrence River, a waterway which is ice-locked four or five months of the year. This port can guarantee year-round shipping service. Boston shippers point out there is a growing volume of shipping of manufactured items, especially in the electronics industry, for which there is a demand for continuous shipping facilities such as Boston has to offer.

The Port of Boston is well equipped by nature to compete with other Atlantic ports. It has an excellent harbor, deep water and short and easy access to open sea. Another competitive advantage to Boston is its greater proximity to the great ports of Europe, Africa, and South America, than other Atlantic ports. Our Port Commission is now engaged in a vigorous campaign to obtain greater frequency of sailings in and out of Boston. An indication of its success is shown by the scheduling of the first passenger liner stop in Boston recently by the Italian line, the first such stop made by this line in sixteen years.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE;

MAYOR HYNES TO LAUNCH CELEBRATION HERE OF BENJAMIN FRANKLIN'S 250TH BIRTH ANNIVERSARY

Mayor John B. Hynes this week placed the full prestige and influence of the city government behind an all-out effort of civic-minded Bostonians to execute a memorable observance on January 17 of the 250th anniversary of the birth of Benjamin Franklin, one of our city's most famous sons. Competing in this observance will be the City of Philadelphia, where Franklin died in 1790.

Boston's pride in the identity of Franklin as a native of our city will be expressed when Mayor Hynes on January 17 lays a wreath at the Franklin statue at City Hall and also at the site of the great patriot's birthplace on Milk street. Commemorative exercises will be held at noon at Old South Meeting House, including speakers, presentations, and music.

Robert Cutler is general chairman of the observance.

Donald R. Friary, 1 Waldeck street, Dorchester, a student at Boston Latin School (which Franklin attended), will deliver an address on the distinguished alumnus of that institution.

The tentative program at Old South Meeting House will be as follows:

12.03 P.M.—Dr. Frederick M. Meek, Minister of Old South Church—Invocation.

12.07 P.M.—Chairman Cutler reads Congressional Resolution and introduces Dr. Frederick M. Meek.

12.10 P.M.—Dr. Frederick M. Meek speaks on Franklin.

12.21 P.M.—Chairman Robert Cutler calls on schoolboy from Boston Public Latin School (which Franklin attended), Donald R. Friary, 1 Waldeck street, Dorchester.

12.21 P.M.—Boston Latin School boy speaks on Franklin.

12.29 P.M.—Chairman Cutler introduces Senator Saltonstall.

12.29 P.M.—U. S. Senator Leverett Saltonstall presents Congressional Gold Medals to Governor Herter, in behalf of the Commonwealth; to Mayor Hynes, in behalf of the City of Boston; and to John Lunn, Chairman of the Franklin Foundation.

12.36 P.M.—Chairman Cutler introduces Postmaster Joseph P. W. Finn.

12.36 P.M.—Postmaster Finn presents three albums of the Franklin memorial stamps to Governor Herter, Mayor Hynes, and Mr. Lunn.

WHITE CONST. CO., INC., WINS CONTRACT FOR NEW HYDE PARK SCHOOL.

On January 3 the Mayor approved a contract with White Construction Company, Inc., for erecting and completing an elementary school in the Elihu Greenwood District. Bids, opened Tuesday, November 29, 1955, were as follows:

White Construction Company, Inc., \$697,694; M. S. Kelleher Company, \$724,471; Columbia Construction Company, \$726,000; M. Solimando, \$746,872; Leonard Ruga, Inc., \$747,000; Franchi Construction Company, \$749,979; Sciaba & Co., Inc., \$753,080; M. Slotnick Corporation, \$759,888; Charles Logue Building Company, \$768,696; Joseph Rugo, Inc., \$777,000; S. & A. Allen Construction Company, \$786,000.

12.40 P.M.—Chairman Cutler introduces President J. A. Erickson of the Federal Reserve Bank of Boston.

12.40 P.M.—President Erickson presents lucite holders for newly-minted Franklin coins to Governor Herter, Mayor Hynes, and Mr. Lunn.

12.44 P.M.—Chairman Cutler introduces David McCord, poet.

12.44 P.M.—David McCord reads original poem on Franklin.

12.48 P.M.—Dr. Frederick M. Meek pronounces Benediction. Adjournment.

The program for the wreath-placing ceremony at Franklin's birthplace will be as follows:

Introductory remarks by Donald J. Hurley, President of the Greater Boston Chamber of Commerce.

Placing of wreath and remarks by Mayor John B. Hynes.

Remarks by Governor Christian A. Herter.

Closing remarks and invitation by Chairman Robert Cutler to attend ceremonies in the Old South Meeting House.

The committee in charge of the observance includes:

For Printing and Publishing Week in New England: Donald A. Lounsbury, General Chairman; Carlton M. Strong and Francis J. Tominey, Vice-Chairmen; Albin R. Johnson, Printing Show Chairman; Morris Greenbaum, Banquet Chairman.

Miss Printing Week: Virginia Maffucci, who also holds the title of Miss Massachusetts.

Committee for the Franklin Foundation: Robert Cutler, Chairman; John S. Pfeil, Vice-Chairman; Donald J. Hurley, for the Chamber of Commerce; Henry J. Nichols, for the banks; W. C. Swartley, for the radio and T.V.; John D. Brown, for the City of Boston; Francis W. Hatch, for advertising; John Lunn, Chairman of the Trustees, Franklin Foundation.

Sumner Tunnel in Challenge to World Record for Traffic.

"More vehicles used the Sumner Tunnel in 1955 than in any year since the tunnel was opened on June 30 of 1934," Public Works Commissioner George G. Hyland announced this week.

"Last year a new high was reached when 12,094,107 vehicles used the tunnel, as compared with 11,080,966 in 1954," Hyland said. The increase in 1955 over 1954 totals 1,013,141.

"I believe that the above figure of 12,094,107 vehicles creates a world record for single-tube, two-lane vehicular tunnels comparable in length to the Sumner Tunnel," declared the Public Works Commissioner.

FRANKLIN OBSERVANCE TO FEATURE THREE-DAY EXHIBIT OF INVENTORS AT HISTORIC FANEUIL HALL.

The First Congress of Boston Inventors will be held in Faneuil Hall, January 18-20, it was announced this week by Mayor John B. Hynes.

The three-day exhibition of new inventions by Bostonians, both amateur and professional, will be a feature of the city's celebration of the 250th anniversary of the birth of Benjamin Franklin. Franklin was the nation's first great inventor and the first American scientist to become internationally known.

Exhibits will range from the nuclear developments of great research laboratories to the amateur creations from basement workshops, and will demonstrate the inventive genius that has made Boston the number one research center in the United States, Mayor Hynes said.

Amateurs may exhibit their inventions if they have applied for patents on them. A clearing house has been set up, and they are requested to phone Liberty 2-3720 for instructions.

The exhibition will open with appropriate ceremonies at 10 A.M., Wednesday, January 18, and will be free to the public.

Paul A. Newsome, chairman of Boston's newly created Public Relations Plans Board, is in charge of the event. He has appointed Charles E. Kurtzman of Loew's Theatres, Inc., as general chairman, assisted by John Harvell of Arthur D. Little, Inc.

The major exhibits will be in charge of the Boston Patent Law Association. President Cedric W. Porter has appointed the following-named committee to assist: Sewall P. Bronstein, Donald L. Brown, Kenneth W. Brown, Theodore C. Browne, Laurence Burns, Philip Colman, George W. Crowley, W. Bigelow Hall, Oliver W. Hayes, Alfred R. Johnson, Edgar H. Kent, Herbert P. Kenway, Bernard H. Lemlein, Lawrence G. Miller, Henry C. Nields, Spencer E. Olson, Arnold C. Rood, Joseph Weingarten, John D. Woodberry.

DIRECTOR EMERY REPORTS ON CONVENTION OF AMERICAN VOCATIONAL ASSO. IN ATLANTIC CITY.

The following report was submitted to the School Committee by Francis J. Emery, Director of Industrial Arts, on his attendance at the annual convention of the American Vocational Association, held in Atlantic City, New Jersey, December 4 to 9, inclusive:

Leaving Boston on Sunday morning, December 4, 1955, gave me time to arrive in Atlantic City, New Jersey, at 6.15 P.M. Registering at Haddon Hall took but a few minutes. The registration desks for the forty-ninth annual convention of the American Vocational Association were active and crowded. I registered with the Association, received my credentials, program, and laid out a busy schedule of conferences.

The entire morning of Monday was spent in conference on the requirements of school buildings for vocational education. There is very little written matter available on this subject. To aid architects in their design of buildings to house the required facilities to carry on a shop

activity was the objective. Speakers brought out points of surveys clearly. Mimeographed resumes were distributed. Copies are now on file in Boston. These are opportune for our contemplated program of local building.

Tuesday morning it was my pleasure to speak as a member of a panel on direction and evaluation of industrial arts. The program was varied and interesting. Three conclusions could be drawn. First, all industrial arts programs have some common factors. Second, all industrial arts programs also vary in content and application due to neighborhood influence. Third, evaluation of industrial arts programs requires much more study before a fairly reliable measurement scale can be formed.

A conference on "Safety" filled in the latter part of the afternoon. This group has been working with the National Safety Council to produce a check sheet on the safety of shops in design and operation. After a tremendous amount of work a temporary sheet has been put into operation. With many suggestions from the floor the committee will attempt to produce a more perfect analysis for the next convention.

In the evening it was pleasant to attend a general meeting at which three youths spoke, telling how vocational education had benefited them. They were, of course, outstanding and grateful for the opportunity given them through the American way of life.

Wednesday began with "Television in Industrial Arts" and told of the struggle of some teachers to place a demonstration of shop work before the public. It was evident that only certain teachers would pass in audition and that much time would be consumed in preparation for a short showing. Following this film was a discussion of a new and very sensible way of measuring the value of work done in the field of drafting. It was comforting to think about how well the work in Boston is yielding to such thoughtful plans as were presented.

In the afternoon the subject of applied electronics was demonstrated. It was compelling in practical applications, but yielded very little on the possible place this subject, ever-growing in industrial applications, might find in the schools.

Thursday was a banner day. The morning was consumed rapidly at a panel presentation of the subject "Design in Industrial Arts." These speakers were fired by enthusiasm. They were also practical in application. The consequent question period was electric in that the audience had absorbed some of the enthusiasm of each speaker. It was a good tonic.

Thursday afternoon was also an enthusiastic experience at the General Motors' automotive session. It was long but vivid, with well-planned demonstrations of examples of aids to teaching, with short pointed talks, and with printed samples of subject matter. The new instruction manual presented, before official release, to each member in the audience will aid in the present upward revision of our automobile repair work at the Brighton High School.

Every minute that was not spent at panel discussions or conferences was given to exhibits from over one hundred firms composed of publishers and manufacturers of industrial equipment, or to friendly inquiring chats with other persons carrying on activities, similar to those in Boston, in other locations throughout the country. The exhibits yielded a fair knowledge of improvements in equipment now on the market for any new installations which may be necessary. The

friendly chats were enlightening and comforting.

Friday morning came and it brought an end to my visiting. I felt that the remaining events were only perfunctory. After traveling all day I arrived in Boston at 7 P.M.

I wish to express my thanks to the Boston School Committee for having made possible my attendance at this very busy convention. It was enlightening.

Respectfully submitted,

FRANCIS J. EMERY,
Director of Industrial Arts.

MAYOR HYNES GRANTS DIFFERENTIAL PAY BOOST FOR NURSES.

On January 6 Mayor Hynes approved the vote of the Trustees of Boston City Hospital to recommend that an increase in pay be granted amounting to \$10 weekly for full-time nurses employed in the Hospital Department during the shift from 2.30 to 11 P.M. and \$5 weekly for full-time nurses employed on night duty, 11 P.M. to 7 A.M. This is a temporary measure for a period of one year.

This recommendation followed a concentrated study of several months of the very acute and serious shortage of nurses which exists in this department. State and local salaries and shift differential pay rates for nurses were studied in detail. The Nursing Department and a committee of staff physicians devoted long hours of study to this problem.

The inducement of additional pay during the hours mentioned, which is currently available in various hospitals in this area, has resulted in a severe disadvantage to our effort to meet minimal nurse staffing requirements.

The recommended increases will bring this department in a much more favorable position with other Boston hospitals in this highly competitive field. The Massachusetts General Hospital has higher differential allowances for each of the shifts concerned than is here recommended.

Based on nurses presently on duty during the hours affected in the three hospitals of this department, the increase amounts to \$941 weekly.

The matter of establishing a precedent for other personnel employed during these hours has been given serious consideration. Practice prevailing elsewhere has been reviewed. It is the Trustees' feeling that, in view of the serious national shortage of nurses and the particularly acute situation existing within this department, this recommendation be adopted for graduate staff nurses, and only for this group.

The recommended increases, to be made effective January 11, 1956, are computed as follows:

(As of January 5, 1956.)

2.30 P.M. TO 11 P.M.

Floor Nurse, from grade 15 to grade 19, Boston City Hospital 24; Sanatorium 8; Long Island Hospital 1.

Head Nurse, from grade 17 to grade 21, Boston City Hospital 1; Long Island Hospital 5.

ADMINISTRATIVE SERVICES DEPARTMENT.

Purchasing Division.

Boston, September 30, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Bids on proposals for furnishing surgical dressing to the various city departments from October 1, 1955, to March 31, 1956, inclusive, were publicly opened and read in this office on September 30, 1955. Tabulation of prices received is attached.

Authority is requested to award the items checked on the accompanying tabulation to the lowest bidders meeting specifications. No bids were received on Items 27; this item will be purchased in the open market. Bids received on Items 47, 48, 49, and 50 are being rejected and these items will be purchased in the open market from the manufacturer at a saving of approximately \$225. Approximate total amounts of awards will be as follows:

Contracts for Johnson & Johnson, \$56,609.73; E. F. Mahady Company, \$11,166.80; Marsales Company, Inc., \$4,924.50; Gilman Brothers, Inc., \$2,382.89; Sherman Mills, Inc., \$1,600; C. H. Goldthwaite Company, \$1,241; Bauer & Black, Division of the Kendall Company, \$1,240.

Orders for Sparrow Chisholm Company, \$900; W. J. Fitzgerald Corporation, \$718.84.

Prices quoted by Sparrow Chisholm are net; all other companies are offering a 2 per cent discount, time of payment.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

Upon December 20, 1955, the Mayor approved a contract as requested in the following letter:

Boston, December 15, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Bids on proposals for furnishing office furniture to the various city departments were publicly opened and read in this office on December 6, 1955. Tabulation of prices received is attached.

The lowest and second lowest bidders on Item 1 are bidding on letter files without inserts. Specifications are for legal size with three inserts each. On Item 2, the sketch used for the bid was not drawn with sufficient details to assure competitive bidding on an equal basis. The item is being rejected and new bids will be solicited.

Authority is therefore requested to award a contract for Item 1 to S. M. Levin Company, Inc., the lowest bidder meeting specifications, at the price checked on the accompanying tabulation.

Approximate total amount of contract will be \$6,417, less 2 per cent discount, time of payment.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BUILDING DEPARTMENT.

BOSTON, January 6, 1956.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On or about September 23, 1955, the side basement wall of the premises at 193 West Newton street, Ward 4, collapsed. This endangered the entire structure and certain adjoining buildings. The department endeavored to compel the owner and the mortgagee to make the necessary repairs but the owner professed to be without funds sufficient to enable him to do so and the mortgagee refused to comply. It is the obligation of this department, therefore, under section 116 (d), chapter 479, Acts of 1938, as amended, to enter the premises and to perform the necessary work. I have your Honor's approval for this.

The department thereupon entered the premises with the services of the Daniel Marr Company, shored the wall and made conditions safe for the time being. The Daniel Marr Company submitted a bid at that time aggregating \$5,579.49, which included \$4,150 for the rebuilding of the wall, shoring costs, and rental of shores and braces to October 31, 1955. It was felt that the sum for the wall repair was excessive and that the city might well secure a better price by soliciting bids. Any price subsequently secured would, of course, not include the rental of shores and braces belonging to the Marr Company. These are still in place and must remain until the wall is rebuilt. The city is obligated for the rental of these shores and braces.

Bids were then solicited from contractors skilled in this particular type of work and on November 16, 1955, we informed your Honor that we had two bids as follows:

Michael J. Reardon, \$4,375; Joseph White, \$2,375.

Your Honor's permission was requested and secured to grant the contract to Joseph White, without advertising.

On November 22, 1955, Mr. White notified this department in writing that he would not be responsible under the terms of his contract for certain damages which might result and that certain additional work would necessitate additional charges. It should be noted that at this point Mr. White had signed no contract with the City of Boston and he declined to sign any contract until his conditions were met.

The legal representative of this department, after a conference in this office, advised that all bids be rejected and that new bids be solicited. This has been done incorporating work additional to the original request for bids. We now have bids as follows:

Daniel Marr, no bid; Michael J. Reardon, \$4,375; Joseph White, \$3,656; F. C. Dolan & Sons, \$2,900.

The matter will admit of no further delay. Every possible opportunity has been given the owner to effect repairs. Despite repeated assurances to this department that he was negotiating with contractors, we have no evidence that he is now or in the near future ready or able to do the work.

The public interest so requiring, therefore, I ask your Honor's approval for permission to award a contract, without advertising, in the sum of \$2,900, to F. C. Dolan & Sons.

Very truly yours,

CHARLES A. CALLANAN,
Building Commissioner.

HOSPITAL DEPARTMENT.

BOSTON, December 27, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

At a meeting of the trustees held on December 23, 1955, it was voted, subject to your approval, to contract with Thomas P. McDonough, architect, to prepare plans for alterations to the Maternity Building at Boston City Hospital.

The trustees respectfully request your permission to dispense with public advertising and to award a contract to Thomas F. McDonough, architect, 25 Huntington avenue, Boston, Mass., for architectural services in connection with the alterations and additions to the Maternity Building at Boston City Hospital.

Estimated cost of the work will not exceed one hundred fifty-five thousand (155,000) dollars and the architect is to be paid a fee equal to twelve (12) per cent of the total cost of construction, subject to the provisions of the contract for such services.

Because of the professional nature of the services required, the trustees are of the opinion that there would be nothing gained by publicly advertising for bids.

Respectfully yours,

RICHARD J. CONDON,
President, Board of Trustees.

LIBRARY DEPARTMENT.

BOSTON, January 3, 1956.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The trustees respectfully request that you approve the signing of a lease, without public advertising, with Toffe G. Kando for the rental of the premises located at 275 Washington street, Dor-

chester. These premises have served as quarters for the Mt. Bowdoin Branch Library since 1929. The lease will be for the period April 1, 1956, through March 31, 1957. There will be no change in the rate of rent, which will be in the sum of three thousand dollars (\$3,000). It is not possible to obtain competitive bidding by public advertising for this purpose.

Inasmuch as the total rental will exceed one thousand dollars (\$1,000), your permission to enter into this lease, without publicly advertising for bids, is hereby requested.

Respectfully,

THE TRUSTEES OF THE PUBLIC LIBRARY
OF THE CITY OF BOSTON,

by MILTON E. LORD,
Director, and Librarian.

PUBLIC WORKS DEPARTMENT.

BOSTON, January 3, 1956.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

Because of the unusual conditions which often arise following snowstorms and the prolonged periods during which the equipment and necessary labor provided by contractors must be kept at work, the cost in some instances will be more than \$1,000, necessitating, under the provisions of the City Charter, written contracts with the firms which have been engaged.

I consider it to the city's advantage to have the department in a position to call upon contractors to furnish labor and equipment, when and where required, when emergency occasions arise, and I respectfully request the authority of your Honor to dispense with advertising and to award contracts to the following-named firms and individuals to furnish labor and equipment when considered necessary for the years 1955-1956 to supplement the regular forces of the Public Works Department engaged in snow removal activities:

Eastern Roads Company, Inc., 101 Terrace street, Roxbury; Hugh Nawn, Inc., 194 Freeport street, Dorchester.

From a canvass conducted by the department, it has been ascertained that the firms named can furnish the equipment necessary to do the required snow removal work. Furthermore, advertising for bids would not, in my opinion, be practicable on account of the uncertainty of the amount of work to be done and also because the contract involves the rental of equipment and the hiring of labor only, and the rates paid are in accordance with the prevailing rates established in this area for this type of work.

In the event this work becomes necessary, payment will be made in accordance with the schedule of rates established by this department as will be specifically set forth in the contract.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for an extension of time for the completion of the contract with Richard Moore Company for roofing work at the Jamaica Plain High School from December 31,

APPROVE KENWAY TERRACE, ROXBURY, AS PUBLIC WAY.

The Public Improvement Commission has ordered that a public improvement be made, consisting of the laying out and construction of Kenway terrace (formerly Hawthorne avenue), Roxbury district, as a public highway, from Washington street approximately 175 feet southeasterly, bounded and described as follows:

A highway named Kenway terrace is hereby laid out, from Washington street approximately 175 feet southeasterly, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following-described land, exclusive of trees, shrubs,

or structures standing upon or affixed thereto.

A parcel of land, supposed to belong to Sophia L. Goldberg, bounded:

Northeasterly by the southwesterly line of Kenway terrace as it existed prior to this order, nine and 69-100 feet; easterly by the westerly line of Kenway terrace as it existed prior to this order, eight and 50-100 feet on a curve of five and 08-100 feet radius; southeasterly by the northwesterly line of Kenway terrace as laid out under this order, fifteen and 15-100 feet; and westerly by the westerly line of Kenway terrace as laid out under this order, thirteen and 58-100 feet on a curve of ten and 00-100 feet radius, containing eighty-eight square feet, more or less.

Trees, shrubs, or structures standing upon or affixed to the aforescribed land shall be removed therefrom within thirty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Said Kenway terrace as hereby laid out is bounded:

PROCEEDINGS OF CITY COUNCIL.

Thursday, December 29, 1955.

Final meeting of the City Council of 1955 held in the Council Chamber, City Hall, at 11 A.M., President HURLEY in the chair. Absent, Councillor Foley.

The Right Reverend James H. Doyle, of St. Patrick's Roman Catholic Church, Roxbury, was escorted to the rostrum.

INVOCATION BY RT. REV. JAMES H. DOYLE.

In the name of the Father, and of the Son, and of the Holy Ghost Amen.

O Eternal and Supreme Legislator, infinitely generous, seeking only our interest, from Thy divine lips came those words of pleading love, "Come to Me all you that labor and are burdened and I will refresh you." Look down, we beseech Thee, upon this legislative body which seeks today to thank You for Your guidance and Your un-failing assistance during the past year. Their authority came from You. We trust they have exercised it in Thy name.

We turn to Thee once more, chastened by the cruel misery of an order of society from which Thou art being excluded. Grant that we may yet be aroused, before it is too late, to a sense of the doom which awaits those who have rejected Thee. Truly Thou hast made us for Thyself and unless we turn to Thee we shall be lost forever.

O God of Goodness and Holiness, we rejoice in Thy nearness to us and we beg Thee not to desert us. We ask Thy blessing upon those who are to leave this august body for the last time and bring length of days to them in their new endeavors. We pledge to Thee that singleness of purpose which under Thy guidance will unite us to one another against Thine enemies and bring us at length to an eternal union with Thee.

In the Name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

VETO OF ORDER RE GROUP INSURANCE, ETC.

The following was received:

City of Boston,
Office of the Mayor, December 27, 1955.
To the City Council.
Gentlemen:

I regret I find it necessary to return herewith, without my signature and disapproved, the orders passed by your Honorable Body on December 12, 1955, accepting chapter 760 of the Acts of 1955.

Section 3 of said chapter provides that the Mayor in any city, "upon acceptance of this chapter . . . shall negotiate with and purchase . . . from one or more insurance companies . . . a policy or policies . . . of group life and accidental death and dismemberment insurance and hospital, surgical and medical benefits for the employees of said city." It is clear from this language that my approval of the orders in question would definitely commit the city, in the ensuing fiscal year to the financial obligations attached to the execution of the insurance contracts involved.

Under the terms of the legislation, one half of the cost of the premiums for such insurance shall be deducted from the wages of the employees and the remaining 50 per cent shall be contributed by the city. Based on tentative estimates secured by the Director of Administrative Services from insurance groups, it appears that the initial annual contributions of the city to such a program would approximate \$1,350,000.

In accordance with prior announcements, it is my intention to provide in the 1956 budget for increases in the compensation of policemen, fire fighters, jail and correction officers. In addition, I have under consideration a reduction in the period during which existing compensation maxima shall be attained together with modifications in the vacation policy of the city.

From recent press announcements, it would appear that additional appropriations for compensation of school employees must be considered in 1956. It is also apparent that pension requirements are still on the upward trend. An over-all calculation of the amounts involved in these various proposals, including that for group insurance, would appear to indicate, without any consideration of budget increases in items other than for personal services or benefits, a tax rate increase in the neighborhood of 5%.

I feel certain you will agree that the present financial condition of the city does not warrant the imposition of such an additional burden on the taxpayers. While desirous of maintaining employment conditions in municipal departments at a high level, I believe that until steps are taken to strengthen and expand the revenue base of Massachusetts cities and towns we must defer

action of the type authorized under chapter 760. For this reason, I am constrained to veto the orders involving the acceptance of this act.

Respectfully,

J. B. HYNES, Mayor.

The message and orders were referred to the Executive Committee.

VETO OF ORDER RE DEATH OF LOUIS DISESSA.

The following was received:

City of Boston,
Office of the Mayor, December 28, 1955.
To the City Council.
Gentlemen:

I am returning herewith, disapproved, the order passed by your Honorable Body on December 12, 1955, accepting chapter 493 of the Acts of 1952 entitled "An Act Providing That a Certain Physical Condition Resulting in Death Shall Be Presumed to Have Been Suffered in Line of Duty Shall Be Applicable in the Case of Louis DiSessa, a former police officer of the City of Boston."

Mr. DiSessa died of heart failure a short time before the so-called heart law applying to policemen became effective. I have given careful and sympathetic consideration to this special act, but I am compelled to face the situation that if the precedent is established of making pension legislation retroactive in any special case such as this, all deaths and injuries occurring prior to the effective date of an act might warrant the demand for the same consideration whether or not such injuries or deaths occurred one week or six or more months before the effective date of the legislation. For this reason I am impelled to veto the order.

Respectfully,

J. B. HYNES, Mayor.

The message and order were referred to the Executive Committee.

SKATING FACILITIES FOR INHABITANTS OF BOSTON.

The following was received:

City of Boston,
Office of the Mayor, December 27, 1955.
To the City Council.
Gentlemen:

I transmit herewith communication from the Commissioner of Parks and Recreation relative to your order of December 19, 1955, concerning arrangements being made with the Boston Arena Authority, the Skating Club on Western avenue, Brighton, and/or others that have ice skating facilities, for the use of the same by the inhabitants of Boston.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Parks and Recreation Department,
December 22, 1955.

Harold B. Flemming,
Chief Clerk, Mayor's office.

Dear Sir:

I desire to acknowledge your memorandum of December 21, with attached City Council order of Councillor Piemonte, that his Honor the Mayor request the Parks and Recreation Commissioner to make arrangements with the Boston Arena Authority, the Skating Club on Western avenue, Brighton, and/or others that have ice skating facilities, for the use of the same by the inhabitants of Boston.

The Boston Arena is under the control of the Metropolitan District Commission, 20 Somerset street, Boston, and any arrangements for skating for Boston residents should be made with the Metropolitan District Commission.

The Skating Club on Western avenue is a private organization. It is our understanding there is a charge for those who wish to use the facilities there. Information would have to be obtained direct from the authorities of the club.

Very truly yours,

FRANK R. KELLEY, Commissioner.

Coun. PIEMONTE moved that the original order and answer be remanded to his Honor the Mayor with the request that the Commissioner of Parks and Recreation give it serious consideration and to give us some detailed explanation as to why it is not feasible if he so feels.

The motion was carried.

RESERVATION OF DORCHESTER WATER FRONT AS RECREATION AREA.

The following was received:

City of Boston,
Office of the Mayor, December 27, 1955.
To the City Council.
Gentlemen:

I transmit herewith communication from the Director of the City Planning Board relative to your order of December 5, 1955, concerning the reservation of the Dorchester water front, from Columbia Point to Neponset River, for recreation purposes.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
City Planning Board, December 21, 1955.
Mr. Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:

The Board at its meeting on Tuesday, December 20, considered Councillor Foley's resolution concerning the reservation of the Dorchester water front, from Columbia Point to Neponset River, for recreation purposes.

This order will be given serious consideration in the Board's review of zoning proposals for this area in the near future.

Very truly yours,

THOMAS E. MCCORMICK,
Director of Planning.

VOTING FACILITIES FOR RESIDENTS OF LONG ISLAND.

The following was received:

City of Boston,
Office of the Mayor, December 29, 1955.
To the City Council.
Gentlemen:

I transmit herewith communication from the Chairman of the Board of Election Commissioners relative to your order of December 19, 1955, regarding the introducing of legislation which will provide more adequate voting facilities for the residents of Long Island.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Election Department, December 27, 1955.
Mr. Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:

I have your communication of December 21, 1955, together with Council order passed under date of December 19, 1955, relative to introducing legislation which will provide more adequate voting facilities for the residents of Long Island.

This is to advise you that I will contact the Corporation Counsel and make an appointment with him to discuss this matter at his earliest convenience.

Very truly yours,

DAVID LASKER, Chairman.

Placed on file.

SPECIAL PERMITS FOR AUTOMOBILE PARKING BY HANDICAPPED PERSONS.

The following was received:

City of Boston,
Office of the Mayor, December 29, 1955.
To the City Council.
Gentlemen:

I transmit herewith further communication from the Traffic Commissioner relative to your order of October 10, 1955, concerning special permits for automobile parking by handicapped persons.

Respectfully,

J. B. HYNES, Mayor.

Boston Traffic Commission,
December 27, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

On October 10, 1955, a City Council order was passed requesting that his Honor the Mayor confer on the matter of issuing special permits to nonveterans who hold a SEAL for handicapped persons issued by the Registry of Motor Vehicles in order that these handicapped persons be permitted to park their cars in restricted areas without penalty.

After consultation with the Corporation Counsel it was found that the Traffic Commission had authority to establish special regulations and accordingly at our meeting on December 15 it was voted to grant to nonveterans, holding a SEAL for handicapped persons issued by the Registry of Motor Vehicles, approximately the same privileges afforded to "V" registration plate holders.

The effect of this regulation will be to exempt physically handicapped drivers from provisions of our traffic laws which prohibit parking in the downtown area from 8 A.M. to 9.30 A.M.

Sincerely yours,

WM. ARTHUR REILLY, Commissioner.

TAX ASSESSING INFORMATION CONCERNING CERTAIN PROPERTIES.

The following was received:

City of Boston,
Office of the Mayor, December 29, 1955.
To the City Council.
Gentlemen:

I transmit herewith communications from the Corporation Counsel, the Assessor of Taxes, and the Collector-Treasurer relative to your order of November 28, 1955, and motion of December 12, 1955, concerning tax assessing information on certain properties in the city.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Law Department, December 28, 1955.
Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

This is in response to your request that I furnish you with the "provisions of the statutes of the Commonwealth and/or ordinance of the City of Boston or any regulations promulgated by the Commissioner of Corporations and Taxation pertaining to the placing of liens by municipalities on real estate for nonpayment of taxes and the date and citation of said laws, ordinance or regulations became effective."

Ever since St. 1821, c. 107, there has been by mere operation of law a lien for taxes on real estate situated in Boston. See *Curtiss v. Sheffield*, 213 Mass. 239, 243-244. The present statutory provision therefor is to be found in G. L. (Ter. Ed.), c. 60, s. 37, as amended. Since St. 1821, c. 107,

this lien has been enforceable by the sale of a tax title, and since St. 1878, c. 266, by the alternative method of taking of a tax title. For precise statutory provisions, see G. L. (Ter. Ed.), c. 60, ss. 40 to 50 and 53 to 55. Since Gen. St. 1915, c. 237, s. 3 (now G. L. (Ter. Ed.), c. 60, s. 64), the title conveyed by a tax deed or tax taking only becomes absolute after foreclosure by decree of the Land Court with an exception for foreclosure by sale in the case of real estate not exceeding \$1,000 in value. Under the existing statutes, the tax sale or taking may be made at any time before the expiration of two years from October first of the tax year and under some circumstances at an even later date; and the foreclosure proceedings may not be commenced until two years from the tax sale or taking. See G. L. (Ter. Ed.), c. 60, ss. 37, 65, as amended.

Respectfully,

WILLIAM L. BAXTER,
Corporation Counsel.

City of Boston,
Treasury Department, December 19, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

The records of the Collecting Division of the Treasury Department show in answer to question No. 2 of the City Council order as amended on December 12, 1955, that there were no outstanding accounts as of December 31, 1949, on the properties mentioned in that amendment.

With reference to question No. 4, the dates and amounts of payments on each of these parcels are as follows:

REFERENCE OF UNFINISHED BUSINESS.

Coun. HURLEY offered the following:
Ordered, That any orders or petitions in the hands of committees of this Council which the City Clerk shall decide should properly be referred as matters of unfinished business be referred to the next City Council.

Passed under suspension of the rules.

RESTRICTING UNDER-COMMON GARAGE TO PARKING AND STORING OF CARS.

Coun. PIEMONTE offered the following:
Resolved, That his Honor the Mayor consider the advisability of spelling out in any further agreement or extension or amendment of the present agreement of the under-common garage a provision restricting the use of said premises only for the conduct of parking and storing cars and a further provision that said premises be conducted in accordance with accepted principles used by similar businesses in Boston throughout the term of the government.

The resolution was adopted under suspension of the rules.

RECESS.

On motion of Councillor Kerrigan, the Council voted to take a recess at 12.44 p.m., subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President HURLEY at 1.10 p.m.

PRESENCE OF PRESIDENT WILLIAM F. HURLEY AT INAUGURAL EXERCISES.

Coun. PIEMONTE, for all the members of the Council:

Ordered, That this Honorable Body in meeting assembled on December 29, 1955, do hereby request the presence of the Honorable William F. Hurley, President of the Boston City Council, at the inaugural exercises of the Mayor and the Boston City Council to be held Monday, January 2, 1956.

Passed under suspension of the rules.

PRESENTATION OF GAVEL TO PRESIDENT HURLEY.

Coun. WHITE, in behalf of the members of the Council, presented President HURLEY a gavel in appreciation of his services as President of the Council for the municipal year 1955.

President HURLEY expressed his thanks and his appreciation of the consideration and cooperation throughout the year of the Council members, Council attachés, and members of the press. (Applause.)

GODSPEED AND SUCCESS TO COUN. FREDERICK C. HAILER.

Coun. PIEMONTE offered the following:
Resolved, That the Boston City Council in meeting assembled on this twenty-ninth day of December, 1955, extends to Councillor Frederick C. Hailer godspeed and success.

The resolution was adopted under suspension of the rules.

STATEMENT BY COUNCILLOR HAILER.

In a farewell address by Councillor Hailer, he stated that he deemed it a privilege to have served with the members of the Council during the last two years, and thanked the Council, the Council attachés, the press, the City Clerk and his assistant, and all those associated with the Council for their cooperation.

CONGRATULATIONS TO EDMUND TOOMEY.

Coun. McCORMACK, FOLEY, and KER-RIGAN offered the following:

Whereas, In the recent "Voice of Democracy" National Essay Contest sponsored by the Chamber of Commerce and open to all public and parochial high school students, Edmund Toomey, a senior attending Gate of Heaven High School, South Boston, won the Massachusetts prize in the state finals, which were held in Fall River during the second week of December; and

Whereas, This sixteen-year-old honor student, a resident of South Boston, had previously won the City of Boston prize; and

Whereas, In January a recording of this young man's voice and essay will represent the Commonwealth of Massachusetts in the national finals to be held in Washington, D.C.; and

Whereas, This widely recognized accomplishment of young Edmund Toomey has reflected great credit upon the youth of the City of Boston, on the city itself, on the Commonwealth of Massachusetts and, with God's help, on our entire nation, and proves once more that with proper guidance the youth of today can demonstrate so eloquently the qualities of love and patriotism which so many of them possess; be it therefore

Resolved, That the Boston City Council, in meeting assembled, desires to extend hearty congratulations and praise to Edmund Toomey for the tremendous amount of preparation, work, and energy which he exerted in acquiring this great honor; and be it further

Resolved, That a copy of this resolution be made in the form of a scroll and publicly presented to Edmund Toomey at a suitable ceremony in the Boston City Council Chamber.

The resolution was adopted under suspension of the rules.

ORDINANCE CONCERNING SECOND ASSISTANT CITY MESSENGER.

Coun. McCORMACK offered the following:
Be it ordained by the City Council of Boston as follows:

SECTION 1. The first paragraph of section 5, of chapter 3 of the Revised Ordinances of 1947, as amended, is hereby further amended by striking out clause (6) as appearing in section 1 of chapter 2 of the Ordinances of 1953, and inserting in place thereof the following clause:

(6) The clerk of committees of the city council, seventy-four hundred and sixty dollars; the assistant clerk of committees, sixty-three hundred and sixty dollars; and the two secretaries in the clerk of committees department, forty-seven hundred and sixty dollars each.

SECTION 2. Said first paragraph of said section 5 of chapter 3, as so amended, is hereby further amended by striking out clause (13) as appearing in section 1 of chapter 4 of the Ordinances of 1955, and inserting in place thereof the following clause:

(13) The city messenger, seventy-four hundred and sixty dollars; the assistant city messenger, fifty-two hundred and sixty dollars; the second assistant city messenger, forty-two hundred and fifty dollars; the librarian-archivist, forty-seven hundred and sixty dollars; the document clerk, forty-seven hundred and sixty dollars; and one stenographer-clerk in the city messenger department, forty-four hundred and sixty dollars.

SECTION 3. This ordinance shall take effect on December 29, 1955.

The ordinance was passed under suspension of the rules.

Adjourned, sine die, at 1.36 p.m., on motion of Councillor Kerrigan.

INAUGURAL EXERCISES.

Symphony Hall, Boston, Mass.,

Monday, January 2, 1956.

The ceremonies attending the inauguration of Mayor-elect John B. Hynes, the City Councillors-elect, and the School Committee Members-elect of the City of Boston were held in Symphony Hall, at ten o'clock a.m., when the Mayor-elect, the members-elect of the Council, and the members-elect of the School Committee entered the hall in a procession headed by City Clerk Walter J. Malloy and City Messenger William J. O'Donnell to the strains of an inaugural march, "Coronation March," by Meyerbeer. They took seats on the platform, and the meeting was called to order by City Clerk Malloy, who said:

Ladies and gentlemen, as City Clerk of the City of Boston, I now officially open these inaugural ceremonies. The principal purpose of these exercises is the taking of the oath of office

by the Mayor-elect, the members-elect of the City Council, and the members-elect of the School Committee.

It is now my pleasure to introduce The Boston Teachers College Music Club who will sing "The Star-Spangled Banner."

"The Star-Spangled Banner" was then sung by The Boston Teachers College Music Club.

City Clerk MALLOY—I now most respectfully present His Excellency, the Most Reverend Richard J. Cushing, Archbishop of Boston, who will give the invocation.

Archbishop RICHARD J. CUSHING—*Sicut cum patribus nostris, sic sit Deus nobiscum!*

As God was with our fathers, so may He be with us!

Inspired by this line from Thy sacred scriptures, O God of our fathers, Thou strength of every truly human city, the men who built Boston labored in faith and freedom to establish here a community worthy of Thee and of their own best selves. Thou, O God, by whom our fathers lived and worked, didst give them the vision to plan intelligently, the will to strive courageously, the strength to accomplish effectively. Good, provident God, be no less generous with us! We need Thee badly and we always shall!

Teach us firm principles, but let not even these become frozen in prejudices which might narrow our vision or stunt our aspiration to achieve. Keep us aware of our traditions and conscious of our past attainments, but rid us of any complacency which might so attach us to the past as to make us forfeit a more fair future. Give us hearts of tender, sympathetic humanity, but spines of steel that we may stand up unbending before problems which so often vex the modern city.

Fire our imaginations and our civic pride, yet temper them with prudence, so that our buildings may be proud and great, but not be towers of Babel; so that our highways may be broad and beautiful, but arteries of noble and fruitful communications; so that our harbors may be deep-dredged and safe; our schools conducive to the virtue and progress of our children; our banks secure; our churches thronged with the holy; our courts expeditious, merciful and fair; our assemblies orderly and dominated by lofty sentiments but also lowly common sense; our homes at peace and our hearts unafraid.

Make our railroads run, regularly, on time and comfortably—so that visitors may come here with ease, pleasure, and profit to themselves and us, and our own citizens may go abroad from a proud city to bring afar report of the good things we cherish in this region.

Bless our devoted Mayor and all the city government, into whose hands the citizens have entrusted their common weal, the service of which he and his associates vow themselves to perform in fairness to the people and fidelity to Thee. Through Christ Our Lord. Amen.

City Clerk MALLOY read a communication from the Board of Election Commissioners certifying the election of John B. Hynes as Mayor.

The oath of office was administered to Mayor-elect John B. Hynes by the Hon. Stanley E. Qua, Chief Justice of the Supreme Judicial Court of Massachusetts.

City Clerk MALLOY read a communication from the Board of Election Commissioners certifying the election of members of the City Council as follows:

William J. Foley, Jr., 15 Thomas park (Ward 7).
Edward J. McCormack, Jr., 1110 Morton street (Ward 17).

Patrick F. McDonough, 91 Fuller street (Ward 17).

John F. Collins, 72 Dunster road (Ward 19).

Edward F. McLaughlin, Jr., 6 Calvin road (Ward 19).

Gabriel Francis Piemonte, 20 Prince street (Ward 3).

John F. Kerrigan, 213 West Eighth street (Ward 7).

Francis X. Ahearn, 16 Gerald road (Ward 22).

Joseph C. White, 12 Ruskin street (Ward 20).

A roll of the members-elect of the City Council was called by City Clerk Malloy, and it appeared that all the members-elect of the City Council were present but Councillor-elect John F. Collins who was absent because of illness.

At request of Mayor Hynes, the councillors-elect then rose, held up their right hands, and repeated after the Mayor the oaths of office. (Applause.)

City Clerk MALLOY read a communication from the Board of Election Commissioners certifying the election of five members of the School Committee as follows:

William F. Carr, 390 K street (Ward 7).

George F. Hurley, 567 Weld street (Ward 20).

Timothy J. McInerney, 21 Iroquois street (Ward 10).

Joseph Lee, 43 South Russell street (Ward 3).

John P. McMorrow, 322 Adams street (Ward 16).

A roll of the members-elect of the School Committee was called by City Clerk Malloy, and as each arose and announced his presence, they were greeted with applause. It appearing that all were present the oath of office was administered to them by his Honor, Mayor John B. Hynes.

City Clerk MALLOY—I now most respectfully present Dr. Israel J. Kazis, Rabbi of Temple Mishkan Tefila, who will give prayer.

Rabbi KAZIS—Heavenly Father, bestow Thy blessings, we pray, upon the man whose fellow

citizens have honored him by electing him to the highest office in our city. Sustain him with strength to fulfill the arduous tasks and to meet the rigorous demands which his duties will require of him. Inspire him with vision and understanding in the conduct of the affairs of state so that his deliberations may be carried on with wisdom and his decisions made with good judgment.

Strengthen within his soul the zeal and the determination to pursue justice and righteousness with high courage and unflinching vigor. Bless him as Thou did Solomon of old with a wise and understanding heart which shall ever be sensitive to the needs and the well-being of his fellow men. Keep strengthening his faith in Thee, and illumine his mind to perceive clearly Thy eternal truths by whose light he may walk humbly and with confidence in the years that lie ahead.

Grant that blessing, O Lord, to all those who will assume the responsibilities of office in this administration. Strengthen them in their resolve to uphold the hands of the Mayor, and crown with success their common effort to secure justice and righteous government.

We pray that our great city with deep roots in old and honorable traditions shall go forward from strength to strength in the service of the ideals of democracy which are so dear to the inhabitants of our land.

May we all be inspired so to live and so to act that our country under Thy providence shall ever be an influence for good throughout the world, uniting men in peace and freedom to help to fulfill the vision of Thy prophet Isaiah: "They shall beat their swords into ploughshares, and their spears into pruning hooks. Nation shall not lift up sword against nation, neither shall they learn war any more." Amen.

City Clerk MALLOY—It is my pleasure again to present The Boston Teachers College Music Club who will sing "Jubilate Deo" and "America, My Wondrous Land."

The Boston Teachers College Music Club then sang "Jubilate Deo," by Weiss, and "America, My Wondrous Land," by Peery. (Applause.)

City Clerk MALLOY—The Inaugural Address will now be delivered by the Hon. John B. Hynes, Mayor of Boston.

INAUGURAL ADDRESS OF HONORABLE JOHN B. HYNES.

Today I begin my seventh consecutive year as Mayor of the City of Boston.

I have no illusions concerning the honored post my fellow citizens have once again entrusted to me. I know that only by unrelenting effort, and by devotion to duty and to principle, can the affairs of our city government be properly managed and directed.

It is in that spirit I have again taken the oath of office. It is in the full meaning and significance of that oath that I enter upon my new term as Mayor.

It is not my purpose this morning to exhaust your patience by a full accounting of every phase of municipal administration, nor do I intend to enumerate the accomplishments and improvements made in our city government over the past six years.

Rather than to delve into the past, I would prefer to set my sights on the present and the future. Sufficient be it for me to state that within our means, and within the legal limitations imposed upon us, the Boston city government has made progress in every direction during the six years which have elapsed since I first became Mayor. This progress is self-evident. Boston is, today, basically sound. Its financial rating is good. The reputation of its city government is good.

It would be misleading, however, for me to imply that all of the problems facing the city are well in hand. There are some problems of a deep-rooted nature which cannot, and will not, be overcome, until such time as the city is provided the essential tools, by way of financial assistance, to solve those problems.

The institution of efficient methods of administration and operating economies are desirable and necessary steps toward the goal we seek to achieve, but they are not the simple cures for the ills which take shape and form in a high tax rate. If they were the antidotes, our troubles would be aggravating, but not serious.

During the past six years, every unit of government, federal, state, city, and town, and, for that matter, every business corporation, has been faced with the necessity of meeting increased operating costs.

In this comparatively short period of time, the appropriation allowances for city, county, and school departments have risen almost twenty-two million dollars. Eighty-six per cent of this increase results from higher allowances for personal service, and this despite the fact that the number of employees in the city service is less today than it was in 1950.

Another major increase in operating expenses is reflected in appropriations provided for pension requirements for retired employees. These appropriations have risen eighty-one per cent in six years.

No one will deny the obligation of government to provide a reasonable pay schedule for its officials, employees, and pensioners. No one will deny the justice of advancing those pay schedules to meet increased costs of living.

It must be kept in mind, however, that any increase in pay schedules affecting any sizable number of employees can be met, under present conditions, only by an increase in the tax rate. We have no other means of meeting higher personnel costs. For

example, if the city, this year, were to meet all of the current requests for salary adjustments, for higher pension allotments, and for other personnel benefits, the Boston tax rate, for these purposes alone, would be increased some five dollars per thousand of valuation.

It is obvious, therefore, that the increased cost of government in recent years is largely attributable to greater appropriations for personnel requirements.

It is equally obvious that the granting of all of the current personnel requests, which seem to come in a never-ending stream, would result in a tax rate considerably higher than the present rate.

Many of these requests must, necessarily, be deferred to a later date when the income picture of the city is brighter, and when the additional costs can be absorbed without a startling and alarming increase in the tax rate.

It is not difficult to understand why I must continue to resist any major increase in operating expenditures, when it is realized that the main source of the city's income has been shrinking, rather than increasing.

Property valuations, which carry the load of municipal expenditures, have dropped over four hundred million dollars in the last twenty-five years, fifty million of which has been lost during the past six years. If our property valuations were the same today as they were twenty-five years ago, our tax rate would be close to fifty dollars per thousand, rather than the present figure of \$69.80. If that happy condition existed, our financial troubles would be of minor consequence.

Because of this tremendous loss in valuations and basic income, and because of unavoidable annual increases in administrative costs, it is generally accepted that Boston needs another source of income if the city is to meet all of its obligations, and also meet reasonable requests of employees and reasonable requests for expanded services.

Until there is such a new and substantial source of income available, we must be extremely hesitant in assuming new obligations which will add further strain to our already heavy tax burden, and which will make it even more difficult, if not impossible, to attract new, taxable construction, so ardently desired and so necessary for the healthy progress of our city.

In this vein, I most earnestly implore the Massachusetts Legislature to be reluctant in the passage of any legislation that will add to the costs of municipal administration, unless such legislation provides the city with the means to meet whatever increased costs may be entailed. I also request the Legislature to keep in mind that a bill which, in and of itself, represents but a minor outlay, might very well be the wedge to pry open the floodgates of expenditures reaching a major figure.

Also in this vein, I request the members of the School Committee, and county officials, to carefully scrutinize every request which represents greater costs, for all of us, city, county, and school officials, must share in the responsibility of increasing the load now carried by the taxpayer.

Aside from our vexing financial situation, the city government is making progress. New schools are being built, and more are in the planning stage. The parking facility program for both the downtown area and the suburban shopping areas is proceeding with all possible speed. The first project in our urban redevelopment program is nearing fulfillment. Other urban redevelopment and renewal projects which will stay the growth of blight and decay, and which will change the face of our city, are taking form. The internal reorganization of the city government is proving most effective and most efficient. One remaining problem is still the cause of much concern, and that is the long-standing problem of fair and equitable assessments and valuations. We propose to make a frontal attack on this problem by means of an equalization of values of all properties with the exception of those residential properties having four apartments or less.

To accomplish such an equalization will require the expenditure of about two hundred and fifty thousand dollars, and will take two years. With the approval of the City Council, we shall begin, this year, a scientific survey of these properties. When this study is completed, we should not only have a foundation for a stabilized valuation procedure, but we should, at the same time, have a marked reduction in the flood of petitions for abatements. When this equalization is effected, it can then be truthfully stated that every activity, every function, and every service provided by the city has been improved during my tenure of office.

The economic future of Boston, its place in the scheme of things, its competitive position among the large cities of our country, and its attraction to business is predicated, to no little extent, on the character, the motives, and the attitude of the city administration.

For these reasons, and for the more weighty reason that business is the lifeblood of any large city, I have endeavored to create an atmosphere which would encourage the expansion of business and the establishment of new business in our city.

The going has not been easy. New business seeks those areas where the tax burden is the least heavy and the least oppressive. Though our situation is not ideal, we have reason to be optimistic. Present prospects for new business in our city are better than they have been for a generation. I am confident that Boston is on the way to an economic rebirth, provided we do not disregard the elemental economic laws, and by so doing

make it completely impossible for a concern to settle in our city without fear that all of its profits will be eaten up by local taxes.

For too long a period Boston has not been a magnet for new business. This has meant a great loss to our citizens who seek opportunity to earn their daily bread. Happily, that situation has taken a turn for the better. Business establishments are again looking our way. There is a new feeling of confidence in the future destiny of our city, the centre, the core, the vibrant heart of the sixth largest metropolitan area in our country.

It is also gratifying to report that among the citizens of our own community, especially those who hold the purse strings of venture capital, there is a more enthusiastic view of the future.

We have, in all truth, begun to flex our muscles. We have come to the realization that our old city of charm and substance could become a city of waning charm and substance, a decrepit old city unattractive to both residents and business alike, unless we adopt appropriate measures to avert such a possibility.

It is good that we have come to this realization. It is good that there has been an awakening of civic pride and civic conscience, engendered by the Boston College Seminars, which have prompted us to probe our strengths and our weaknesses, to evaluate them, and formulate a concerted course of action.

We must take advantage, not some time in the dim and distant future, but now, of this upsurge of determination, this new spirit of stimulating, militant zeal, which can mean so much to our city and community in the years ahead.

I am most hopeful that those in our own community who are possessed of the requisite material means will accept the challenge before us, and give impetus and direction to this new spirit of faith and confidence.

Our city government will extend itself to the very limits, and add the full weight of its power and influence behind any and all proposals and efforts to revitalize the City of Boston.

The task is not an impossible one. There is no better time than now to put our thoughts and hopes into action. Great changes are taking place all about us. Other large cities in our country have begun to move forward. The economy of the nation is expanding by leaps and bounds. We must share and profit by that expanding economy, and that, too, should not be impossible, for we live in an area where the economic base is far more flexible than it is in many other parts of our country, and certainly our combined skills and talents are second to none in the nation.

In our land there are great tomorrows yet to come. Future generations of Bostonians will charge us with being blind to the potentialities of the present if we do not make the valiant and courageous moves warranted by the prospects of this very hour.

Even now, the face of Boston is undergoing an uplifting. Within a short two years our city will have the finest network of highways within, and touching, its borders, of any large city in the United States. Traffic movement will be revolutionized. Traffic congestion will be at a minimum. The cost of doing business in Boston will be lessened. It is not daydreaming to envision expansion and new construction along the routes of these new highways and especially along the route of the Fitzgerald Highway, or Central Artery, as it winds its way through the heart of the city. The opportunities for an improved city which can flow in the wake of this ultramodern network of highways excite the mind and fire the imagination.

The Commonwealth of Massachusetts, I am happy to say, is cognizant of the necessity for a healthy, progressive, capital city, and to that end is unsparing in its efforts to help our city out through the bonds which have encircled us and impeded our progress in the past.

In addition to the new radial highways, the Commonwealth is proceeding to attack two problems of no mean consequence, which, if solved, or only partially solved, will bring great benefits to Boston.

The mass transportation problem, which grows more acute as more automobiles take to the roads, is now undergoing study by Boston College, M.I.T., and Harvard University, in conjunction with competent transportation experts. Unlike previous studies which were mainly concerned with the M.T.A., this study will include the present and future transportation necessities for all those communities now being served by a variety of transportation systems including railroads, as well as those areas which, though fast growing, have no accessible transportation system. Out of this study will come, I believe, a logical solution of the transportation problem as it affects Boston, and the entire Greater Boston area. This is a consummation devoutly to be desired, for now the financial woes of the M.T.A. are a heavy annual expense to the City of Boston.

The proposal of the Governor of our Commonwealth for a Port Authority, which would combine the assets of the Mystic River Bridge, the airports owned by the state, the properties of the present Port Commission, and the Sumner Tunnel, seems to have general approval. Such an authority, patterned after the successful Port Authority of New York and New Jersey, and to be financed by revenue bonds, bids fair to be another skillful move in the chessboard of major improvements which are just around the bend in the road, and which give us cause to predict that Boston is coming out of its long period of looking backward, and entering a new period of looking ahead.

In conclusion, may I state that, despite our shrunken tax base, our increased expenditure requirements, and our lack of new income sources, the city government of Boston is essentially sound. If our city were fortunate enough to have the kind of income available to other large cities, we would be considered, I know, as one of the most desirable cities in which to live or do business.

It is my hope that before long, and before our tax rate reaches the breaking point, more income will be forthcoming.

In the meantime, we shall bend every effort to keep the costs of government at the lowest possible level consistent with good public service. We shall continue to encourage new building and new business in our city, for it is through these means that we can absorb the seemingly inevitable increases in municipal operations.

To the City Council, my associates in city government, may I extend my heartiest congratulations on this eventful day. With your understanding cooperation, which I am certain will be generously given, I am sure Boston will continue to make forward progress.

To the members of the School Committee, I also offer my congratulations. You have assumed a high duty, for yours is the great responsibility of imparting knowledge to those who will be the citizens of tomorrow. I know you will not take lightly this responsibility, nor the wider responsibility to all of our citizens.

All of us who will share in the conduct of the city's affairs in the coming years will have our moments of elation which spring from the knowledge that duty has been well done. We will also have our moments of worry and frustration. Whatever may be the joys or trials ahead, may we, at all times, seek the guidance of Him Who is the Way, the Truth and the Light.

"As With Our Fathers, So God Be With Us."

(Prolonged applause.)
City Clerk MALLOY—It is my pleasure to present Al Bandera and his orchestra who will play the "Raymond Overture." The orchestra here played "Raymond Overture," by Thomas.

(Applause.)
City Clerk MALLOY—I now most respectfully present the Rev. Robert G. Metters, Rector of Emmanuel Church of Boston, who will deliver the benediction.

Reverend ROBERT G. METTERS—O God of all power and might, the Maker and Ruler of men, we commend our city to Thy guidance and wisdom, and unto the keeping of Thy Love. May the officers whom Thy people chose to serve them, serve Thee in honesty, firm purpose, uprightness, and love. May they never forget their answerableness to the people whom they serve and to Thee. Deliver them from the love of power and from motives of personal gain, from consideration of men or money in place of the demands of truth and justice, and from losing patriotism in partisanship. Bless them in their various offices with an ever larger vision of truth and an ever deeper sense of the demands of righteousness that through their faithfulness the life of our city and its people may be guided by wise policies and lifted to higher ideals and nobler achievements.

May God the Father, God the Son, and God the Holy Ghost bless, preserve, and keep you. May He look with favor upon you and fill you with spiritual benediction and grace in this world and in the world to come. Amen.

City Clerk MALLOY—These exercises will now close with the playing of the "Recessional March."

The "Recessional March" was played as the Mayor and his suite left the stage at 11:10 A.M.

Immediately following the inaugural ceremonies Mayor Hynes administered the oath of office to Councillor-elect John F. Collins at the latter's home in the presence of City Clerk Malloy.

Tuesday, January 3, 1956.

First meeting of the City Council of 1956 held in the Council Chamber, City Hall, at 11 A.M., Councillor White, senior member, presiding, and all the members present.

The Reverend Francis J. O'Neill of St. Patrick's Catholic Church, West Lynn, was escorted to the rostrum.

INVOCATION BY REV. FRANCIS J. O'NEILL.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Almighty God, Whose wise and amiable Providence watches over every human event, look down from Thy heavenly seat upon the members of this assembly. We pray for these duly elected guardians of our fair city, that under Thy protection they may discharge the duties of their office with honesty and ability. Encourage them to have respect for virtue and religion. Guide them so that they may have also in their hearts patience to execute their affairs with justice and mercy. Let the light of Thy divine grace be as a beacon to direct their deliberations toward the preservation of peace and the promotion of harmony, and, above all else, the preservation of Thy holy law. May You, O God, the Author and Giver of all graces, grant to them Your choicest blessings during the coming year.

O Jesus Christ, Son of God, give to them the virtue of faith to believe in Thee, the virtue of hope to trust in Thee, and the virtue of charity to love Thee.

O Holy Spirit of God, guide them, enlighten them, and sanctify them, that they may better serve You and their servants under Your watchful care and protection. Amen.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

The meeting was held pursuant to the following call:

City of Boston,
Office of the Mayor, January 2, 1956.
To the Members of the City Council.

Gentlemen:
You are hereby requested to assemble in the City Council Chamber, City Hall, on Tuesday, January 3, 1956, at eleven o'clock A.M. for the purpose of organizing and to take action on such matters of city business as may be submitted to your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

Placed on file.

ELECTION OF PRESIDENT.

On motion of Councillor Foley, the Council voted to proceed with the election of a President for the municipal year 1956:

The roll was called with the following result:
For Edward J. McCormack—Councillors Ahearn, Collins, Foley, Kerrigan, McCormack, McDonough, McLaughlin, Piemonte, White—9.
Councillor Edward J. McCormack, having received nine votes, was declared elected President unanimously for the municipal year 1956.

Chairman WHITE appointed Councillor McDonough to escort President McCormack to the rostrum, and he performed the duties assigned.

President McCormack expressed his deep appreciation to the members of the Council in electing him as President for the municipal year 1956. (Applause.)

VETO OF ORDINANCE RE-ESTABLISHING POSITION OF SECOND ASSISTANT CITY MESSENGER.

The following was received:

City of Boston,
Office of the Mayor, December 30, 1955.
To the City Council.

Gentlemen:
I return herewith, without my signature and disapproved, the ordinance adopted by your Honorable Body on December 29, 1955, which purports to re-establish the position of second assistant city messenger.

No justification has been advanced for the restoration of this position, which was decided to be unnecessary some time ago. For this reason I am constrained to veto the ordinance.

Respectfully,
J. B. HYNES, Mayor.

The message and order were referred to the Executive Committee.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments:
Constables with authority to serve civil process upon filing of bond for the term ending April 30, 1956: Quirino Stieco, 72 Bowdoin street; Lawrence P. Antonetti, 40 Julian street, Roxbury.
Referred to the Committee on Confirmations, when appointed.

SURVEY OF TRAFFIC CONDITIONS AT MONUMENT SQUARE, CHARLESTOWN.

The following was received:

City of Boston,
Office of the Mayor, December 30, 1955.
To the City Council.

Gentlemen:
I transmit herewith communication from the Traffic Commissioner relative to your order of October 31, 1955, concerning traffic conditions at Monument square, Charlestown.

Respectfully,
J. B. HYNES, Mayor.

Boston Traffic Commission,
December 29, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:
With reference to Councillor Ahearn's order of October 31, 1955, directing that a survey of traffic conditions at Monument square, Charlestown, be made with a view to erecting or painting "Slow" signs where necessary, I wish to report that we have completed our survey and report as follows:

Orders have been issued to replace missing "Slow" sign in the south side of Monument square, northerly arm, opposite Monument street; also to replace missing "Do Not Enter" sign in Monument street at the southerly arm of Monument square.

Respectfully yours,
WM. ARTHUR REILLY, Commissioner.
Placed on file.

LOAN IN ANTICIPATION OF REVENUE.

The following was received:

City of Boston,
Office of the Mayor, January 3, 1956.
To the City Council.
Gentlemen:

In accordance with the attached recommendation of the City Auditor, I submit herewith an order authorizing the issuance, as needed during the year, of temporary loans in anticipation of revenue.

As pointed out by the Auditor, action of this character is necessary, since, under existing laws, the major portion of the city's revenue receipts is received late in the year.

I respectfully recommend consideration and adoption of the order in question.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Auditing Department, December 28, 1955.
Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

It is customary to submit to the City Council at its first meeting in the new year an order authorizing the issuance as needed during the year of temporary loans in anticipation of revenue receipts. This method of financing is made necessary by the fact that under the Massachusetts municipal tax calendar the major portion of the city's revenue receipts is received late in the year.

By authority of section 4 of chapter 44 of the General Laws, the city could issue in 1956 in anticipation of revenue receipts temporary loans which would not exceed in the aggregate the total tax levy of the fiscal year 1955 together with the corporation and income tax received from the Commonwealth during the financial year 1955. This would total approximately \$117,500,000. In my opinion, it is desirable that an authorization of \$75,000,000 be made in order to cover requirements as they now appear for the financial year 1956. In 1955 an authorization of \$75,000,000 was made, and it was necessary to issue during the year temporary notes to the amount of \$75,000,000. It is estimated, however, that in the current year actual cash requirements should be approximately the same as those for 1955.

I respectfully recommend, therefore, that an order in the amount previously stated be submitted to the City Council for consideration and adoption.

Respectfully,
JOSEPH P. LALLY, City Auditor.

Ordered, That to provide temporarily money to meet the appropriations for the financial year 1956, the Collector-Treasurer be, and hereby is, authorized to issue and sell, at such times and in such amounts as he may deem best, notes or certificates of indebtedness of the City of Boston not exceeding \$75,000,000 in the total, in anticipation of the revenue of the financial year; that all such notes or certificates of indebtedness be made payable with the interest thereon within one year of their date and bear interest from their date until the same are made payable at such rate as the Collector-Treasurer and the Mayor may determine. The said Collector-Treasurer is hereby further authorized to renew or refund any such notes issued for a shorter period than one year, under the provisions of section 17 of chapter 44 of the General Laws.

On motion of Councillor Piemonte the order was given its first reading and passage, yeas 8, nays 1:

Yeas—Councillors Ahearn, Collins, Foley, Kerrigan, McCormack, McDonough, McLaughlin, White—8.

Nays—Councillor Piemonte—1.

The order was assigned to the next meeting for final action.

APPROPRIATION FOR MAYOR'S FAIR RENT COMMITTEE.

The following was received:

City of Boston,
Office of the Mayor, January 3, 1956.
To the City Council.
Gentlemen:

I submit herewith an order providing for the appropriation of \$38,000 to be expended by the Fair Rent Committee. I am appointing this day to hear and settle, insofar as possible, such differences and misunderstandings as may arise between tenants and landlords during the critical transitory period we are now entering from rent control to decontrol.

Committees of this character have rendered valuable assistance and have proved to be a major stabilizing force in cities like Chicago, Detroit,

Cleveland, and San Francisco. While, as at present in Boston, these groups had no statutory authority or power to rely on, they were able to function successfully as mediators and arbiters between landlords and tenants.

I anticipate that during its life the Boston committee will function along these lines:

1. Receive and consider complaints brought by tenants aggrieved as a result of unreasonable rent increases or notices of eviction.

2. Seek to adjust all complaints through the medium of hearings at which all parties involved shall be invited to attend. At such hearings the committee, as a result of staff investigation, will indicate what is considered to be a reasonable and fair rental for the accommodations which are the subject of dispute.

3. In the event a landlord fails to appear, after being invited to such a hearing, the committee, also as a result of staff investigation, will indicate to the tenant where suitable, adequate, and, as nearly as possible, similar housing accommodations may be obtained at a rental not in excess of that previously recommended by the committee for the accommodations which are the subject of dispute.

It is estimated that the appropriation herein recommended will cover the activities of the committee for a period of approximately six months. I am hopeful, at the end of this time, that the transition from rent control to a free rental market will have been amicably adjusted between all parties concerned.

I respectfully recommend the adoption by your Honorable Body of the accompanying order.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That the sum of \$38,000 be, and hereby is, appropriated to be expended by the Mayor's Fair Rent Committee in the prosecution of its duties, said sum to be raised by taxation on the polls and estates of the City of Boston, and that all orders hereinafter passed by the City Council relating to appropriations, taxes, and interest thereon apply to the appropriation and taxes herein provided for.

On motion of Councillor Piemonte the order was passed, yeas 9:

Yeas—Councillors Ahearn, Collins, Foley, Kerrigan, McCormack, McDonough, McLaughlin, Piemonte, White—9.

ORDERS CONCERNING URBAN RENEWAL PROGRAM.

The following was received:

City of Boston,
Office of the Mayor, January 3, 1956.
To the City Council.
Gentlemen:

Under the provisions of chapter 654 of the Acts of 1955, cities and towns are authorized to undertake urban renewal programs. In order to carry out such a program and to be eligible to participate in the benefits of financial assistance from the federal government for urban renewal, it is required that each city or town make a determination that a need exists for an urban renewal program therein.

There can be no question, I believe, that this type of program is vital to the preservation and survival of older cities such as Boston.

I therefore am submitting for consideration by your Honorable Body an order making a determination that a need exists in our city for an urban renewal program.

I further submit for your consideration an appropriation order in the amount of \$10,000, to be spent by the Boston Housing Authority in the preparation of plans and estimates to be submitted to the federal government in connection with applications that might be made under existing federal legislation for loans and grants for urban renewal projects.

On September 23, 1955, Mr. James W. Follin, Commissioner of the Urban Renewal Administration, attended the demolition ceremonies of the New York Streets Redevelopment Project. At that time, Commissioner Follin emphasized the importance of urban renewal to the future preservation of our city and pledged \$10,000,000 of additional grants from the government to Boston for urban renewal projects.

In my estimation this is an opportunity which Boston cannot afford to reject. By carefully planning our future renewal projects and coordinating our capital expenditures, it is possible to provide site improvements and supporting community facilities in urban renewal areas at one-third cost. By dovetailing our expenditures for capital improvements with urban renewal activities, we can provide three dollars worth of improvements for each local dollar expended.

I recommend favorable consideration and approval of the accompanying orders by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That in accordance with the requirements of section 26XX, of chapter 121 of the General Laws, it is hereby determined that there exists in the City of Boston the need for an urban renewal program.

Ordered, That pursuant to the provisions of section 26Q of 26BBB of chapter 121 of the General Laws, the sum of \$10,000 be, and the same hereby is, appropriated to be expended by the Boston Housing Authority, said sum to be raised by taxation on the polls and estates of the City of Boston, and that all orders hereinafter passed by the City Council relating to appropriations, taxes, and interest thereon apply to the appropriation and taxes herein provided for. Said appropriation is to be used in the preparation of plans and estimates in connection with the submission to the federal government of one or more applications for loans and grants for urban renewal projects under federal legislation.

On motion of Councillor Foley the orders were referred to the Executive Committee for a hearing at the next regular meeting day and Mr. Kane Simonian of the Boston Housing Authority, Mr. Joseph Slavet of the Municipal Research Bureau and representatives of the Mayor's office, of the Boston Real Estate Board and the Greater Boston Chamber of Commerce were to be invited to attend such meeting.

APPLICATIONS FOR SHELLFISH PERMITS.

Applications for commercial use shellfish permits were received from the following:

David F. Fullerton, 2 West Eagle street, East Boston, Ward 1; Maurice X. Roche, 136 Coleridge street, East Boston, Ward 1.

Severally referred to the Committee on Licenses.

APPOINTMENTS TO FAIR RENT BOARD.

The following was received:

City of Boston,
Office of the Mayor, January 2, 1956.
Walter J. Malloy, Esq.,
City Clerk.

Dear Sir:

I hereby appoint the following-named persons as members of the Fair Rent Board:

Edward W. O'Hearn, Chairman, 1441 Dorchester avenue, Dorchester; Elliott Henderson, 250 Boylston street; Samuel L. Pope, 63 Welles avenue, Dorchester; Daniel M. Driscoll, 18 Oliver street; Joseph Stefani, 30 Pemberton square.

This Board will begin its activities on January 3, and will maintain headquarters at 600 Washington street. The Board will render assistance to tenants who feel aggrieved because of rent increases, and will also offer its services to landlords seeking advice. Although the Board will be without legal authority to issue any decrees, it is felt that this Board can render valuable service in this period after termination of the rent control law. This Board will be in operation for the first six months of 1956 and for such longer period as conditions warrant.

Respectfully,
J. B. HYNES, Mayor.

Placed on file.

APPOINTMENTS TO COMPENSATION REVIEW BOARD.

The following was received:

City of Boston,
Office of the Mayor, January 3, 1956.
Walter J. Malloy, Esq.,
City Clerk.

Dear Sir:

I hereby appoint as members of the Compensation Review Board the following:

James E. Gildea, Collector-Treasurer; Perlie Dyar Chase, Election Commissioner; Joseph B. Nealon, Public Works Department.

Mr. Gildea will serve as chairman of the Board. This Board will supplant the previous Board comprised of John Chapman, Joseph P. Lally, and Philip Kramer.

As consultant to the Board, I also hereby appoint Frank McDonough, assistant personnel manager of the Administrative Services Department.

Respectfully,
J. B. HYNES, Mayor.

Placed on file.

EXPRESSION OF THANKS FROM JOHN A. VOLPE.

A communication was received from John A. Volpe, Commissioner of Public Works, Commonwealth of Massachusetts, expressing his thanks for the inclusion of his name in the "Salute to Rome" resolution adopted by the City Council.

Placed on file.

ADOPTION OF TEMPORARY RULES.

Coun. McCORMACK offered the following:

Ordered, That the rules of the City Council of 1951, except Rules 14, 25, and 35, be adopted as temporary rules of this Council until permanent rules are adopted.

The order was passed.

REFERENCE OF UNFINISHED BUSINESS.

Coun. McCORMACK offered the following:
 Ordered, That all matters of unfinished business referred to this City Council by the preceding City Council be hereby referred to the appropriate committees when appointed.
 The order was passed.

TEMPORARY EMPLOYEES OF CLERK OF COMMITTEES DEPARTMENT.

Coun. McCORMACK offered the following:
 Ordered, That until the second Wednesday following the first Monday in January, 1958, the Clerk of Committees Department shall consist, in addition to the officers provided for in section 1 of chapter 13 of the Revised Ordinances of 1947, of not more than one temporary stenographer to be appointed from time to time by the City Council at a salary of \$82 a week, and of not more than six temporary clerks, and/or temporary stenographer-clerks to be appointed from time to time by the City Council, each at a salary of \$73 a week, and of not more than one temporary clerk-receptionist to be appointed from time to time by the City Council at a salary of \$69 a week.
 The order was passed.

TEMPORARY APPOINTMENTS IN CLERK OF COMMITTEES DEPARTMENT.

Coun. McCORMACK offered the following:
 Ordered, That effective upon the approval by the Mayor of the order passed this day by the City Council and providing for not more than one temporary stenographer, and of not more than six temporary clerks and/or temporary stenographer-clerks, and of not more than one temporary clerk-receptionist in the Clerk of Committees Department, the following persons be, and they hereby are, appointed to the positions set against their respective names until the second Wednesday of February, 1956.

Francis R. Burke, John J. Kerrigan, Paul G. O'Hara, Coleman P. Flaherty, temporary clerks; Nicholas DiMella, temporary stenographer; Agnes G. Dinsmore, temporary clerk-receptionist; Catherine Monahan, Frances B. Winn, temporary stenographer-clerks.

The order was passed.

PREPARATION OF MUNICIPAL REGISTER, ETC.

Coun. McCORMACK offered the following:
 Ordered, That the City Clerk be authorized, under the direction of the Committee on Rules, to prepare and have printed the "Municipal Register" for the current year; and that the Clerk of Committees be authorized to prepare and have printed a pocket edition of the "Organization of the City Government"; the expense of said register and organization to be charged to the appropriation for City Documents.
 The order was passed.

LEGISLATION FOR CHANGE IN FISCAL YEAR.

Coun. FOLEY offered the following:
 Ordered, That the City of Boston immediately prepare through its Law Department legislation which will permit the fiscal year to run from the first of July each year until the first of July the succeeding year, both for purposes of proper control of municipal operation through budgetary analysis and, secondly, so that the city may save the interest charges on the large sum of money which must be borrowed each year in anticipation of taxes.
 The order was passed.

REPLACING ALL GAS LAMPS.

Coun. PIEMONTE offered the following:
 Ordered, That his Honor the Mayor confer with the Commissioner of Public Works on the advisability of replacing during the year 1956 all the gas lamps in the City of Boston and that said program be financed by a loan order.
 The order was passed.

STATEMENT BY THE CHAIR.

President McCORMACK asked the Councillors to signify to him their preference of four committees on which they would like to serve in order to assist him in the making of appointments to the committees of the Council.

Adjourned at 12.14 P.M., on motion of Councillor Ahearn, to meet on Monday, January 9, 1956, at 2 P.M.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

(Stenographic copy of such debate on file in office of City Clerk.)

AGASSIZ PARK, WEST ROXBURY, TO BE MADE PUBLIC WAY.

The Public Improvement Commission has ordered that a public improvement be made, consisting of the laying out and construction of Agassiz park, West Roxbury district, as a public highway, from Burroughs street approximately 230 feet southwesterly, bounded and described as follows:

A highway named Agassiz park is hereby laid out from Burroughs street approximately 230 feet southwesterly, and ordered constructed.

Said highway and the land, exclusive of trees, shrubs, or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northeasterly by the southwesterly line of Burroughs street, twenty-five and 00-100 feet; southeasterly by the southeasterly line of Agassiz park, two hundred thirty and 00-100 feet; southwesterly by the southwesterly line of Agassiz park, twenty-five and 00-100 feet; and northwesterly by the northwesterly line of Agassiz park, two hundred thirty and 00-100 feet.

Trees, shrubs, or structures standing upon or affixed to the aforesaid land shall be removed therefrom within thirty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of said Agassiz park will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on the plan hereinbefore referred to and on file in the office of this department.

Voted, That this commission determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Agassiz park, West Roxbury district, from Burroughs street approximately 230 feet southwesterly, under an order of the commission of January 4, 1956, and awards no damages therefor.

TO WIDEN AUSTIN STREET, AT GORDON AVENUE, HYDE PARK.

The Public Improvement Commission has ordered that a public improvement be made, consisting of the widening and construction of Austin street, Hyde Park district, at the northeasterly and southeasterly corners of Gordon avenue, bounded and described as follows:

The highway named Austin street is hereby widened at the northeasterly and southeasterly corners of Gordon avenue, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following-described land, exclusive of trees, shrubs, or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Albert E. and Marion B. Fellows, bounded:

Westerly by the easterly line of Gordon avenue as it existed prior to this order, twenty-six and 50-100 feet; northerly by the northerly line of Austin street as widened under this order, thirty-four and 42-100 feet on a curve of seventeen and 38-100 feet radius; and southeasterly by the northwesterly line of Austin street as it existed prior to this order, twenty-six and 50-100 feet, containing one hundred sixty-one square feet, more or less.

A parcel of land, supposed to belong to owners unknown, bounded:

Westerly by the easterly line of Gordon avenue as it existed prior to this order, twenty-five and 00-100 feet; easterly by the southeasterly line of Austin street as widened under this order, forty-four and 25-100 feet on a curve of thirty-eight and 11-100 feet radius; and northwesterly by the southeasterly line of Austin street as it existed prior to this order, twenty-five and 00-100 feet, containing one hundred ten square feet, more or less.

Trees, shrubs, or structures standing upon or affixed to the aforesaid land shall be removed therefrom within thirty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Said Austin street as hereby widened is bounded:

Westerly by the easterly line of Gordon avenue as it existed prior to this order, twenty-six and 50-100 feet; northerly by the northerly line of Austin street, thirty-four and 42-100 feet on a curve of seventeen and 38-100 feet radius; southeasterly by the northwesterly line of Austin street as it existed prior to this order, twenty-six and 50-100 feet; westerly by the easterly line of Gordon avenue as it existed prior to this order, twenty-five and 00-100 feet; easterly by the southeasterly line of Austin street, forty-four and 25-100 feet on a curve of thirty-eight and 11-100 feet radius; and northwesterly by the southeasterly line of Austin street as it existed prior to this order, twenty-five and 00-100 feet.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this commission determines that the undermentioned persons sustain damages in their estates by the making of the public improvement, consisting of the widening and construction of Austin street, Hyde Park district, at the northeasterly and southeasterly corners of Gordon avenue, under an order of the commission of January 4, 1956, in the amounts hereinafter respectively set against them, and awards said damages therefor.

FIRE DEPARTMENT ORDERS.*General Order No. 2.***I. CIVIL DEFENSE AUXILIARY FIRE FORCE.**

The Boston Fire Department is seeking men between the ages of 21 and 55 to form an active, trained, Civil Defense Auxiliary Fire Force to assist the regular Fire Department in the event of a disaster caused by wartime action, fire, flood, or any other cause. Whatever the reason, the magnitude of destruction might place it beyond the power of the Fire Department to handle with the regular personnel available.

To be prepared for such emergencies, the Boston Fire Department plans to form auxiliary units, equipped with the necessary apparatus and trained auxiliary fire fighters. A widespread publicity campaign is to be undertaken to attract volunteers to enroll in these units. To supplement this, every member of the department is urged to interest and enroll civilian friends or relatives in this program which is necessary for the overall protection of the public.

Under separate cover, enrollment cards and information placards are being furnished to all fire stations. Company officers will furnish the necessary assistance for the completion of the enrollment cards, and post placards in the fire stations, in locations visible to the public. Permission should be sought from local merchants and storekeepers in each company's respective subdistrict, to post additional placards in display windows where they may be observed by passers-by.

Membership in the auxiliary fire force shall be restricted to residents of, or persons regularly employed in the City of Boston. It is expected that all personnel of the Boston Fire Department will render every courtesy and assistance to civilians indicating a desire to enroll in the auxiliary fire force, and should answer whatever questions asked to the best of their ability and knowledge.

For the information and guidance of department members, it is planned to—

- (a) Hold weekly drills.
- (b) Schedule drills to permit maximum participation. (Evenings.)
- (c) Use Civil Defense fire apparatus.
- (d) Make available protective clothing.
- (e) Swear in volunteers upon placing auxiliary unit into service.

All enrollment cards, when completed, shall be returned to the Training Division at Headquarters.

By order of Fire Commissioner
FRANCIS X. COTTER.

JOHN V. STAPLETON,
Chief of Department.

POLICE DEPARTMENT ORDERS

General Order No. 2,154.

The following-named officer having requested retirement under the provisions of the Statutes of 1892, chapter 353, as amended, for the reason that he is incapacitated, it is hereby

Ordered, His Honor the Mayor having approved the same, that he be retired from active service in the Police Department, effective as of Tuesday, January 3, 1956, at 7.45 o'clock A.M.:
Lieut. Edmond V. Gallahue, Bureau of Operations, 36 years of service.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,155.

The resignation of Patrolman Arthur W. Wright, Division 9, having been presented while charges are pending against him, it is hereby accepted, to take effect Friday, January 6, 1956, at 7.45 o'clock A.M., seven days' notice waived.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,156.

Patrolman Victor E. Smith of Division 2 is commended and granted two days' extra vacation for meritorious police work performed on December 25, 1955.

In the early morning hours while Patrolman Smith was checking buildings on his route, he observed two men acting suspiciously in the vicinity of a gas station. Sensing that something had happened or possibly that it was their intention to hold up the gas station, the officer called them and ordered them to stop, whereupon one of the men ran towards him holding his hand inside his jacket. The man suddenly produced a revolver and ordered the officer to put up his hands. Patrolman Smith, who had a flashlight in his hand, struck out promptly and knocked the gun from the man's hand, subdued him, and took him into custody.

The commissioner is pleased to recognize the courage and sound judgment which Patrolman Smith displayed on this occasion, which was also commented upon by the justice at the trial of the case.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

CLAIMS ALLOWED.

The Mayor, upon recommendation of the Corporation Counsel, has approved the following claims:

Mary Monty, 79 Dover street, Boston, in the sum of \$168, as compensation for personal injuries caused by a broken curbstone at the corner of Kneeland and Tyler streets, October 10, 1947.

CHAMBER OF COMMERCE HEARS MAYOR HYNES SET FORTH BOSTON'S TAX RATE PROBLEM IN MOST CONCISE TERMS

Only four ways, good or bad, are open for Boston to reduce its tax rate, in the opinion of Mayor John B. Hynes which he expressed on Monday to a group of businessmen. In a talk before the Greater Boston Chamber of Commerce, the Mayor outlined, with pointed commentary, the four solutions of the city's spiraling tax trend. These solutions, in the Mayor's opinion, are:

1. Reduce the over-all expenses of the city by twenty million dollars. **Next to impossible.**
2. Obtain about three million dollars of new taxable properties. **Not impossible.**
3. Formulate a Greater Boston federated community. **A dim, distant possibility.**
4. A new source of income. **A possibility that should not quickly be thrust aside.**

"If there are any other ways of reducing our tax rate," declared Mayor Hynes, "outside tapping the till of the State Treasury, which is also pretty bare, I don't know what they are!"

"For every economy the government institutes in the day-to-day running of the city, for every thousand dollars it saves through better management, the Mayor said, it is forced to appropriate other thousands for broadening and expansion of governmental services, for payroll increases, and for social benefits, which are the order of the day.

"No Mayor can make one dollar do the work of two," Mayor Hynes added. "We do pretty well if we make one dollar do the work of one dollar."

The Chief Executive reiterated his growing confidence that Boston is on the verge of good days and good years. "Let us, for the good of all, shake off our proper Bostonian reserve," he said, "let our thinking and our aspirations be a little less individualistic, and let us think more of the bright opportunities of tomorrow, rather than of the buried riches of yesterday."

Some of the bright prospects for Boston's immediate future were enumerated by the Mayor. He announced that Jordan Marsh Company is ready to start construction of the third major unit in its multimillion-dollar construction and expansion program downtown; cited the likelihood of a new regional office of a large, nation-wide firm on a portion of the Boston & Albany Railroad yards in the Back Bay; a new bank building on Tremont street; two modern office buildings scheduled for construction in downtown Boston, and told of plans for construction of a new federal office building which will permit the city to receive full ad valorem taxes.

Plans for removal of the abattoir buildings in Brighton and replacement of this noxious operation by new and modern buildings serving a variety of mercantile purposes was also listed by Mayor Hynes as a bright future prospect for Boston. He said a new business development scheduled to take place in West Roxbury, just across the Charles River from Dedham, will mean several million dollars in taxable construction. He said the city is hopeful of turning the site of the Charlestown State Prison, when completely abandoned, into an industrial and commercial development.

Completion of the Central Artery, the Mayor said, will inject new life into a large portion of downtown real estate, and a continuation of urban redevelopment, already started in the South End, will also show an immediate beneficial effect upon the city's immediate future.

The Mayor said he looks forward to continued expansion of the Port of Boston and a successful conclusion of this city's fight for a greater share of trans-Atlantic shipping.

"There is an old political axiom," the Mayor said: "To the victor goes the spoils. In this period of great national economic expansion, there will be spoils galore, if I may use that term, for those who are the victors."

After a plea to Boston to shake off its wistful looking back to the "buried riches of the past," the Mayor's speech concluded with a quotation from Oliver Goldsmith:

"Ill fares the land, to hastening ills a prey,
Where wealth accumulates, and men decay."

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

FORTY PER CENT OF ALL CONSTRUCTION OUTLAY IN HUB LAST YEAR SPENT ON NONTAXABLE PROPERTY

A total of \$37,290,823 was spent in the construction of new buildings and alterations of existing structures within the city limits of Boston during 1955, according to figures released by the Building Department. This total is based on the number of building permit applications received where an estimate of \$1,000 or more is involved.

Forty per cent of the total new construction cost was involved in the building of or alterations to nontaxable property such as schools, hospitals, and places of worship. Sixty per cent of the new construction went on the tax rolls, department figures show.

CITY DISPOSAL CONTRACT APPROVED BY MAYOR FOR YEAR STARTING APRIL 1.

Mayor John B. Hynes has approved the award, without advertising, of a refuse and garbage disposal contract to M. DeMatteo Construction Company of Quincy for the year beginning April 1.

In that connection the Mayor acted upon the following communication from Public Works Commissioner George G. Hyland:

DEAR MR. MAYOR:

Under date of February 10, 1953, publicly advertised proposals were opened in this office for the disposal of garbage and refuse collected in the following-listed districts:

District 1, South Boston.
District 3, Charlestown.
District 7A, Elm Hill.
District 7B, Dudley.
District 7C, Mission Hill.
District 7D, Roxbury.
District 9, South End.
District 9A, Back Bay.
District 9B, Stuart (includes part of the downtown area).

District 10, North and West Ends (includes part of the downtown area).

In addition to the above districts, bids were also obtained for the disposal of refuse collected in Brighton, but I have not included this district in the above list, as it is not now a factor in the disposal contract, as the refuse from that area is being disposed of at the Gardner Street site.

We estimate that 370,000 persons reside in the above-listed districts, exclusive of the large influx of nonresidents on business days in the downtown area. The importance of this contract, therefore, is obvious.

Following the receipt of the above-referenced proposals, a contract was awarded to the low bidder, M. DeMatteo Construction Company, effective on April 1, 1953. The contract was for a period of one year, with the option on the part of the city to extend it for a second year to March 31 of 1955, and a further option to extend it to March 31 of 1956. The city exercised both options, with the result that the current contract will expire next March 31. The work of the DeMatteo Company has been exceptionally satisfactory and the award of the contracts to said company resulted in a total reduction in cost of approximately \$325,000 over the three-year contract period as compared with the previous three-year period from 1950 to 1952, inclusive.

With the termination of the current contract in sight, consideration must now be given to matters affecting the award of a new contract to start next April 1. The new contract should be for a period of only one year, as it is expected that the new incinerator will be operating by April 1 of 1957. The Spectacle Island operation—which is a major part of the current disposal contract—cannot be abandoned until the incinerator is operating.

We now have the option of publicly advertising for bids—which is the course we followed three years ago—or we can negotiate a year's contract with the present contractor, the M. DeMatteo Construction Company.

The public advertising of three years ago was very successful, as it resulted in substantial savings to the city and the

CITY HALL TYPEWRITER REPAIR CENTER TO SERVE MANY CITY DEPARTMENTS.

On Wednesday, January 18, an office machine service unit was established, under the supervision of the Administrative Services Department, located in Room B-7, in the basement of City Hall. The City Auditor has been instructed to hold up all service orders for typewriter servicing and repairs and department heads are requested to utilize the services of this unit in the future.

The primary purpose of this unit is to service and repair typewriters but, nevertheless, all other types of office machines will be serviced and repaired, whenever possible. Regular service inspections of typewriters will be made periodically during the year and the employees of this unit will be available on call at any time during the regular working day and can be reached through the Annex switchboard.

Over the years, it has been the practice to award this work to outside firms at considerable expense to the city with the added inconvenience of delays in

securing prompt service when the need was most urgent. It is believed that through the centralization of this unit in City Hall, it will be possible in the future to promptly and efficiently handle the needs of all departments located not only in the Hall and Annex but the following departments located within the so-called City Hall area, namely:

Courthouse Departments, Pemberton square; Welfare Department, Hawkins street; Licensing Board, Province street; Park Department, Beacon street; Printing Department, North street; Finance Commission, School street; Health Department, Haymarket square; Law Department, Beacon street.

Many of our large cities and many of our large industrial corporations have initiated and established units of this character with great success and have shown substantial savings. It is not our intention to charge departments for this service, thereby reducing paper work and bookkeeping procedures to a large extent and it is only reasonable to assume that maintenance costs for office machines will be reduced to a minimum and service will be increased to a maximum.

CITY DISPOSAL CONTRACT APPROVED.

(Continued from page 63.)

high standard of service required on a contract of this type has been maintained. However, three years ago, we advertised for bids for contract periods of one, two, or three years, and it was reasonable for a prudent bidder to assume that the contract would be for at least a two-year period. Under the circumstances, it is understandable why the bidding was spirited and highly competitive. However, I do not believe that such a condition would exist if public bids were requested for the new contract, as it will be for a period of one year only. In my opinion, it would cost a bidder—other than the present contractor—a minimum of \$200,000 for the equipment and plant needed to provide the service required under the contract provisions. Such an initial capital investment could not be written off on a maximum one-year contract, unless the bid was excessively high. In addition, to obtain a bid from anyone other than the present contractor, we would have to provide a three-month transition period to allow for the removal of the present contractor's plant and equipment at Spectacle Island, and the installation of the equipment of the new contractor. We provided such a period in 1953 and the scow operation was suspended from April 1 to July 1, with the result that, for those three months, all of the refuse and garbage had to be hauled to Calf Pasture and a dump in Chelsea. Such an arrangement proved very unsatisfactory three years ago and we were fortunate, at that time, that we did not experience a complete cessation of the disposal work. I would not recommend the adoption of any such arrangement at this time, as it might mean that we would have to haul all of the material to Calf Pasture from April 1 to July 1. Such a system should not be given any consideration, unless we were unable to negotiate a satisfactory one-year contract with the present contractor.

This three-month period was the key to the problem three years ago, as it permitted advertising for bids, with the resultant substantial savings to the city. In 1953, we were forced to take a gamble and attempt to obtain bids because of the high annual costs that we were paying to a contractor who had been granted annual contracts by negotiation for over ten years. The improvised arrangement in effect during April, May, and June of 1953 caused me many uneasy moments, as the refuse disposal system, affecting over 400,000 people, hung by a thread. We could not afford to take another such gamble at this time, taking into consideration, among other things that the Calf Pasture dump is three years older and its available capacity has been depleted accordingly. In my opinion, if publicly advertised proposals were requested, the only bidder would be the present contractor or if other bids were submitted, they would be excessively high.

Under the circumstances, I felt that we had no alternative but to negotiate a new contract with the DeMatteo Company, if we could agree on a reasonable contract price for the work to be performed. If we could not agree with the contractor on a price, we would be forced—as we were in 1953—to advertise for proposals. Therefore, for the past three weeks, I have had several meetings with Mr. Martin DeMatteo, representative of the

above company, and I feel that we have agreed on a price that is fair and reasonable both to the city and the contractor.

Before discussing the agreed price, I would like to submit a list of the bids received three years ago for the services, districts, and contract term involved in the subject contract:

Date of Bid Opening, February 10, 1953.

Bidders. (One-Year Contract.) Monthly Bid Price.

M. DeMatteo Construction Company..... \$37,800 00
Coleman Disposal Company.. 40,233 00
C. Callahan Company..... 43,434 53
J. P. McCabe Company..... 45,963 00
Reba Corporation..... 49,357 00

Your Honor will note that the above prices were submitted for a one-year contract period, which is the same contract period to be covered by the subject contract. I have also adjusted the bids to provide for the inclusion of the Elm Hill district and for the exclusion of Brighton, as the latter district is not a factor in the subject contract. These adjustments were made in order to make a fair comparison with the price agreed upon with the DeMatteo Company for the new contract. The latter-referenced will include the Elm Hill district and exclude Brighton, and will also include the other districts listed in this communication.

The above-listed bids were submitted on the basis of the elimination of the Albany Street wharf and, under the subject contract, this wharf will not be used, as the South Bay has been declared non-navigable under an Act of Congress passed in 1955. The use of this wharf will cease on March 31 of this year, the last day of the current contract.

Under the circumstances, I feel that the above-listed publicly advertised bids, which were obtained on February 10, 1953, can be used for comparison purposes in connection with the agreed prices that I have obtained after conducting negotiations with the DeMatteo Company.

We have agreed on a price of \$38,590 per month, which, as shown on the above tabulation, is only \$790 in excess of the low bid submitted by the same contractor three years ago in response to a public advertisement for proposals. It is also lower than any bid submitted by any of the other bidders at that time, and is substantially lower than the bids submitted by the three high bidders who did not have the advantage of the second bidder who owned the necessary plant and equipment. The following tabulation is submitted to show the cost of the disposal contract from 1949 to the present time:

Year.	Contract Cost (Annually).	Basis of Award.
1949	\$581,807	Negotiations
1950	570,898	Negotiations
1951	530,000	Negotiations
1952	557,500	Negotiations
1953-1956	443,760	Public bids. Lowest bid for three-year contract.

The new contract for the one-year period from April 1, 1956, to March 31, 1957, will cost \$463,080 or \$19,320 in excess of the average annual cost for the past three years. However, the contracts for the period from 1953 to 1956 were based on the lowest bid received for a contract involving three years; whereas, the subject contract involves only one year. In 1953, the low bid for a one-year

contract for performing the services now included in the current contract was \$39,200 per month or \$2,220 per month in excess of the bid for a three-year period.

For the reasons as set forth in this communication, I respectfully request your authority to dispense with advertising, and to award a contract in accordance with the pertinent and basic terms and conditions of the current contract, to M. DeMatteo Construction Company of 200 Hancock street, Quincy, for a period of one year, from April 1, 1956, to March 31, 1957, at an agreed price of \$38,590 per month, for the disposal, at Spectacle Island and the Calf Pasture site, of garbage and refuse delivered to said contractor from the districts listed below:

District 1, South Boston.
District 3, Charlestown.
District 7A, Elm Hill.
District 7B, Dudley.
District 7C, Mission Hill.
District 7D, Roxbury.
District 9, South End.
District 9A, Back Bay.
District 9B, Stuart (includes part of the downtown area).
District 10, North and West Ends (includes part of the downtown area).

I feel that it would be to the city's advantage to include in the contract two items for disposing of refuse collected in Districts 6A and 6B, Dorchester. These items are included in the current contract, but they will not be used in the subject contract unless we experience difficulty in obtaining satisfactory dumping sites in Dorchester. The price in the current contract for the disposal of material from District 6A is \$1,000 per month and the same price for District 6B.

Therefore, I also respectfully request your authority to dispense with advertising, and to provide, in the subject contract, for the disposal, at the option of the City of Boston, of refuse collected in Districts 6A and 6B, Dorchester, at an agreed price of \$1,000 per month for each district.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

Extra compensation for the following personnel assigned to snow work:

Alfonse Raso, Ralph Monaco, George W. Ryan, John P. Toohey, Chester Wojcik, Lawrence West, motor equipment operators and laborers (temporary).

These employees of the Public Works Department were omitted from letter of November 15, 1955, requesting the establishment of an increase in the regular rate per hour of those who operate during the winter season, the heavy-duty equipment of the department assigned to sanding, snow plowing, and snow removal work. This equipment consists of Walter snow fighters, four-wheel drive trucks, snow loaders, bulldozers, tractors, wreckers, bucket loaders, and front-end loaders.

Approval has been granted that the above-named employees be compensated at the rate of \$1.95 per hour only when performing the duties as outlined above, between November 15, 1955, and March 31, 1956, inclusive. It is customary during snow removal work to pay these men on a basis of time and a half (\$2.93) for each hour worked after 5 P.M. until 8 A.M. The hours between 8 A.M. and 5 P.M. on Saturday will be at the straight-time rate. The hours between 8 A.M. and 5 P.M. on Sunday will be at the time-and-a-half rate. The \$1.85 per hour rate will be paid to employees when operating the so-called Baughman plowing and sanding units.

Permission to award the contracts for work, materials, and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

HOSPITAL DEPARTMENT.

On January 13 Mayor Hynes approved a contract for the City Hospital referred to in the following communication from the Board of Trustees:

DEAR MR. MAYOR:

Proposals for furnishing and installing an air compressor in the Laundry Building, Boston City Hospital, were opened and read at the hospital on Wednesday, December 21, 1955. The following bids were received:

Berg, DiMare & Berg, Inc., \$2,059.50; Morrissey Brothers Tractor Company, \$1,870.

Subject to your approval, the trustees have awarded the contract to Berg, DiMare & Berg, Inc., the only eligible and responsible bidder, in the sum of \$2,059.50.

Respectfully yours,

BOARD OF TRUSTEES, HOSPITAL DEPARTMENT, AND OF THE BOSTON CITY HOSPITAL,

by RICHARD J. CONDON,
President.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with contractors and commercial houses for furnishing labor, supplies, etc. Communications from heads of the departments interested were as follows:

ADMINISTRATIVE SERVICES DEPARTMENT.

Purchasing Division.

On January 3 Mayor Hynes approved the award of a contract, without advertising, to the Colony Food Products, Inc., 4060 Mystic Valley Parkway, Medford, Mass., for furnishing perishable foods to the various city departments, from January 3, 1956, to March 31, 1956, inclusive.

Approval was given on January 11 to the award of a contract, without advertising, in a total of \$3,473.60, to Remington Rand, Division of Sperry Rand Corporation, for furnishing 2,880,000 various payroll and accounts cards. These cards are made only by Remington Rand, Division of Sperry Rand Corporation. An informal written quotation has been received from this company as follows:

2,500,000 Manila payroll cards, 14299, at \$1.20 per M, \$3,000.

200,000 red stripe payroll cards, 14299, at \$1.24 per M, \$248.

150,000 accounts payable cards, 17234, at \$1.25 per M, \$187.50.

30,000 blue stripe payroll cards, 14410, at \$1.27 per M, \$38.10.

On January 11 the Mayor approved a contract, without advertising, for hospital supplies based on the following communication from John V. Moran, Purchasing Agent:

DEAR MR. MAYOR:

This office is in receipt of a requisition from the Boston City Hospital for syringe and needle trays, etc., as distributed by Macalaster Bicknell Parenteral Corporation, or equal. These

items were advertised but no bids were received. Macalaster Bicknell Parenteral Corporation submitted an informal written quotation for the items needed.

Authority is therefore requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Macalaster Bicknell Parenteral Corporation for syringe and needle trays and accessories at the following prices:

50 syringe and needle trays, 2 cc. size, with one clean and contaminated rack and one pyrex rinse well, without needle manifolds, Catalogue No. 9750, at \$34.95 each.

250 Lucite needle manifolds, No. 9815, for above, \$1.40 each.

100 manifolds for B.B. Vacutainer needles, No. 9821, \$1.90 each.

3 dozen pyrex rinse wells, 80 cents each.

All to be as per samples at Boston City Hospital.

Approximate total amount of contract will be \$2,316.30, less 2 per cent discount for payment within ten days.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

RETIREMENT BOARD.

On January 11 Mayor Hynes approved a contract, without advertising, for services in connection with office procedures in the Retirement Board based on the following communication from Paul L. Carty, Executive Officer:

HONORABLE SIR:

I respectfully request your authorization to execute a contract, without publicly advertising, and to engage the services of the Remington Rand Company, 857 Commonwealth avenue, Boston, Mass., by written contract, for a sum not to exceed \$7,000, which will cover the cost of service in preparing the "Trial Balances" of the accounts in the State-Boston Retirement System. The said amount of \$7,000 is to be charged to the budget of the State-Boston Retirement System Expense Fund.

The "Trial Balances" are a summary of all the accounts of the members of the State-Boston Retirement System. These accounts must be examined and verified by the Division of Insurance Examiners of the Commonwealth. The income for the years 1953 and 1954 will be processed and I believe it can be most efficiently handled in this manner.

A specification of the service to be rendered under this contract is as follows:

1. Key punch and verify 25,000 employee numbers and account numbers.
2. Key punch and verify first card.
3. Key punch and verify 250,000 detail.

4. Process cards for tabulation.
5. Transportation charges.

Total Hours.

1. Key punch and verify employee number and account number, 141.0.
2. Key punch and verify first card of retirement, 172.4.
3. Key punch and verify 250,000 detail, 1,008.0.

Total, 1,321.4.

1 operator, 33 weeks (40), 1,321.4; 3 operators, 33 weeks, 11 weeks each; 4 operators, 33 weeks, 8 plus weeks each.

Machine.

Process and tabulate, 271.6.

Since these account cards can be used for statistical information relative to active and retired members, and since the Remington Rand Company has equipment in several departments throughout the City Hall, I believe it is for the best interests of the city that we utilize this equipment.

Respectfully yours,

PAUL L. CARTY,
Executive Officer.

SUFFOLK COUNTY.

MUNICIPAL COURT, ROXBURY DISTRICT.

On January 13 the Mayor approved the request of the Justices of the Roxbury District Court as follows:

In past years, permission was granted to expend sums of money under Item B-1 for office supplies, stationery, printed forms, etc., without advertising. These items cannot be anticipated and as a general rule the lowest price is sought, commensurate with good work and materials. Therefore, approval has been given to expend these sums of money for office supplies, stationery, printed forms, etc., for the year 1956, without advertising for bids.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for an extension of time for the completion of the contract with S. M. Levin Company, Inc., for miscellaneous furniture for 15 Beacon street, from December 31, 1955, to March 1, 1956. This extension was requested because of a delay in receiving shipments from mill.

Approval has been given for an extension of time for the completion of the contract with Massachusetts Heating Corporation for furnishing and installing new fuel oil tank at the William Lloyd Garrison School, from December 30, 1955, to January 31, 1956. This extension was requested because of a delay in obtaining material.

Approval has been given for an extension of time for the completion of the contract with S. M. Levin Company, Inc., for miscellaneous furniture for various schools, from December 30, 1955, to March 1, 1956. This extension was requested because of a delay in receiving shipments from the mill.

Approval has been given for an extension of time for the completion of the contract with D. Antonellis, Inc., for new dishwashing room at the Boston Latin School, from December 31, 1955,

to January 31, 1956. This extension was requested because of a delay in obtaining stainless steel equipment.

Approval has been given for an extension of time for the completion of the contract with Daniel Russell Boiler Works, Inc., for repairing and retubing boilers in various schools, from December 31, 1955, to January 31, 1956. This extension was requested because of a delay in obtaining materials.

Approval has been given for an extension of time for the completion of the contract with Martin J. Kelly Company, Inc., for remodeling chemistry room at Boston Trade High School, from December 31, 1955, to January 31, 1956. This extension was requested because of delay in obtaining materials.

FIRE DEPARTMENT.

Approval has been given for an extension of time for the completion of the contract between the Fire Department and Smith & Bennett, Inc., for furnishing uniform overcoats, sack coats, and trousers to the department, from December 31, 1955, to January 31, 1956. This extension was granted because of serious floods at the manufacturer's mill located in Torrington, Connecticut; also because of labor trouble.

PARKS AND RECREATION DEPARTMENT.

Approval has been given for an extension of time until April 3, 1956, for the completion of a contract with William J. Banfield for cleaning catch basins in any park roadway in the City of Boston.

PUBLIC WORKS DEPARTMENT.

Approval has been given for an extension of time for the completion of the contract with Cyclone Fence Department, United States Steel Corporation, for erection of wire mesh fencing at the Calf Pasture Pumping Station, from September 30, 1955, to February 1, 1956. This extension was requested because of a delay at the factory in fabrication of gates necessary to complete the work.

Approval has been given for an extension of time for the completion of the contract with John McCourt Company for work on Dorchester street, South Boston, from December 17, 1955, to June 30, 1956. This is a Chapter 90 project. This extension was requested because the State Department of Public Works voted to extend the time limit on the work.

Approval has been given for an extension of time for the completion of the contract with the Suffolk Electric Company, 413 Harrison avenue, Boston, for electrical work at 624 Albany street, Boston, from December 28, 1955, to February 27, 1956. This extension was requested because of relocating a 2½-inch water line and change in specifications covering the service panel.

Approval was given for an extension of time for the completion of the contract with Charles Todesca, 98 Roslindale avenue, Roslindale, for artificial stone sidewalks in Brahm's street, Knoll street, etc., from December 31, 1955, to June 30, 1956. This extension was requested because of inclement weather.

ADDITIONS TO CONTRACT.

DEPARTMENT OF SCHOOL BUILDINGS.

M. Solimando has been directed to make the following additions to his contract for repair work at the Girls' Latin School:

Remove door stops and chains in every door throughout the building, \$70; remove wooden bleachers and repair floor under gymnasium, \$290; in Room No. 57 (annex), install a blackboard and all necessary trimmings and chalk rail, approximately 4 feet x 20 feet, \$155; patch cracks of terrazzo floor in corridors, first and second floors, between main building and annex, \$245; repair and reglaze transom over rear door near Room 57, \$50; install one new sash with wire glass in boiler room, \$60; furnish and install three window screens in stairway leading to the second floor, near gymnasium, \$95; repair two pairs of shutters in cold air intake room, \$25; repair and readjust all the safety treads on stairways and replace any diamond plates on landings where broken, \$480—\$1,470, and the amount of \$1,470 will be added therefor, making the account as follows: contract price, \$172,842; total additions, \$14,626.51; amount of contract, \$187,468.51.

BUILDING RAZED.

On January 17 the Mayor approved a contract for removal of an unoccupied dwelling at 31 Alpine street, Ward 12. Following is a communication from the Building Commissioner in that regard:

DEAR MR. MAYOR:

Pursuant to the provisions of chapter 479, Acts of 1938, as amended, and with your Honor's permission, this department has entered the premises 31 Alpine street, Ward 12.

This is a Type VI dwelling, unoccupied, open to trespass and a serious fire hazard to the adjoining properties.

Because of the peculiar situation, since the building is located on the side of a hill, it is possible for vandals to enter the building and to throw rocks and other debris on the property below. This has been a cause for considerable danger and annoyance to the owners of these properties.

The department has made particular effort to compel the owner to board up the building or to remove it but to no avail.

We have now secured bids in accordance with law from the following:

Michael J. Reardon, \$3,333; Central Building Wrecking Company, \$2,750; American Building Wrecking Company, \$2,250; Mystic Building Wrecking Company, \$1,800; City Building Wrecking Company, \$1,390.

The location of the building on the side of a hill will necessitate the complete removal of the foundation wall, which in the rear is rather high. To permit the wall to remain there would encourage further vandalism and the stones would be thrown upon the properties below.

The matter will admit of no delay; consequently, I ask your Honor's approval to grant the contract, without advertising, to the City Building Wrecking Company in the sum of \$1,390.

Very truly yours,

CHARLES A. CALLANAN,
Building Commissioner.

FIRE DEPARTMENT ORDERS.*General Order No. 4.***I. HIGH COMMENDATIONS.**

The apparatus responded to an alarm from Box 2217 at 5:34 P.M., on December 24, 1955, followed by a second alarm at 5:41 P.M. Upon arrival, it was found that a three-family wooden dwelling house at 5 Comet place, South End, was involved in fire. Smoke and fire were issuing from the first floor windows and doorway. People on the street were shouting that a man was trapped in the first floor.

Fire Fighter William E. Pero of Ladder Company 3, who was off duty at the time, and was in quarters when the alarm sounded, responded with Engine 3. He immediately went to the rear of the building and entered through a first floor window. The heat was intense and the room heavily charged with smoke and gases. Fire Fighter Pero groped his way about the room and came upon the unconscious form of a man on the floor. He lifted and dragged him across the floor to the window where he was assisted by another member in removing him to the street. Members of Ladder Company 12 operated their resuscitator on the victim and he was removed to the Boston City Hospital in a police ambulance.

Fire Fighter Pero effected this rescue without the benefit of a gas mask. His prompt action, with a total disregard for his own personal safety, undoubtedly saved this man's life.

The Fire Commissioner is pleased to highly commend Fire Fighter Pero for his courageous action and this case is referred to the Board of Merit for further consideration.

A still alarm was received at 6:18 A.M., followed by an alarm from Box 7236 at 6:19 o'clock on Sunday, December 25, 1955. When the apparatus arrived at the scene, the members encountered a fire, extending from the first floor to the upper stories of a two and one half-story, frame dwelling house at 28 Middle street, South Boston.

Fire Fighters Francis A. Cady of Ladder Company 20 and Robert P. Foley of Engine Company 43 entered the building with a booster line in advance of a 2½-inch line from Engine 43. While operating on the fire, they learned that a young boy was sleeping in an attic bedroom. They passed the booster line to another member, donned gas masks, and started up the stairs. Inasmuch as ventilation had not been completed, the presence of smoke was extremely heavy and the excessive heat started to burn the exposed parts of their hands, necks and ears. With firm determination, they continued to make their way up the stairs to the attic. They searched the two rooms and found the unconscious body of a young boy in a bed. They removed him from the bed, carried him out of the room and down the stairs to the street. He was removed to the Boston City Hospital in a police ambulance. Fire Fighter Cady suffered a painful injury to his right ankle when he slipped on the stairs during the rescue operation which required his going on injured leave.

This action was carried out under very trying conditions with great personal risk to the fire fighters. The Fire Commissioner is pleased to highly commend Fire Fighters Cady and Foley for their

heroism and this case is referred to the Board of Merit for further consideration.

By order of Fire Commissioner
FRANCIS X. COTTER.

JOHN V. STAPLETON,
Chief of Department.

*General Order No. 5.***I. PROMOTION.**

The following promotion, which will become effective at 8 A.M., Wednesday, January 18, 1956, is hereby announced:

Fire Capt. John J. Sullivan, Engine Company 37, to district fire chief.

II. RETIREMENTS.

The following retirements, in accordance with section 7, chapter 32 of the General Laws, as amended, are hereby announced, to become effective at 8 A.M., Wednesday, February 1, 1956:

Fire Fighter David F. Ritchie, Ladder Company 23.

Fire Fighter Thomas H. Waldron, Ladder Company 24.

Fire Fighter Ritchie was appointed to the Fire Department January 21, 1948, and Fire Fighter Waldron was appointed July 20, 1949.

Both of these men leave the department with the best wishes of their associates.

III. TRANSFER.

The following transfer, effective at 8 A.M., Wednesday, January 18, 1956, is hereby announced:

District Fire Chief John J. Sullivan, from Engine Company 37 to Special Service Unit.

IV. RENUMBERING OF FIRE ALARM BOXES.

Effective at 12 noon, Thursday, January 26, 1956, the following fire alarm boxes will be renumbered:

Present number, 1214, new number, 1258, circuit number, 10, Hanover and Union streets.

Present number, 1215, new number, 1259, circuit number, 5, Union and Friend streets.

Present number, 1218, new number, 1225, circuit number, 10, Endicott and Cross streets.

Present number, 1219, new number, 1226, circuit number, 15, Hanover and Cross streets.

Present number, 1257, new number, 1296, circuit number 2, Atlantic avenue at Long Wharf.

Present number, 132, new number, 1316, circuit number, 5, Canal and Transverse streets.

Present number, 1341, new number, 1338, circuit number, 15, Leverett and Green streets.

Company commanders will make the above changes on assignment and circuit cards for fire alarm boxes indicated above.

V. FIRE ALARM BOX INSTALLED.

The following fire alarm box, which was established in General Orders, No. 67, dated December 28, 1955, has been installed and connected into circuit No. 26:

12-2252, Dudley School, 20 Dudley street.

Company commanders will add Box 12-2252 to circuit card No. 26.

With the installation of Box 12-2252, the designation on assignment card for Box 2252 will be corrected by deleting

the words "(AUX.), Dudley School," so that this designation will read as follows:

2252, Dudley and Putnam streets.

VI. CORRECTION IN DESIGNATION OF FIRE ALARM BOX.

In General Orders, No. 3, dated January 3, 1956, the designation of Fire Alarm Box 3384 was given incorrectly.

The phrase "East Group Building" will be corrected to read, "East Group Buildings."

Company commanders will make this correction on assignment card for Box 3384.

VII. COMMENDATION.

Fire Fighter James Wallace of Engine Company 12 is hereby commended for responding to and working at fire, Box 3174, four alarms, on January 9, 1956.

By order of Fire Commissioner
FRANCIS X. COTTER.

JOHN V. STAPLETON,
Chief of Department.

POLICE DEPARTMENT ORDERS*General Order No. 2,157.*

Patrolmen Edward L. Flaherty and Leo G. Heffernan of Division 14 are hereby commended in General Orders.

On January 11, 1956, a telephone call was received at Division 14 that there had been a holdup at a bank in Brighton. The information was telephoned to Headquarters and given out over the air.

Patrolmen Flaherty and Heffernan, who were in a cruiser car, responded with other officers and cars. They obtained a description of the holdup man and started a search of the vicinity. Shortly they observed a man answering the description, carrying a green duffle bag. The officers, with drawn revolvers, ordered him to drop it which he refused to do. Ordered a second time to drop it he instead started to raise it to a level position. Both officers were now close to the man and suddenly Patrolman Flaherty kicked from the holdup man's hand a 30-30 rifle with five shells in the magazine and one shell in the firing chamber and the gun at full cock which was concealed in the green duffle bag. Both officers then grappled with the holdup man and subdued him. He was searched for other weapons and in the process the money stolen from the bank was recovered. The holdup man was positively identified by the victims as the one who held them up.

The commissioner is pleased to recognize the efficient police service performed by these officers.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

DEDUCTION FROM CONTRACT.**DEPARTMENT OF SCHOOL BUILDINGS.**

J. J. Bonavire, Inc., on January 11, was directed to make the following deduction in his contract for the Abraham Lincoln School:

For work omitted and not completed, as per specifications, in the sum of \$242.70, and the amount of \$242.70 will be deducted therefor, making the account as follows: contract price, \$2,427; total deductions, \$242.70; amount of contract, \$2,184.30.

PROCEEDINGS OF CITY COUNCIL.

Monday, January 9, 1956.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President McCormack in the chair. Absent, Councillor Collins.

The Reverend Frederick J. Adelmann, S.J., of Boston College, Newton, was escorted to the rostrum.

INVOCATION

BY REV. FREDERICK J. ADELMANN.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Our Father, who art in heaven, hallowed be Thy name; Thy kingdom come; Thy will be done on earth as it is in heaven. O Lord, grant, we beseech Thee, to all these men present that they may be just in their deliberations, and that they may be firm in their adherence to principle within this chamber and that outside this chamber they may have warmth, sympathy, and understanding of the human situation, and that they will always give ear to the needs of the poor, the homeless, and the less fortunate. And so we ask You, O God, to bless us all. Bless me in my vocation and them in theirs that we may all do Thy will.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

SKATING FACILITIES FOR INHABITANTS OF BOSTON.

The following was received:

City of Boston,

Office of the Mayor, January 9, 1956.

To the City Council.

Gentlemen:

I transmit herewith further communication from the Commissioner of Parks and Recreation relative

to your order of December 19, 1955, and motion of December 29, 1955, concerning the use of skating facilities for the inhabitants of Boston at the Boston Arena, the Skating Club on Western avenue, Brighton, and/or other places available for such facilities.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Parks and Recreation Department,
January 6, 1956.

Harold B. Flemming,

Chief Clerk, Mayor's Office.

Dear Sir:

I am returning herewith memo that you sent to this department with attached order of Councillor Piemonte under date of December 29 and other correspondence relative to this transaction. I do not believe I can add much to my answer of December 22 relative to skating privileges at the Boston Arena and the Skating Club on Western avenue.

The Skating Club on Western avenue is a private organization and I know that they will not allow anyone to skate there unless they pay the charge required. Public skating sessions are held at this club, and anyone interested can make inquiry at the club. A scheduled list of skating hours is on display at the lobby of the club.

Regarding the Boston Arena, as I stated in my communication of December 22, the Arena is entirely under the control of the Metropolitan District Commission, 20 Somerset street, Boston. Any arrangements for skating by Boston citizens must be arranged through the Metropolitan District Commission.

The Councillor asks in his latest order whether or not we feel that it is feasible for public skating. I would only say that with all the schoolboy and college hockey that exists at the Arena on the day set aside for skating I would doubt if there would be any time for free skating.

This is only my opinion, and permission, if it were to be granted, would have to be had from the Metropolitan District Commission. The Councillor also should know that the Arena is used for many other types of events, and when these events are scheduled, it is my understanding the ice is removed from the Arena.

If the Councillor desires to follow the matter further, I would suggest that he talk with Commissioner Charles Greenough or Mr. Edward Barry.

Very truly yours,

FRANK R. KELLEY, Commissioner.

The foregoing message and the message of the Mayor of December 29, 1955, were severally placed on file.

"PROFILES OF COURAGE" BY JOHN F. KENNEDY IN PUBLIC SCHOOL COURSE OF STUDY.

Coun. PIEMONTE offered the following:
Resolved, That the City Council of Boston in meeting assembled urge the Boston School Committee and Superintendent of Schools to consider making mandatory in the course of studies in the Boston public school system the inclusion of the book "Profiles of Courage" by John F. Kennedy.

The resolution was adopted under suspension of the rules.

REPORT OF CITIZENS' COMMITTEE STUDY OF POLICE DEPARTMENT.

Coun. PIEMONTE offered the following:
Ordered, That his Honor the Mayor cause to be filed with the City Clerk a copy of the report of the Citizens' Committee survey and study of the Police Department; and, further, that copies of said report be furnished the members of the Boston City Council.

Passed under suspension of the rules.

CONSTRUCTION OF OFF-STREET PARKING LOT, JAMAICA PLAIN.

Coun. FOLEY offered the following:
Ordered, That the Chairman of the Real Property Board be requested to appear before the session of the Executive Committee of the Boston City Council on Monday, January 16, 1956, for the purpose of discussing the progress being made concerning the construction of an off-street suburban parking lot in the Jamaica Plain district of Boston, also, that representatives of the local merchants in the Jamaica Plain area be also invited to attend.

Coun. PIEMONTE moved to amend the foregoing order by inserting after the words "Jamaica Plain District of Boston" the words "and a summary of the status of the specific site in the off-street parking program."

The motion was carried and the order, as amended, was passed.

SNOW-MAKING EQUIPMENT AT COMMONWEALTH COUNTRY CLUB.

Coun. FOLEY offered the following:
Ordered, That the Chairman of the Board of Parks and Recreation be requested, through his Honor the Mayor, to assign an observer to the Commonwealth Country Club in Newton to observe the snow-making equipment presently being operated there with a view toward eventual use of such equipment in the recreation program of Boston.

Passed under suspension of the rules.

LAND AT FARRAGUT ROAD AND FIRST STREET, SOUTH BOSTON.

Coun. FOLEY, KERRIGAN, and McCORMACK offered the following:

Whereas, In the allowance of a petition for zoning variance of the property at Farragut road and First street in South Boston, formerly the property of the M.T.A., the Board of Appeal has inflicted upon the people of South Boston an insufferable burden of truck traffic upon its principal thoroughfares; and

Whereas, The allowance of said petition will permit a movement of heavy industrial property along Farragut road in the direction of the Headhouse and the public landing; and

Whereas, The allowance of said petition dooms the City Point-Marine Park section of South Boston to a creeping industrialization; and

Whereas, The allowance of said petition was most vigorously opposed by all responsible civic, social, and governmental agencies in the South Boston district; and

Whereas, It appears that the intrusion of this most undesirable truck terminal in this area will soon be followed by a similar petition from the White Fuel Corporation; and

Whereas, The Massachusetts National Guard has exhibited on a number of occasions substantial and real interest in the site in question for the purpose of constructing a National Guard armory in this area; and

Whereas, The industrialization of the Castle Island area was accomplished as a wartime necessity during World War II and was so represented to the patriotic people of South Boston, extension of that area constitutes a breach of faith with the people of the South Boston district; be it therefore

Resolved, That the Boston City Council goes on record as being most vigorously opposed to this astonishing decision of the Board of Appeal; and be it further

Resolved, That the Boston City Council invites the Finance Commission and the Municipal Research Bureau to investigate this decision and the general area of decisions of the Board of Appeal which affect the nature of major areas in Boston; and be it further

Resolved, That the Mayor of Boston, in justice to the people of South Boston, is hereby petitioned to do all in his power to obtain the land in question for the Massachusetts National Guard, for use as an armory; and be it further

Resolved, That the Mayor of Boston is hereby requested to take such legal steps necessary, whether by introduction of proposed legislation to the Great and General Court or otherwise, to prevent a repetition by the Board of Appeal of such an outrageous decision.

The resolution was adopted under suspension of the rules.

RECESS.

On motion of Councillor White, the Council voted to take a recess at 3.58 p.m., subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President McCORMACK at 4.48 p.m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WHITE, for the Executive Committee, submitted the following:

1. Report on message of the Mayor and two orders (referred January 3) to determine need for an urban renewal program, and for appropriating \$10,000 for plans, preparation of estimates, etc.—recommending the orders ought to pass.

The report was accepted. The order to determine the need for an urban renewal program was passed, and the order for appropriation of \$10,000 for plans, preparing of estimates, etc., was passed, yeas 8, nays 0.

Yeas—Councillors Ahearn, Foley, Kerrigan, McCormack, McDonough, McLaughlin, Piemonte, White—8.

Nays—0.

2. Report on message of the Mayor and order (referred today), for temporary loan of \$75,000,000 in anticipation of revenue—recommending same ought to pass.

The report was accepted, and the order was given its second reading and passage, yeas 8, nays 0.

Yeas—Councillors Ahearn, Foley, Kerrigan, McCormack, McDonough, McLaughlin, Piemonte, White—8.

Nays—0.

ELECTION OF MANAGERS OF OLD SOUTH ASSOCIATION IN BOSTON.

PROPOSALS FOR PRINTING AND BINDING THE 1956 POLICE LIST IN CONNECTION WITH THE POLICE LISTING OF RESIDENTS OF BOSTON TWENTY YEARS OF AGE OR OVER.

The Listing Board of the City of Boston invites proposals for printing and binding approximately 14,100 pages (6 inches x 9 inches) of names and addresses of residents from the list furnished by the Listing Board of the City of Boston for the year 1956. A total of 160 copies in all, bound as follows: 75 copies of each ward, bound by precinct, pamphlet style, without cover, collated by wards; 75 copies of each ward bound with paper cover, and 10 copies of each ward bound in cloth (color to be determined), indexed throughout, same general style as the 1955 lists, lettered in gold with ward and year on back, and with printed label of ward and precincts on each side.

Delivery of above copies to be made on or before May 16, 1956, in accordance with schedule to be arranged by the Listing Board. Proposals will be publicly opened and read on Wednesday, January 25, 1956, at 12 o'clock noon, at the office of the Police Commissioner, 154 Berkeley street, Boston.

A bidder must use the form of proposal to be obtained at the office of the Police Commissioner, 154 Berkeley street, Boston, and deposit with his bid a properly certified check for \$1,000, payable to and to become the property of the Listing Board of the City of Boston if the proposal is not carried out.

The Listing Board reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as it deems for the best interest of the Listing Board of the City of Boston. Surety bond will be required from the successful bidder in an amount equivalent to 25 per cent of the estimated contract amount.

In doing all work herein described, the contractor will comply with all applicable laws of the United States of America and the Commonwealth of Massachusetts, and ordinances of the City of Boston, including, without limiting the generality of the foregoing, sections 11 to 14, inclusive, of chapter 41 of the Revised Ordinances of 1947 of the City of Boston; and no recovery shall be had on this agreement if a breach of said sections is established.

ONLY TWO MATERNAL DEATHS IN CHILDBIRTH HERE DURING 1955 CREDIT BOSTON WITH BEST RECORD AMONG NATION'S LARGE CITIES

The lowest number of maternal deaths occurring in childbirth of any large city in the United States was Boston's record last year, according to a health survey for 1955 submitted to Mayor John B. Hynes by Boston's Health Commissioner, Dr. John H. Cauley.

There were 23,006 babies born in Boston in 1955, 15,695 of which were to Boston residents. Of this large number of births to Boston mothers only two maternal deaths occurred giving a death rate of 0.1 per 100,000 population, the lowest for any city of over 500,000 residents in the entire country. There were 371 infant deaths, which represent a considerable reduction from the 1954 figure.

Doctor Cauley further notes the "lowest number of deaths from tuberculosis ever recorded in Boston"—a total of 183 in 1955.

In the face of "one of the most serious polio outbreaks since 1918"—in which 29 deaths and 835 cases were reported last year—the health of Boston's residents "generally improved" during the year 1955, according to Doctor Cauley.

Deaths from all causes increased slightly over 1954. The 1955 figure was 11,919, of which 9,418 were residents of the city. This gave Boston a 1955 death rate of 11.5 per 100,000 population, or slightly lower than the national average. No Boston deaths were reported last year from scarlet fever, whooping cough, typhoid fever, mumps, or chicken pox. A single death from diphtheria in each of the past four years mars an otherwise clean slate so far as this once-prevalent disease is concerned.

The first three causes of deaths were again (1) heart, (2) cancer, and (3) vascular lesions affecting the central nervous system. When final figures for the year are available, indications are that this year there will be a decrease in the number of deaths from diabetes.

Accidents continued to pose the fourth most serious cause of death in Boston last year, this in spite of the polio outbreak. Accidental deaths were the fate of 512 Boston residents either in their homes or in traffic or other types of accidents.

Doctor Cauley said: "In the past ten years, major strides in the saving of life have been made in many areas. If, however, we hope to further reduce our death rate in 1956, we must make our citizens more conscious of the accident problem and aware of the necessity for taking advantage of the advances made in modern medicine for the control of communicable and degenerative diseases."

The toll in accidental death and disability is constantly increasing. It is only by recognition of the hazards involved and the constant vigilance on the part of each individual that a reduction in this vital problem of accidents can be achieved. We are living in an age when mechanical devices, traffic hazards and increasing numbers of older people add to this problem.

Modern medicine through the administration of the new drugs and immunization procedure has done much in the control of communicable diseases. The increase in degenerative diseases, such as, heart, cancer, and diabetes can only be checked by vigilance on the part of each individual.

Substantial reduction in tuberculosis mortality reflects the benefits derived from the combined case-finding program and clinic services conducted by the Boston Health Department. Through mass X-ray and clinical facilities, cases are detected early and brought under treatment before the disease gets out of control. Residents of the city should also be complimented for doing their part in the tuberculosis control program. In 1955, over 71,000 Boston residents took advantage of the opportunity to have a periodic free chest X-ray offered by the Health Department.

The continuing sharp decline in tuberculosis deaths is sharply outlined in the figures of the past five years: 183 in 1955; 195 in 1954; 210 in 1953; 270 in 1952, and 297 in 1951.

Figures on Boston's over-all death rate over the past five years show that the 11.5 deaths per thousand population reported last year was only four tenths of one death over the previous year and only one tenth of one death over 1953. Last year's death rate was, however, several tenths lower than 1952 and 1953.

Last year's infant death rate of 0.1 per hundred thousand population compares most favorably with 0.7 in 1954; 0.3 in 1953; 0.5 in 1952, and 0.5 in 1951.

The city's birth rate was 19.2 per 100,000 population last year as compared with 17.5 in 1954; 19.9 in 1953; 18.9 in 1952, and 19.0 in 1951.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

NEW CONSTRUCTION PLANS OF MAYOR HYNES CALL FOR HOSPITAL EXPANSION AND AUTO FACILITY

Plans for new building construction, under city auspices, and totaling more than \$9,000,000, were announced this week by Mayor John B. Hynes.

An \$8,100,000 capital improvement program at Boston City Hospital, including construction of a \$6,500,000 nurses' home, will be presented shortly to the Boston City Council and the State Emergency Finance Board for loan authorization. A 700-car parking facility on Hayward place at a cost of \$1,300,000 is also scheduled for the current year. Whether this facility will be constructed by private capital, or city funds, will be determined at a later date.

Hospital Expansion.

Mayor Hynes said the lack of adequate housing facilities for nurses was a major cause of recurrent nurse shortages at the hospital. He also announced that plans are under way for a \$1,400,000 central maintenance building and a \$200,000 addition to the Administration Building. He termed the projects at City Hospital "an immediate necessity." The new nurses' home will be connected to the Main Hospital Building by a tunnel. It will include a cafeteria.

The New Parking Facility.

An ultramodern elevator-type parking facility for 700 cars will be located on the corner of Hayward place, Harrison avenue, and Norfolk place, in the heart of the retail shopping center. The land has been taken by the city by eminent domain. This will be the fifth facility in the Mayor's parking program. The structure will be 7 and 12 stories high, terraced.

In March, when final plans for the parking facility are completed, the city will advertise for bids for private capital to construct the building and lease it for a 40-year period. According to Herman Carp, Commissioner of the Real Property Department, if this plan is not successful, the city will construct the facility itself and lease it for three-year periods.

DEPUTY PRIME MINISTER OF EIRE TO BE HONORED AT OFFICIAL RECEPTION.

The City of Boston will be host to Hon. William Norton, Deputy Prime Minister of Ireland, at a dinner, Monday evening, January 30, at the Hotel Sheraton Plaza. Mayor John B. Hynes will be the toastmaster.

The distinguished visitor will also be honored by prominent Boston professional and business men and representatives of Irish clubs and organizations in this city who will be the Mayor's guests at the dinner.

At the age of 55, William Norton is very close to the pinnacle in the Irish government. He is the leader of the Labor Party in the Irish Parliament and holds the portfolio of Minister of Industry and Commerce. He first entered Ireland's Parliament in 1926. He has been a member from County Kildare from 1932 to the present year. Mr. Norton is regarded as probably the best orator in the Irish government.

He is on easy and friendly terms with many statesmen of other nations.

Ardently interested in the welfare of the Irish people, Mr. Norton has devoted himself, since he came to office, to an endeavor to solve Ireland's principal problems—the emigration of its youth to other countries. In his visit to the United States—particularly New England—Mr. Norton hopes to interest capital and industrial leaders in establishing new types of industry in Ireland.

Joseph Gannon, president of the Eire Society, has appointed a distinguished group of Boston business, professional, and civic leaders to act as a reception committee for the Deputy Prime Minister when he addresses the Eire Society on Sunday. These include: Hon. John J. Burns, J. Joseph Callaghan, Walter Costello, Mark Dalton, John J. Devlin, Thomas G. Dignam, Dr. William F. Donahue, Edward J. Duggan, Howard Fitzpatrick, Dr. Frank J. Fleming, Dr. Patrick J. Foley, F. Murray Forbes, Jr., Joseph P. Graham, Richard G. Graham, John C. Hagerty, Dr. Thomas A. Kelley, Dr. Vincent J. Kelly, Brig. General William J. Keville, Brian J. Kirby, Joseph Lee, Charles Lynch, Joseph P. Lynch, Daniel J. Lyne, Richard McGuire, Peter J. Mahon, Jeremiah W. Mahoney, J. Joseph Maloney, Jr., Robert E. Mansmann, William H. Marnell, James J. McCarthy, Hon. Fred McMenimen, William E. Mullins, Dr. Albert S. Murphy, Judge James R. Nolen, Joseph E. O'Connell, Lenahan O'Connell, Thomas D. O'Connor, Adrian O'Keefe, Bernard O'Keefe, John E. Sullivan, Jr., Hon. John J. Sullivan, Paul E. Tierney, Philip A. Tracy, James H. Walsh, Albert West, and Frederick P. Williams.

EMERGENCY CONTRACT ON ROXBURY SCHOOL APPROVED.

Mayor Hynes on January 11 approved for the Department of School Buildings, waiving the requirements of advertising, a contract for emergency work on Hyde School, Roxbury, based on the following communication from Superintendent James H. Mooney:

DEAR MR. MAYOR:

Frost action on disintegrated mortar, loose and bulging brickwork, has created a condition which required emergency action and the necessity of erecting a protective platform scaffold over the front entrance of building to prevent injury to building occupants from falling bricks and mortar or the danger of unbonded bricks from falling. Further the erection of scaffolding in three additional locations of sufficient height to reach the

corbeled masonry of parapet wall over fourth-story windows, for inspection purposes.

D. Antonellis, Inc., general contractors, 15 Sparhawk street, Brighton, were engaged to erect the scaffolding-planked protective platforms, etc., and I ask your authority to waive the requirement for advertising and enter into a contract with the D. Antonellis Company in an amount not to exceed \$26,000. The reason for this request is that the brick masonry is so unsound, out of line, and in danger of falling that it must be removed and rebuilt without delay.

The amount of brick work and brown-stone lintels and cornice material to be removed cannot in height be determined at this moment; however, in length it approximates 100 feet on both the north and south elevations and 80 feet on both the front and rear elevations.

Certain areas, the extent of which will be determined as the work progresses, will have to be copper sheathed and copper gutters will have to be removed and reset in some locations as the gutters in some instances are providing support to the corbeled masonry and preventing it from falling into the yard.

Upon your authorization, a regular contract will be negotiated in which will be included the specifications for the work to be performed.

The cost of work will be on the basis of time, labor, and materials as determined by engineers of this department.

Your immediate attention to this matter will be greatly appreciated.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

HOSPITAL TRUSTEES CHANGE PLANS FOR INFANT NURSERY.

On January 20 Mayor Hynes approved the action of the Trustees of the Hospital Department in awarding a contract for the construction of infant nurseries in the Maternity Building, based on the following communication from the President of the Board of Trustees:

DEAR MR. MAYOR:

On June 22, 1954, the trustees awarded a contract to M. Solimando, the low bidder, for the construction of nurseries for infants in the Pediatric Building at the hospital.

Since that time studies have shown that it would be more advisable to build the nursery units in the Maternity Building.

It was voted by the trustees on January 20, 1956, to request your Honor's permission to allow the trustees to cancel the present contract and to award a contract to M. Solimando for construction of the units in the Maternity Building, the cost of such construction not to exceed \$155,000. The construction will be in accordance with plans and specifications prepared by Thomas F. McDonough, architect.

Respectfully yours,

RICHARD J. CONDON,
President, Board of Trustees.

A highway named Dalin place is hereby laid out, from Julian street approximately 190 feet northerly, and ordered constructed.

Said highway and the land, exclusive of trees, shrubs, or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Southerly by the northerly line of Julian street, twenty and 00-100 feet; westerly by the westerly line of Dalin place as hereby laid out, one hundred eighty-six and 74-100 feet; northerly by the northerly line of Dalin place as hereby laid out, twenty and 01-100 feet; and easterly by the easterly line of Dalin place as hereby laid out, one hundred eighty-seven and 30-100 feet.

Trees, shrubs, or structures standing upon or affixed to the aforescribed land, shall be removed therefrom within thirty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of said Dalin place will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improve-

ment herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on a plan heretofore referred to and on file in the office of this commission.

TRANSPORTATION CONTRACT FOR LONG ISLAND APPROVED.

On January 16 Mayor Hynes approved the action of the trustees of the Hospital Department to award, without advertising, a short-term contract to the Eastern Massachusetts Street Railway Company for furnishing daily bus transportation, between Fields Corner and Long Island Hospital, based on the following communication from the trustees:

DEAR MR. MAYOR:

I respectfully request your authorization to dispense with a public solicitation of proposals in the *City Record* and to award a contract to the Eastern Massachusetts Street Railway Company, a Massachusetts corporation with offices at 165 Devonshire street, Boston, Mass., providing for the furnishing of daily bus service, from the rapid transit station at Fields Corner to Long Island Hospital, Boston, Mass., commencing with January 1, 1956, and ending with the last day of the month in which the annual municipal budget of the City of Boston for 1956 becomes effective but in no event later than March 31, 1956, at a cost not in excess of \$12,000. The number of trips is governed by the need, which, at present, is six round trips daily through Friday, three single trips daily through Saturday, seven round trips on Saturdays, Sundays, and holidays, and two single trips on Sundays and holidays. The proposed contract will contain a provision extending to the city an option to renew the contract upon the same terms and conditions and at the same rate to cover the remainder of 1956, terminating on December 31, 1956, if funds are available therefor.

The aforementioned firm has carried on this bus service since its inauguration in the summer of 1951, and has conducted its operations in an efficient and satisfactory manner.

On all the facts, and as this company has the franchise over the route and since it is willing to continue the service under the existing terms and conditions except that the present rate of \$8 per one-way trip has been increased to \$9 per one-way trip, it is my opinion that nothing would be gained by publicly advertising for bids for performance of the subject bus service.

Respectfully yours,

RICHARD J. CONDON,
President, Board of Trustees.

DEPARTMENT CHANGES.

The Director of Administrative Services has approved the following personnel changes:

CONTRACTS AWARDED.

Permission to award the contracts for work, materials, and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

PARKS AND RECREATION DEPARTMENT.

On January 20 the Mayor approved the award of a contract for furnishing and installing a hot water boiler at Smith's Pond Playground, Hyde Park, to the lowest bidder, Seltzer & Co., Inc., of Allston. The bids submitted were:

Seltzer & Co., Inc., \$1,160; Crane Plumbing and Heating Company, Inc., \$1,465; J. W. Praught Company, \$1,646; B. Snyder & Co., \$1,777; P. J. Riley & Co., \$1,831.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with contractors and commercial houses for furnishing labor, supplies, etc. Communications from heads of the departments interested were as follows:

ADMINISTRATIVE SERVICES DEPARTMENT.

Purchasing Division.

Approval has been given for the purchase of a Plymouth Plaza 4-door Suburban for the Boston Municipal Court, without the formality of public advertising, based on the following communication from the Purchasing Agent of the city.

DEAR MR. MAYOR:

This office is in receipt of a requisition from the Municipal Court for the immediate delivery of one (1) Plymouth Plaza 4-door Suburban, 1956, as per specifications, for use as a prison van.

Jacob J. Neitlich, Sumner J. Neitlich, a partnership, doing business as Jack's Motors, has submitted an informal written quotation and has also informed this office that a unit is available for immediate delivery. Inasmuch as prompt delivery is most essential, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Jacob J. Neitlich, Sumner J. Neitlich, a partnership doing business as Jack's Motors. It is my opinion that, in this way, the best interests of the city will be served.

Approximate total amount of contract will be as follows:

1956 Plymouth Plaza 4-door Suburban with equipment, as specified, \$3,049.20;

less discount allowance \$549.20—\$2,500; less federal tax, \$168.75; net total, \$2,331.25.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

On January 20, the Mayor approved, without public advertising, an order to supply Duplex Record paper to the City Clerk's Office as outlined in the following communication from the Purchasing Agent:

DEAR MR. MAYOR:

This office is in receipt of a requisition from the City Clerk's Office for Duplex Record paper as manufactured by the Haloid Company. This company has submitted an informal written quotation.

Inasmuch as this paper is made only by the Haloid Company, it is my opinion that no advantage could be gained by publicly advertising for prices. Authority is therefore requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to the Haloid Company for 60 rolls Record Duplex paper, 11½ x 300 feet, Grade HH, coated both sides, at \$49.85 per roll.

Approximate total amount of contract will be \$2,991, net, 30 days, f.o.b. Boston, Mass. via freight.

Respectfully yours

JOHN V. MORAN,
Purchasing Agent.

Approval was given on January 20 for the purchase of a Ford Country Sedan for Long Island Hospital, without the formality of public advertising, based on the following communication from the City Purchasing Agent:

DEAR MR. MAYOR:

This office is in receipt of a requisition from the Hospital Department, Long Island Division, for the immediate delivery of one (1) Ford Country Sedan as per specifications.

Inasmuch as time is of the essence, informal requests for prices were solicited from several dealers. Bowers Motor Sales, Inc., submitted the lowest bid and has also assured this office that a vehicle is available for prompt delivery.

Authority is therefore requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Bowers Motor Sales, Inc. It is my opinion that, in this way, the best interests of the city will be served.

Approximate total amount of contract will be as follows:

Delivered price, \$2,991; less excise tax, \$81—\$2,910; less allowance on used Pontiac Station Wagon (motor beyond repair), \$350—\$2,560; less cash discount of 1 per cent for payment in 10 days.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

DEPARTMENT OF SCHOOL BUILDINGS.

A contract with P. J. Cantwell & Sons, totaling \$18,000, to repair damage caused by vandals in the Phillips Brooks School, Dorchester, was approved January 20 by Mayor Hynes. Public advertising of the contract was dispensed with on the basis

of the following communication from James H. Mooney, Superintendent of Construction, School Department:

DEAR MR. MAYOR:

On Sunday, January 1, 1956, fire, set by vandals, was discovered in the Phillips Brooks School building, and resulted in considerable damage to the structure, including the plumbing, heating and electrical systems, wall and ceiling plaster, wood finish, flooring, under-flooring, roof, windows, skylight, blackboards, furniture, etc.

I personally inspected the school building on the day of the fire and the condition of the building was such that I ordered P. J. Cantwell & Son to start work of boarding up the building on January 2, 1956, and removing debris from the interior and exterior of the building, which necessitated overtime work and holiday work.

The building of necessity had to be renovated immediately to provide the maximum facilities for school occupancy, and as it was impracticable, if not impossible, to specify each item of work necessary to restore the damaged portions of the building, and as conditions would not permit of delay, I believed it to be in the best interests of the City of Boston to have P. J. Cantwell & Son proceed with the complete renovation under the direction of inspectors of the Department of School Buildings.

Consequently I ask that you approve my action taken in this emergency and authorize me to negotiate a contract with P. J. Cantwell & Son, 644 East Fourth street, South Boston, without public advertising, for the work of all trades necessary to complete the entire renovation of the structure in an amount not to exceed eighteen thousand (\$18,000) dollars.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

SUFFOLK COUNTY.

SUPERIOR COURT.

Civil Business.

On January 20 the Mayor approved the following request of the Clerk of Superior Court, Civil Business, to purchase office supplies from time to time without the formality of public advertising:

MY DEAR MR. MAYOR:

In accordance with provisions of section 1, chapter 156, of the Acts of 1939, I request your approval to dispense with the contract formality of such act, and assign as reasons thereof the following:

It is impossible for the clerk to anticipate the amount and kind of printed forms, lists, books, and office supplies necessary for the proper maintenance of his office. The many forms and lists are subject to change without notice and it would be unwise to place orders in anticipation of a year's supply, as it would result in vast overstocking of many items and a shortage of others.

In addition, it is the duty of the clerk to prepare and promulgate the orders of court and to prepare and mail the various weekly trial lists; also to keep the court and sessions thereof supplied with forms and stationery as needed.

As it is impossible to foresee what supplies are necessary to carry out this duty, I believe the continuance of the practice of ordering supplies as needed should be followed. I call your atten-

tion to the fact that I have been granted this permission each year since I have been clerk.

Respectfully yours,

THOMAS DORGAN,
Clerk.

REGISTRY OF PROBATE.

On January 20 the Mayor approved the following request of the Suffolk County Register of Probate to award a contract for supplying materials to Photostat Corporation, without public advertising:

DEAR MAYOR HYNES:

Permission is requested to award to the Photostat Corporation, Rochester, New York, a contract for the purchase of photostat photographic paper, developer, and acid fixer in an amount not to exceed \$5,000, without advertising for bids. Said paper, developer, and acid fixer are for use in the photostat machine in this department.

No other company can furnish said materials so that there is nothing but expense to be gained by advertising.

I urge your favorable consideration.

Respectfully yours,

ARTHUR W. SULLIVAN,
Register of Probate.

AMENDMENT TO ORIGINAL AWARD OF DAMAGES.

The Public Improvement Commission has voted as follows:

That the amount of \$175 be, and the same hereby is, awarded to Paul J. and Mary B. Oswald for all damages sustained under the order of the Street Commissioners and Mayor as of September 10, 1953, for the laying out and construction of Corey terrace, West Roxbury district.

That the amount of \$25 be, and the same hereby is, awarded to John J. and Mary H. Walsh for all damages sustained under the order of the Street Commissioners and Mayor as of January 15, 1954, for the laying out and construction of Colebrook street, South Boston.

That the amount of \$550 be, and the same hereby is, awarded to Lucy L. Davis for all damages sustained under the order of the Street Commissioners and Mayor as of October 23, 1953, for the laying out and construction of Bowditch road, West Roxbury district.

That the amount of \$155 be, and the same hereby is, awarded to Thomas J. and Marion E. Niles for all damages sustained under the order of the Public Improvement Commission and Mayor as of October 20, 1955, for the widening and relocation of Poplar street, West Roxbury district.

That the amount of \$1,475 be, and the same hereby is, awarded to Antonio and Adelina Campia for all damages sustained under the order of the Street Commissioners and Mayor as of August 26, 1953, for the laying out and construction of Hillis road, Hyde Park district.

That the amount of \$50 be, and the same hereby is, awarded to Antoinette E. Pemberton for all damages sustained under the order of the Street Commissioners and Mayor as of June 11, 1953, for the laying out and construction of Hallron street, Hyde Park district.

EXTRA WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

P. V. Barone Corporation has been directed to perform extra work under a contract for bituminous concrete pavement in Arvale road, Auriga Street Extension, Banton street, Bantry Way, Colebrook street, Garfield avenue, Hillis road, Newland street, and Westville terrace. The contract was dated June 13, 1955. The estimated cost of the extra work is \$107.08.

FIRE DEPARTMENT ORDERS.

General Order No. 6.

I. HENRY J. BYRNES.

It is with deep regret that the Fire Commissioner announces the death on January 17, 1956, of Fire Fighter Henry J. Byrnes of Engine Company 55. Fire Fighter Byrnes was appointed to the department February 1, 1924.

The funeral was held from his late home, 19 Peter Parley road, Jamaica Plain, at 8 A.M., Saturday, January 21, 1956, followed by a Solemn Requiem Mass at Our Lady of Lourdes Church at 9 A.M.

The chief of department made the customary detail to act as funeral escort, and the members of Engine Company 25 were excused from duty in order to attend the services.

II. PROMOTIONS.

The following promotions, which will become effective at 8 A.M., Wednesday, January 25, 1956, are hereby announced:

Fire Lieut. Edward W. Sharkey, Engine Company 30, to fire captain.

Fire Fighter James E. Halpin, Ladder Company 26, to fire lieutenant.

Fire Fighter Francis P. Dowling, Ladder Company 23, to fire lieutenant.

Fire Fighter Thomas F. O'Gara, Engine Company 47, to fire lieutenant.

Fire Fighter John P. Vahey, Ladder Company 20, to fire lieutenant.

Fire Fighter John J. Waldron, Ladder Company 23, to fire lieutenant.

III. ASSIGNMENT AS ASSISTANT PUBLIC RELATIONS OFFICER.

The following assignment, which became effective at 8 A.M., Wednesday, January 18, 1956, is hereby announced:

POLICE DEPARTMENT ORDERS.

General Order No. 2,158.

Acting under provisions of chapter 32, section 7, as amended (State-Boston Retirement System), the Boston Retirement Board has approved for retirement on account of accidental disability, the following-named police officer, effective at the close of business Tuesday, January 31, 1956.

In view of this operation of law, after January 31, 1956, the said police officer shall no longer be an active member of this department, and it is hereby ordered that its records be so amended:

Detective Peter A. DiSessa, Bureau of Criminal Investigation.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,159.

The Police Commissioner having heard the complaint of Joseph J. Cummings, lieutenant, commanding Division 7, against Patrolman Joseph J. Borkowski, Division 7, on Wednesday, January 4, 1956, at Police Headquarters, charging him with violation of the Rules and Regulations of the Boston Police Department, has made a finding of guilty.

Therefore, it is ordered that the said Patrolman Joseph J. Borkowski be suspended for a period of thirty days, effective as of Thursday, January 5, 1956, at 5.45 o'clock P.M.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

PROCEEDINGS OF CITY COUNCIL.

Monday, January 16, 1956.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 p.m. President McCORMACK in the chair, and all the members present.

Rev. William D. Keenan, of St. Thomas Aquinas Roman Catholic Church, Jamaica Plain, was escorted to the rostrum.

INVOCATION BY REV. WILLIAM D. KEENAN.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Our Father, Who art in heaven, hallowed be Thy name. Thy kingdom come. Thy will be done on earth as it is in heaven. Give us this day our daily bread and forgive us our trespasses as we forgive those who trespass against us, and lead us not into temptation, but deliver us from evil. Amen.

O God, in the name of the Father, and of the Son, and of the Holy Ghost, instruct the hearts and minds of the faithful in the meaning of Thy holy spirit, that they may always be wise in the guidance of their councils according to Thy holy spirit.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

REPORT OF CITIZENS' COMMITTEE STUDY OF POLICE DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, January 11, 1956.

To the City Council.

Gentlemen:

The order adopted by your Honorable Body on January 9 requesting a copy of the Citizens' Committee Survey of the Police Department cannot be complied with as there are no copies of such survey ready for distribution for the reason that no final report has yet been produced by the committee. Preliminary studies have been made but the studies are not completed and the whole committee has not yet taken action in this respect. When the report is finally completed I shall be pleased to have copies sent to the City Clerk and the members of the City Council.

Respectfully,

J. B. HYNES, Mayor.

Referred to the Executive Committee.

RECESS.

The Chair declared a short recess at 3.16 p.m., for the purpose of presenting to the members of the Council Rev. Francis P. Ready, Sister M. Elnara, and Sister M. Lurana, all of the Gate of Heaven Catholic Church, South Boston, and Mr. Joseph F. Toomey and his son, Edmund Toomey.

During the recess, President McCORMACK presented an embossed copy of the resolution of the City Council adopted on December 29, 1955, to Edmund Toomey congratulating him on his essay, "Voice of Democracy." President McCORMACK also congratulated his father, Sister M. Elnara, his coach Sister M. Lurana, and the Rev. Father Ready, for the wonderful work done by them in their guidance and influence of Edmund Toomey and others like him. Master Toomey expressed his deep gratitude to the City Council for thus honoring him in this manner.

LEGISLATION FOR CHANGE IN FISCAL YEAR.

The following was received:

City of Boston,
Office of the Mayor, January 13, 1956.
To the City Council.

Gentlemen:
I transmit herewith communication from the Corporation Counsel relative to your order of January 3, 1956, concerning the preparation of legislation to change the city's fiscal year from a January 1 to December 31 fiscal year to a July 1 to June 30 fiscal year.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Law Department, January 9, 1956.
To the City Council.

Gentlemen:
I am in receipt of your order of January 3, 1956, for the preparation of legislation to change the city's fiscal year from a January 1 to December 31 fiscal year to a July 1 to June 30 fiscal year.

Without doubt, a July 1 to June 30 fiscal year would have many advantages. To put it in operation, however, some provision must be made for the six months transition period from January 1 to June 30 intervening between the last January 1 to December 31 fiscal year and the first July 1 to June 30 fiscal year. More specifically, the problem is the source of the money with which to run the municipal government during this six months transition period. In excess of \$50,000,000 is needed. To provide such a sum by a bond issue would imperil the city's credit rating; and to raise it by taxation would put an unconscionable burden on the taxpayers. Up to the present time, and I have been giving thought to the matter over the years and not just since receipt of the above-mentioned order, no satisfactory solution to this dilemma has been found; and the above-mentioned order suggests none. In the circumstances, I am not in a position to draft the legislation requested.

Respectfully,

WILLIAM L. BAXTER,
Corporation Counsel.

Referred to the Committee on Appropriations and Finance.

REPLACING ALL GAS LAMPS.

The following was received:

City of Boston,
Office of the Mayor, January 13, 1956.
To the City Council.

Gentlemen:
I transmit herewith communication from the Commissioner of Public Works relative to your order of January 3, 1956, concerning the advisability of replacing during the year 1956 all gas lamps in the City of Boston and that said program be financed by a loan order.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
January 9, 1956.

Harold B. Flemming,

Chief Clerk, Mayor's Office.

Dear Mr. Flemming:

This is in reference to the following order that was passed in the City Council under date of January 3:

"Ordered, That his Honor the Mayor confer with the Commissioner of Public Works on the advisability of replacing during the year 1956 all gas lamps in the City of Boston and that said program be financed by a loan order."

With reference to the above, I submit below a tabulation showing the progress that has been made in the past six years in eliminating the gas lamps and replacing them with modern electric street lights:

Date	Number	Removals During		Balance
		Year		
January 1, 1950	6,974	1,156	5,818	
January 1, 1951	5,818	1,074	4,744	
January 1, 1952	4,744	476	4,268	
January 1, 1953	4,268	640	3,628	
January 1, 1954	3,628	246	3,382	
January 1, 1955	3,382	274	3,108	
January 1, 1956	3,108			

We have made a concerted effort to modernize all street lighting facilities in the city, and have been reasonably successful in connection with the elimination of gas lamps, although the progress has bogged down in the past two years. I have given the Boston Edison Company carte blanche authority to eliminate the gas lamps as fast as possible, but they have informed me, within the past several months, that their organization is geared to remove approximately 600 per year. This would mean that it would take about five years to eliminate all the remaining lamps. In view of this, and in keeping with the spirit of the above-referenced order, it is my intention to arrange for a conference with his Honor the Mayor, and Vice President Timothy J. Regan of the Boston Edison Company, in the very near future, to determine what steps can be taken to expedite the elimination of all the remaining gas lamps, and provide modern electric street lights, which not only provide for pedestrian safety, but unquestionably act as a deterrent to crime.

Generally speaking, there is no cost to the City of Boston in the removal of gas lamps and the substitution of overhead connected electric lights.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

REPORT OF COMMITTEE ON CONFIRMATIONS.

Coun. KERRIGAN, for the Committee on Confirmations, submitted the following:

Report on appointments by the Mayor (referred January 3) of Quirino Sticco and Lawrence P. Antonetti as constables with authority to serve civil process upon filing of bond, for term ending April 30, 1956—recommending that appointments be confirmed.

The report was accepted, and the question came on confirmation. Committee, Councillors McLaughlin and McDonough. Whole number of ballots 9, yeas 9, and the appointments were confirmed.

REPORT OF COMMITTEE ON LICENSES.

Coun. McDONOUGH, for the Committee on Licenses, submitted the following:

1. Report on applications (referred September 12, 1955) for commercial use shellfish permits for Charles N. Dabritz, Benjamin C. Bailey—recommending no further action is necessary.

The report was accepted.

2. Report on application (referred December 19, 1955) for commercial use shellfish permit for John J. O'Neil—recommending no further action is necessary.

The report was accepted.

3. Report on applications (referred January 3) for commercial use shellfish permits for David F. Fullerton and Maurice X. Roche—recommending that permits be granted.

4. Report on applications (referred January 9) for commercial use shellfish permits for Edward W. Elms, Anthony J. Ferragamo, and Rupert Y. Hodgkins, Jr.—recommending that permits be granted.

INFORMATION ON TAPE RECORDERS.

Coun. FOLEY offered the following:

Ordered, That the City Messenger obtain estimates of prices from all sources available as to the following:

1. Rental of two small tape recording machines for a two-month period.

2. The cost of transcribing the taped material onto long playing permanent records.

Passed under suspension of the rules.

ASSISTANCE OF BOSTON MUNICIPAL RESEARCH BUREAU ON ANNUAL BUDGET.

Coun. FOLEY and McLAUGHLIN offered the following:

Whereas, It has been the practice of the Boston Municipal Research Bureau to provide expert technical assistance to the executive branch of the city government, its departments, and agencies when needed without charge to the city; and

Whereas, The annual examination of the municipal budget is of extraordinary importance for the proper guidance of the city's operations; and

Whereas, The Appropriations Committee of the Council could much more efficiently discharge its duties with technical assistance provided; be it therefore

Resolved, That the Boston Municipal Research Bureau is hereby requested to furnish the Boston City Council and the Committee on Appropriations and Finance thereof, free of charge, a qualified technical assistant to aid it in its annual examination of the municipal budget for the period February 1, 1956, to April 12, 1956.

Coun. PIEMONTE moved to amend the foregoing resolution by adding at the end thereof the following: "and to furnish the City Council prior to the budget hearings with suggested recommendations relative to the 1956 budget."

The motion was carried. The resolution as amended was adopted under suspension of the rules.

REPORT OF EXECUTIVE COMMITTEE.

Coun. WHITE, for the Executive Committee, submitted the following:

Report on communication from James J. Hughes, President of Local 414, B.S.E.I.U. (referred December 5, 1955), re salary adjustments in Maintenance Division of Fire Department—recommending passage of accompanying order:

Ordered, That the Corporation Counsel furnish the City Council on or before the first meeting of February, 1956, with a legal brief and opinion regarding the status of the civilian members of the Maintenance Division of the Boston Fire Department with respect to their relation to uniformed members of the Fire Department; and said brief to specifically include the query as to whether or not said civilian employees are employees within the Fire Department and the application of the case of Nolan v. Boston Firemen's Relief Fund, 236 Mass. 420 to this question.

The report was accepted, and the order was passed.

SANDING OF STREETS.

Coun. AHEARN offered the following:

Whereas, The failure to properly sand our city streets on time on the occasion of recent sleet and freezing rainstorms has endangered the lives and property of our citizens, both pedestrians and drivers of vehicles; and

Whereas, This danger could be largely eliminated by better planning; now therefore be it

Ordered, That his Honor the Mayor direct the Public Works Commissioner to revise the present system for sanding streets so that the need for sanding streets shall be properly anticipated and necessary equipment be made available so that the streets shall be sanded sooner and better on the occasion of icing conditions.

Passed under suspension of the rules.

ESTABLISHING BOSTON DEVELOPMENT AND INDUSTRIAL COMMISSION.

Coun. AHEARN offered the following:

Whereas, The City of Boston is suffering from the flight of industry from our city and the failure of sufficient new industry coming into the city; and

Whereas, We no longer have a Boston Chamber of Commerce as such, which would be exclusively interested in building a better Boston; and

Whereas, There is need for an efficient City agency properly set up and professionally staffed and devoted exclusively to keeping the business we now have in our city and promoting and encouraging new enterprise to come into our city; and

Whereas, The necessary permissive state legislation which would allow the expenditure of funds for such an agency is now available to us and has been accepted by the City Council; now therefore be it

Ordered, That his Honor the Mayor is hereby requested to take immediate advantage of section 8A of chapter 40 of the General Laws accepted by the Boston City Council for the purpose of establishing a Boston Development and Industrial Commission.

Passed under suspension of the rules.

BOSTON PUBLIC LIBRARY.

Coun. PIEMONTE offered the following:

Ordered, That Milton Lord, Director of the Public Library, be, and is hereby, requested to appear before the Executive Committee of the Boston City Council on Monday, January 23, 1956, at 3 P.M., to inform this Honorable Body, in detail, of the steps taken, if any, to obtain reimbursement for the City of Boston for the non-resident use of the Central Library; what steps, if any, have been taken to establish a charge for use of the research room; a written memo in detail listing each fund or bequest of which the library is beneficiary, stating the donor's name, date of the trust or gift, the language creating the trust and gift; and further that said director or a representative come prepared to discuss the income and expenditures received or expended with respect to each of these trusts during each of the past ten years; and that a copy of this order be forwarded to the said Milton Lord.

Coun. McCORMACK moved to amend the foregoing order by inserting at the end thereof the following paragraph:

"Ordered, That Milton E. Lord, Director and Librarian of the Boston Public Library, be invited to meet with the Executive Committee at this meeting to discuss the over-all program of branch libraries and the library research department."

The motion was carried. The order, as amended, was passed under suspension of the rules.

REPLACING OF ALL GAS LAMPS.

Coun. PIEMONTE offered the following:

Whereas, The replacing of gas lamps with modern electric lights provides for better pedestrian safety, and is in keeping with the modern city practices, and acts as a deterrent to crime; and

Whereas, The Commissioner of Public Works has given the Boston Edison Company carte blanche authority to eliminate the gas lamps as fast as possible; now, therefore, be it

Resolved, That the Boston City Council, in meeting assembled, urge the Boston Edison Company to accelerate said program of replacing gas lamps with electric lights and, further, that every effort be made to complete the elimination of every gas lamp in the City of Boston and to replace the same with electric lights on or before December 31, 1956; and that a copy of this resolution be forwarded to the Boston Edison Company, with a request that this Honorable Body be furnished with a report.

The resolution was adopted under suspension of the rules.

Adjourned at 6.21 P.M., on motion of Councillor Kerrigan, to meet on Monday, January 23, 1956, at 2 P.M.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

(Stenographic copy of such debate on file in office of City Clerk.)

POLICE PENSIONS AND BENEFITS.

On December 1, 1952, there were 709 persons on the pension roll. During the year 25 died, 68 were added, leaving 752 on roll to date, 676 pensioners and 76 annuitants. Payments on account of pensions and annuities during the past year amounted to \$1,377,183.62, and it is estimated that \$1,717,827.71 will be required for pensions and annuities in 1954.

The City of Boston, George Robert White Fund, by and through the Trustees, herein-after referred to as the Awarding Authority, invites sealed proposals for erecting and completing the office building at 480 Boylston street, Boston, Mass.

Proposals will be received until 12 o'clock noon, February 16, 1956, at the office of the George Robert White Fund, Room 36, City Hall, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy,

which is part of the book of specifications, shall be filed at the office of the Awarding Authority, designated above, another copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, George Robert White Fund, in the sum of \$45,000, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

All subbidders' proposals, filed with the Awarding Authority, shall be submitted in sealed envelopes plainly marked with the title of the work, division of the work for which bid is submitted, subcontractor's name, and subcontractor's business address. All such bids shall be in the possession of the Awarding Authority and delivered or mailed to the general contractor no later than 12 o'clock noon, Tuesday, February 14, 1956.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, George Robert White Fund, in the amount as specified in the following for the various subbid items of work as listed below, shall be submitted by each subbidder with the copy of his proposal filed with the Awarding Authority:

MAYOR HYNES LEADS FIGHT FOR BOSTON AREA SHARE IN NEW NATIONAL ROADS PROGRAM NOW BEFORE U. S. CONGRESS

Boston is prepared to fight for its share of the Federal Highway Program now pending in Congress. Mayor John B. Hynes has sent out invitations to the chief executives of all the Greater Boston cities and towns to meet with him later on this month and draw up the battle lines. The Mayor is deeply concerned about reports emanating from Washington that Massachusetts is to be "short changed" under the proposed federal aid program on road construction. He is disturbed by information from the same source that Boston will not get even a "farthing" toward new roads under the currently proposed program.

The Commonwealth of Massachusetts had expected grants for at least 200 miles of new highway. According to information received by Mayor Hynes, this state is slated to receive funds for only 68 miles of new construction. Governor Christian A. Herter is reported to be following the proposed legislation with great zeal and has instructed his personal representative in Washington to keep him constantly informed of any variations in the thinking among the administrators of the United States Bureau of Roads.

The American Municipal Association, of which Mayor Hynes is an executive committee member, has sounded the alarm on the federal roads program to all the large cities in the country and is sponsoring "grass roots" assemblies among municipal executives in every section of the nation. At hundreds of these meetings the mayors and selectmen are expected to learn the terms and conditions of the proposed program and to join hands in protecting the rightful interests of their particular areas. The meeting called by Mayor Hynes at the Parker House, on February 23, will be a "Dutch treat" luncheon. An effort will be made then to unite the chief executives of the Greater Boston communities toward a single objective — a fair share of whatever funds the Congress of the United States sees fit to appropriate under the pending federal roads program.

If, in the allocation of federal road funds, Boston is left out in the cold, this fact will have an exceedingly disappointing effect upon residents of Charlestown, South End, Roxbury, and Jamaica Plain who live in the shadow of the noisy and dirty "El" structure. Last year, while the Administration's Federal Highway Program was being discussed, hope was given them by Massachusetts congressional leaders that funds might be made available to assist the state in removing Boston's most damaging blight and putting the high-speed transit service under the ground. Because one of the compelling reasons for the national roads program was to provide egress from congested areas in time of a bombing attack, federal officials seemed impressed, so Massachusetts members of Congress have stated, with the practical advantage of ridding two of Boston's main traffic arteries of the hazardous, cumbersome, "El" structure, and the construction of a tunnel which would be an asset instead of a drawback to rapid, mass transportation in time of extreme emergency.

The present pattern of arterial highways through Boston, being built with state funds, achieves even now some of the aims and objectives of the proposed federal program. Many feel that Massachusetts should get federal money to aid in the completion of this work. If this is brought about, state officials have assured our Public Works Department that the city would get the advantage of freed state cash to be spent on other important road building projects within the city — projects which are acknowledged to be of pressing necessity in the efficient movement of traffic.

Mayor Hynes was assured that strong protest has been made by United States Senators Leverett Saltonstall and John F. Kennedy, and Majority Leader John W. McCormack against the present plan which deprives Massachusetts and Boston of their just share of the proposed federal appropriations. In the forefront of those working with Mayor Hynes to obtain just allocation of funds, when, and if the Federal Highway Program is adopted, is Boston Public Works Commissioner George G. Hyland. Taking part in the discussions at the Parker House will be John A. Volpe, State Commissioner of Public Works, and a representative of the United States Bureau of Public Works, which agency will be charged with the responsibility of allocating whatever funds are appropriated under the administration's bill, and Commissioner Hyland.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

NATHAN HASKELL DOLE.

CEASELESS EFFORTS TO MAKE BOSTON A SAFE CITY DESCRIBED IN PUBLIC SAFETY COMMISSION REPORT

Boston's new Public Safety Commission filed a report with Mayor John B. Hynes this week covering its first full year as a coordinating agency in the promotion of a well-thought-out plan to make this city safer for its men, women, and children.

Set up under the Mayor's departmental reorganization formula, the commission is composed of the Director of Administrative Services, the Building Commissioner, and the Health, Fire, and Traffic Commissioners.

The report covers the commission's studies during the year 1954 and lists recommendations covering 18 widely different subjects affecting the health and safety of Boston's citizens and the activities of the various city departments in promoting the public safety.

COMMISSION'S REPORT.

This is the first full year in which the Public Safety Commission has been functioning and the coordination of work programs among the Building, Fire, Health, and Traffic Departments has been the main theme during the year, in addition to general safety measures which have been discussed and upon which recommendations have been made whenever it was found that the safety of the public was endangered in any way.

In accordance with the provisions of chapter 2, section 25, of the Ordinances of 1954, a meeting was held once each month.

The commission, as organized in 1954, with Charles J. Fox, Director of Administrative Services, as Chairman, and Charles A. Callanan, Building Commissioner, as Secretary, remained the same.

Subjects discussed and studied during the year were varied in character but were confined solely to the category of "general public safety" which was the general intent of the ordinance as adopted. It will be noted that many of the subjects listed in this report are duplications of 1954 studies but it must be remembered that new ideas and new procedures in safety measures are initiated every day throughout the country, thereby making it necessary to repeat and repeat again studies that have been made not only in a current year but previous years as well. Keeping up to date on new procedures in the matter of public safety requires vigilance and thorough examination of all facts presented and this Board has adhered to this practice since its inception in May of 1954.

Submitted herewith is a list of the subjects covered, with a brief comment on each subject:

ELEVATOR OPERATIONS.

During the year, 1954, members of the Fire Department Rescue Squads were being trained in elevator operations by elevator inspectors of the Building Department with a view to eliminating unnecessary damage during rescue operations, and we are pleased to report that this program has been completed with resultant savings to many property owners throughout the city.

The commission has cooperated in every way with the State Board of Elevator Regulations which has prepared a revised code, which, when it goes into effect, should reduce elevator accidents to a minimum not only in Boston but throughout the Commonwealth. Hearings are now being conducted on said revisions and it is the hope of the commission that favorable action will be taken thereon in the very near future.

EMERGENCY RESPONSE SERVICE.

This study, initiated in 1954, with a view to coordinating Medical and Fire Department facilities in the case of emergency accident cases, culminated in the training of medical-aid men for ambulance service and utilization of Fire Department Rescue Squads only in cases connected with fire emergencies, thereby relieving Rescue Squads of many unnecessary calls and keeping them in readiness in the event of a major fire.

RUBBISH REMOVAL IN "NEW YORK STREETS" AREA.

During the early part of the year considerable difficulty was entailed in keeping certain sections of the "New York Streets" area clean. Some of the residents of this district, learning that the area was to be demolished in connection with the slum clearance program, became careless and indifferent in the disposal of rubbish and it was necessary for the Fire Department, with the cooperation of the Health Department, to take steps to remedy the situation. The program met with success after abutting property owners were notified by Health and Fire Department personnel of existing conditions and informed of the health and fire hazards attendant to unwarranted disposal of rubbish and trash in city streets and vacant lots adjacent to the area.

PERSONAL SAFETY — HOME ACCIDENTS.

The Health Commissioner, a member of the commission, has been cooperating and working with the Metropolitan Health Officers' Association in the education of the public in home accident prevention. This program, covering all phases of home accident prevention, included drownings, sunburns, scaldings, poisonings, etc., has been progressing successfully during the year through the distribution of pamphlets and publicized instructions throughout the Metropolitan Boston area.

The commission has been happy to cooperate in this all-important work and intends to augment the program and accentuate public interest in the various aspects of this educational program, so long as the need exists.

COASTING STREETS.

Prior to the reorganization of city departments, the function of designating coasting streets within the city was delegated to the former Board of Street Commissioners and after the reorganization, this function was delegated to the Public Works Commissioner. In view of the fact that the Traffic Department regulates traffic throughout the city

and supplies the Police Department with coasting signs each year for the protection of coasters, it was the opinion of this commission that the function of designating coasting streets throughout the city should be transferred to the Traffic Commission where stricter controls could be attained and a more systematic plan for the designation of such areas could be placed in effect.

The Law Department has drawn up an amendment to present legislation to legalize the transfer of authority from the Public Works Commissioner to the Traffic Commission and we trust that the General Court will act favorably on this measure during the present year.

ALL-NIGHT PARKING.

Several discussions were held on the legalizing of all-night parking on alternate sides of the streets in various sections throughout the city. Traffic Commissioner Reilly has worked diligently on this matter and we are pleased to report at this writing that an informal notification has been received from the State Department of Public Works to the effect that this recommendation would receive favorable action and consideration. When and if, favorable action is taken, it will be necessary to erect signs in every section of the city at a cost of approximately \$10,000.

This plan has worked out successfully in many other large cities and it is the commission's belief that night-parking restrictions confined to one side of a street in various sections of the city will result in less traffic congestion and smoother accessibility for fire, police, and hospital apparatus in all cases of emergency. The amount involved to place this proposed plan in operation is infinitesimal when the saving of even one human life is the important issue to be considered. We are hopeful that this plan can be put in operation at an early date.

POLIO EPIDEMIC.

During the summer months there was a substantial increase in polio cases over recent years with similar conditions being prevalent in other areas of the country, although in many of these other areas, the situation was more serious than in Boston.

The Health Department and City Hospital officials were in constant contact with the State Department of Public Health, Doctor Enders (Nobel Prize Winner), and the top doctors at the Children's Hospital from the middle of March until after the epidemic reached its peak in September. Several conferences were held and ideas exchanged on the treatments that should be administered to victims and on procedures to be taken to prevent the spread of the disease. Twenty thousand children were inoculated with Salk vaccine the latter part of May and the question of giving a second inoculation is now being considered by the State Department of Public Health. All precautions known to medical science were taken by the medical officials of our city to stem the outbreak and it is the opinion of this Board that were it not for the cooperation and assistance of the various medical authorities mentioned herein, the number of victims would have been much larger, the number of recoveries much smaller. The situation was met in an intelligent and tactful manner and it is the opinion of Doctor Cauley, the Health Commissioner, that the situation this year and the following year will not be as serious

as 1955 because of the vaccine inoculations given to a greater part of the younger age groups the early part of 1955, where the disease appeared to be more or less centered.

At the recommendation of this Commission, a survey was made of all available hospital space under the city's jurisdiction to provide additional facilities for polio victims, and the results of this survey, which proved most beneficial and helpful this year, have been filed in the offices of the Health Department for future reference, if hospital facilities should again become an issue.

TRAFFIC LIGHTS.

With the cooperation of the Traffic Commission, studies were made of those sections in the city in need of traffic light installations and it was found that some one hundred locations merited consideration, at an estimated cost of \$2,500,000. Because of the tremendous expense attached to this program which would require an appropriation making further increases in the tax rate necessary, it was the opinion of the commission that consideration should be given to financing part of this project either through an Equipment Loan or some other method whereby the cost would be distributed over a period of years and the most hazardous spots in the city would be supplied with traffic lights in the order of their need.

CENTRALIZED LICENSING BUREAU.

Discussions were held on several occasions regarding the feasibility of establishing a Centralized Licensing Bureau for the issuance of licenses and permits of various character. Although this subject ordinarily would be a subject for consideration by the Administrative Services Board, it was agreed that in view of the fact that the Building, Fire, Health, and Traffic Departments issue a greater part of all licenses and permits issued throughout the city, preliminary discussions by this Board were in order.

Many of the phases attendant to an agency of this character were discussed and considered, including a suitable location, the merging of various permit and license divisions attached to different departments, administrative supervision, etc. It was the contention of the Board that a long-range study would be necessary to coordinate procedures but that, first and foremost, a study by the Law Department would be imperative before any definite action could be taken. There are so many conflicting statutes pertaining to procedures and departmental jurisdiction that would of necessity have to be amended that it was the consensus of opinion that Law Department study and review would be the first necessary step in bringing proposed plans and recommendations to a successful conclusion.

The Law Department has this matter under consideration at the present time and as soon as a report is received from the Law Department, necessary amendments to existing statutes prepared, and final action is taken by the Legislature, the program can then be approached on a more intelligent and definite basis.

TRAFFIC PAINTING PROGRAM.

With the full cooperation of the Traffic Commission, a program was initiated this year for the painting of all center line traffic lanes, cross-walks, parkways, etc., throughout the city, utilizing city help rather than private contractors.

The program was most successful and a continuance of the same this year and following years has been recommended.

DISPOSAL OF RADIO-ACTIVE SUBSTANCES.

Continued study has been made on this subject, which is becoming more serious as time passes. When this subject was brought to the commission's attention by Doctor Cauley in the early months of 1954, studies by Federal, State, and local authorities were in a preliminary stage, but since that time, the Atomic Energy Commission has issued circulars and instructions covering their findings to date. A definite and consistent plan for the disposal of these substances has not been formed up to the present time, but, nevertheless, every safeguard and precaution is being taken until the results of present studies by the Atomic Energy Commission, the State Department of Public Health, and the Legislature, which body will authorize certain city divisions to control disposals of this nature, have been consummated.

ELIMINATION OF PARKING IN SHOPPING AREAS.

Studies have been conducted by the Traffic Commission, at the request of this commission, regarding the feasibility of eliminating passenger cars from the narrow streets surrounding the retail shopping district, limiting the use of these streets to pedestrian traffic and trucks making and receiving deliveries.

Final studies have not been completed up to the present time but it is believed that if such a plan could be placed into operation, even on a temporary basis during the heavy shopping seasons, it should result in a smoother flow of pedestrian traffic throughout the various stores and streets in the area and should eliminate many types of accidents caused by the heavy concentration of passenger cars in the area.

ADVISORY HEALTH COUNCIL.

A recommendation that an "Advisory Health Council" be established in the Health Department to advise and counsel the Health Commissioner on matters relating to the public health of the community was considered favorably by the Commission and the necessary ordinance to legalize the establishment of the same is being prepared by the Law Department for submission to the City Council and Mayor for final approval.

UNSAFE AND DILAPIDATED BUILDINGS.

Unsafe buildings have been a sore spot in the general atmosphere of certain sections of the city notwithstanding the fact that they are always conducive to the hazards of fire and health. Many discourses were held on the procedures to be followed by the Health, Fire, and Building Departments in meeting the situation. In the most urgent cases, constructive progress was made, but due to the unavailability of necessary appropriations, it was only possible to touch the surface. It is intended, during the present year, to make sufficient funds available for this all-important program, with a view to eventually clearing the city of those eyesores that contribute nothing to the community but only mar the beauty of a well-kept neighborhood, and at the same time create health menaces and fire hazards in many locations.

CIVIL DEFENSE—HURRICANE AND FLOOD CONTROL.

With the advent of hurricanes and floods in this area, several conferences

were held with the Civil Defense Director, Joseph Malone, with a view to coordinating the work of various city agencies with that of Civil Defense. After careful study and consideration, plans were devised whereby equipment and men from all agencies involved would be utilized to the greatest extent in the event of a major disaster attributed to hurricanes, floods, or any other type of catastrophe striking any area of the city.

We believe that preparedness and common sense should supersede any other consideration at the present time, if we are to face realities of this character in the future.

BICYCLE ACCIDENTS.

The commission's attention was directed to the death of a young boy, under date of September 20, who was killed while riding a bicycle, and a review of bicycle accidents during the past five years disclosed the fact that a total of three (males) lost their lives from accidents of this nature and 562 were injured. The highest number of injuries during this period was recorded in 1950, with a total of 117 as against 56 in 1955. These figures indicate that the hazard has decreased over 100 per cent in the five-year period, but, nevertheless, the danger still exists and it was the commission's opinion that something should be done in the matter of control or supervision, as the Traffic Commission is unable to set up official regulations because of the fact that a bicycle is not classified as a vehicle because it does not run under its own power.

Consideration is now being given to the feasibility of drawing up an ordinance giving the Traffic Commission authority to regulate vehicles in this category.

HOMES FOR AGED, NURSING HOMES, ETC.

The Health Department reports to the State Department of the Public Health periodically during the year on conditions and operations existing in Homes for the Aged, Nursing Homes, Convalescent Homes, Day Nurseries, etc., regarding inspections covering sanitation, food, medicine, health, education, and nursing. In this connection, the Board's attention was directed to a request from the State Department of Nursing for closer supervision of these institutions in the matter of zoning, fire hazards, electrical hazards, etc. It was learned that in view of the fact that such institutions were licensed by the Health Department, the Fire and Building Departments did not devote the attention that would ordinarily be given to structures of this character, with the result that electrical, building, and other types of alterations were being made without securing permits or licenses from the departments concerned. By a vote of the Board, letters were sent out to the two hundred and some odd institutions located throughout the city informing them of building and fire code regulations and inspections proposed during the coming year and hereafter.

Another item that was directed to the Board's attention by Mr. Callanan, the Building Commissioner, concerned procedures now being followed by owners or operators of institutions, above mentioned, seeking licenses for extension of facilities to an upper floor where construction consisted of wooden buildings. The Building Code limits operations in wooden buildings to the first floor, and in many cases where petitions were denied by the Building Commissioner for extensions to an upper floor, petitioners then appeared before the Board of Appeal and received favorable action.

By a vote of the Board, a letter was forwarded to the Board of Appeal the latter part of the year pointing out the possibility of a violation of the Building Code, the hazards attendant to the extension of facilities to an upper floor, and the Board's opposition to the granting of such extensions over the decision of the Building Commissioner.

MISCELLANEOUS.

The Health Commissioner, with the co-operation of the members of this commission, has compiled a revised code for various city services which has been forwarded to the Law Department for study and approval and it is believed that this document will be ready for distribution the early part of 1956. In order to bring codes up to date, that have been more or less obsolete during the past decade, many hours of study and research were required and we believe that this document will prove valuable both to the city government and the public in general.

The Fire Department has been most active during the year, at the recommendation of this commission, in publicizing through the press, radio, and television, fire prevention measures which have proven helpful and educational to the public, and especially to children, whose knowledge in this field is negligible.

Recommendations of the National Safety Council have been analyzed and studied, with a view to improving our standing among other large cities of the country in public safety. Progress studied included death and injury records, accident facts, traffic engineering, police traffic supervision, school traffic safety programs, and public safety education generally, with special emphasis being placed on parking facility studies covering both the City Proper and outlying districts. It might be well to note herein that motor vehicle fatalities within the city decreased from 43 in 1953, just prior to the establishment of this commission, to 32 in the current year, indicating that this commission's activities were not in vain.

The simplification of procedure in the issuance of permits for electrical work in the Electrical Inspection Division of the Building Department has been the subject of discussion on several occasions. Complicated fee schedules and delays in the issuance of permits because of the length of time required to finish certain types of electrical work were the main causes of dissension among electrical contractors. Being an administrative matter, the Administrative Services Department, headed by Mr. Fox, who is also chairman of this Board, is at present making a study of present procedures with a view to improving the situation and placing procedures on a more businesslike basis by simplifying present fee schedules, if possible, and eliminating delays in the issuance of permits, wherever practicable.

Ladder crews and engine companies in the Fire Department were instructed and trained in the intricacies of lifting trucks, automobiles, and other heavy apparatus, which training was confined only to Rescue Squads in the past. Now, when Rescue Squad men are not immediately available, these men will be in a position to handle the matter efficiently and in the same manner as the Rescue Squad men.

Another action of the commission was motivated by an experience of the Fire Department reporting to a call in the vicinity of the Elevated railway structure

on Atlantic avenue. It appeared that the electric power of the MTA was shut off, leaving a passenger train stranded on the tracks within the area of the fire. Subsequently a meeting was arranged between MTA and Fire Department officials resulting in maps being furnished to district chiefs setting forth MTA routes and lines in order that apparatus in the future would be stationed in areas that would not interfere with MTA transportation.

Another Fire Department matter that received attention concerned negligence on the part of various hotels and restaurants in the cleaning of grease flues which, in several cases, caused fires.

Arrangements were made to have inspections conducted by the Fire Department of all hotels and restaurants throughout the city, with a regular program of annual inspections being instituted for the future.

A proposal of the Traffic Commissioner, William Arthur Reilly, for a pedestrian overpass in the Dewey Square section of Boston (South Station), where the new highway is now under construction, was studied and considered by the commission. The state plan called for a traffic tunnel, but it was the consensus of opinion that a greater part of the people traveling to and from the South Station would be more apt to cross the street at this wide area rather than utilizing a tunnel and would be more inclined to use an overpass, provided a moving stairway was also included in the construction plans. The matter is still under consideration, but the main bone of contention concerns the bearing of the cost, which is estimated in the vicinity of \$500,000. It is hoped the state will look favorably on this proposal, both from the standpoints of planning and bearing the cost of construction.

SUMMARY.

We believe the activities of this commission have been most helpful and essential to the proper conduct of public safety throughout the city, and although it was suggested in the 1954 report that four meetings a year would suffice, we find, after this year's experience and with many phases of public safety being increased each year in such a fast-moving world, that it is only natural to assume that public safety will be a more important factor in municipal affairs as each new year approaches. With this thought in mind, we would like to rescind our original suggestion and assure you that it will be our intention to continue our monthly meetings in accordance with the ordinance as adopted, with renewed vigor, vision, and alertness, to the end that the public safety standing of Boston will be the highest in the country, with new ideas, new programs, and new procedures, the order of the day.

URBAN RENEWAL PROGRAM EXPLAINED AT MEETING OF DISTRICT CHAIRMEN

At a meeting on Tuesday of the Mayor's District Advisory Committee for the city-wide Rehabilitation and Conservation Program, Kane Simonian, Director of Urban Redevelopment and Urban Renewal for the Boston Housing Authority, and Thomas E. McCormick, Director of the City Planning Board, explained the development and present status of the coming Urban Renewal Program, of significance to the future of Boston.

The over-all purpose of this program, said Mr. Simonian, is to stop blight and to prevent good areas from falling into decay, due to neglect or misuse. Under the Housing Act of 1954, the Federal Government recognized the need for such a program and agreed to assist cities, such as Boston, if they comply with certain requirements, commonly known as the "workable program." Essentially, this is a blueprint for a city to attack blight from every angle, considering clearance of land, rehabilitation, and conservation of all types of property.

Boston's "workable program" has already been submitted to the Housing and Home Finance Agency in Washington and the Boston City Council has appropriated \$10,000 for preliminary study and planning. It is anticipated that two project areas will be selected for clearance and one or two for rehabilitation as "pilot studies" to decide the best manner of handling such a far-reaching and intricate program. Mr. Simonian stressed the importance and value of community interest and participation, since home owners and residents will play a vital part by maintaining and improving their own property.

The program of the Mayor's Rehabilitation and Conservation Committees is right in line with the type of activities to be undertaken under Urban Renewal. In those areas where project areas are selected, the committees will assist by keeping the citizens informed and encouraging them to participate. Where no project area is planned, the Rehabilitation Committees have even more of a responsibility in maintaining the area, keeping up the interest of citizens, and developing civic pride.

Mr. Simonian felt that there are many things which can be done by the Mayor's committees which cannot be done by city departments. This is a valuable and necessary approach to total improvements for the city.

Although at the present time, specific plans have not been made for Urban Renewal, each district of the city will soon be classified, so that there will be definite information available on what is anticipated over the next five years.

Thomas E. McCormick, Director of the City Planning Board, told of the studies, now nearing completion, on which such classification will be based, including 30,000 dwelling units, without plumbing or heating, 40,000 dwelling units needing some rehabilitation; sections with sub-standard environmental conditions, and areas suffering with extreme population density. He agreed that many of these conditions existed because Boston was one of the first cities settled in the New World. Due to the problems of travel and transportation, streets were narrow and housing and business within close proximity.

Both speakers felt that many factors must be considered in deciding on a proj-

ect area such as marketability, proposed capital improvements, and general conditions in an area.

Interested District Chairmen of the Rehabilitation and Conservation Committees asking pertinent questions of the authorities were Robert Couchon, of the Back Bay; John J. Ryan, of Brighton; Gilbert H. Hood, Jr., of Charlestown; John F. Daly, of Dorchester; Aurelio A. Picardi of East Boston; Bernard N. Hanson, of Hyde Park; Robert T. Fowler, Jr., of Jamaica Plain; Joseph Campana, of the North End; Francis F. Harrington, of Roxbury; John Grigalus of South Boston; John M. Kingman, of the South End; Martin W. O'Neil, of the West End; Christopher C. Mitchell, of West Roxbury and Abner G. Messinger, Mattapan. Guests included Oscar Harvey, of the North Station Merchants Association, and Charles Ernst, of the Metropolitan Housing Association. Colonel Paul H. Hines, coordinator of the program, presided.

MAYOR HYNES REITERATES OPPOSITION TO FEDERAL BILL TO REGULATE NATURAL GAS

Mayor Hynes has sent the following communication to United States Senators Saltonstall and Kennedy in opposition to the Harris-Fulbright Natural Gas Bill:

Before final action is taken on the Harris-Fulbright Natural Gas Bill, may I reiterate my opposition to the passage of this bill.

Representing, as I do, many thousands of gas consumers, I am alarmed at the possibility that the consumer's gas bill will be increased if this bill is given approval. It is estimated that customers' bills will increase as much as \$800,000,000 a year with individual consumers paying an additional \$40 to \$50 annually.

Ordinarily, I am disinclined to favor federal regulations. However, when an industry is monopolistic, the consumer must be given protection by way of price regulations. I understand that 80 per cent of natural gas production is controlled by a relatively small number of producers. There is, therefore, no real competition among the producers.

The claim that removal of regulations, as proposed by the Harris-Fulbright Bill, will result in an increase in the price of gas to millions of American families, has not been effectively challenged. On the contrary, it seems that passage of the bill will be a forerunner of an increase in price to the consumer.

I join with the committee of 259 mayors in our country who are opposed to the passage of the Harris-Fulbright Bill, and I hope that you will give this matter your most serious and considerate attention.

ON FIRE SURVEY

With the approval of Mayor Hynes, Chief of Department John V. Stapleton was Acting Fire Commissioner for the period January 29 to February 3, 1956, during the absence from the city of Fire Commissioner Francis X. Cotter when he went to Philadelphia to make a survey of the fire department in that city.

MAYOR MOVES TO SET UP PUBLIC HEALTH COUNCIL

Mayor John B. Hynes, on Monday, submitted to the City Council an order calling for the establishment of a Public Health Council for Boston. His message to the Council read as follows:

Because of the rapid advances being made and new techniques being explored and discovered in the matter of public health, it has been growing apparent that the physical setup of our Health Department is lacking the media through which it can obtain up-to-date advice and counsel in this important field of municipal service.

As a consequence, it is felt that the establishment of a Public Health Council, to serve in an advisory capacity to the Health Commissioner, and to counsel and advise with him on matters of public health, would be a forward step in improving our health protection services.

Such a Council has been proposed at various times in the past. It is now evident that such a Council would be of immense help in our health program. Boston has always been in the forefront of the large cities in our country in the adoption of methods to protect our public health and the record of our Health Department is an enviable one.

I am confident that the establishment of a Public Health Council, composed of competent, experienced, and able persons, will improve our present standing, and will enable us to keep abreast of whatever new developments may occur in the field of public health.

In this vein, I recommend the passage by your Honorable Body of an ordinance establishing a Public Health Council in the Health Department.

MAYOR APPROVES HOLIDAY EXTRA PAY FOR HUB FIREMEN

Mayor John B. Hynes, on January 26, approved additional holiday pay to the Boston firemen during 1956 based on the following communication from the Fire Commissioner:

DEAR MR. MAYOR:

In accordance with chapter 16 of the Revised Ordinances of 1947, as amended, and an agreement with your Honor, I will, subject to your Honor's approval, grant an additional day's pay to all members of the Fire Fighting Force and the Fire Alarm Division who are required to work on January 1, February 22, April 19, May 30, July 4, the first Monday of September, October 12, November 11, Thanksgiving Day, or Christmas Day in the year 1956, or the day following when any of the five days first mentioned, or October 12, November 11, or Christmas Day occurs on Sunday.

The additional pay will be granted only to those members mentioned above whose hours of duty are within the twenty-four-hour period commencing at eight o'clock ante meridian on the days specified above.

Respectfully yours,

FRANCIS X. COTTER,
Fire Commissioner.

CONTRACTS AWARDED.

WITHOUT ADVERTISING.

ELECTION DEPARTMENT.

The Mayor has approved a contract, without advertising, for transportation of voting machines based on the following communication from the Election Department:

DEAR MR. MAYOR:

The contract for the transportation of voting machines between the City of Boston, Board of Election Commissioners, and P. A. Milan, Inc., expired on December 31, 1955.

P. A. Milan, Inc., has performed this service for approximately five or six years in a satisfactory manner, having supplied first-class equipment and men capable of performing the duties required in the transportation of these machines. The men employed by the contractor are experienced men, and all operations are in strict accordance with

the rules and regulations of both the Interstate Commerce Commission and the Massachusetts Department of Public Utilities.

P. A. Milan, Inc., in addition to having a large fleet of trucks, has the special equipment with which to handle these machines, including the padding for the machines, covers for the machines, winch trucks with hoists, and special blocks and hand-trucks, in order to give more efficient and proper service in the delivery of the voting machines, so that they can be used for each election function.

In 1955, P. A. Milan, Inc., was the successful bidder for the transportation of voting machines at the price of \$17.85 for the moving of each machine. In April of 1956 under the terms of the contract between the Milan Company and the union, the employees of Milan will be paid an additional 15 cents per hour. However, the Milan Company is willing to absorb this additional increase and to continue the transportation of voting machines for the Board of Election Commissioners for the year 1956, at the contract rate which applied in 1955, \$17.85 for each voting machine.

In view of the fact that the service of P. A. Milan, Inc., has been satisfactory in the past, that it possesses the necessary equipment to handle the transportation of machines properly, and the fact that it will absorb the additional increase on labor of their employees, so that the City of Boston will not be charged additional cost for the transportation of machines, I respectfully recommend that the contract for the moving of voting machines for the year 1956 be awarded to P. A. Milan, Inc., 202 State street, Boston, without the usual advertising.

Respectfully yours,

BOARD OF ELECTION COMMISSIONERS,
DAVID LASKER,
Chairman.

HOSPITAL DEPARTMENT.

Mayor Hynes has approved additional work on a contract at City Hospital, without the formality of advertising, based on the following communication:

DEAR MR. MAYOR:

On July 11, 1955, your Honor approved a \$21,523 contract between the City of Boston and Parkman Construction Company, Inc., providing for certain alterations and renewals to be performed in the basement of the Medical Building, Boston City Hospital. The Parkman Construction Company, Inc., was the lowest eligible responsible bidder.

The construction has progressed most satisfactorily—however, it has now been determined that certain additional work over and above that specified in the contract at the time of its execution has become necessary. The said extra work consists in reconstructing a structural slab; installing drain and vent for air-conditioning unit in locker room area; installing vent line under floor for future vent connection; and installing drains under storage room floor. The cost of this extra work which is essential and incidental to the work being performed under the principal contract will cost \$4,758.42.

I respectfully request your authorization to dispense with public advertising, and to amend the contract to include

the above described extra work and to increase the contract price in the amount of \$4,758.42 to cover the cost of the said additional work.

In view of the real need to have this entire project completed as soon as possible, and as the cost for the extra work is a fair and reasonable figure, it is not considered that public advertising would be of advantage to the City of Boston in the present instance.

Respectfully yours,

TRUSTEES OF THE HOSPITAL DEPARTMENT,
AND OF THE BOSTON CITY HOSPITAL,
by RICHARD J. CONDON,
President.

SUFFOLK COUNTY.

COURT HOUSE COMMISSION.

Mayor Hynes, on January 23, approved the purchase of furniture for the District Attorney's office, without the formality of advertising, based on the following communication from the Chairman of the Court House Commission:

DEAR MAYOR HYNES:

The Court House Custodian Department is in need of various items of office furniture for immediate delivery to the District Attorney's office.

Inasmuch as there was insufficient time to publicly advertise for bids, written quotations were solicited and received from four reputable companies, the firms listed below constituting the lowest bidders for the items desired:

S. M. LeVin Company, \$2,298.45;
Paul D. Osborne Desk Company, \$4,157.10.

Therefore, your authorization is respectfully requested to dispense with public advertising for the reasons stated above and to award contracts to the aforementioned firms in the amounts set forth in the foregoing. The various items of furniture which each is to furnish will be specified in the contracts.

Very truly yours,

COURT HOUSE COMMISSION,
by ARNO I. DREW,
Chairman.

26 Norman Street: Boiler No. 2, furnish and install 6 long and 4 short type boiler tubes, \$213.36.

NOTE.—The contract specifications called for 50 short and 50 long type boiler tubes for portable steel type boilers to be furnished and installed in addition to those listed for the various schools. The contractor had to furnish and install 45 extra boiler tubes over and above the 100 boiler tubes specified. The extra tubes were furnished and installed in the two buildings mentioned above. The department has a record where the 100 extra tubes were installed.

Total cost of additional work performed, \$1,998.61.

2. Deductions for work not performed: Lewis: Boiler No. 1, omit installation of 26 boiler tubes and leaving 8 spare tubes at building; boiler was found to be unsuitable for work specified to be performed after the leaky tubes were removed by the contractor. The boiler inspector examined the boiler after tubes were removed and condemned the boiler for further use, \$381.71.

H. R. O'Donnell: Boiler No. 1, omit reinforcing front handhole as called for on the contract, \$57.60.

NOTE.—Contract specified 200 boiler tubes in addition to those listed for various schools for the horizontal return tubular type boilers. The contractor furnished and installed 179 boiler tubes in the various schools as per list on file with the department. Credit allowance for 21 boiler tubes not installed in the H.R.T. boilers originally specified in the contract, \$465.15.

Total amount of deductions, \$904.46.

Cost of additional work performed, \$1,998.61; deduct cost of work omitted, \$904.46; total amount to be added to contract, \$1,094.15, and the amount of \$1,094.15 will be added therefor, making the account as follows: contract price, \$21,473; total additions, \$1,094.15; amount of contract, \$22,567.15.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

The Mayor has approved an extension of time for the completion of a contract with D. Antonellis, Inc., for installation of new yard drains at the Thomas A. Edison School, from January 31, 1956, to April 30, 1956, due to weather conditions.

FIRE DEPARTMENT.

Mayor Hynes has approved for the Fire Department, extension of a contract to March 1 for furnishing uniforms based on the following communication from the commissioner:

DEAR SIR:

Under date of June 16, 1955, your Honor approved a contract between the City of Boston Fire Department and Smith & Bennett, Inc., 19 Kingston street, Boston, for furnishing uniform overcoats, sack coats, and trousers to the department. The contract was to have been completed on or before December 31, 1955, but has already been extended to January 31, 1956, was approved by your Honor under date of December 30, 1955.

Deliveries of cloth to the Fire Department for making these uniforms were delayed on account of serious floods at the manufacturer's mill at Torrington, Connecticut, and also because of labor trouble which began October 31, and was settled December 15, 1955. Further, the cloth delivered to Smith & Bennett, Inc., was not shrunk as it should have been. It was therefore necessary for the contractor to send it to a cloth shrinker for treatment.

Under these conditions, therefore, it will not be possible for Smith & Bennett, Inc., to complete the work under the contract on or before January 31, 1956.

I recommend that the contract with Smith & Bennett, Inc., be extended to March 1, 1956.

Respectfully yours,

FRANCIS X. COTTER,
Fire Commissioner.

HOSPITAL DEPARTMENT.

Mayor Hynes has approved for the City Hospital extension of time to February 15 on a contract for repair of air-conditioning system, based on the following communication:

DEAR MR. MAYOR:

Your approval is respectfully requested for an extension of time from November 15, 1955, to February 15, 1956, on the contract of Cavanagh & Murphy, Inc., 65 Kilmarnock street, Boston, for repair of air-conditioning installation on the ninth floor of the Dowling Building, Boston City Hospital; said contract having been approved by you on October 5, 1955.

Because of delay in delivery of materials due to a strike at the Westinghouse Electric Corporation's plants, the contractor will be unable to complete his contract on time.

Respectfully yours,

RICHARD J. CONDON,
President.

PARKS AND RECREATION DEPARTMENT.

Charles N. Wood Company has been granted an extension of time until February 27, 1956, for the completion of a contract for installation of air brake systems on Parks and Recreation Department trucks.

PUBLIC WORKS DEPARTMENT.

The Mayor has approved an extension of time for the completion of the contract with Builders Iron Works, 24 Dane street, Somerville, for redecking the drawspans of the Congress Street Bridge, over Fort Point Channel, and the Chelsea Street Bridge, over Chelsea River with steel mesh pavement, from December 14, 1955, to April 30, 1956. This extension was requested because the consensus of opinion was that the painting of the counterweight block at Chelsea Street Bridge should be postponed until the spring, when the weather is more suitable.

The Mayor has approved an extension of time for the completion of a contract with J. J. Hurley & Co., Inc., 17 and 19 Power street, Boston, for furnishing and installing heating equipment at 650 Albany street, Public Works Department, Sanitary Division, from January 20, 1956, to March 16, 1956. This extension was requested because the contractor was delayed in securing material for the work.

AMENDMENT TO ORIGINAL AWARD OF DAMAGES.

The Public Improvement Commission has voted as follows:

That the amount of \$990 be awarded to Girard and D. Geraldine Jordan for all damages sustained under the order of the Board of Street Commissioners and Mayor as of August 26, 1953, for the laying out and construction of Hillis road, Hyde Park district.

CONSTRUCTION WORK.

The Public Improvement Commission, with the approval of the Mayor, has ordered the following construction work:

One drop inlet and connection on Lake street, Brighton, on the westerly side, approximately 160 feet from Commonwealth avenue, at a cost of \$200.

One catch basin and connection in Public Alley No. 801, approximately 95 feet east of Gainsborough street, at a cost of \$600.

One catch basin, one manhole, and 25 feet of 12-inch storm drain on Lorimer place (formerly Johnston park), from Warren street approximately 175 feet westerly, at an estimated cost of \$1,000.

One catch basin and 35 feet of 12-inch storm drain in Kenway terrace (formerly Hawthorne avenue), from Washington street approximately 175 feet southeasterly, in Roxbury, at an estimated cost of \$1,000.

POLICE DEPARTMENT ORDERS.

General Order No. 2,160.

A trial board, consisting of Captains Leo E. Hoban, Patrick J. O'Donnell, and Dennis F. Dalton, having heard by reference complaints made by Capt. Cornelius F. O'Brien, Division 14, against Lieut. Leonard R. Brener, Patrolmen Robert M. Corbett, John F. Fitzgerald, Joseph J. Donovan, and Arthur T. Ginnety, charging them with violation of the rules and regulations of the Police Department, has reported its finding with the following recommendations:

Lieut. Leonard R. Brener, not guilty.

Patrolman Robert M. Corbett, guilty, to perform 210 hours' punishment duty.

Patrolman John F. Fitzgerald, guilty, to perform 210 hours' punishment duty.

Patrolman Joseph J. Donovan, guilty, to perform 315 hours' punishment duty.

Patrolman Arthur T. Ginnety, guilty, to perform 315 hours' punishment duty.

The recommendations of the Trial Board are hereby accepted.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,161.

The resignation of Dorothy E. Rourke, policewoman, Crime Prevention Bureau, having been presented, it is accepted, to take effect Thursday, January 26, 1956, at 7.45 o'clock A.M.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,162.

The following promotion and assignment is hereby ordered, to take effect Thursday, January 26, 1956, at 5.45 o'clock P.M.:

To the Grade of Lieutenant.

Sergt. Thomas M. Corbett, from Division 11 to Division 6.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

The following communication was presented:

City of Boston
In City Council

WHEREAS: Under date of October 11th, 1955 His Honor John B. Hynes, Mayor of Boston, sent the following communication to the Boston City Council:

"On April 3, 1952, the Boston School Department lost by death the faithful services of Miss Grace N. Aznive, who for over thirty years had given most generously of her time, energy and devotion as an art teacher at the High School of Practical Arts and the Roslindale High School. As a memorial to her, her brothers Albert M. Aznive of Boston, Massachusetts, nad Leon L. Aznive of Stoneham, Massachusetts, and her nephew, Robert D. Shooshan of Manchester, Connecticut, have presented to the City of Boston the sum of Five Thousand Dollars to establish the Grace N. Aznive Art Scholarship Fund.

"I have this day filed with the City Clerk the written instrument signed by Messrs. Albert M. Aznive, Leon L. Aznive and Robert D. Shooshan which formally gives the money to the City and sets forth in detail the terms and conditions of the gift. This writing makes it plain that it is the intent of the donors that the Fund shall be held as a permanent fund with the income thereof used to award each year such number of Grace N. Aznive Art Scholarships of \$100 each as the income will permit; that such scholarship or scholarships will be available for use only for advanced study of art during a subsequent semester in the year in which they are awarded; and that every student in every public high school in Boston who is taking a course in art at such high school and is in the class to graduate from such high school in the particular year will be eligible to compete for such scholarship or scholarships. Provision is also made by the writing for a Board of Managers to handle the investment of the Fund and an Award Committee to select the awardees.

"Transmitted herewith for your early adoption is an order accepting this most gracious, public-spirited gift."

accompanied by the following order:

ORDERED: That the sum of Five Thousand Dollars given, assigned and transferred to the City of Boston by Messrs. Albert M. Aznive, Leon L. Aznive and Robert D. Shooshan by the written instrument dated August 4, 1955, and filed with the City Clerk on

October 11, 1955, which sum, by action of Messrs. Albert M. Aznive, Leon L. Aznive and Robert D. Shooshan, is now on deposit in the Boston Five Cents Savings Bank to the credit of the City of Boston—Grace N. Aznive Art Scholarship Fund (Account No. 1322762), be, and the same hereby is, accepted with gratitude upon the trust set forth in said instrument.

FURTHER ORDERED: That the sum of Twenty-Five Dollars also given, assigned and transferred to the City of Boston by said instrument, which sum is also now on deposit with the Boston Five Cents Savings Bank as aforesaid be, and the same hereby is, accepted with gratitude for the purpose stated in said instrument."

and

WHEREAS: This Honorable Body unanimously accepted with gratitude this kind and noble act; and

WHEREAS: Such kindness and thoughtfulness reflects the fine group of men and women who make up the teaching staff of the Boston Public Schools, and in further appreciation of this bequest and in order to give its intent as full effect as possible;

NOW, THEREFORE, BE IT RESOLVED: That a copy of this resolution be forwarded to the headmaster of each public school in our system with the request that it be read in each class assembly to the end that each pupil in the Boston Public School system might know of the devotion of the late Miss Grace N. Aznive to her profession and the Boston public school system and its pupils; and further that a copy of this resolution be forwarded to her brothers Albert M. Aznive of Boston, Leon L. Aznive of Stoneham, and her nephew Robert D. Shooshan of Manchester, Connecticut.

In City Council October 17, 1955. Adopted.

PROPOSED RE-ESTABLISHMENT OF DEPARTMENT OF MODERN FOREIGN LANGUAGES

Mr. Musco: To follow up my recommendations submitted to you on Aug. 8, 1955, I am asking the Superintendent to study and to report back to the School Committee on the proposed expansion of conversational modern foreign languages in all school grade divisions.

In recent years the wave of enthusiasm for the study of these languages has shown a marked increase in our daily newspapers,

pamphlets, magazines, and in group conferences of educators, professions, and parents.

It is my hope that a positive step will be taken in the Boston Public Schools to promote a keener interest in the values of the student study of modern foreign languages from the administrative angle as well as in the actual instruction and teaching in all divisions of school.

Please find attached my reasons for the reestablishment of a Department of Modern Foreign Languages with a Director to administer the program.

DEPARTMENT OF MODERN FOREIGN LANGUAGES —REASONS FOR A DIRECTOR—

1. An Administrator is needed in this essential major subject:

There is a Director of Fine Arts, of Music, of Physical Education, of Industrial Arts, of Home Economics, Supervisor of Safety, etc., etc.

2. Coordination of the subject between administrators and teaching personnel:

To sharpen the objectives of language study.

To establish policy.

To integrate these studies with the rest of the curriculum.

To make the liaison of the three levels: High, Junior High, and Elementary divisions.

To govern the time devoted to language study.

To cooperate in revision movements.

3. Modern Foreign Languages need the ingenuity and enthusiasm of those who believe in their study in order to stimulate professional enthusiasm, professional initiative, and professional spirit.

4. A SUPERVISOR AND SPECIAL SUPERVISORY SERVICE:

To train leaders in the field.

To improve teaching.

To improve learning.

To see that there is attainment of language competence.

To give teachers a chance to contribute the benefits of their experience and training to one another.

5. ESTABLISH A CENTER:

To furnish teachers a workshop in which to plan and devise methods for the improvement of instruction.

To give teachers a place to display class work.

To keep a library where textbooks, educational material, realia, recordings, film strips, and the like, may be borrowed for examination before ordering, for research.

To provide lists of texts, excess in one school, for exchange elsewhere in the system.

To devise tests and measurements for aptitude and for achievement in language study.

6. COMMUNITY ORIENTATION:

To devise programs to arouse community interest:

Home and School Association meetings.

Open House Day.

Assemblies.

To join in community enterprises that coordinate with language study.

To arrange for children's visits to museums.

To exhibit work of foreign artists . . . through the Public Library, the Museum of Fine Arts, and the like.

To sponsor community-school interest in foreign affairs.

To arrange for talks to students by officials at the Consulates who are always most agreeable to cooperate in such events of good will and understanding.

7. EFFECTIVE PUBLIC RELATIONS GUIDE:

To spot publications, motion pictures, film strips, TV programs that emphasize the utility of foreign language.

To promote the above not only for the schools but for the community.

Release news regularly to the press on special activities in foreign language classes.

To sponsor voluntary radio programs by the schools in foreign language work.

To sponsor statewide conferences for foreign language teachers.

To promote programs of international interest.

To emphasize foreign language study in national defense and national agencies.

To support and encourage teacher exchange and travel in foreign countries.

To teach good will and understanding among nations.

PROCEEDINGS OF CITY COUNCIL.

Monday, January 23, 1956.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 p.m., President McCORMACK in the chair. Absent, Councillor Abearn.

Rev. William S. Ravenell, D.D., of Ebenezer Baptist Church, Boston, was escorted to the rostrum.

INVOCATION BY REV. WILLIAM S. RAVENELL.

Our Father and our God, we bow before Thee, and we come before Thee with sincere hearts, offering unto Thee our thanks for life and liberty, and for the opportunities to serve Thee in our great state and our great nation. We humbly pray Thy blessings upon each one of these councillors gathered here today and those who may yet come.

Grant that in their public lives and in their family life the benediction of Thy spirit and Thy blessings might rest. Help us to realize the responsibilities and the obligations which are ours as we represent men and women, in this great city. Grant that we shall ever realize that we are free, and we ask Thou wilt keep us from the bondage of ourselves that we might be free to do Thy will and to serve our fellow man.

Grant, Our Father, as these councillors are aspiring to other higher places in our government that Thou wilt keep them clean physically, spiritually, and morally, that men might emulate their good works and shall be constrained to be citizens worthy of Thy name.

Bless, we pray Thee, these officers, clerks, secretaries, and all who labor in this City Hall and in this, our city government. Grant that we shall realize as we spend day by day that Thou hast given us the privilege of beholding how good and how pleasant it is for brethren, for men, to dwell together.

Bless our state, and our Governor, and our President, our Senators, and our Representatives in Washington. Grant that we shall always realize all things work together for good for those who love the Lord.

We leave these councillors unto Thy hand to make them men of sound judgment. Give them patience. Give them the ability to look out beyond the smaller arena of our lives at yonder where men dwell together in unity.

Bless this Council in its deliberations, and make their deliberations and their decisions be those that shall work for the welfare of men everywhere.

For this is our invocation of this blessed day. Through Christ, Our Lord. Amen.

The meeting was opened with the salute to the Flag.

APPOINTMENT BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointment:

Constable with authority to serve civil process upon filing of bond for the term ending April 30, 1956: Frank Tavella, 158 Bremen street, East Boston.

By an order passed by your Honorable Body on November 14, 1955, you directed me "to prepare the necessary ordinance to establish a bargaining unit for the Fire Department," and in the preparation of such ordinance to consult with the president, vice president, and attorney of Local 718, International Association of Fire Fighters, and to consider adding to chapter 16 of the Revised Ordinances of 1947 a section 10 reading as follows:

"Section 10. That the Boston Firefighters' Local 718, International Association of Fire-fighters, American Federation of Labor, be the recognized negotiating body for the members of the firefighting force and the Fire Alarm Division of the Boston Fire Department and that the said local be the official spokesman of the said members in the matter of all grievances concerning wages, hours of labor and conditions of employment."

The objective of the proposed ordinance, as I understand it after consultation with the officers of Local 718, is to establish Local 718 as the exclusive collective bargaining agent for the members of the Fire Fighting Force and the Fire Alarm Division of the Boston Fire Department. Among the questions thus posed are whether there can be a collective bargaining agent for any unit of public employees, and if so, whether public authority can require a member of such unit to recognize, against his will, such collective bargaining agent as his exclusive collective bargaining agent.

The subject of collective bargaining as applied to public employees is elaborately considered in City of Springfield v. Clouse, 356 Mo. 1239. As was there pointed out (p. 1248), the purpose of collective bargaining is to reach a contract between a union representing employees and their employer. In the case of public employees, however, the employer is the whole people whose chosen representatives cannot bargain or contract away their power to legislate the terms and conditions of public employment. (Pages 1247 and 1251.) As applied to public employment, collective bargaining would mean government by private agreement and not by laws made by the representative of the people. (Page 1249.) In short, under our form of government, public employment never has been and cannot become a matter of bargaining and contract. (Page 1251.) Consequently, there cannot be a collective bargaining agent for any unit of public employees.

But even if a collective bargaining agent for a unit of public employees were possible, public authority could not require a member of such unit to recognize such agent as his exclusive collective bargaining agent without his consent. While no person has a constitutional right to employment in government on his own terms (McAuliffe v. Mayor & Aldermen of New Bedford, 155 Mass. 216, 220. Faxon v. School Committee of Boston, 331 Mass. 531, 535. Adler v. Board of Education of the City of New York, 342 U. S. 485, 492), every public employee has a constitutional right to insist that the terms laid down by public authority

in connection with his employment be reasonably required and not discriminatory. Wieman v. Updegraff, 344 U. S. 183, 191-192. See, also, Bell v. District Court of Holyoke, 314 Mass. 622, 625. Requiring an unwilling public employee to recognize a particular individual or organization as his exclusive collective bargaining representative is plainly discriminatory and cannot fairly be said to be reasonably required for the efficiency of the public service. That is to say, "the preferential and exclusive features common to labor union contracts (in private industry) must in the field of government be altogether avoided." Mugford v. Mayor and City Council of Baltimore, 8 C. C. H. Labor Cases s. 62137. See, also 9 C. C. H. Labor Cases s. 62424 and 185 Md. 266 for subsequent decisions in same case. To the same effect is Cleveland v. Division 268 of the Amalgamated Association of Street, Electric Railway & Motor Coach Employees of America, 30 O.O. 395, 408. And there is nothing to the contrary in chapter 150A of the General Laws, as amended, relative to exclusive collective bargaining representatives; for the Commonwealth and all its political subdivisions are expressly exempted from that chapter. See G. L. (Ter. Ed.), c. 150A, s. 2, cl. (2); also St. Luke's Hospital v. Labor Relations Commission, 320 Mass. 467, 472-473.

The foregoing statement of the legal situation involved makes it readily apparent that it is impossible for me to prepare an ordinance establishing a bargaining unit for the Fire Department as you have directed.

Respectfully,
WILLIAM L. BAXTER,
Corporation Counsel.

REPORT ON RENTAL OF TAPE RECORDERS.

The following was received:

City Messenger.

To the City Council.

Gentlemen: Pursuant to the order passed by the City Council on January 16, 1956, re rental of tape recorders, etc., at the completion of the investigation the conclusion was that two Revere-type tape recorders can be rented at the price of \$35 per month each. This was the cheapest price quoted by several companies.

Regarding the price of tapes and records, the cheapest price tapes, 36 hours' tape, would cost \$43.20. To transcribe this on long-playing records would cost \$10 per record. A large order of about 100 hours would cut the cost to \$6 per record, but your tape would still be cheaper than the records.

Very truly yours,
WILLIAM J. O'DONNELL,
City Messenger.

JOSEPH J. BROGNA,
Librarian-Archivist.

Referred to the Committee on Appropriations and Finance.

RECESS.

The Chair declared a short recess at 2.39 p.m. During the recess, President McCORMACK was presented with a redwood gavel by Mr. Frederick Doran, of American Airlines.

President McCORMACK expressed his gratitude to Mr. Doran and American Airlines, and expressed the hope that he would always use it wisely and judiciously.

CONGRATULATIONS TO AMERICAN AIRLINES.

Coun. PIEMONTE offered the following:

Whereas, The American Airlines has inaugurated, effective January 15, 1956, a direct flight to San Francisco from Boston; and

Whereas, This direct flight will make the trip from Boston to San Francisco a full hour faster; and

Whereas, Such action is in keeping with the aim to make Boston's airport the leading airport in America; now, therefore, be it

Resolved, That the Boston City Council, in meeting assembled, congratulates and salutes the American Airlines, and that a copy of this resolve be forwarded to the American Airlines.

The resolution was adopted under suspension of the rules.

Coun. FOLEY in the chair.

CONFERENCE WITH MAYOR ON GROUP INSURANCE PLANS.

Coun. FOLEY and McCORMACK offered the following:

Ordered, That his Honor the Mayor be requested to confer with the members of the Boston City Council on Monday, January 30, 1956, concerning Group Insurance Plans for municipal and county employees.

Passed under suspension of the rules.

GROUP INSURANCE FOR EMPLOYEES OF BOSTON HOUSING AUTHORITY.

Coun. FOLEY and McCORMACK offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor, the Mayor, to furnish a written opinion as to whether the employees of the Boston Housing Authority may be considered as state employees so as to be included in the present statutory plan for group life, accident, hospitalization, and surgical insurance for state employees.

Passed under suspension of the rules.

APPEARANCE OF MEMBERS OF BOSTON HOUSING AUTHORITY BEFORE COUNCIL.

Coun. McCORMACK offered the following:

Ordered, That the Chairman and members of the Boston Housing Authority be invited to appear before the Executive Committee of the Boston City Council on Monday, January 30, to discuss the progress in the acquisition of the Old Colony Development.

Coun. WHITE in the chair.

President McCORMACK in the chair.

The foregoing order was passed under suspension of the rules.

RETIREMENT OF EDWARD P. CONNOLLY.

Coun. McLAUGHLIN offered the following:

Resolved, That the City Council of Boston hereby favors the consideration by the Legislature of the petition now held under Joint Rule 7B, relative to the retirement rights of Edward P. Connolly, under the State-Boston retirement system; provided that any such legislation, if enacted, includes a referendum to the Mayor and City Council.

The resolution was adopted under suspension of the rules.

CITY COUNCIL PARTICIPATION IN BOSTON COLLEGE SEMINARS.

Coun. FOLEY offered the following:

Ordered, That the President of the Boston City Council is hereby authorized to enter into negotiations with the Boston Citizens' Council to arrange for more active participation of the Boston City Council and members thereof in the Boston College seminars.

Passed under suspension of the rules.

RECREATION CENTER IN DORCHESTER DISTRICT.

Coun. McDONOUGH and McCORMACK offered the following:

Ordered, That the Parks and Recreation Commission be requested, through his Honor the Mayor, to establish a recreation center, with indoor and outdoor facilities, in the Dorchester district, preferably on either the Mary Hemenway or Garvey Playground.

Passed under suspension of the rules.

Later in the session Councillor McDonough moved reconsideration on the foregoing order. The motion to reconsider was carried. On further motion of Councillor McDonough the order was referred to the Committee on Public Services and Recreation for a public hearing to be held on the matter.

PAYMENT OF SUM OF MONEY TO ESTATE OF ANGELO GELLO.

Coun. PIEMONTE offered the following:

Resolved, That the City Council of Boston hereby favors the consideration by the Legislature of the petition now held under Joint Rule 7B, relative to the payment of a sum of money to the estate of Angelo Gello; provided that any such legislation, if enacted, includes a referendum to the Mayor and City Council.

The resolution was adopted under suspension of the rules.

AMENDMENT TO COUNTY CLASSIFICATION AND COMPENSATION PLANS.

RECESS.

On motion of Councillor White, the Council voted to take a recess at 3.11 p.m., subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President McCORMACK at 5.52 p.m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WHITE, for the Executive Committee, submitted the following:

1. Report on communication (referred January 16) from the Intergovernmental Relations Subcommittee of Congress, together with a questionnaire relating to intergovernmental programs or activities in this area—recommending that said communication and questionnaire be referred to the Director of Administrative Services for report to the City Council.

The report was accepted, and the said communication and questionnaire were referred to the Director of Administrative Services.

2. Report on communication from the Board of Selectmen, Town of Winthrop (referred January 16), in connection with meeting with Boston City Council re discharging of passengers by Rapid Transit, Inc., at M. T. A. Terminal, Orient Heights—recommending reference of the communication to the Committee on Licenses.

The report was accepted, and said reference ordered.

COMMITTEE TO PROMOTE RESALE OF NEW YORK STREETS AREA.

Coun. FOLEY offered the following:

Resolved, That the Boston City Council perceives the need for and respectfully suggests to his Honor the Mayor that he consider appointing a small select committee on the New York Streets redevelopment project; that this committee be composed of senior members of those large Boston real estate firms which have had experience in the development of large industrial areas in Greater Boston, New England, and elsewhere; that to this committee be posed the question as to what terms and conditions, if any, would make it economically possible for one large reputable and established real estate firm to take over the entire New York Streets area and promote the resale in the same manner so successfully used in the promotion and development of so many industrial areas in the Greater Boston area; and be it further

Resolved, That this committee be directed to report within a short period of time and the Council suggests an absolute time limit of a month.

On motion of Councillor Piemonte, the resolution was referred to the Executive Committee.

USE OF JOSIAH H. BENTON TRUST FUND.

Coun. McCORMACK offered the following:

Ordered, That the Trustees of the Boston Public Library be respectfully requested to consider the advisability of petitioning the Probate Court for allowance to expend \$2,000,000 of the Josiah H. Benton Trust Fund for the construction of a major branch library in a well-selected site in the City of Boston which will be readily accessible to the citizens of Boston and will serve many of the functions the Central Library Building now performs.

Passed under suspension of the rules.

COMMENDATION TO 1955 FOOTBALL SQUAD OF CHARLESTOWN HIGH SCHOOL AND OTHERS.

Coun. McLAUGHLIN offered the following:

Whereas, The 1955 Football Squad of Charlestown High School has won the Class D Championship of Massachusetts; and

Whereas, This is the first Charlestown High School team to achieve this coveted award; and

Whereas, This championship is particularly remarkable when it is realized that the student body available for athletics is extremely limited in size and participation in athletics requires much sacrifice on the part of the students; and

Whereas, The tireless work of the coaching staff and the complete support of the student body contributed greatly to this achievement; and

Whereas, This accomplishment reflects great credit upon the team members, the entire student body, the faculty, the coaching staff, and the City of Boston; now, therefore, be it

Resolved, That the Boston City Council in meeting assembled, extends its sincere congratulations and commendation to each member of this squad, to each member of the coaching staff, and to all the students and faculty members; and be it further

Resolved, That a copy of this resolution be forwarded to the headmaster of Charlestown High School.

The resolution was adopted under suspension of the rules.

REPORT OF COMMITTEE ON CLAIMS.

Coun. McLAUGHLIN for the Committee on Claims, submitted the following:

1. Report on petition of William J. Desmond (referred January 9) to be reimbursed as a result of an execution issued against him on account of his acts as a member of the Fire Department—recommending passage of the accompanying order:

Ordered, That the sum of one hundred sixty-five dollars (\$165) be allowed and paid to William J. Desmond in reimbursement for amount of execution issued against him on account of his acts as a member of the Fire Department, said sum to be charged to the appropriation for Executions of Court, Damage Claims and Reimbursements.

The report was accepted, and the order was passed.

X-RAY OF SCHOOL PERSONNEL.

The General Court of Massachusetts passed a law effective July 1, 1951, requiring all school personnel coming in contact with pupils to submit X-ray proof of freedom of tuberculosis in a communicable form—such proof to be filed every three years.

In accordance with the provisions of the law, the Health Department provided free X-ray service for school personnel desiring it. 70 mm. equipment was used where possible and was located in strategic areas to accommodate the large numbers of teachers, nurses, custodians, clerical workers, and others covered by the provisions of the law. The X-ray bus was stationed for an entire month on Boston Common, and 70 mm. equipment was also placed in Boston Teachers College. Four health units having 70 mm. X-ray machines were open daily for a six-week period to provide service for outlying sections of the city. All retakes were made at the South End Health Unit. More than 24,500 X-rays were taken during the program. Provision was also made for new employees of educational institutions to be X-rayed at the usual X-ray locations provided by the Health Department.

CIVIL DEFENSE KIT. RECENT FEDERAL ACTIONS AFFECTING CITIES.

The Housing Act of 1949, approved on July 15, authorized a uniform 10 per cent payment to cities in lieu of taxes on housing projects, but the independent offices appropriation bill passed on August 15 contains a provision that for the fiscal year ending June 30, 1950, only payments provided for in the original contract between the housing authority and the city are authorized for federal reimbursement.

Federal aid for hospital construction has been approved for nearly 800 projects; more than 600 are general hospitals and the great majority are in towns of under 10,000 population.

CHANGES IN SOCIAL SECURITY LAW.

Changes in the Social Security Act now make Old Age and Survivors Insurance benefits available to all municipal employees, except firemen and policemen. The procedure varies, however, for those who are eligible for membership in existing retirement systems and those who are not.

The most important point to remember is that the municipality must take the initiative to secure OASI coverage for its employees and must act through the state government. Proper enabling legislation and contractual clauses in state documents are "musts." They secure coverage as part of the state's contract with the Bureau of Old Age and Survivors Insurance, U. S. Department of Health, Education and Welfare.

PROPOSALS FOR FURNISHING FUEL OIL FOR BOSTON PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing fuel oil required for school buildings from April 1, 1956, to March 31, 1957. Proposal forms are obtainable at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street. Envelopes containing proposals must be sealed and plainly marked "Proposal for Furnishing Fuel Oil for Boston Public Schools." The bid must be in duplicate. One copy, signed by the bidder, and accompanied by a certified check, payable to the City of Boston, in the amount of three hundred dollars (\$300), must be left at the office of the Business Manager on or before 12 o'clock noon on Thursday, February 16, 1956. Copies filed with the Business Manager will be publicly opened and read at 12 o'clock noon of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for opening of the bids. Fuel oil is to be delivered in the tanks of the several buildings and the price per barrel of medium oil and the price per gallon for light oil named in the proposal must include delivery in said tanks in a manner satisfactory to the School Committee. The total estimated quantities of fuel oil required during the period April 1, 1956, to March 31, 1957, both dates included, is as follows:

68,640 Barrels Medium Oil.
190,000 Gallons Light Oil.

The School Committee reserves the right to reject any or all bids and to accept such bid, or part of bid, as may be deemed best for the interests of the city. The successful bidder will be required to furnish a suitable bond or deposit of money or other security in the amount of not less than fifty (50) per cent of the amount of the contract.

Proposals will be received until 2 o'clock P.M. Tuesday, February 14, 1956, at the office of the Awarding Authority, 33 Beacon street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals must be submitted in duplicate on forms obtained at the Engineer's office of the Parks and Recreation Department, 33 Beacon street, Boston, Mass. Each copy of the proposal shall be properly filled out, signed, enclosed in an envelope, sealed and plainly marked with the description of the work to be done. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$200, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price, will be required of the successful contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any or all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all bids in accordance with the provisions of sections 44A to 44E, inclusive, of chapter 149 of the General Laws, as amended.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152 to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

Specifications and plans may be obtained at the office of the Awarding Authority on or after February 6, 1956.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any or all bids if it be in the public interest so to do, in accordance with sections 44A to 44E, inclusive, of chapter 149 of the General Laws, as amended.

EXPENSES BEYOND CITY CONTROL SWALLOW UP ECONOMIES OF MAYOR HYNES AND RESULT IN RECORD HIGH BUDGET

The Appropriations Committee of the City Council is now making an item-by-item examination of Boston's 1956 budget allowances for city and county expenditures as submitted this week by Mayor John B. Hynes. Following the pattern trend of our Massachusetts state government, and most of the large cities of the United States, the current Boston budget is the highest in history. It adds up to just over one hundred and seven million dollars, or about four and one half million dollars greater than the previous year's appropriations.

Two aspects of the current budget were emphasized by the Mayor in submitting his estimates to the Council: (1) it represents a paring down of more than six million dollars off the original recommendations of the department heads; and (2) the revised allowances set forth are, in the Mayor's opinion, "minimum amounts necessary for the proper conduct of city and county affairs."

The effect which the current budget will have on the tax rate will be determined after submission of the supplementary budget and final action by the City Council. This supplementary budget will include the appropriations of the School Department, which are estimated to be a million and a half dollars over 1955. In the operation of our municipal government every million dollars in city expenditures affects the tax rate in the amount of sixty-five cents on each thousand dollars of valuation.

This year's budget increase, as submitted by Mayor Hynes, reflects many factors which have boosted expenditures over 1955. Welfare and veterans' services costs are up approximately a million and a quarter dollars. Action of the Legislature in requiring an additional two and one half dollars in the monthly transportation allowance for old age recipients, without making any provision for funds, will cost the city this year an added four hundred and fifty thousand dollars.

About one and one third million dollars were added to the 1956 payroll costs of the city. This is the result of a recent increase of one hundred and fifty dollars a year to police and firemen, of sliding-scale increases to another twenty-six hundred employees, and opening of new services at City Hospital with the establishment of compensation differentials between the nurses' shifts. The single fact that 1956 is Leap Year will cost the city two hundred thousand dollars for the extra day's pay which will be granted city and county employees.

Approximately two thirds of the three hundred and twenty thousand dollar increase for supplies and materials was allotted to the Hospital Department for medical and surgical supplies needed in the new services established there and to meet the increased food requirements at the three hospitals operated by that department.

Six hundred and fifty thousand dollars are accounted for in the boost in contractual services over last year. The Mayor pointed out that increased allowances this year can be charged to plant rehabilitation and repair. "Many of these repairs have been deferred from year to year, and can no longer be deferred without serious and most expensive aftermath," Mayor Hynes said.

A substantial portion of the increase is reflected in five acts of the 1955 Legislature resulting in mandatory salary increases to judges and various court attachés and creating new positions in the county government. These increases, along with pay boosts granted jail and correction officers and sliding-scale increases for eligible county employees reflect an upward trend of approximately four hundred and fifty thousand dollars in the current budget.

Commenting on the Budget Mayor Hynes said:

"From year to year, the city is faced with absorbing additional costs of government over which it has no control. . . . Every effort has been made to keep proposed expenditures at a minimum but despite our best efforts it is an impossibility to meet the obligations of the city and county governments except by greater appropriations. This points up the necessity, frequently stated, of the need of additional income so that the ever-increasing costs of government will not have to be borne almost in their entirety by owners of real estate. The financial fate of municipalities in our Commonwealth will hang in the balance unless a new source of income becomes available. Fixed obligations, statutory requirements, and expenditures over which the city officials have little control, make it impossible to reduce or hold steady the over-all expenses of the city. Economies which are instituted are quickly wiped out because of such requirements."

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

DIRECTOR FOX LISTS FACTORS BEYOND CONTROL OF MAYOR AS CONTRIBUTING TO BUDGET INCREASE

In submitting the 1956 city budget to Mayor John B. Hynes, Charles J. Fox, Director of Administrative Services, pointed out that the upward trend in municipal expenditures "has resulted from uncontrollable causes and conditions which are not readily subject to administrative discretion through the budgetary process."

In a letter of transmittal to the Mayor, Director Fox gave detailed explanation of the factors contributing to the increase, as follows:

February 2, 1956.

HON. JOHN B. HYNES,
Mayor of Boston.

SIR: In accordance with the provisions of Section 3 of Chapter 3A of the revised city ordinances, I have prepared, under your direction, in segregated form, the annual budget for city, county, and revenue departments to be submitted to the City Council.

GENERAL STATEMENT

The budget allowances recommended for city, county, and income departments represent an increase of \$4,526,281.33 over total appropriations authorized in 1955. The following table indicates the differences between the appropriations recommended for 1956 and those approved by the City Council in 1955:

	1955	1956	INCREASE
	APPROPRIATIONS	RECOMMENDATIONS	
CITY BUDGET	\$96,640,580 75	\$100,525,875 00	\$3,885,294 25
COUNTY BUDGET	6,700,640 92	7,407,026 00	706,385 08
TOTAL	\$103,341,221 67	\$107,932,901 00	\$4,591,679 33
INCOME DEPARTMENTS	3,679,648 00	3,614,250 00	65,398 00*
GRAND TOTAL	\$107,020,869 67	\$111,547,151 00	\$4,526,281 33

* Decrease

The appropriations recommended for income departments will be met from the revenues collected by these departments, and hence will not affect this year's tax rate. In other words, the 1956 tax rate will be affected solely by the increase in the city and county budgets, which increase is indicated in the foregoing table as \$4,591,679.33.

In comparing 1956 recommendations with actual appropriations of 1955, it should be pointed out that statutory allowances required in connection with contemplated loans have not been included in this year's recommendations. Under existing law, it is necessary for the city to secure the approval of the Emergency Finance Board for all proposed borrowings. The board has under consideration five loans contemplated for 1956. In the event approval is given by the board to these issues, it will be necessary to submit to the City Council, in connection with the loan orders, appropriations to be raised within the tax levy totaling \$725,000.00.

FORM OF BUDGET

As indicated in the table of contents, the material relating to the 1956 budget is presented in this document in three parts or sections. Part I presents the appropriations recommended for the various city, county, and income departments. The departments have been arranged by functions, and the appropriations are set forth under the eight main expenditure groups.

Part II presents in detail the allowances recommended for departments and organization units. This detail supports the appropriations recommended and set forth in Part I. It should be noted that the detail for individual departments is presented so as to indicate the various work programs to be performed, together with the allowance required for each program.

Part III presents three sets of tables, two of which indicate in comparative form the differences between 1955 appropriations and 1956 recommendations, as they relate first to organization units, and second to objects of expenditure.

The third set of tables indicates, in consolidated form, the various types of service, and their respective costs, to be rendered by departments within the budgetary allowances recommended.

CITY BUDGET

Allowances recommended for city departments reflect an increase of \$3,885,294.25 over comparable appropriations of last year.

The following comments explain the major changes from 1955 in objects of expenditures among city departments:

Permanent Employees. The factors responsible for the increase of approximately \$1,317,000.00 reflected in compensation allowances for permanent members of departmental staffs may be summarized as follows:

Hospital Department	\$355,000 00	Opening of new services and establishment of compensation differentials between nurses' shifts.
Police Department	\$320,700 00	Provision for \$150.00 increase in the compensation of 2,863 members of the uniformed force.
Fire Department	\$230,700 00	Provision for an increase of \$150.00 in the compensation of 2,072 members of the uniformed force.

Sliding Scales	\$211,300 00	Increases for 2,656 employees who have not as yet reached the maxima provided under the compensation plan for their respective positions.
Extra Day's Compensation	\$200,000 00	Since 1956 is a Leap Year, provision must be made for the extra day of service resulting from this fact.

Temporary Employees. Approximately one half of the \$136,000.00 increase reflected in this allowance is due to the fact that the Presidential Primary, which will occur in April, represents an additional election function to be conducted this year, making necessary the employment of additional temporary employees to man the voting precincts for this function. The balance of the increase is spread over a number of departments.

Overtime. The increase of \$73,000.00 reflected in this item may be attributed to the main to the increased scales of compensation of permanent employees. This is particularly true in the Police and Fire Departments.

Contractual Services. The major portion of the \$650,000.00 increase under this group has resulted from increased allowances made for plant rehabilitation and building repairs in the Hospital and Parks and Recreation Departments, as well as the Building Division of the Real Property Department. It is obvious that efficient service requires proper upkeep and maintenance of the plant where such services are rendered and performed. It should be pointed out that roughly 80% of the increase reflected under this group has been allotted to the Hospital Department.

Supplies and Materials. Approximately two thirds of the \$320,000.00 increase, reflected under this group, has been allotted to the Hospital Department to provide for the purchase of medical and surgical supplies required in the new services, recently established, and to meet increased food requirements at the three hospitals operated by this department. An extra allowance of \$25,000.00 has been allowed the Library Department, primarily to permit advance purchases of books for the new South Boston Branch, which will be opened shortly after the beginning of next year.

Current Charges and Obligations. Increased disbursements by the Welfare and Veterans' Services Departments are responsible for the upward movement of \$1,240,000.00 reflected in this group. The action of the 1955 Legislature in authorizing an additional \$2.50 monthly allowance for transportation to the recipients of old age assistance will cost the city approximately \$450,000.00. In addition, the cost to the Welfare Department for medicines and dental and medical care of recipients of assistance continues to increase in substantial amount. In the Veterans' Services Department an increased case load is responsible, in the main, for the estimated addition in disbursements.

Equipment. While this group reflects a slight decrease from 1955, it should be pointed out that the appropriation listed for last year included a down payment of \$157,000.00 for the equipment loan which was issued in 1955. It is contemplated that a similar loan will be authorized for 1956, but, as previously pointed out, until approval of the Emergency Finance Board is secured, the down payment required in connection with the loan will not reflect in the current year's allowance.

Structures and Improvements. The 1955 appropriation included a down payment of \$312,000.00 to support the major repair loan authorized by the Legislature. When this amount is eliminated from last year's appropriation it is apparent that the 1956 allowance is comparable with that of 1955. Approximately 50% of this year's appropriation has been allotted to the Hospital Department for necessary structural improvements. The Parks and Recreation Department has been allotted \$250,000.00 for roadway construction in the Fens. An allotment of \$65,000.00 has been made to the Health Department for essential structural improvements in Health Units, and \$150,000.00 has been allotted to the Public Works Department for the construction and reconstruction of sidewalks.

Land and Improvements. The increase of \$33,000.00, reflected in this group, has resulted from increased allotments to the Parks and Recreation Department for necessary improvements to playgrounds, and the development of new grave sections in the three cemeteries under the control of the department.

Special Appropriations. The principal allotment provided under this group is \$337,500.00 to permit proposed amendments to the compensation plan. Under these amendments the longevity increases, now provided in the pay schedule, will be eliminated, and in their place will be substituted sliding scale increases at the end of the seventh and eleventh years of service. Under existing law, the amendments proposed must be publicly advertised, and must be considered by the City Council at public hearings. It is planned to initiate action in this respect after the adoption of the budget, and it is estimated that the pay schedule, ultimately resulting, will be effective on the first Wednesday in July. It is estimated that 4,652 employees will benefit by this action.

Another new allowance in this group is \$75,000.00 for a proposed Equalization Survey. This will be conducted under the direction of the Assessing Department, and will embrace income-producing properties, largely in the three downtown wards of the city. The purpose of this Survey is to establish proper methods for the determination of equitable assessments on the properties to be surveyed.

It has been found necessary to increase the allowances for noncontributory pensions and annuities by \$200,000.00 over last year, because of a continued upward trend in the number of applicants for such payments.

Other increases within this group are as follows:

Executions of Court	\$75,000.00
Snow Removal	50,000.00
Reserve Fund	50,000.00
Workmen's Compensation	40,000.00

DIRECTOR FOX LISTS FACTORS BEYOND CONTROL OF MAYOR AS CONTRIBUTING TO BUDGET INCREASE

(Continued from page 144.)

COUNTY BUDGET

Allowances recommended for county departments reflect an increase of \$706,385.08 over similar appropriations in 1955. The following comments explain the major changes responsible for this increase.

Permanent Employees. A substantial portion of the \$460,000.00 increase, reflected under this item, may be attributed to five measures enacted last year by the legislature. These acts provided for increases for judges in the Supreme Judicial, Superior, Boston Municipal and District Courts, as well as for probation officers in the Roxbury Court, and medical examiners and their associates in Suffolk County.

The measures relating to the judiciary were limited, in so far as the specific provisions set forth in the several measures, to the increases in compensation for the justices. Because of the fact that clerks of court and court officers' salaries are fixed by statute at varying percentages of the compensation of the justices of their courts, it was mandatory, in providing increased compensation for the justices, to also increase salaries of these various court attachés. The granting of these automatic increases caused a disruption in the salary scales of the courts involved, with the result that the justices in two of the courts voted further increases to other members of the court staffs.

The following table indicates the factors entering into this year's increased allowance.

Mandatory Legislative Increases	\$317,000 00	These increases resulted from the enactment of Chapters 733, 741 and 748 of the Acts of 1955.
New Positions	\$52,750 00	Legislative action authorizing the appointment of ten additional Assistant District Attorneys for Suffolk County has made necessary a provision for additional secretaries and legal aids in the office of the District Attorney. In the Roxbury Court, legislation permitted the appointment of an additional court officer, and the establishment of the position of Assistant Chief Probation Officer. In the Superior Criminal Court an additional Assistant Clerk and a Clerical Assistant have been allowed.
Sliding Scales	\$34,768 09	Increases for 328 employees who have not as yet reached the maxima provided under the compensation plan for their respective positions.
Increases Granted by Justices	\$31,654 50	These increases, affecting 41 court attachés, were voted by the justices of the courts involved, to remedy disruptions caused by the increase resulting from legislative action.
Increases for Jail and Correction Officers	\$23,000 00	This will permit a one-grade increase for 181 officers attached to the Jail and the House of Correction.

Contractual Services. The increase of \$33,000.00, reflected in this group, may be attributed directly to the increased compensation for jurors, provided at the last session of the Legislature.

Supplies and Materials. Because of a sharp upward trend in the population at the House of Correction, Deer Island, it has been necessary to make increased allowances for foodstuffs and various supplies and materials used at this institution.

Structures and Improvements. Approximately one half of the \$127,000.00 increase, reflected in this group, is represented by an allowance of \$60,000.00 to waterproof and point the old courthouse building in Pemberton Square. Because of the age of this building, serious leaks have developed in the masonry structure, with the result that at the time of heavy rainstorms considerable seepage occurs with damage resulting to ceilings and walls.

Approximately \$25,000.00 has been allotted to the Jail for necessary roof repairs and rehabilitation of the boiler plant. An allowance of \$18,000.00 has been made to provide two new boilers at the Dorchester Courthouse, extensive pointing and waterproofing at the Brighton Courthouse, and necessary alterations and repairs at the Charlestown Courthouse.

Special Appropriations. An allowance of \$17,500.00 has been provided to permit amendments to the County Compensation Plan. These amendments will be similar to those previously described under the City Budget. It is estimated that 218 employees will benefit by this action.

It has been found necessary to increase the allowance of the Middlesex County Training School by \$15,000.00 because of an increase in the rates charged at this institution for the care of boys committed thereto.

A slight increase has also been found necessary for noncontributory pensions and annuities.

INCOME DEPARTMENTS

The allowances made under this section reflect a decrease of roughly \$65,000.00 over the previous years. This is due to the fact that the 1955 appropriations included an allowance of \$180,000.00 for the settlement of damage claims resulting from major breaks in the water distribution system. The absence of an appropriation of this character in 1956 has made possible a decrease in the over-all allowance.

CONCLUSION

The major factors responsible for the increase in budget recommendations for the current year, as against appropriations in 1955, have been set forth in the previous paragraphs. While it is not pleasant to contemplate the effect on this year's tax rate of these increases, I believe that a review of the explanations set forth will support the conclusion that the upward movement reflected in the 1956 budget has resulted from uncontrollable causes and conditions which are not readily subject to administrative discretion through the budgetary process.

Respectfully,

CHARLES J. FOX,
Director of Administrative Services.

EMERGENCY CONTRACTS APPROVED AT EDISON SCHOOL FOLLOWING SERIOUS SOIL EROSION

Mayor John B. Hynes this week approved emergency contracts for shoring up the foundation of the Thomas A. Edison School, Brighton, following discovery of a serious eating away of the ground support under the school basement by soil erosion.

Superintendent of Construction James H. Mooney of the School Buildings Department submitted the following report to Mayor Hynes on the matters:

DEPARTMENT OF SCHOOL BUILDINGS.

BOSTON, January 24, 1956.

DEAR MR. MAYOR:

Observed and reported by plumbing engineers of this department was a soil condition under the Thomas A. Edison School, a three-story building, which bordered on the incredible, it being contrary to all principles of structural design.

Immediately upon receipt of the report I, in company with Deputy Superintendent McPherson, made a personal inspection of the site, and although warned not to go in under the building without a life line attached due to action of quicksand I did go into the crawl space on my hands and knees and discovered that for a length of approximately 45 feet there was absolutely no ground support to a concrete and brick masonry wall three stories high, the foundation footing being approximately 36 inches wide and 20 inches in depth. The wall footing was inundated; however, I was able to determine that there wasn't any support whatsoever and the soil grade below the footing was approximately 2 feet lower than the footing itself. Further, three interior columns of the exterior bay, each taking one half the load imposed on the exterior wall, and consecutively in a row, were in identical condition to that prevailing under the exterior wall, absolutely no support whatsoever.

School Dismissed.

Approximately 8 feet from the three columns mentioned was another interior column without any support. There was absolutely no support whatsoever to this portion of the building, and a through-wall crack at the time of my inspection, the forenoon of Friday, January 20, 1956, had opened up for approximately 10 feet to a maximum of $\frac{3}{4}$ of an inch.

Immediately after coming out from the crawl space I arranged for the dismissal of the entire personnel of the school, pupils and teachers, and this occurred just prior to the time that the cafeteria would be put into use to accommodate eight hundred-odd pupils at one seating, the cafeteria being in a section of the building affected.

As immediate action was necessary I called Mr. Maurice A. Reidy, consulting engineer, 101 Tremont street, Boston, and informed him of the condition I had discovered. He could not believe the condition as described by me on the phone could exist without collapse of the building, and suggested that I further consult with an authority from Massachusetts Institute of Technology, in the instance a Professor Simpson. In my

telephone conversation Professor Simpson also was of the same mind as engineer, Maurice A. Reidy, that the building could not be standing in the manner described and in turn suggested that he bring with him Professor Aldrich, an authority on soil mechanics. I agreed to this arrangement and within an hour's time all the consultants were at the site.

Prior to going in under the building with the consultants I had arranged for Ralph E. Dixon, electrician, to install temporary lighting, and with D. Antonellis, Inc., to pump out the water and spread out planks, etc., to bridge over water contained in sections covering quicksand, and make the tour of inspection a little safer than that I experienced on my first inspection.

Demanded Emergency Action.

All consultants accompanied me into the crawl space, made their own inspections, which confirmed in every respect what I had told them by phone, and after coming out from the crawl space they decided that immediate action was required to prevent entire collapse and recommended that I employ Isaac Blair & Co., Inc., experienced building movers and shorers, with years of experience in the type of work necessary.

Consequently Isaac Blair & Co. workmen started work of shoring at 8 A.M., Saturday, January 21, 1956, and worked through the day until darkness, concentrating on the shoring of the exterior wall. They continued the work of shoring throughout Sunday, part of Sunday night, Monday, and are still employed at the time of this writing.

From the time of my first inspection on Friday until shoring work was started Saturday shortly after 8 A.M., the crack heretofore mentioned extended to 20 feet in length and opened up in excess of 1 inch, this being indicative of the fact that the exterior concrete wall could no longer retain the loads imposed, and the shoring, immediately installed, did without question prevent further wall fractures and possible collapse.

Isaac Blair & Co., Inc., 43 Harrison avenue, Boston, was employed at the following rates consistent with rates for emergency shoring work:

Member of the firm as superintendent, \$6 per hour.

Foreman, \$4 per hour.

Workmen, \$3.85 per hour.

Double time rates Saturdays and Sundays. On other days time over eight hours at time and one half.

Special equipment required, cost plus 10 per cent.

Trucking of material to and from job, cost plus 10 per cent.

Above terms cover use of material, insurance, overhead expense and profit. The only other charges that will be made in addition to the above are: Rental charge of \$25 a month for materials if materials will be tied up for over one month's time.

Weekly inspection of wedging and temporary shoring to determine whether or not the shoring is holding pending installation of permanent construction to stabilize the building.

I further agreed that their bills will be sent weekly and payments made the following week if possible.

Professors Simpson and Aldrich have agreed to forward to me a technical report of their findings, and at the same time will render their bill for consultation work.

With your approval I will employ Maurice A. Reidy, consulting engineer, to make a design for permanent construction repairs and the methods for so doing, the rates to be determined after the emergency shoring is completed as the permanent design will have to be so formulated that the temporary shoring can be removed progressively with new construction work. Such design cannot be determined at the time of this writing.

As heretofore stated, to provide lighting throughout the area where shoring was performed, I employed Ralph E. Dixon, electrician, 110 Arlington street, Brighton, on an overtime basis for work performed Saturday and Sunday and on straight time for work subsequent to these days.

Work Continues.

Also I employed D. Antonellis, Inc., 15 Sparhawk street, Brighton, who was at the site engaged in making repairs to yard drains, etc., to have two laborers and a superintendent available to work in connection with the shorers to acquire the installation of shoring in the least possible time. D. Antonellis, Inc., was obliged to operate their pump on a 24-hour basis which required a man in constant attendance, and also was required to level off the soil to provide access to points to be inspected and shored, as well as the spreading out of planks to bridge over water. Bills for work performed by Ralph E. Dixon and D. Antonellis, Inc., will be billed independent of those of Isaac Blair & Co., Inc.

I was at the site during the entire operations on Saturday, Saturday night, and Sunday, and men of this department were there as well, also on Monday and today, so that we will have complete knowledge of the time, materials used, and labor expenses.

As you can see by my description of the work, the condition described required immediate action of an emergency nature, and it is impossible at this moment to give you any idea of the costs of emergency operation and permanent construction work. However, all work performed was necessary, will have to be continued, and inspected at intervals, and I ask that you approve my procedure with full knowledge of the fact that I will use every effort to keep costs as reasonable as is consistent with the work performed or to be performed.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

CONTRACTS AWARDED WITHOUT ADVERTISING

ADMINISTRATIVE SERVICES DEPARTMENT.

Purchasing Division.

On January 31, Mayor Hynes approved the following request of the Purchasing Division to dispense with public advertising on certain food purchases:

DEAR MR. MAYOR:

For several years, your Honor has granted authority to this office to purchase perishable foods, including fruits, vegetables, meats, poultry, butter, fish, and eggs, on a weekly basis and, in some instances, a monthly basis.

Inasmuch as purchases in this manner result in considerable savings to the city, authority is requested to dispense with publicly advertising for prices and award contracts, without public advertisement, to the following companies for the period from April 1, 1956, to March 31, 1957, inclusive:

Armour & Co., 775 Columbus avenue; Morris Blinder & Co., Inc., 32 North street; City Packing Company, Inc., 115 Newmarket square; Collins & Lee, Inc., 105 Suffolk street, Chelsea; Colonial Provision Company, Inc., 128 Cross street; Colony Food Products, Inc., 4060 Mystic Valley Parkway, Medford; Consolidated Lobster Company, Inc., 924 Washington street, Gloucester; Coral Sea Fisheries, Inc., 17 Fish Pier; Costa Fruit and Produce Company, 41 Central Wharf; Cudahy Packing Company, 27 Fruit and Produce Exchange; Curly Brothers, Inc., 15 South Market street; Epstein Company, 9 Blackstone street; Warren Fitch Company, Inc., 44 Fish Pier; Saul Fleishman, doing business as

Fleishman Egg Company, 7 Merchants Row; Samuel M. Gertman Company, Inc., 40 Newmarket square; Genoa Fisheries, Inc., doing business as Boston Bonnie Fisheries, 295 Northern avenue; G. Giovino Company, 19 Commercial street; Julius Jacobs, doing business as Jacobs & Co., 22 B & M Produce Market, Charlestown; John A. Kennedy & Sons, Inc., 125 Liberty street, Quincy; T. F. Kinnealey Company, 20 Newmarket square; Irving Levitt Company, 30 Newmarket square; Linnehan Fruit Supply, Inc., 304 C street, South Boston; M. J. McCarthy & Co., 29-30 Front street, Charlestown; Metropolitan Hotel Supply Company, Division of Swift & Co., 1000 Massachusetts avenue; Miller Produce Company, 85 Newmarket square; Walter Mill's & Sons, Inc., 539 East First street, South Boston; Netto & Wheaton, Inc., 3 Blackstone street; New England Importation Company, Inc., 208 State street; New England Fillet Company, Inc., 26 Fish Pier; New England Provision Company, Inc., 960 Massachusetts avenue; North American Packing Corporation, 225 Southampton street; Northern Fruit Company, Inc., 70 Commercial street; O'Hara Brothers Company, Inc., 39 Fish Pier; Premier Packing Company, Inc., 1240 Columbus avenue; Jacob Prober Company, Inc., 38 South Market street; Radlo Brothers, 5 Commerce street; A. F. Rich Company, 2 Fish Pier; Albert Richards Company, Inc., 23 Commercial street; F. J. Reardon, Inc., 17 Front street, Charlestown; Riley & Co., Inc., 25 North Market street; Otis Simonds Company, 55 Front street, Charlestown; Norman B. Small, doing business as Norman B. Small Co., 61 Chatham street; Roy G. Spark, Inc., 24 B & M Produce Market, Charlestown; Standard Brands, Inc., 150 Causeway street; Stavix Ipswich Clam Company, Inc., 148 Northern avenue; Oscar B. Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

Purchase of a Buick Sedan, without the formality of advertising, has been approved for the Public Works Department, based on the following communication from the Purchasing Agent to Mayor Hynes:

DEAR MR. MAYOR:

This office is in receipt of a requisition from the Public Works Department (Equipment Loan) for one (1) 1956 Special Buick, four-door sedan, Model 41, as per specifications, to be delivered immediately. Dickson Buick, Inc., Dorchester, Mass., has submitted an informal written quotation. This company has a Buick available for immediate delivery.

Inasmuch as time is of the essence and since Dickson Buick, Inc., has submitted an acceptable price, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to this company. It is my opinion that, in this way, the best interests of the city will be served.

Approximate total amount of contract will be \$3,139.80, less trade-in allowance of 1951 Buick Special, damaged, \$190, making a net total of \$2,949.80.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

Mayor Hynes has approved the award of a contract, without advertising, for a Walter snow fighter based on the following communication from the Purchasing Agent:

DEAR MR. MAYOR:

This office is in receipt of a requisition from the Parks and Recreation Department for one (1) Walter snow fighter as per specifications.

Charles H. Wood, doing business as Charles N. Wood Company, agents for Walter equipment, has submitted an informal written quotation. Inasmuch as the Parks and Recreation Department has practically standardized on Walter equipment and has also found that this type of equipment is best suited for the work to be performed, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Charles H. Wood, doing business as Charles N. Wood Company. This company is also in a position to make immediate delivery of the equipment. It is my opinion that the best interests of the city will be served by awarding the contract as requested.

Approximate total amount of contract will be:

One (1) Walter snow fighter as per specifications, \$28,688; less Federal excise tax, \$1,073—\$27,615; less allowance for FWD No. 61 with equipment, \$2,700; net total, \$24,915.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

DEPARTMENT OF SCHOOL BUILDINGS.

On February 2, Mayor Hynes approved the following request of the Department of School Buildings:

DEAR MR. MAYOR:

For many years this department's building at 26 Norman street, Boston, in which thousands of dollars worth of school equipment and school furniture is stored, has been under the protection of the American District Telegraph Company Protective Services, and the building is so wired by said company, with their headquarters at 60 State street, Boston, to provide a protection service which I believe to be of great value to the City of Boston. The contract with the American District Telegraph Company has been made annually, and the current contract will expire March 31, 1956.

The American District Telegraph Company has informed me that they are willing to supply this protective service

for this department's building at 26 Norman street, for the period April 1, 1956, up to and including March 31, 1957, at the same rate as last year, namely, \$1,536.

I am definitely of the opinion that the protection services operated by the American District Telegraph Company are necessary in this building, and ask that you authorize me to negotiate a contract, without advertising, with the American District Telegraph Company, 60 State street, Boston, in the amount of \$1,536, for the period April 1, 1956, to March 31, 1957.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

PARKS AND RECREATION DEPARTMENT.

On January 30, the Mayor approved the following request of the Park Department:

DEAR MR. MAYOR:

We are at present having work done under contract for the construction of a laundry addition and alteration to the existing bathhouse at Dover street in the South End.

The laundry, which is now located in the basement of the existing building, is to be moved into the new laundry addition when ready. We intend to furnish the new laundry with new laundry equipment, with the exception that the existing large flat work ironer and two laundry tumblers, which are in good condition, are to be removed and relocated in the new installation.

We, therefore, are preparing a separate contract for moving and resetting the above equipment and which also will include furnishing and setting a new ventilating canopy on the flat work ironer when relocated.

The above noted laundry equipment to be dismantled and relocated was manufactured by the American Laundry Machinery Company, and the new ventilating canopy should be furnished and installed by the same company as it is an adjunct to this machine.

It seemed reasonable to us that the manufacturer of the equipment, who has the experienced help, know-how, and equipment to do this work, would be the logical company to dismantle and relocate the equipment and to furnish and erect the canopy.

We therefore requested the American Laundry Machinery Company to quote us prices to do the work required. As a result of that request they have quoted us as follows:

For moving and resetting laundry equipment, \$975; for furnishing and setting new ventilating canopy, \$1,775; making a total price of \$2,750 to do the work required.

After due investigation, we feel the prices quoted to be fair and reasonable and believe it would be in the best interests of the city to award them a contract to do the work required, for the total price quoted.

In view of all this, I respectfully request your Honor's permission to award a contract, without publicly advertising, to the American Laundry Machinery Company, 27 Trinity place, Boston, Mass., for moving and resetting laundry equipment at the Dover Street laundry, Boston, Mass., for a total sum of \$2,750, same to be charged to Non-Revenue Item—Construction of Buildings and

Original Equipment and Furnishings Thereof, 6-61-41, Laundry and Utility Building Construction of 6-61-41.

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

SUFFOLK COUNTY COURT HOUSE COMMISSION.

On February 3, Mayor Hynes approved the following requests of the Suffolk County Court House Commission to dispense with advertising on the following contracts:

Towel Service.

DEAR MAYOR HYNES:

Because of the satisfactory service rendered over a period of years by the Federal National Linen Service Company, Inc., of Boston, in supplying towel service to the Suffolk County Court House, the Court House Commission believes that it would be for the best interests of the City of Boston and the County of Suffolk to continue this service with the Federal National Linen Service Company, Inc., and requests your authority to dispense with advertising and to award a contract to the Federal National Linen Service Company, Inc., on the basis of supplying one thousand (1,000) towels weekly for the period commencing April 1, 1956, and ending March 31, 1957.

The total amount contemplated for expenditure under the proposed contract is \$2,400, the rate being \$200 per month.

The deliveries and collections of towels at the Suffolk County Court House have been made with the utmost cooperation and efficiency. The Federal National Linen Service Company, Inc., owns the towels, bears the losses and replacements, and guarantees the suitability of the towels furnished, and undertakes to save the county from any claims arising through the performance of the service.

Respectfully yours,

ARNO I. DREW,
Chairman.

Window-Washing Service.

DEAR MAYOR HYNES:

Because of the satisfactory service rendered over a period of years by the W. C. Holmes Cleaning Company of Boston, in supplying window-cleaning service to the Suffolk County Court House, the Court House Commission believes that it would be for the best interests of the City of Boston and the County of Suffolk to continue this service with the W. C. Holmes Cleaning Company, and requests your authority for awarding the contract, without advertising, to the W. C. Holmes Cleaning Company for the period commencing April 1, 1956, and ending March 31, 1957.

The total amount contemplated for expenditure under the proposed contract is \$2,800.

The aforesaid company carries the required Public Liability and Workmen's Compensation Insurance.

The W. C. Holmes Cleaning Company has all the necessary equipment and the necessary experience enabling it to perform this service with the least possible disturbance to the daily functions at the courthouse.

Respectfully yours,

ARNO I. DREW,
Chairman.

EXTENSION OF CONTRACTS.**DEPARTMENT OF SCHOOL BUILDINGS.**

The Mayor has approved an extension of time for the completion of a contract with L. J. Banda for modernization of plumbing at the Michelangelo School, from January 31, 1956, to March 16, 1956. This extension was requested because pipe covering subcontract work was not completed.

The Mayor has approved an extension of time for the completion of a contract with D. Antonellis, Inc., for new dish-washing room at the Boston Latin School, from January 31, 1956, to March 15, 1956. This extension was requested because of a delay in delivery of dish-washing machine.

The Mayor has approved an extension of time for the completion of a contract with D. Antonellis, Inc., for flood emergency repair work at the Boston Trade High School, from November 1, 1955, to December 10, 1955. This extension was requested because of a delay in obtaining materials to complete work.

The Mayor has approved an extension of time for the completion of a contract with Arthur H. Curtis Company for furnishing and installing new oil burners at the Hyde Park High School, from January 25, 1956, to February 29, 1956. This extension was requested because of the continuing water condition causing a delay in the completion of installation of oil burners.

PUBLIC WORKS DEPARTMENT.

The Mayor has approved an extension of time for the completion of a contract with Edward Vozzella for sewerage works and water works in Sunset Lane, Dorchester, from January 31, 1956, to April 15, 1956. This extension was requested because the contractor was delayed, due to winter weather conditions.

ADDITIONS TO CONTRACT.**HOSPITAL DEPARTMENT.**

Parkman Construction Company, contractor for alterations and renewals of storm, sanitary, and electrical systems, Medical Building, City Hospital, has been instructed to add to the contract the following:

Reconstruct structural slab, price No. 2, from east corridor to double doors only; install drain and vent for air-conditioning unit in locker room area; install 3-inch vent line under floor for future vent connection at biochemistry laboratory fixtures; install two 3-inch drains under storage room floor, connecting to existing drain lines, for the sum of \$4,758.42, and the amount of \$4,758.42 will be added therefor, making the amount as follows: Original contract, \$21,523; now added, \$4,758.42; corrected contract, \$26,281.42.

AMENDMENT TO ORIGINAL AWARD OF DAMAGES.

The Public Improvement Commission has voted as follows:

That the amount of \$360 be awarded to Frank J. and Jean Levy for all damages sustained under the order of the Street Commissioners and Mayor as of September 28, 1953, for the laying out and construction of Cricket Lane, West Roxbury district.

POLICE DEPARTMENT ORDERS.

General Order No. 2,163.

The resignation of Patrolman Robert A. Ramacorti, Division 4, having been presented, it is hereby accepted, to take effect Sunday, February 12, 1956, at 5.45 o'clock P.M.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,164.

The resignation of Patrolman Joseph E. McCabe of Division 8 having been presented, it is hereby accepted, to take effect Monday, February 13, 1956, at 7.45 o'clock A.M.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,165.

Patrolmen Richard P. Davis and Anthony J. Kupstis of Division 3 are commended and each is granted two days' extra vacation for meritorious service performed on January 26, 1956.

While these officers were on plain clothes duty in the Beacon Hill area,

they observed a man who answered the description of the criminal wanted for armed robbery. Upon approaching him, he fled with the officers in pursuit through several streets and was finally apprehended. While being pursued the suspect was seen to throw an object over a fence. The officers returned to this location and found a black pistol.

Upon questioning, this man admitted he had committed five armed holdups and that he was intending to commit another when he was observed by the officers. He was identified by all five victims.

The commissioner is pleased to commend these two officers, both with comparatively short service in the department, for their excellent police work in apprehending this criminal.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,166.

The resignation of Patrolman Leonard H. Coppenrath, Division 17, having been presented, it is hereby accepted, to take effect Wednesday, February 15, 1956, at 7.45 o'clock A.M.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,167.

The following promotion and assignment is hereby ordered, to take effect Wednesday, February 8, 1956, at 7.45 o'clock A.M.:

To the Grade of Captain.

Lieut. William J. Taylor, Chief Clerk's Office.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

FIRE DEPARTMENT ORDER.

General Order No. 9.

I. FIRE LIEUTENANT MICHAEL A. LANGONE.

It is with deep regret that the Fire Commissioner announces the death on February 3, 1956, of Fire Lieutenant Michael A. Langone of Engine Company 40 who died as the result of injuries received during the performance of his duties at Box 6172 on January 29, 1956. JOHN F. STAPLETON,
Chief of Department.

PART OF POPLAR STREET ORDERED WIDENED

On February 3, the Mayor approved the action of the Public Improvement Commission, as follows:

The widening and construction of Poplar street, West Roxbury district, on the easterly side, from a point approximately 300 feet north of Deforest street, approximately 200 feet northerly, is described as follows:

The highway named Poplar street is hereby widened on the easterly side, from a point approximately 300 feet north of Deforest street, approximately 200 feet northerly, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described land, exclusive of trees, shrubs or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to owners unknown, bounded:

Northwesterly by the southeasterly line of Poplar street as it existed prior to this order by two measurements, one hundred sixty-five and 36-100 feet on a curve of two hundred thirty-five and 00-100 feet radius and twenty-eight and 74-100 feet; southeasterly by land hereinafter described as taken from Paul Livoli by three measurements, sixty-eight and 19-100 feet, sixty-seven and 26-100 feet, and fifty-seven and 47-100 feet, containing four hundred eighty square feet, more or less.

A parcel of land, supposed to belong to Paul Livoli, bounded:

Northwesterly by land hereinafter described as taken from owners unknown, by three measurements, fifty-seven and 47-100 feet, sixty-seven and 26-100 feet, sixty-eight and 19-100 feet; again northwesterly by the southeasterly line of Poplar street as it existed prior to this order, twenty-one and 26-100 feet; southeasterly by the southeasterly line of said Poplar street as widened under this order, two hundred thirteen and 67-100 feet on a curve of three hundred seventy-one and 20-100 feet radius; southwesterly by land hereinafter described as taken from Richard C. Sullivan *et al.*, four and 00-100 feet, containing seven hundred eighty square feet, more or less.

A parcel of land, supposed to belong to Richard C. and Alice M. Sullivan, bounded:

Northeasterly by land hereinafter described as taken from Paul Livoli, four and 00-100 feet; westerly by the easterly line of Poplar street as it existed prior to this order, fifty and 00-100 feet; southeasterly by the southeasterly line of Poplar street as widened under this order forty-seven and 53-100 feet on a curve of three hundred seventy-one and 20-100 feet radius, containing fifty-two square feet, more or less.

Said Poplar street as hereby widened is bounded:

Westerly by the easterly line of Poplar street as it existed prior to this order, fifty and 00-100 feet; northwesterly by the southeasterly line of Poplar street as it existed prior to this order by two measurements, one hundred sixty-five and 36-100 feet on a curve of two hundred thirty-five and 00-100 feet radius and fifty and 00-100 feet; southeasterly by the southeasterly line of Poplar street as hereby widened, two hundred sixty-one and 20-100 feet on a curve of three hundred seventy-one and 20-100 feet radius.

The City of Boston hereby takes the right in the following described land to place or slope, and maintain all filling required for grading said Poplar street, in the West Roxbury district on the easterly side, from a point approximately 300 feet north of Deforest street, approximately 200 feet northerly.

A parcel of land, supposed to belong to Paul Livoli, bounded:

Northwesterly by the southeasterly line of Poplar street as widened under this order, two hundred thirteen and 67-100 feet on a curve of three hundred seventy-one and 20-100 feet radius; northeasterly by other land of said Paul Livoli, fifteen and 00-100 feet; southeasterly by other land of said Paul Livoli by two measurements, one hundred fifty and 64-100 feet and fifty-nine and 80-100 feet; southwesterly by land supposed to belong to Richard C. and Alice M. Sullivan, six and 00-100 feet, containing five thousand six hundred forty-two square feet, more or less.

Trees, shrubs or structures standing upon or affixed to the aforescribed land shall be removed therefrom within thirty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

ACTION ON DAMAGES.

The Public Improvement Commission has voted as follows:

That no person sustains damages in his estate by the making of the public improvement consisting of the taking of an easement for sewerage purposes and the construction of sewerage work in Ruffing street, Hyde Park district, under the order of the commission of February 1, 1956, and awards no damages therefor.

PROCEEDINGS OF CITY COUNCIL.

Monday, January 30, 1956.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President McCORMACK in the chair, and all the members present.

Rev. Arthur H. Doherty, of St. Joseph's Roman Catholic Church, Hyde Park, was escorted to the rostrum.

INVOCATION BY REV. ARTHUR H. DOHERTY.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

O God, creator and redeemer of all men, as we face up to the different problems that await present solution, enlighten our minds and purify our hearts that we may have the prudence and discretion to follow what is right though difficult, rather than what is questionable though easy.

May every official act of ours be in keeping with Thy divine plan, and in conformity with Thy gracious will. May our decisions be based on wisdom and justice and promote the common good of those whom we serve and the greater glory of God, Who liveth and reigneth forever and ever. Amen.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

ESTABLISHMENT OF PUBLIC HEALTH COUNCIL.

The following was received:

City of Boston,
Office of the Mayor, January 25, 1956.
To the City Council.

Gentlemen:
Because of the rapid advances being made and new techniques being explored and discovered in the matter of public health, it has been growing apparent that the physical setup of our Health Department is lacking the media through which it can obtain up-to-date advice and counsel in this important field of municipal service.

As a consequence, it is felt that the establishment of a Public Health Council, to serve in an advisory capacity to the Health Commissioner, and to counsel and advise with him on matters of public health, would be a forward step in improving our health protection services.

Such a Council has been proposed at various times in the past. It is now evident that such a Council would be of immense help in our health program. Boston has always been in the forefront of the large cities in our country in the adoption of methods to protect our public health and the record of our Health Department is an enviable one.

I am confident that the establishment of a Public Health Council, composed of competent, experienced and able persons will improve our present standing, and will enable us to keep abreast of whatever new developments may occur in the field of public health.

In this vein, I recommend the passage by your Honorable Body of the accompanying ordinance establishing a Public Health Council in the Health Department.

Respectfully,
J. B. HYNES, Mayor.

An Ordinance Establishing a Public Health Council and Defining Its Powers and Duties.

Be it ordained by the City Council of Boston, as follows:

Chapter 17 of the Revised Ordinances of 1947, as most recently amended by section 31 of chapter 2 of the Ordinances of 1954, is hereby further amended by inserting after section 3 the following section:

Section 3A. There shall also be in the health division a board, known as the Public Health Council, consisting of nine members appointed by the mayor, of whom at least one shall be a registered physician, one a registered dentist, one a representative of an industry engaged in handling food, one a representative of another industry, one a representative of labor, and one a housewife. The members of the public health council first appointed shall serve, according to the provisions of their respective appointments, for terms commencing upon their respective dates of appointment and expiring, in the case of three members, one year, in the case of three other members, two years, and in the case of three other members, three years, from May 1, 1956. As the term of any such member, or of any subsequent member, expires, his successor shall be appointed by the mayor for a term of three years. Any vacancy in the office of a member shall be filled by the mayor for the unexpired term. The mayor shall from time to time designate one of the members of the public health council as chairman and another as vice chairman. The members of the public health council shall serve without compensation.

It shall be the duty of the public health council (a) to make, upon its own initiative or at the request of the mayor, the director of administrative services or the health commissioner, studies and recommendations with respect to the organization, activities, policies, procedures and budget of the health division; (b) to review from time to time such rules and regulations of the health commissioner as may then be in force and report to the health commissioner its findings with respect to the adequacy thereof and its recommendations, if any, for the amendment or repeal thereof or for new rules and regulations, and (c) to advise the health commissioner on such matters within the scope of his duties as he may refer to said council.

The public health council shall not be subject to the supervision or control of the health commissioner; nor shall it take part in the conduct of the executive or administrative business of the health department; but unless otherwise ordered by the mayor, it shall not communicate with the mayor, or make any annual or other report, except through the health commissioner.

Referred to the Committee on Ordinances.

APPROPRIATION FOR AUTOMATIC TRAFFIC SIGNALS.

The following was received:

City of Boston,
Office of the Mayor, January 30, 1956.
To the City Council.

Gentlemen:
I am advised that at the present time the Boston Traffic Commission has in stock a number of items of traffic signal equipment which could be installed in various sections of the city, provided an appropriation was made available for the underground construction work involved.

It has been customary in the past to provide appropriations of this character from the special account "Sales of City Property."

I submit herewith an order providing for the appropriation of \$20,000 from this account, which amount represents practically the entire balance available for appropriation at this time.

I respectfully recommend your consideration and adoption of this order.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That under the provisions of section 63 of chapter 44 of the General Laws, the sum of twenty thousand dollars (\$20,000) be, and the same hereby is, appropriated from the special account, "Sales of City Property," to be expended under the direction of the Boston Traffic Commission, for "Automatic Traffic Control Signals in Various Sections of the City."

Referred to the Committee on Appropriations and Finance.

APPROPRIATION FOR OFF-STREET PARKING IN JAMAICA PLAIN.

The following was received:

City of Boston,
Office of the Mayor, January 24, 1956.
To the City Council.

Gentlemen:
I submit herewith an order for the transfer of \$55,000 from the Parking Meter Fund to the Real Property Department, for acquisition, construction, and maintenance of an off-street parking site in Jamaica Plain.

This proposed parking site will be on Thomas street, Jamaica Plain, within 100 feet of Centre street, a busy shopping district. There has been a continued demand for an off-street parking site in this section of our city. When completed this site will accommodate 80 cars. It is another in a series of parking facilities constructed or to be constructed in those local shopping centers of our city which are now without adequate parking facilities.

I most respectfully request approval of the accompanying order by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Real Property Department,
January 20, 1956.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

At a meeting of the Real Property Board held on January 19, 1956, on motion duly made and seconded, it was unanimously

Voted, That the Chairman be, and he hereby is, directed to write to his Honor the Mayor, requesting that he present an order to the City Council asking for the transfer of funds from the Parking Meter Fund to the Real Property Department, for acquisition, construction, and maintenance of the off-street parking site at:

Jamaica Plain..... \$55,000

Location: Centre, Thomas, and Burroughs Streets.
(Plot Plan enclosed herein.)

Area: 30,082 square feet.

Number of Cars: 80.

Cost of Improvements: \$55,000.

Respectfully submitted,
HERMAN CARP,
Commissioner of Real Property,
Chairman, Real Property Board.

Ordered, That under the provisions of section 22B of chapter 40 of the General Laws as established by chapter 776 of the Acts of 1949 the sum of fifty-five thousand dollars (\$55,000) be, and hereby is, appropriated, from the special account "Parking Meter Fees," to be expended by the Real Property Department, for constructing or reconstructing and resurfacing off-street parking facilities in Jamaica Plain.

Referred to the Executive Committee.

ALTERATIONS TO BRIDGE OVER TRACKS ON MASSACHUSETTS AVENUE.

The following was received:

City of Boston,
Office of the Mayor, January 30, 1956.
To the Honorable City Council.

Gentlemen:
During a recent resurfacing of Massachusetts avenue, it was found that the underdeck of the bridge which carries Massachusetts avenue, between Columbus avenue and St. Botolph street, over the tracks now used by the New York, New Haven & Hartford Railroad, had deteriorated to a point where replacement is advisable.

Accordingly, the Commissioner of Public Works has included in the bridge construction program for the current year, the replacement of the entire superstructure of this bridge.

The new superstructure will eliminate six girders which now extend above the surface of the way; and there will be other changes in the construction of the bridge and its approaches.

Since the proposed changes constitute alterations within the meaning of G. L. (Ter. Ed.), c. 159, s. 59 as amended, application for permission to make such alterations must be made to the Department of Public Utilities after the adoption of a suitable order by your Honorable Body.

I therefore recommend the early adoption of the order transmitted herewith.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That it be, and hereby is, deemed and determined to be necessary for the security and convenience of the public that alterations substantially as shown on the set of plans dated November, 1955, and entitled "City of Boston, Public Works Department, Bridge Division, Massachusetts Avenue Bridge over New York, New Haven & Hartford Railroad, reconstruction of superstructure, John J. McCall, Division Engineer, George G. Hyland, Commissioner of Public Works," be made where Massachusetts avenue in Boston and the Boston Division of the Boston & Providence Railroad now cross each other; and

Ordered, That the Corporation Counsel of the City of Boston be, and he hereby is, authorized and directed to make, in the name and in behalf of the City Council of the City of Boston, appropriate application to the State Department of Public Utilities under G. L. (Ter. Ed.), c. 159, s. 59, as amended, in connection with such alterations.

Referred to Committee on Public Services and Recreation.

PROGRESS REPORT ON NEW SCHOOL CONSTRUCTION

The following report from the Structural Engineer to the Superintendent of Schools, for the School Committee, was ordered spread in full on the record of this meeting:

In response to the request of School Committeeman Louis F. Musco that I submit a written report on the progress of our current building program, I wish to offer the information set forth below. The data offered is the result of a conference held on December 2, 1955 with Superintendent of Construction James H. Mooney, Department of School Buildings.

James J. Chittick
District, Mattapan

Additions to James J. Chittick building to accommodate 190 pupils — 4 classrooms, 1 double kindergarten, 1 all-purpose room and miscellaneous rooms.

Construction work approximately 82% completed. We are very hopeful of occupancy of the north wing, comprising 2 classrooms and 1 manual training shop, during the Christmas vacation. The south wing comprises 1 sewing room, 1 kindergarten, 2 classrooms and an all-purpose room; this wing should be ready for occupancy early in February 1956.

Blackinton-John
Cheverus District,
East Boston

Addition to Curtis Guild building to accommodate 140 pupils—4 classrooms, 1 manual training room, 1 sewing room, 1 small playroom and an all-purpose room.

Construction work approximately 80% completed. This addition should be ready for occupancy late in January of 1956.

William E. Russell
District, Dorchester
Columbia Point

Elementary school to accommodate 1010 pupils — 26 classrooms,

2 double kindergartens, 1 manual training room, 1 sewing room, 1 assembly hall and 1 playroom.

Construction work is approximately 62% completed. This building will be ready for occupancy on the opening of school in September of 1956.

Elihu Greenwood District,
Metropolitan Avenue,
Hyde Park

Elementary school to replace the Elihu Greenwood building to accommodate 470 pupils—12 classrooms, 2 kindergartens, 1 sewing room, 1 manual training room and 1 all-purpose room.

Bids by building contractors are to be opened December 6, 1955. Ground breaking should take place in about three weeks. We are hopeful that this building will be ready for occupancy during the Christmas vacation of 1956.

Mary Hemenway District,
Dorchester

Elementary school to replace the Elbridge Smith building, to accommodate 330 pupils—8 classrooms, 2 kindergartens, 1 sewing room, and 1 all-purpose room.

Final plans are in possession of the Department of School Buildings. However, there are some minor details to be straightened out. This job will be advertised for bids in about three weeks. Ground breaking should take place about the middle of February of 1956. This building should be ready for occupancy in the spring of 1957.

Elihu Greenwood District,
Fairmount Area,
Needham Road Lots,
Hyde Park

Elementary school to accommodate 445 pupils—12 classrooms, 1 kindergarten, 1 sewing room, and 1 all-purpose room.

It is expected that this project will be advertised for construction bids during the last week of this month. Ground breaking should take place in the latter part of February 1956. Building should be ready for occupancy in January of 1957.

Solomon Lewenberg
Junior High School,
Mattapan

Erection of addition to provide gymnasium.

This job should be advertised for bidding in the first week in January 1956. Ground breaking should take place about the middle of February 1956. This addition should be ready for occupancy at the end of the year 1956.

Sherwin District, Roxbury—
Boston Trade High School

Erection of addition to provide cafeteria and gymnasium.

Project should be advertised about the first of February 1956.

Ground breaking should take place about the middle of March 1956. Building could be ready for occupancy in the early spring of 1957.

Henry Grew District
Hyde Park

Elementary school to replace the Henry Grew building, to accommodate 305 pupils—8 classrooms, 1 kindergarten, 1 sewing room, and 1 all-purpose room.

Final plans for this project have not as yet been submitted to the Department of School Buildings. However, it is expected that this building will be advertised for bidding about February 6, 1956. Ground breaking should take place about the middle of March 1956. Building should be ready for occupancy in the spring of 1957.

Martin District, Roxbury,
Thomas Dwight Site

Elementary school to accommodate 890 pupils—24 classrooms, 2 kindergartens, 1 manual training room, 1 sewing room, 1 assembly hall, and 1 playroom.

Project should be advertised about February 11 1956. Ground breaking should take place in the last week of March 1956. Erection of this building should be completed during the summer of 1957.

Blackinton—John Cheverus
District—Orient Heights Area

Elementary school to accommodate 340 pupils—9 classrooms, 1 kindergarten, and an all-purpose room.

Project should be advertised for bids about February 24, 1956. Ground breaking should take place in the middle of April 1956. This building should be ready for occupancy in May of 1957.

Rice-Franklin District
South End—(Former English
High School Site)

Elementary school to replace Rice and Franklin buildings, to accommodate 795 pupils—22 classrooms, 1 kindergarten, 1 woodworking shop, 1 sheet metal shop, 2 sewing rooms, 1 cooking room, 1 gymnasium and 1 assembly hall.

Project should be advertised about the end of April 1956. Ground breaking should occur about the middle of June 1956. Erection of this building should be completed during the fall months of 1957.

Dwight District, South End

Elementary school to replace the Dwight and Louisa May Alcott buildings, to accommodate 610 pupils—16 classrooms, 2 kindergartens, 1 manual training room, 1 sewing room, 1 assembly hall, and 1 playroom.

Funds have not as yet been allocated for this project. If funds

are provided before the end of the year, this building should be completed and ready for occupancy in February of 1958.

SALUTE TO ROME

In accordance with the request of Mr. Musco, the following statement is printed in full:

The members of the Boston School Committee, including the administrative staff, the school personnel, the student body, and the parents, wish to acknowledge in public meeting the long standing bonds of amity which unite in action and in spiritual union the City of Boston with the City of Rome.

This "Salute to Rome" week is a timely occasion to express a fine traditional friendship and spiritual kinship of two "Eternal Cities" by international exchange in observance of the tenth anniversary of this "Salute to Rome." The City of Boston, with its many extractions of Italian, Roman, origin, and inheritance is especially responsive to the everlasting and glorious traditions of this venerable city.

We are grateful for the intellectual and spiritual heritages with which the "Eternal City" has endowed the universe and its peoples.

DEO GRATIAS!

COMMENDATION OF FOOTBALL TEAM, CHARLESTOWN HIGH SCHOOL

The following communication was presented:

City of Boston
In City Council

WHEREAS: Participation in athletics of all kinds is to be encouraged in our schools not only for the improvement of the health of our youth but also for the development of character and qualities of good sportsmanship, fair play, discipline, ability to lose gracefully, and for the purpose of fighting juvenile delinquency; and

WHEREAS: While winning in schoolboy sports should not be overemphasized, yet it is fitting that recognition should be given to a degree of perfection which is reached through fine instruction, diligent practice, hard work and loyalty, now therefore be it

RESOLVED: That the Boston City Council, in meeting assembled, congratulates and commends the Headmaster, coaches and members of the football team of the Charlestown High School on the completion of their first undefeated season in many years and upon their winning of the statewide Class D Football championship.

In City Council November 28, 1955. Adopted.

Attest:

(Signed) Walter J. Malloy
City Clerk

REPORT ON ATTENDANCE AT CONVENTION

A communication was received from the Superintendent, under date of Dec. 5, 1955, submitting, in accordance with the provisions of Chapter 274 of the Acts of 1914, report of Priscilla M. Richards, assistant director of School Lunches, on her attendance at

the Convention of the American Dietetic Association, held in St. Louis, Missouri, Oct. 18 to 21, 1955, inclusive.
 Placed on file.

APPROPRIATIONS AND EXPENDITURES TO NOV. 1, 1955

A communication was received from the Business Manager, under date of Dec. 5, 1955, submitting a statement showing the appropriations, the expenditures and the balances for general school purposes and special items for the first ten drafts of the current fiscal year, the expenditures for the first ten drafts of the fiscal year 1954, and the increases and decreases in the several items.

Placed on file.

REPORT ON AUDIT OF BOOKS AND ACCOUNTS

A communication was received from O'Brien, Fitzgerald and Cullen, under date of Dec. 1, 1955, submitting their interim report of the School Committee of the City of Boston as at Sept. 30, 1955.

Placed on file.

TRANSFER OF CUSTODIANS

A communication was received from the Superintendent, under date of Dec. 5, 1955, recommending that, subject to the approval of the School Committee, the following-named Senior Building Custodians who, by seniority and merit, stand at the head of their respective lists, be transferred to the schools indicated, to take effect Nov. 23, 1955:

Walter E. Chaffee, unassigned to Margaret Fuller School.

John J. Daly, unassigned to Florence Nightingale School.

Joseph DeGregorio, unassigned to Bunker Hill School.

Thomas F. Duff, from Dudley School to Jamaica Plain High School.

James E. Finnegan, from Nathan Hale School to Prince School.

Martin W. Foley, unassigned to Harriet A. Baldwin School.

Thomas A. Magee, from Winchell School to Gaston School.

Colin F. McPherson, from George Robert White Stadium to Trade High School for Girls.

Attest:

AGNES E. REYNOLDS,
 Secretary.

Dec. 13, 1955.

A special meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 6:44 P. M., Mr. Lee in the Chair.

Present: Messrs. Carr, Lee, Musco, and Ward (Mr. Ward left early).

GEORGE ROBERT WHITE FUND SCHOOLBOY STADIUM

The following was offered:

ORDERED, That the salaries of the senior building custodian and of the gardener at the George Robert White Fund Schoolboy Stadium are hereby established at the rate of ninety-three dollars (\$93) per week forthwith.

On roll call, the regulations were suspended and the order passed by the following vote:

YEAS—Messrs. Carr, Lee and Ward—3

NAYS—Mr. Musco—1

ABSENT—Mrs. Phaneuf—1.

The following was offered:

ORDERED, That John J. Kane, senior building custodian, is hereby assigned to the George Robert White Fund Schoolboy Stadium for the year 1956.

Mr. Carr: I would like to read a letter from the Director of Physical Education to the Superintendent for the record.

The following is the letter from Mr. McKenney:

"I respectfully request that the assignment of John J. Kane as Custodian at the George Robert White Fund Schoolboy Stadium be continued for the 1955 fiscal year.

"We have had four custodians in the past six years at the White Stadium. The continuous shifting of the custodial personnel is definitely not for the best interest of the School Department or the upkeep of the stadium.

"I recommend that Mr. Kane's assignment be continued during the 1956 fiscal year since he has acquired much valuable experience pertaining to the stadium during the past six months."

Mr. Carr: Mr. Chairman, I hope that this Committee will accept the recommendations of the Director of Physical Education and go along with this motion.

On roll call, the order passed by the following vote:

YEAS—Messrs. Carr, Lee, Musco and Ward—4

NAYS—0.

ABSENT—Mrs. Phaneuf—1.

SUSPENSION OF SESSIONS DEC. 23, 1955

The following was offered:

ORDERED, That the sessions of all day schools are hereby suspended at 11:30 A. M. on Friday, Dec. 23, 1955.

On roll call, the regulations were suspended and the order passed by the following vote:

YEAS—Messrs. Carr, Lee, Musco and Ward—4.

ABSENT—Mrs. Phaneuf—1.

PROPOSED INCREASES IN SALARIES OF NON-ACADEMIC PERSONNEL

Mr. Musco: Could I ask consideration of Item No. 10, which is a request for an increase of \$7.50 per week? I would say not \$7.50 but \$5.00 a week across the board for all non-academic people who have not received an increase since August.

Mr. Ward: I am agreeable to that. I am perfectly agreeable to that. I say yes.

Chairman: Is that a motion?

Mr. Carr: You move what?

Mr. Musco: I move that all non-academic people receive an increase across the board of \$5.00 per week but excluding those people who have received increases since August.

Mr. Carr: Mr. Chairman, if this motion is adopted I see no further need for our meeting Thursday or Friday. I move that this motion be tabled until after the meetings on the Jacobs survey as of Thursday and Friday of this week.

Mr. Musco: Mr. Chairman, if we don't act on this you will find that these particular people who have not been given increases won't get an increase this year. It will be put off.

Mr. Ward: Wait a minute, Mr. Musco. Don't you say that. That is very unfair to say. Let me tell you the law—the law of the rules and regulations which you live under. You are going to meet on Thursday and Friday, and maybe you are going to give those people more than \$5.00 a week across the board.

Mr. Musco: Maybe we are not.

Mr. Ward: Maybe you are going to give them \$7.50. We don't know. Maybe I may make a motion for \$7.50; but when you say we are not going to meet again, we can determine on Thursday to meet on Monday or we can make a motion to meet on Sunday.

Mr. Musco: I don't care when you meet, but I'd like to have everybody considered for an increase.

Mr. Ward: Your point is that we were not going to meet again. That is not true. If we are going to sit down for two days on the Jacobs survey, it's very silly to even think that we are not going to meet again. That's very silly. Why sit down on the Jacobs survey if you have no intentions of meeting again?

Mr. Musco: I think you misunderstood what I said, Mr. Ward.

Mr. Ward: I thought you said that this Committee was not going to meet again.

Mr. Musco: We would not be acting on the particular Jacobs survey. The acceptance of it would not be effective until next

year after we have those conferences with Civil Service.

Mr. Ward: Mr. Musco, the point is this. Put your motion. I am going to vote for it. I am for it. Don't think I am against it. However, on the other hand, whether you are going to get the votes tonight I don't know. You know better than I do. Let's be fair. Let's be honest about this thing. You know what the vote is going to be.

Mr. Musco: I am not sure that I do know, Mr. Ward.

Mr. Carr: Mr. Chairman, I move that this be postponed until such time as we have that meeting Thursday and Friday, and in all probability we will have a full board.

Chairman: There has been a motion to lay on the table, which is properly not subject to debate, although the Chairman has allowed debate, and the motion to lay on the table will now be acted on.

Miss Reynolds, Mr. Carr has moved that this motion of Mr. Musco's be laid on the table. Will you call the roll on that?

On roll call, Mr. Carr's motion failed of passage by the following vote:

YEAS—Messrs. Carr and Lee

—2

NAYS — Messrs. Musco and Ward—2

ABSENT—Mrs. Phaneuf—1.

Mr. Musco: So it's taken up again.

Mr. Lee: It can be taken up at any time, Mr. Musco, at any subsequent meeting.

Mr. Carr: Mr. Chairman, before we act on this I would like to have this Committee reconsider its intention of meeting next Thursday and Friday. I see no point to meeting on any Jacobs survey if we are going to adopt this order as proposed.

Mr. Ward: Is this order in now? Have you got the order in now?

Chairman: Mr. Musco's motion did not carry, Mr. Carr.

Mr. Musco: The motion didn't carry to lay on the table. It is still alive.

Mr. Ward: I grant you that, but I think that there is an injustice done to employees if the Jacobs survey grants more than \$5.00 and we recommend it. I would say this to you, Mr. Musco. I will vote at the next meeting for the \$5.00. I will be glad to. I am only trying to advise what is best for all the employees; and if anybody believes that I have been an enemy of Civil Service employees—

Mr. Musco: No one believes that, Mr. Ward. I am sure you are the greatest champion of them all.

Mr. Ward: If there is going to be a change, we can still accept the Jacobs survey. We can still vote on your motion. We can still do both things. However, as Mr. Carr says, there is no point to meeting on the Jacobs survey on Thursday and Friday if we are going to adopt this motion as proposed.

My purpose was to meet in conference at 10 o'clock on Thursday and Friday to adjust this so that we could have other meetings again to act upon these matters. I can see your purpose and I think it is very, very fair. I think there is nothing more fair. I think it is the right thing to do. In other words, if you do that, you deaden the whole Jacobs survey.

Mr. Musco: I don't see why we do, Mr. Ward. I will refresh your memory. In the past four or five meetings we have selected some of the cases that we felt were worthy, and we acted upon them immediately. We have done that now, and right at the present time we have acted probably upon two. I would like consideration of the entire non-academic personnel. The precedent was set last year, and you can either say yes or you can say no. If you feel that next week they should be given another \$5.00 or another \$2.50, then let's act upon it, but I want to secure something before Christmas.

Mr. Ward: I think in conference last week when we met I brought that very matter up to give them \$5.00 across the board immediately. I was the one who brought that up, and then continue on with the Jacobs survey. Now that matter was brought up a week ago.

Mr. Musco: Do you see this folder? Since we started on the Jacobs survey on the appeals and reviews during the past week and even today this has increased about half an inch. People are going to feel that they are being left out, Mr. Ward, and I think we can handle it intelligently.

Mr. Ward: If there is nothing done on the Jacobs survey, if a commitment of this Committee were made to vote for your motion if we cannot do better for the employees, then would you persist in your motion?

Mr. Musco: You can do better for some but you can't do better for the majority.

Mr. Ward: You may do better for some, but if this Committee were to say to you that if we do an injustice to one employee we will go along with that \$5.00 across the board, what is fairer than that? I can see Mr. Carr's point. I can see Mr. Lee's point—to sit down and go over this thing, face it and hash it out and say to an employee where, in our judgment, Jacobs has made a mistake that we want to turn around and give that person a certain amount which will exceed \$5.00. But if we don't accept the Jacobs report and if this Committee says the Committee report is not accepted, I will be glad to vote for the raise across the board.

Mr. Musco: Mr. Ward, whether you accept the report or don't accept the report, the people who have not been granted raises in public meeting will not get a raise in 1955. Am I right?

Mr. Ward: What?

Mr. Musco: They will not get a raise in 1955.

Mr. Ward: In public meeting?

Mr. Musco: Yes.

Mr. Ward: I think we made it very, very clear in my office that the intent on next Thursday was to call a public meeting for next Monday.

Mr. Carr: That's right.

Mr. Ward: Now that is what we understood. That is what we all agreed upon. We all agreed for that purpose alone—that on Thursday we could designate on Thursday; and I think I said if you want to call a public meeting on Sunday we can do it.

Mr. Musco: I don't care when you come here, but I don't want to waste my time coming.

Mr. Ward: You don't do it on your own time.

Mr. Musco: I sure do.

Mr. Ward: The time belongs to the public you represent.

Mr. Musco: It belongs to me and my family.

Mr. Ward: I don't believe that. I wish that was so.

Chairman: I will remind the Committee as to what they have agreed to. We have agreed to meet on Thursday and on Friday to consider the Jacobs report or so much as pertains to salaries, and Mr. Carr made a motion, which carried, to lay on the table—

Mr. Musco: It did not carry. Will you read the report, please?

Chairman: All right. You are debating your motion still? Any further discussion on Mr. Musco's motion?

Mr. Ward: No.

Mr. Musco: If the majority of the Committee feel that they can come to a public vote on this particular item next Monday, then I will accede to it.

Mr. Ward: That is sensible. That is all I ask.

Mr. Musco: I have been talking sensibly all night and for the past month.

Mr. Ward: I will put it in writing in the public meeting that the intent of the meeting was that if we cannot agree on other matters that we shall do it.

Mr. Musco: If we are going to take the whole business, Mr. Ward, let's take the whole business.

Mr. Ward: We haven't got too much of the Jacobs report left.

Mr. Musco: Let us not take individuals and items out. As soon as that happens, I am done. It's all distorted. It's off focus.

Mr. Ward: You only have a certain small portion left. That is all you have left.

Mr. Carr: Mr. Chairman, I think the member has made a proposal that in the event we could assure him that by Monday the Committee would be ready to vote either to adopt the Jacobs survey and thereby adopt the salary schedule that the Jacobs survey recommends or else vote on his motion, which was to give an overall increase to all Civil Service employees, he would postpone his motion.

Mr. Ward: Do you want to postpone it?

Mr. Musco: I don't want any special groups or individuals or cases brought up in the nonacademic group until such time as we can come to the final agreement on the whole problem or else let's take the entire picture of those who haven't been given a raise since August and grant them a \$5.00 across-the-board increase before this year expires.

Mr. Carr: All right. Is it enough if we assure you of that? I know that I will be able to act on that by Monday.

Mr. Musco: I know you are agreeable to it. You have mentioned before that you were partial to it.

Mr. Lee: On this motion I will say that I am against the present motion for a \$5.00 raise for all nonacademic persons.

Mr. Carr: Mr. Chairman, let me make myself clear. I am not committing myself now to that increase; but in the event that by Thursday and Friday, when we have gone over the Jacobs survey, it appears that it is impossible or they haven't got the votes to adopt the Jacobs survey, I think the gentleman's proposal would be very much in order and I'd be happy to go along with it.

Mr. Lee: I was stating as far as I was concerned that my hope is to see the Jacobs survey completed as far as our discussions go. My hope is that it will be acted on favorably for the most part, and I want to leave the time open in my mind for our Thursday and Friday meetings. So I am voting no on your motion now, Mr. Musco.

Mr. Musco: Even if you do accept the survey and it is sent to Civil Service, it is not going to give the people a raise.

Mr. Ward: But your motion can still go in, and I will certainly second a motion that, notwithstanding what we do, whether we accept the Jacobs survey or reject the Jacobs survey, we give the Civil Service employees a raise of \$5.00 across the board. I will vote on that; and after we vote on that then I will vote to either accept or reject the Jacobs survey. Do you see? Now that is my thought on the thing.

Mr. Lee: I might add that when I refer to the Jacobs survey I am referring to the salary phase of it. I realize that the power of the School Committee to actually accept and activate the survey is beyond us because it involves Civil Service classifications, but I meant that I look forward to action on the salaries as recommended by the Jacobs survey.

Is there any further discussion? Do you want to withdraw the motion, or do you want to have the vote, Mr. Musco?

Mr. Musco: I will abide by the wishes of the Committee.

Mr. Ward: In other words, Mr. Musco is not withdrawing his motion.

Mr. Musco: It is held over.

Mr. Ward: He is postponing his motion until Monday. Is that correct?

Mr. Musco: That's right. It's not an item on the agenda any more. It's a motion that will be brought up.

Mr. Ward: It is a motion, yes.

RECESS

The meeting recessed at 7:02 P. M. The Committee reassembled at 7:20 P. M., Mrs. Phaneuf and Mr. Ward absent.

TEACHERS SALARIES— THEN AND NOW

It was agreed that the following statement by Mr. Musco be printed in full in the minutes of the meeting:

Before my term of office concludes, I would like to make a statement with respect to the salaries of teachers. As members of the School Committee, we were faced with a very difficult problem during the past two years. On the one hand, we were confronted with the fact that the salaries of Boston's teachers did not compare favorably with the salaries paid to teachers in the other large cities of the country. On the other hand, we were aware of the fact that the real estate tax placed such a burden on home-owners that one had to proceed with care in increasing that burden. Confronted by this dilemma our salary decisions necessarily were hard ones to make.

I am proud that during both my years of office I voted for increases in salary for teachers and thus contributed toward the completion of the \$5500-\$5900 single salary schedule. My one regret at this time is that the raises could not have been higher, so that we could more quickly achieve single salary in our city.

I think the events of the past few months, with our Massachusetts Conference on Education and our White House Conference on Education and the Report of the Fund for the Advancement of Education, have made it clear to us that we must do everything in our power to establish as quickly as we can a professional salary for our teachers in keeping with the standards set by other cities and in keeping with the high standards of the profession itself. In order to finance this program we must study carefully all proposals to bring increased revenues to the City of Boston.

We must also give our support to the bills filed with the Massachusetts Legislature to increase the appropriating power of the Boston School Committee. With increased appropriating power and with increased revenues, we shall be able to give our teachers the kind of professional salary schedule which they deserve.

With a deep concern for assisting the schools to find the solution to this most critical problem of maintaining adequate and qualified teaching personnel, it is sadly noted that over a period of fifty years one exceedingly important part of the teachers' study is economic.

The summary of teachers salaries clearly reveals how it stands in relation to incomes in other fields.

The teaching profession has suffered on a comparative basis over the years—particularly in its top salaries. It is evident that this results in small and inadequate number of our ablest youth to choose teaching as a career.

I am convinced and firmly believe that the high value of the teaching profession must be raised now to its relative economic status and high dignity.

COMMITTEE ON AVIATION— YOUTH EDUCATION

It was agreed that the following statement by Mr. Musco be printed in full in the minutes of the meeting:

I. The City of Boston public school officials, through the Superintendent's office, unanimously accepted the general aviation education program as an authorized course of study for three high schools.

In September 1955 this new aviation course was inaugurated at Dorchester High School (Co-Ed); South Boston High School (Co-Ed); and Boston Technical High School for Boys. Each of these institutions enrolled more than one hundred students in this elective subject for the school year 1955-1956. Materials and texts are supplied free of charge by the Mass. Wing-Civil Air Patrol. Credit is due the Aero Club of New England for its scholarship to train Boston's first aviation teacher.

II. To air-condition the Boston school teachers to the experience of flight and its influence on all educational programs, Eastern Air Lines participated in an "Educators' Air Lift" on June 11, 1955 for 1600 teachers in 40 novel all-day ½-hour sight-seeing flights over Cape Cod and Boston. Mr. Richard A. Berenson, representing the Greater Boston Chamber of Commerce praised the school officials in an air-borne speech stating it is part of the "new spirit which has sprung up in Boston."

III. The initial Boston high school educational airport tour took place on October 20, 1955 for 120 students under the guidance of four high school teachers and a school committee member at Logan International Airport. All arrangements for this highly successful day were planned by Mr. Angelo Alabiso of the State Airport Management Board.

On December 6, 1955, Boston high school students visited Bedford Airport and its facilities through the courtesy of Mr. Ross (S.A.M.B.) and Major Martin (C.A.P.).

IV. It is a source of encouragement to note that 1955 was an outstanding education year through the enthusiastic acceptance of three public high school courses; an Educators' Air Lift;

educational airport tours for teen-agers; a busy central source of aviation education materials for films, lecturers, literature, materials, etc.; and a proposed coordinator of aviation information with the Mass. Aeronautics Commission. The Mass. Aviation Education Committee has also developed a splendid program of aviation activities.

V. The Air Age Education Committee wishes to acknowledge with thanks the many kindnesses and warm cooperation extended to it in its endeavors to promote aviation education and its economic opportunities and facilities at Logan and Bedford Airports.

ORDERED, That the Dwight District is hereby designated as the school district within which a new elementary school shall be erected; and that the Secretary of the School Committee be, and hereby is, authorized to send to the Superintendent of Construction the following letter:

December 14, 1955

Mr. James H. Mooney
Superintendent of Construction
26 Norman Street
Boston, Massachusetts

My dear Mr. Mooney:

In accordance with the provisions of Chapter 202 of the Acts of 1897, as affected by Chapter 473 of the Acts of 1901, and Chapter 351 of the Acts of 1929, the School Committee re-

spectfully requests that you take the necessary steps to secure desirable land in the Dwight District in order to supplement existing city-owned land, to provide for the erection thereon of an elementary school to accommodate approximately six hundred and ten pupils (sixteen classrooms, two kindergartens, one manual training room, one sewing room, one assembly hall, and one playroom).

The Dwight District is bounded as follows:

Beginning at the junction of Camden street and the New York, New Haven & Hartford Railroad; thence by railroad, rear of southerly side of Braddock park, center of Warren avenue, rear of southerly side of West Brookline street, center of Shawmut avenue, rears of northerly sides of West and East Brookline streets, the water, centers of Massachusetts avenue, Albany and Northampton streets, Harrison avenue, Thorndike and Woodbury streets, Shawmut avenue and Lenox street to center of Tremont street, southerly side of Westfield street, Westfield street extended, centers of Columbus avenue, and Camden street to point of beginning.

Very truly yours,
(Signed) Agnes E. Reynolds
Secretary

On roll call the order passed by the following vote:

YEAS—Messrs. Carr, Lee, and Musco—3.

NAYS—0.
ABSENT—Mrs. Phaneuf and Mr. Ward—2.

MASSACHUSETTS CONSTITUTION

It was agreed that the following extracts from the Conference Notes of Dec. 5, 1955, be printed in full in the record of this meeting:

Mr. Lee: Madam Chairman, before deciding that, could I just hold up this pamphlet for a moment, and point out that it comprises some more literature on the question of Massachusetts history, in particular the Massachusetts Constitution. I rather think that if we wrote to the Massachusetts Bar Association, which is sponsoring this, in connection with the 175th anniversary of the Constitution, they might send us enough copies to distribute into the hands of the teachers of history, though not enough for the children.

Chairman: Is that the address recently given at the Bar Association dinner?

Mr. Lee: That in turn may be printed later. This is a text which quite a few lawyers used as a basis for their talk when they lectured our children on the subject, and this would all be subject to the approval of the Superintendent after you have seen it.

Mr. Ward: Is that on the Constitution?

Mr. Lee: Yes, of Massachusetts.

Mr. Ward: The strange thing I found out is this.

Chairman: Is there any objection to Mr. Lee's proposal?

Mr. Ward: No, but so few people, Madam Chairman, know the Constitution of Massachusetts. It is most important that they should know it. I'd like to see that made a major topic of education because we have a marvelous Constitution.

In other words, I think there are certain phases in this Constitution that we brought up there. For instance, one of the compulsory—compulsory, I say—parts of the Constitution is where it says that religion is a duty. Is that correct, Mr. Lee? It is a duty to worship the Supreme Being?

Chairman: You don't have any objection, then, to Mr. Lee's material going in?

Mr. Ward: No, I hope Mr. Lee will be the man who will go along and in the coming Committee—

Chairman: Mr. Lee has the future before him, Mr. Ward.

Mr. Ward: I hope Mr. Lee will try to make the Constitution of Massachusetts a major topic that every school child should know. Among a hundred people whom I have talked to, there wasn't one who knew the Constitution of Massachusetts. There wasn't one out of a hundred. Now is it that unimportant? The Constitution is very, very important. The Constitution of Massachusetts is very important.

We find it so passed by, because people say, "Oh, well, I have no time. I've got to see the Lone Ranger or something else on television." They are more interested in seeing a woman advertise beer and a man advertise lipstick. I am an old-timer. I am not as young as the others around here.

Chairman: I think Mr. Lee will carry forward that.

Mr. Ward: I hope Mr. Lee does.

Mr. Lee: Madam Chairman; I do regard the Massachusetts Constitution as the main torch that should light people of this Commonwealth as to how they should go, and I think we could adjust our teen-agers better if they know what they are adjusting to and if what they are adjusting to is their own major compact — this Massachusetts Constitution.

Chairman: I think the Superintendent will be very happy to utilize that material, and Miss Reynolds can write the Bar Association and ask if it is available.

The Committee adjourned.

Attest:

AGNES E. REYNOLDS,

Secretary

STATE-BOSTON RETIREMENT SYSTEM.

With the acceptance by the Mayor and City Council on June 5, 1946, of chapter 658 of the Acts of 1945, as amended by chapter 166 of the Acts of 1946, the State-Boston Retirement System for employees of the City of Boston and County of Suffolk was established on October 1, 1946.

By the operation of that law, persons entering the employment of the City of Boston and County of Suffolk after September 30, 1946, whose compensation is paid by the City of Boston, automatically became members of the State-Boston Retirement System, unless ineligible under its provisions, and the Boston Retirement System, which was established on February 1, 1923, by chapter 521 of the Acts of 1922, was closed to new members.

Every person whose employment began prior to October 1, 1946, whether he was a member of the Boston Retirement System or had other pension rights or no pension rights at all, was given an opportunity, under certain conditions of make-up payments, to join the State-Boston Retirement System during the three-month period between October 1, 1946, and December 31, 1946.

By chapter 520 of the Acts of 1947 the employees were given an additional year and a half to join the State-Boston Retirement System.

By chapter 355 of the Acts of 1950 the State-Boston Retirement System was reopened for a sixty-day period, and finally for another period of sixty days by chapter 379 of the Acts of 1952.

CITIES GENERALLY DO NOT CONTROL PRIVATE PARKING RATES.

Review of numerous ordinances and other materials by AMA for a member league shows that cities do not generally exercise any control over rates charged for parking. Supply and demand seems to furnish the regulation needed. Generally, however, applications for a parking lot or garage license require that rates charged be set forth in the application, that rates be posted conspicuously at the entrance to the lot, and that rates cannot be changed without official written notice to the municipality.

LIBRARY DEPARTMENT.

PROPOSALS FOR WINDOW CLEANING.

The Trustees of the Public Library of the City of Boston, hereinafter referred to as the Awarding Authority, invite sealed proposals for the cleaning of windows for the period April 1, 1956, through March 31, 1957, at the Central Library building and at thirty-two other buildings as specified in the specifications.

The work is to be done by either of the following means: (1) ladders; (2) scaffold. The applicable revised rules and regulations appearing in Industrial Bulletin No. 21, established by Department of Labor and Industries, Division of Industrial Safety, are to be in effect. The contractor must indicate which of the above-mentioned means he proposes to use.

Proposals will be received until 12 o'clock noon, Thursday, February 23, 1956, at the office of the Awarding Authority, at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Business Office, Boston Public Library, Copley square, Boston, Mass. Each copy of the proposal shall be properly filled out, signed, and enclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A certified check in the sum of \$200, payable to and to become the property of the City of Boston if the proposal is not carried out, shall be submitted with the copy of the proposal filed with the Awarding Authority. The certified check shall be in a separate envelope, properly marked.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under this contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the awarding of the contract.

Specifications may be obtained on and after Monday, February 13, 1956, at the Business Office, Boston Public Library, Copley square, Boston, Mass.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful contractor.

The Awarding Authority reserves the right to accept or reject any or all bids, and to accept or reject any portion or portions of bids and to award the contract as it deems for the best interests of the city.

CITY OF BOSTON.

REAL PROPERTY BOARD.

INVITATION FOR PROPOSALS FOR CONSTRUCTION OF AN OPEN-AIR SUBURBAN OFF-STREET PARKING FACILITY, ON THE NORTHERLY SIDE OF WINTHROP STREET, BETWEEN HYDE PARK AVENUE AND HARVARD AVENUE, HYDE PARK DISTRICT, BOSTON, MASS.

The City of Boston, acting by the Real Property Board, hereinafter called the Board, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for construction of an open-air off-street parking facility on the northerly side of Winthrop street, between Hyde Park avenue and Harvard avenue, Hyde Park district, Boston, Mass. A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Board, and each in the sum of 100 per cent of the contract price, will be required of the successful contractor. Forms of proposals, and the form of contract together with the plans and specifications therein referred to, may be had daily (except Saturdays, Sundays, and holidays), between 9 A.M. and 5 P.M., at the office of the Board, Room 809, City Hall Annex, Court street, Boston. Copies of the plans and specifications may be taken out upon deposit of twenty-five dollars (\$25) for each set, refundable only to persons returning the same in good condition within ten days (Saturdays, Sundays, and holidays excluded) after the opening of bids.

Proposals shall be submitted in duplicate on forms obtained as aforesaid. Each copy of the proposal shall be properly filled out, signed, enclosed in an envelope, sealed and marked "Proposal for Construction of an Open-Air Off-Street Parking Facility on the Northerly Side of Winthrop Street, Between Hyde Park Avenue and Harvard Avenue, Hyde Park District, Boston, Mass." One copy of the proposal, accompanied by a bid deposit in the form of a cashier's check on, or a certified check on, a responsible bank or trust company, in the sum of one thousand dollars (\$1,000), payable to and to become the property of the City of Boston if the proposal after acceptance is not carried out, shall be filed with the Board at its said office on or before Thursday, March 8, 1956, at 11 A.M., at which time and place all proposals will be publicly opened and read. The other copy of the proposal shall be filed by the bidder at the office of the City Auditor, City Hall, School street, Boston, prior to the opening of the bids.

No proposal shall be withdrawn after the day and hour hereinbefore set for the opening of the proposals.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Real Property Board.

Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract.

The Board reserves the right to reject any or all proposals and to award the contract as the Board deems for the best interests of the city.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

INVITATION FOR PROPOSALS FOR ERECTING AND COMPLETING AN ADDITION TO THE SOLOMON LEWENBERG SCHOOL, MATAPAN, MASS.

NOTICE TO CONTRACTORS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for erecting and completing an addition to the Solomon Lewenberg School, Matapan, Mass.

Proposals will be received until 12 o'clock noon, Thursday, February 23, 1956, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed, enclosed in an envelope,

sealed, and plainly marked with the description of the work to be done. One copy, which is part of the book of specifications, shall be filed at the office of the Awarding Authority, designated above, and the other copy, which is to be removed from the book of specifications, shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$11,000, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

SUBBIDDERS BIDDING ON THE WORK OF SUBCONTRACTORS SHALL USE THE PROPOSAL FORM PREPARED BY AND OBTAINABLE FROM THE AWARDING AUTHORITY. ANY AND ALL SUBBIDS NOT FILED ON THE PROPOSAL FORM PREPARED BY AND OBTAINABLE FROM THE AWARDING AUTHORITY WILL BE REJECTED.

All subbidders' proposals filed with the Awarding Authority shall be submitted in sealed envelopes, plainly marked with the title of the work, division of the work for which bid is submitted, subcontractor's name, and subcontractor's business address. All such bids shall be in the possession of the Awarding Authority and delivered or mailed to the general contractor no later than 12 o'clock noon, Thursday, February 16, 1956.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subbid items of work as listed below, shall be submitted by each subbidder with the copy of his proposal filed with the Awarding Authority:

Waterproofing, Dampproofing, and	
Caulking	\$100
Miscellaneous and Light Iron	100
Metal Windows	100
Roofing and Sheet Metal Work	300
Structural Steel	800
Marble, Tile, and Terrazzo	900
Lockers	200
Glass and Glazing	600
Hardware	100
Painting	200
Plumbing	1,300
Acoustical Tile	300
Heating and Ventilating	1,000
Electrical	500
Folding Partitions	500
Folding Bleachers	300

The bid deposit shall be in a separate envelope, plainly marked "Bid Deposit."

Plans and specifications and other contract documents may be obtained at the office of the Awarding Authority upon deposit of a certified check for \$100, payable to the City of Boston. The full amount of the deposit will be refunded upon return of all documents in good condition within thirty days after the opening of bids.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any or all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all subbids on any item or items in accordance with the provisions of sections 44A to 44E, inclusive, of chapter 149 of the General Laws, as amended.

PROPOSAL OF SALES TAX TO RELIEVE REAL ESTATE EVOKES SHARP DISCUSSION AT LATEST BOSTON COLLEGE SEMINAR

Rising tax rates and pressing need for new sources of revenue to operate the municipal government of Boston and its adjacent communities held sway in the discussions Tuesday afternoon, during the fourth of the 1955-56 seminars at Boston College, on the financial, economic, and political problems of the Greater Boston area.

Although the assigned subject of this latest seminar was: "Are We Doing a Good Job of Selling Boston?" panel speakers aroused the greatest interest on the part of the audience by isolated references to taxes and the financial plight of Greater Boston communities. This was evidenced by the reaction of the newspapers next day and the informal discussions among some 300 prominent business and civic leaders who attended the seminar. Widely conceded among those present was the inevitability of a state-wide sales tax. Several property owners, especially among the retailers, said they would oppose a sales tax unless the increase in revenue so derived would be used directly to lower property taxes. Others expressed unqualified opposition at a social period and dinner which followed the seminar.

Discussions on taxes and the need for broadening the base of revenue for local governments were keyed principally by Dr. Alfred C. Neal, first vice president of the Federal Reserve Bank of Boston. Speaking as an individual, in a talk which enumerated Boston's assets and liabilities as a location for new business, Doctor Neal advocated a state-wide sales tax, except on food and rent, to be redistributed to all the cities and towns. He said: "Leaders in both parties told me that it would be political suicide to sponsor such a program. I say that the alternative to such tax reform is economic suicide. Boston and Massachusetts will have to choose between political suicide for politicians or economic suicide for Boston and the larger cities." At another point Doctor Neal said Greater Boston "has missed the boat in the post-war period on more than 400 million dollars in business construction — the equivalent of 27 John Hancock buildings." He placed the blame "largely on our extremely heavy property tax burden."

John C. Dowd, Boston advertising executive, another panel speaker, urged more optimism and salesmanship for Boston. He said the other speakers on the panel, in the main, were proving "that our assets enormously outweigh our liabilities, and that we are entitled to respectful consideration of any man seeking a successful location for his business, a happy home for his family, a modern education for his children, a setting of charm and natural beauty for his vacation." He urged less self-criticism among Bostonians and a well-planned sales program for the whole area which would capture the support and enthusiasm of all the people who live here.

Another advocate of supersalesmanship for Boston was William J. Bird, managing director of the Greater Boston Chamber of Commerce. He said only one and one half million families vacationed in New England last year, while more than three and one half million families vacationed in the Middle Atlantic states, and three million in the South Atlantic states. Bird said the Boston area was being "outsold by practically every metropolitan area in the country."

John I. Taylor, treasurer of the *Boston Globe*, said proper promotion of historical old Boston suffers chiefly from lack of financial support. "We find," said Mr. Taylor, "Boston Proper again being asked to shoulder the load—and I mean the financial load, and Boston's tax rate simply cannot afford this burden."

Edward A. Weeks, editor of the *Atlantic Monthly*, as keynoter, expressed the aim of the seminar as bringing together the "leading spirits of the community and by process of give and take, to shake off the dust of habitual thinking, the complacency of success, and that mental fatness which threatens all men who sit for too long in their own offices."

The matters discussed in the seminar evoked lively comment among the business and civic leaders present. In small groups and at the dinner tables the subject matter of the seminar underwent detailed discussion.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light a' serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by

CHARLES J. FOX RETIRES AFTER THIRTY-FOUR YEARS AS A KEY FINANCE CONTROL OFFICER OF BOSTON

After thirty-four years as a financial control officer of Boston, Charles J. Fox, Director of Administrative Services since the reorganization of the city government in 1954, relinquished this second most important post in City Hall on Friday, February 10. He goes on the retirement rolls immediately following a vacation in Florida.

Mayor Hynes, members of the City Council, department heads, and a host of his friends and associates during his many years in city service, stopped in at Mr. Fox's office Friday afternoon to wish him health and long life in his retirement. He is sixty-four years of age and a veteran of World War I.

A nationally recognized authority on municipal finance, Mr. Fox had been auditor of the city under the various mayors from 1934 to 1953. He retired in 1953 but was called back to City Hall by Mayor Hynes and given the important task of laying the ground work for realigning the departments of municipal government according to up-to-date business procedures.

Mr. Fox is a native of Roxbury's Mission Hill, a graduate of the old Martin Elementary School, English High, and Harvard University (1912). He played varsity football at Harvard. This veteran city official started his career as an educator. His first job was that of a teacher and athletic director at Gardner, Mass., High School. He married a Gardner girl. Mrs. Fox is a native of that city. The former schoolmaster and high school principal came into Boston's city government in 1922 as director of the budget. He has been chiefly concerned with our municipal finances ever since.

Widely known for his clear-cut decisions on city affairs, Mr. Fox has held the almost universal respect of elected public officials in Boston for his unyielding divorcement from politics of the city's day-to-day financial procedures. So far as "Charlie" Fox was concerned everything had to be done according to established business procedures. Mayor Hynes has relied heavily

upon the former city auditor to assist him in his important decisions where the finances of the city are involved.

National honors, too, have come to Mr. Fox. He is past president of the Municipal Finance Officers Association of the United States and Canada. He has given generously of his knowledge and experience to the solution of Massachusetts state and municipal problems over the past quarter of a century. When he came out of retirement to take over as head of Administrative Services he did so only to get the reorganization program started. Now that the job is done, he looks forward to a rest.

Mr. Fox has been a resident of Cohasset since he retired as city auditor. After a lifetime as a city dweller, Mr. Fox will enter upon the more leisurely pace of a country gentleman. He has been active over the years in many church and civic affairs. He is one of the organizers of the First Friday Club which meets monthly in Boston. He is active in the Serra Club, an international group working for encouragement of vocations in the priesthood. He is a member of the Boston Lions Club, the Knights of Columbus, the William F. Sinclair Post, American Legion, and has served on many boards and committees. Mr. Fox's family has long been associated with Roxbury, where his father was well known as a real estate man.

BOSTON'S TB DEATH RATE HALVED IN EIGHT YEARS, COMM. CAULEY REPORTS

In a letter to Mayor Hynes, Dr. John H. Cauley, Commissioner of Public Health, said Boston's death rate from tuberculosis has been cut in halves since 1947. The Mayor had asked the Health Commissioner to explain a recently published medical report that Boston has the highest death rate from tuberculosis of any large city in the nation. Doctor Cauley's reply was as follows:

DEAR SIR:

Thank you very much for your communication of February 1, 1956, together with an article which appeared in the *Medical News* of January 16, 1956, in which it states that the death rate from tuberculosis in Boston is the highest in the nation for cities of more than 500,000 population.

There has not been adequate time to obtain the statistics from other large cities relative to their tuberculosis death rate. However, I am attempting to receive this information from the various large cities, in order that I may compare them with the number of deaths and the death rate for the City of Boston.

What Boston has accomplished in the last ten years in tuberculosis, and more specifically what has been accomplished in tuberculosis in Boston since you first assumed office as Mayor in 1949 is well demonstrated by the records showing the number of deaths and the death rate for each year during the last six years.

It so happens that ten years ago the administration of the Health Department inherited a record of a large number of tuberculosis deaths and a death rate from tuberculosis per 100,000 people which indicated the need of an aggressive program for control of tuberculosis. An immense amount of time, effort, and ability have been expended to improve the tuberculosis record for Boston. Volumes might be written with respect to what has already been done.

Numerically the accomplishments might be set forth as follows:

In 1949 the total number of deaths from tuberculosis in Boston was 392. Since that time there has been a persistent annual decrease in the number of deaths, each year having a lesser number than the preceding year; and in the year 1955 the total number of such deaths was 187.

Death rates from tuberculosis are recorded on the basis of 100,000 population, and the death rate from pulmonary

tuberculosis has likewise constantly declined. In the year 1947, the death rate from pulmonary tuberculosis was 65.4 per 100,000 population; and in 1955 the death rate was 22 per 100,000 population. This indicates that there has been nearly a sixty-six and two-thirds (66⅔) per cent reduction in the death rate from tuberculosis in Boston in a nine-year period.

The problem of tuberculosis in Boston has always been of immense concern to me. I have attempted to make it one of the primary purposes of the Health Department to reduce the death rate from tuberculosis, and I shall continue to do so.

At the present time the Boston Health Department in cooperation with the Massachusetts State Department of Public Health, the Boston Tuberculosis Association and the Massachusetts Tuberculosis and Health League are conducting a joint program in those sections of the city where tuberculosis has been most prevalent, and I have every confidence that this program, together with the other programs carried on by the Boston Health Department during the last six years, will further improve the record of Boston as it pertains to tuberculosis deaths and the tuberculosis death rate.

Respectfully,

JOHN H. CAULEY, M.D.,
Health Commissioner.

ALL BUT 10 OF POST WAR VET HOUSING UNITS SOLD

In a letter to Mayor John B. Hynes, Frederick A. Cronin, chairman of the Boston Housing Authority, reported that all but 10 of 504 two-family veterans' housing units erected in Boston after World War II have been sold, mostly to veteran tenants.

Mr. Cronin's letter reads as follows:

DEAR MR. MAYOR:

You will see from the enclosed monthly progress report on sale of Chapter 372 houses, as of February 6:

Houses actually conveyed.....	481
Houses under agreement.....	13

Total	494
-------------	-----

Houses remaining unsold.....	10
Houses under agreement.....	13
Houses conveyed during the current week.....	5

Houses remaining under agreement, still to be conveyed.....	8
---	---

In accordance with the original arrangement made with Maurice Stahl, of New York, the agreement for purchase of the four remaining brick multiples at City Point and Dorchester has been extended to March 1 following evidence presented by the buyer that the FHA financing is showing favorable progress towards a final settlement. Under similar circumstances the sales agreement may be extended one more month, the final deadline for conveyance being April 1, 1956. On the basis of the reports we have received we expect final completion of the deal on the latter case.

Sincerely yours,

FREDERICK A. CRONIN,
Chairman.

MAYOR REOPENS DRIVE TO REMOVE EL STRUCTURE

The elimination of the MTA elevated structure from Sullivan square, Charlestown, to Forest Hills, Jamaica Plain, and the substitution of a subway and surface high-speed rapid transit system, the funds to be provided on a matching basis by the federal and state governments under the proposed Federal Roads Program, is the aim and ambition of Mayor John B. Hynes. Already he has written to both Senators Leverett Saltonstall and John F. Kennedy as well as to Congressmen John W. McCormack, Laurence Curtis, and Thomas P. O'Neill, Jr., urging them to make their best efforts to have provisions inserted in the Roads Program Bill to make it possible for the state to obtain federal aid in the accomplishment of this sorely needed improvement.

Here to discuss the proposed Federal Roads Program with the chief executives of the cities and towns of Greater Boston at a meeting called by the Mayor at the Parker House, Thursday, February 23, at noon, will be Louis S. Rothschild, undersecretary of the U. S. Department of Commerce in charge of transportation. It is the hope of the Mayor and many other interested state and municipal officials that out of the discussion will come a better understanding on the part of Washington authorities of the road building needs of all of the communities in the Greater Boston area.

Vigorous Protest

From all present indications the Federal Roads Program will be passed by Congress during the present session. Both parties have already ironed out their major differences about the Administration's Bill and both sides have agreed on a \$12,000,000,000 expenditure over the next 10 to 12 years, to be paid for out of a federal gas and other highway users' taxes.

While the proposed program was under discussion last year, Senator Saltonstall publicly stated that he believed that the state would be eligible for funds under it to clear the streets of the elevated structure and to construct a combined subway and surface rapid transit service in its place. Whether or not he is of the same opinion under the present bill is not known at the Mayor's office. However, it is known that he has registered vigorous protests against "short changing" Massachusetts under the present program. Congressman John W. McCormack has also protested vehemently to the U. S. Public Roads Bureau, which is developing the schedule of allocation of funds to the states, against the present plan of granting a disproportionate share of the funds to Massachusetts.

The MTA elevated structure has been a bone of contention among property owners since it was first erected at the turn of the century, because of its continuous destruction of property values along its entire route, between Sullivan square, Charlestown, and Forest Hills, Jamaica Plain. Hundreds of families over the years have sold their properties and moved elsewhere to avoid the constant day and night roar of the overhead trains and the darkness cast across their homes by the shadow of the elevated structure. According to real estate experts it has not only destroyed

millions of dollars of realty valuations, but has been the most detrimental evil to residential properties in the history of the city. It has had the same steady destructive effect on real estate along the entire route of the structure as termites have on the piers of a wharf.

The Legislature since World War II and before has favored the elimination of the structure and the substitution of the subway and surface rapid transit system. Even now there is a statute authorizing the MTA to tear down the structure and to provide a more modern system of transportation, at a cost not to exceed \$20,000,000. However, as the present cost would be between \$60,000,000 and \$70,000,000, the act is a nullity.

Gigantic Termite

Among the reasons for the Mayor's determination to go all out for federal funds to aid the state in the abolition of the structure is his fear that if the money is not forthcoming, funds for the proposed urban renewal program will not be available to rehabilitate the most blighted sections of Charlestown, South End, Roxbury, and Jamaica Plain. Obviously private capital will not invest in real estate in neighborhoods where a gigantic termite steadily eats away property values.

Present plans of the City Planning Board, when, as, and if, funds are available for the removal of the structure and the construction of the underground and surface rapid transit speedway, call for the construction of a subway between Sullivan square, Charlestown, and a point on the Boston side of the Charles River, connecting with the present northern end of the tunnel; a subway between the southern end of the tunnel at Motte street, South End, and Dudley street, Roxbury, and a surface road from there to Forest Hills via the New Haven roadbed.

Such an improvement would not only increase the efficiency of the north and south bound MTA rapid transit service, but would restore many millions of dollars worth of realty values along the present route of the elevated structure. Furthermore, it would make possible the conversion of Main street, Charlestown, from a dangerous two-lane highway into a four-lane traffic boulevard.

The Mayor's letter to the two U. S. Senators and the three Boston Congressmen reads as follows:

"I do hope that you will make your best efforts to have provisions made in the proposed Federal Roads Program to make it possible for states to obtain funds to remove structures like the Metropolitan Transit Authority (formerly Boston Elevated) overhead nuisance, and to replace it with a high-speed subway and surface rapid transportation system.

Awful Eyesore

"As you know the MTA structure has caused the permanent destruction of many millions of dollars worth of residential and other properties along its entire route, extending from Sullivan square, Charlestown, to the Charles River, and from Motte street, in the South End, to the Forest Hills terminal.

"If we could bring about the removal of the structure we would not only enhance Boston real estate valuations con-

siderably, but we would make possible the operation of the proposed 'Urban Renewal Program' in such sorely blighted areas as Charlestown, the South End, Roxbury, and Jamaica Plain. Unless this awful eyesore and property 'blighter' is removed, I doubt if private capital will ever again venture into those areas. If the federal government were to provide half of the sixty to seventy millions needed to bring about this necessary improvement, no doubt the state would find it advisable and profitable to provide matching funds."

CONTRACT AWARDED FOR NEW HEMENWAY SCHOOL

Mayor Hynes, on February 6, approved the award of the \$615,000 contract for the erection of a new elementary school in the Mary Hemenway District, Dorchester.

The Mayor acted on the following communication from the Superintendent of Construction, Department of School Buildings:

DEAR MR. MAYOR:

In response to an advertisement in the *City Record* of December 17, 1955, the following list of bids was received and publicly opened and read aloud on January 11, 1956, for the erection and completion of an elementary school in the Mary Hemenway District, Dorchester:

John Bowen Company, Inc., \$615,000; Sciaba & Co., Inc., \$619,400; Leonard Rugo, Inc., \$630,718; Brick and Concrete Construction Corporation, \$632,000; DeStefano Construction Company, \$638,000; M. S. Kelliher Company, \$639,212.

It is necessary to substitute the sub-bid for waterproofing, dampproofing, and caulking of the National Waterproofing Company, in the amount of \$1,585, for that of the Western Waterproofing Company, in the amount of \$865, which latter subcontractor was carried in the proposal of the John Bowen Company, Inc., for the reason that the Western Waterproofing Company, as well as the Chester Newman Company, in the amount of \$1,295, failed to submit their bids on the form required by the published invitation for proposals.

The aforementioned substitution results in a revision of the John Bowen Company, Inc., price from \$615,000 to \$615,720.

Subject to your Honor's approval, I am awarding a contract to the John Bowen Company, Inc., 173 Boston street, Dorchester, the lowest and responsible and eligible bidder, in the amount of six hundred fifteen thousand seven hundred twenty (615,720) dollars.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

AMENDMENT TO ORIGINAL AWARD OF DAMAGES.

The Public Improvement Commission has voted as follows:

That the amount of \$75 be awarded to Joseph E. Tracey for all damages sustained in the laying out and construction of Auriga street, Dorchester district.

That the amount of \$425 be awarded to Anthony and Frances D. Morante for all damages sustained in the laying out and construction of Hillis road, Hyde Park district.

NEWS IN BRIEF

Events of the Week
in City Government

SALK VACCINE

Most of the second batch of 13,150 free Salk antipolio inoculations just released by the National Foundation for Infantile Paralysis were administered to Boston school children during the week.

Dr. Martin Spellman, Director of the Department of Hygiene, announced that the vaccination program is being expedited among the second- and third-grade pupils in anticipation of the February vacations next week. The School Department's medical staff of 52 doctors and attendant nurses processed most of the second shot pupils in time for the vacation period, completing a vaccination series which began last spring and was interrupted by the 1955 summer polio epidemic. School Department medical directors were able to work speedily in the program by having prepared for it in advance. They have been collecting permission slips from parents since December.

LINCOLN'S BIRTHDAY

Representing Mayor Hynes, the City Greeter, John D. Brown, participated in the ceremonies on Lincoln's Birthday at the statue of the Great Emancipator in Park square.

On behalf of the city, Mr. Brown placed a wreath at the foot of the monument. Two other wreaths were placed by representatives of the Sons of the Union Veterans. They were Herbert W. Bogue, president of the Past Commanders Association, and Pamela S. Elder, representing the Past Presidents Association of the auxiliary.

ARTS FESTIVAL

Six new members have been elected to the 1956 Boston Arts Festival executive committee, it was announced by Nelson W. Aldrich, board chairman. They are Thomas G. Dignan, president of the Boston Edison Company; Ralph Lowell, president of the Boston Safe Deposit and Trust Company; Robert T. Markson, Markson Brothers; Arthur G. B. Metcalf, president of Electronics Corporation of America, and Adolph Ullman, president of Northeastern Distributors.

Also appointed were 16 new members to the festival board of trustees. They are:

William T. Bird, executive director, Greater Boston Chamber of Commerce; Daniel Bloomfield, executive vice-president, Retail Trade Board; Archbishop Richard J. Cushing, D.D.; Andrew Dazzi, classified advertising manager, Boston Globe; John Donnelly, Donnelly Advertising; Rabbi Roland B. Gittelsohn; Ernest Henderson, president, Sheraton Corporation of America; Henry A. Laughlin, president, Houghton Mifflin Company; Samuel C. FANEUIL HALL

Suggestion that the lower part of Boston's historic Faneuil Hall, now a long-famous food market, be converted into a series of small cabinetmaking shops, tobacco, weaving, pottery, food and herb shops, as an attraction to tourist shoppers, was made by G. Harris Danzberger, of Hingham, last week at the first public hearing of the unpaid Boston National Historic Sites Commission. This commission is a congressionally authorized group studying the advisability of recommending as national shrines some of Boston's more important landmarks. Faneuil Hall is under the jurisdiction of the City of Boston.

ARCHITECT ASSIGNED TO NEW COPLEY SQ. FACILITY

Thomas Worcester, Inc., of Boston, has been awarded a contract to act as architect-engineer on the construction of the new Copley square parking facility being erected by the Real Property Department.

Mayor Hynes approved the contract based on the following communication from that department:

DEAR MR. MAYOR:

On October 9, 1951, your Honor approved a contract between the City of Boston, acting by the then Board of Real Estate Commissioners, and Thomas Worcester, Inc., as architect-engineer, in connection with the proposed construction of an off-street parking facility at Copley square, bounded by St. James avenue, Providence street, and Berkeley street, Boston.

The architect-engineer was to be paid a fee equal to the sum of six (6) per cent of the full amount of the cost of construction.

The architect-engineer to date has completed all his services up to the point of actual commencement of construction of the parking facility and has been paid for those services thus far rendered.

One of the standard provisions contained in our contract form covering such services stipulates in part that the architect-engineer "shall supervise construction of the structure if its construction is commenced within three (3) years after the written approval by the Board of the working (final) drawings and detailed specifications." It so happens in the present case that the working drawings and detailed specifications were not approved by the Real Property Board within the specified three-year period.

Therefore, your authorization is respectfully requested to dispense with public advertising and to execute a contract with Thomas Worcester, Inc., to cover its full supervisory services in connection with actual construction of the structure, including all other architectural and engineering services in connection therewith.

The architect-engineer's fee for the aforementioned services will remain as six (6) per cent of actual construction cost, less the sum of \$52,500, which is the amount that has been paid to Thomas Worcester, Inc., by the city for the preparation of all plans and specifications.

In view of the professional nature of the services to be rendered and the aforementioned firm's intimate knowledge of the project, it is not considered that public advertising would be of avail to the city.

Respectfully yours,

HERMAN CARP,
Chairman, Real Property Board.

ERWIN D. CANHAM, EDITOR OF CHRISTIAN SCIENCE MONITOR, NAMED TRUSTEE OF LIBRARY

Erwin D. Canham, editor of the *Christian Science Monitor*, was appointed by Mayor Hynes on February 9 as a trustee of the Boston Public Library. He is one of the country's leading writers, radio commentators, and public speakers. In representing the *Monitor* he has traveled widely, met leading figures in all parts of the world and has been present at some of the conferences and events which have shaped recent history.

Born in Auburn, Maine, Mr. Canham's school days in New England were followed by graduation from Bates College, which granted him a B.A. degree in 1925 and a D.Lit. degree in 1946. As a Rhodes scholar, he also received B.A. and M. A. degrees from Oxford University, England. The degree of L.H.D. has been bestowed on Mr. Canham by Boston University in 1948, Kenyon College and Yale University in 1949, and Lehigh University in 1950, and the degrees of L.L.D. by Principia College in 1951, Lit.D. by Portia Law School in 1952, and Northeastern University in 1953.

Mr. Canham started as a reporter with the *Christian Science Monitor* in 1925, and in 1926-1928 covered annual sessions of the League of Nations Assembly in Geneva. In 1930 he covered the London Naval Conference. Mr. Canham served in the 1930's as chief of the *Monitor's* Washington Bureau. In 1939 he became general news editor. From 1942 to 1945 he served as managing editor, and in 1945 took his present post as editor.

In the spring of 1948 Mr. Canham was vice-chairman of the United States delegation to the United Nations Conference on Freedom of Information at Geneva, and in the spring of 1949, President Truman appointed him as Alternate American Delegate to the United Nations General Assembly.

Mr. Canham's affiliations include:

Director—United States Chamber of Commerce, and Chairman of Foreign Policy Committee.

Member—United States Advisory Commission on Information.

Member—National Manpower Council.

REAL PROPERTY DEPARTMENT.

Truck Hire

Approval was given for truck hire by the Real Property Department based on the following communication:

DEAR MR. MAYOR:

From time to time it is necessary for this department to hire a one and one half-ton truck.

We issue service orders in each case for a definite number of hours for certain periods. Under these orders the

contractor, the Ford Contracting Company, furnishes the truck, with chauffeur or operator, and all the gasoline and oil, at a rental rate of \$3.50 per hour. The cost of hiring this equipment will be in excess of \$1,000.

In my opinion, nothing could be gained by publicly advertising for bids since this contractor's rate is fair and reasonable. I therefore respectfully request your permission to hire this equipment, a one and one half-ton truck, upon the issuance of service orders, at the rate of \$3.50 per hour, from the Ford Contracting Company of 153 River street, Mattapan.

Very truly yours,

GEORGE P. DONOVAN,
Assistant Commissioner.

**CONTRACTS AWARDED
WITHOUT ADVERTISING**

ADMINISTRATIVE SERVICES DEPARTMENT.

Purchasing Division.

Tax Forms

The Mayor has authorized purchase of tax forms for the Assessing Department based on the following communication from the Purchasing Agent:

DEAR MR. MAYOR:

The Assessing Department has submitted requisitions to this office for forms to be used for 1956 tax bills and tax lists.

Moore Business Forms, Inc., who originally developed the forms used by the Assessing Department and who has supplied them to the Assessing Department for several years, has submitted an informal written quotation in accordance with the specifications set out on the requisitions.

Inasmuch as Moore Business Forms, Inc., has been the sole supplier for several years, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to this company. It is my opinion that, in this way, the best interests of the city will be served.

Approximate total amount of contract will be \$18,423.96, net.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

Playground Equipment

On February 7 the Mayor approved award of a contract for furnishing playground equipment to the city based on the following communication from the Purchasing Agent:

DEAR MR. MAYOR:

This office is in receipt of a requisition from the Parks and Recreation Department (1 11-41 813) for items of Burke-built playground equipment. These items are obtainable from M. E. O'Brien & Sons, Inc., the only distributor in this area.

Owing to the fact that M. E. O'Brien & Sons, Inc., is the only distributor, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to this company for the following items at the prices indicated:

100 No. JA-92 swing hangers at \$2.10 each, \$210; 200 No. AS-2 swing seats at \$3.52 each, \$704; 50 No. B-4 swing chairs, for 8-foot frames, at \$10.56 each, \$528; 6 No. 112-MS slides at \$191.40 each, \$1,148.40; 10 pairs No. BB-15-1 back-stops at \$142 per pair, \$1,420; 50 No.

AS-93 double-race ballbearing swing hangers at \$4.85 each, \$242.50; 6 No. C-500 six swing sets, 8 feet high, at \$139.70 each, \$838.20. Freight, New Brunswick, New Jersey, to Boston, on 5,468 pounds, \$90.77. Other items, freight from Fond du Lac, Wisconsin, to Boston, 6,578 pounds, \$251.28.

Approximate total amount of contract will be \$5,433.15, tail-gate delivery, net, 30 days.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

PUBLIC WORKS DEPARTMENT.

New Garage

On February 14 Mayor Hynes approved the award of a contract, without the formality of advertising, for the construction of a Public Works Department garage in West Roxbury based on the following communication from Commissioner Hyland:

DEAR MR. MAYOR:

At the present time the department has a local district paving yard located on Moreland street, West Roxbury, to serve the latter district. The garaging facilities are inadequate as they consist of only a four-bay sheet-metal garage. The Department of Civil Defense has two very expensive emergency trucks stored outdoors in the yard area the year around. Director Joseph Malone has requested the use of the sheet-metal garage for the storage of these vehicles, but we cannot permit such use as it is necessary to utilize the garage for the storage of the equipment of the Public Works Department. He has stated that the Department of Civil Defense would contribute to the cost of a new garage, or would be willing to make some financial arrangement to take over all or part of the present metal garage in the event that a new garage were constructed.

It is obvious that we need—both for the use of this department and the Department of Civil Defense—additional garaging facilities at this yard. We should construct a first-class masonry garage, consisting of six bays, to supplement our present inadequate facilities, and I so recommend.

It is estimated that the proposed garage can be constructed for approximately \$50,000. I have discussed this proposed expenditure with Mr. Lally, the City Auditor, and he has informed me that there is sufficient money available to encumber the estimated cost of the project. I have, therefore, subject to your Honor's approval, selected the architectural firm of Holmes & Edwards to prepare the necessary plans and specifications for the subject garage. Said firm has agreed to provide the latter-referenced services and to supervise the construction work for a fee based on seven (7) per cent of the actual construction costs, which is the standard percentage recommended by the Massachusetts State Association of Architects, on a project of the complexity and cost of the subject garage.

As a general rule, public advertising for proposals should never be resorted to in connection with contracts involving professional services with architects or engineers. While the initial cost is an important factor in all contracts, it is of secondary consideration when a municipality is desirous of engaging the services of professional engineers. The

integrity and experience of the firm selected are of more importance and, generally speaking, the ultimate cost to the city unquestionably would be lower by following the policy of selecting architects or engineers rather than public advertising for proposals for such services.

I respectfully request your approval, therefore, to dispense with advertising and to award a contract to Holmes & Edwards, architects, of 126 State street, Boston, for furnishing and preparing plans and specifications, including supervision of construction, for the construction of a garage at the Moreland Street Yard of this department with the understanding that the above-referenced firm will accept as full payment for the furnishing of these services a fee based on seven (7) per cent of the total cost of the building and relating facilities, with the understanding that the cost of said services will not be in excess of \$3,500.

Respectfully,

GEORGE G. HYLAND,
Commissioner of Public Works.

EXTENSION OF CONTRACTS

DEPARTMENT OF SCHOOL BUILDINGS.

The Mayor has approved an extension of time for the completion of the contract with Business Equipment Corporation for miscellaneous furniture for 15 Beacon street, from December 31, 1955, to March 15, 1956, because of delay in receiving material from mill.

FIRE DEPARTMENT.

Mayor Hynes has approved extension of a contract for conversion of five pieces of fire-fighting equipment based on the following communication from the Fire Commissioner:

DEAR SIR:

Under date of June 23, 1955, your Honor approved of a contract between the City of Boston Fire Department and A. F. Robinson Boiler Works, 200 Second street, Cambridge, Mass., for the conversion of five (5) Mack hose wagons, Type 85, to five (5) engine squad pumping units. The contract was to have been completed within 150 working days which would make the completion date January 27, 1956.

Because of delay in receiving five waterous fire pumps for installation on the five pumping units and also because of several alterations which have been requested by officials of the Fire Department, it was not possible to complete the contract work on or before January 27, 1956.

I recommend that the contract with A. F. Robinson Boiler Works be extended to March 13, 1956.

Respectfully yours,

FRANCIS X. COTTER,
Fire Commissioner.

HOSPITAL DEPARTMENT.

The Mayor has approved an extension of time from November 10, 1955, to March 31, 1956, on the contract of Parkman Construction Company, Inc., for renewal of storm, sanitary, and electrical systems in basement of Medical Building, Boston City Hospital, because of additional work which was not contemplated at the time of the execution of the original contract.

The Mayor has approved an extension of time from January 20, 1956, to May 15, 1956, on the contract of Vicari & Salvo for waterproofing and paving tunnel roofs, Boston City Hospital, because of inclement weather.

A second extension of time in the contract with D. M. McCartin Company has been granted to March 1, 1956. This contract is for interior painting in various buildings at the Sanatorium Division of the Hospital Department.

The Mayor has approved an extension of time from February 1, 1956, to April 25, 1956, on the contract of Joseph G. Gazzola for exterior painting of Drown House, Boston City Hospital, because of inclement weather.

PUBLIC WORKS DEPARTMENT.

The Mayor has approved an extension of time for the completion of the contract with Joseph Capone & Son Company for sewerage works in Wedgemere road, West Roxbury, from existing sewer to point 80 feet southeasterly, from January 28, 1956, to February 27, 1956, because of inclement weather.

ADDITIONS TO CONTRACT

DEPARTMENT OF SCHOOL BUILDINGS.

D. Antonellis, Inc., has been directed to make the following additions to its contract covering repairs to the Phineas Bates School:

CHANGES IN SOCIAL SECURITY LAW.

Changes in the Social Security Act now make Old Age and Survivors Insurance benefits available to all municipal employees, except firemen and policemen. The procedure varies, however, for those who are eligible for membership in existing retirement systems and those who are not.

The most important point to remember is that the municipality must take the initiative to secure OASI coverage for its employees and must act through the state government. Proper enabling legislation and contractual clauses in state documents are "musts." They secure coverage as part of the state's contract with the Bureau of Old Age and Survivors Insurance, U. S. Department of Health, Education and Welfare.

IMPORTANCE OF FOOD-BORNE DISEASE.

The relationship of food to disease continues to be an important public health program. The United States Public Health Service reported 327 outbreaks of food-borne disease in the United States in 1948, which resulted in 9,962 cases and 17 deaths. As only one out of ten cases of food-borne disease is ever reported, the resulting situation is far more important than available statistics would indicate.

The United States Public Health Service reports that there occurred in the United States in 1948, 30 cases and 6 deaths resulting from botulism; 74 cases and 1 death resulting from chemical food poisoning; 120 cases of dysentery; 8,832 cases and 7 deaths resulting from food infection and gastroenteritis; 270 cases of scarlet fever.

PROCEEDINGS OF CITY COUNCIL.

Monday, February 6, 1956.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President McCORMACK in the chair, and all the members present.

The Reverend George V. Kerr, of The Nocturnal Adoration Society, 25 Granby street, Boston, was escorted to the rostrum.

INVOCATION BY REV. GEORGE V. KERR.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Almighty God, we beseech Thee today to direct us and guide us that all our actions and deliberations suffer not from injustice at any time. Let no partiality sway our minds, nor respect of persons or places or things distort our judgment, but bring us ever closer to Thee by the gift of Thy grace, that we may be one with Thee and with truth, and that all things may begin with Thee and by Thee be happily ended. Through the same Christ, our Lord. Amen.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

At the request of President McCORMACK, Father Kerr offered the following prayer for the repose of the souls of Thomas Slattery and Michael Langone, who died in the service of the city.

Father KERR—I would like to ask you to join in the Our Father and Hail Mary.

Our Father, who art in heaven, hallowed be Thy name; Thy kingdom come; Thy will be done on earth as it is in heaven. Give us this day our daily bread; and forgive us our trespasses as we forgive those who trespass against us; and lead us not into temptation, but deliver us from evil. Amen.

Hail Mary, full of grace! The Lord is with thee; blessed art thou amongst women, and blessed is the Fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death. Amen.

The meeting was opened with the salute to the Flag.

BUDGET FOR 1956

The following was received:

City of Boston,
Office of the Mayor, February 6, 1956.

To the City Council.
Gentlemen:

I submit herewith the budget allowances for city and county departments for the year 1956. These allowances are approximately \$4,600,000 greater than those of the previous year, and are over \$6,000,000 less than the estimates submitted by the various departments.

Increases in compensation for patrolmen, fire fighters, jail and correction officers, as well as sliding scale increases, an extra day's pay because of leap year, and a proposed reduction in the period for reaching compensation maxima, account for about one third of this increase. In this same category are salary increases for judges, court officers, probation officers, and other county personnel, new positions authorized in several of the courts, and a \$2.50 monthly allowance for transportation to the recipients of Old Age Assistance.

Disbursements in the Welfare and Veterans' Services Departments will be greater this year in the amount of \$750,000 because of rising costs of medicines, and dental and medical care. The cost of non-contributory pensions will require an additional \$200,000 appropriation this year. Included in the budget is \$75,000 for an equalization survey, and an additional \$75,000 is allowed for the extra election function to be held this year.

The remainder of the increased allowances this year can be charged to plant rehabilitation and repair. The appropriations for such repairs are most necessary, especially in the Hospital, Parks and Recreation Departments, and various public buildings. Many of these repairs have been deferred from year to year and can no longer be deferred without a serious and most expensive aftermath.

A perusal of the 1956 budget will disclose that the allowances made are the minimum amounts necessary for the proper conduct of the city and county affairs. From year to year, the city is faced with absorbing additional cost of government over which it has no control, such as the increased monthly allowance for Old Age recipients and the increased costs of medical services to recipients of welfare and veteran aid. Every effort has been made to keep proposed expenditures at a minimum but despite our best efforts it is an impossibility to meet the obligations of the city and county governments except by greater appropriations. This points up the necessity, frequently stated, of the need of additional income so that the ever-increasing costs of government will not have to be borne almost in their entirety by owners of real estate. The financial fate of municipalities in our Commonwealth will hang in the balance unless a new source of income becomes available. Fixed obligations, statutory requirements, and expenditures over which the city officials have little control make it impossible to reduce or hold steady the over-all expenses of the city. Economies which are instituted are quickly wiped out because of such requirements.

The budget allowances, as submitted at this time, do not include the statutory down payments which must be made to support loans for capital improvements. These appropriations will be submitted at a later date.

I invite a close study by the City Council of the budget items allowed and I recommend adoption of the accompanying appropriation and tax orders.

Respectfully,

JOHN B. HYNES, Mayor.

(See issue of *City Record*, February 11, 1956, for letter to the Mayor by the Director of Administrative Services.)

APPROPRIATIONS AND TAX ORDERS FOR THE FINANCIAL YEAR 1956.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1956, for performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston, or County of Suffolk, or the departments or officers thereof, the respective sums of money specified in the tables and schedules hereinafter set out be, and the same are, hereby appropriated for the several departments and for the objects and purposes hereinafter stated.

Ordered, That the appropriation for Water Service, current expenses, and the payment to the state, under the provisions of chapter 488 of the Acts of 1895, and acts in addition or amendment thereto, and for the interest and debt requirements or for loans issued for water purposes, be met by the income of said works and any excess over income from taxes; that the appropriation for the Sumner Traffic Tunnel be met by the income from tolls and any excess over income from taxes, in accordance with the provisions of section 11, chapter 297, of the Acts of 1929, as amended by chapter 74 of the Acts of 1935; that appropriations for the maintenance and operation of parking meters and the regulation of parking and other traffic activities incident thereto, be met by the income from parking meter fees; that the other appropriations hereinafter specified be met out of the money remaining in the treasury at the close of business on December 31, 1955, exclusive of the money raised by loan or needed to carry out the requirements of any statute, gift, trust or special appropriation; by the income of the financial year beginning January 1, 1956; by taxes on the polls and estates in the City of Boston; and by the proceeds of any duly authorized loans.

Ordered, That all sums of money which form no part of the income of the city, but shall be paid for services rendered or work done by any department or division for any other department or division, or for any person or corporation other than the City of Boston, be paid into the general treasury, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof.

Ordered, That all taxes raised to meet the appropriations of the city, and all taxes assessed for meeting the city's proportion of the state tax for the year 1956, or for any other taxes or assessments payable to the Commonwealth, shall be due and payable on July 1, 1956. Interest shall be charged at the rate of 4 per cent per annum and computed from October 1, 1956, on all real estate and personal property taxes remaining unpaid after November 1, 1956, and assessed and payable in the year 1956, before said November 1, 1956, until such taxes are paid. All interest which shall have become due on taxes shall be added to and be part of such taxes.

Ordered, That except as the appropriation for any purpose or item shall be increased by additional appropriations or transfers lawfully made, no money shall be expended by any department for any of the purposes or items designated in the tables and schedules hereinafter set out in excess of the amount set down as appropriated for such specific purpose or item.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments:
Weigher of Goods for the term ending April 30, 1956: Maurice Weinograd, 63 Egmont street, Brookline.

Constable with authority to serve civil process upon filing of bond for the term ending April 30, 1956: Robert J. Kelley, 37 Brent street, Dorchester.

Severally referred to the Committee on Confirmations.

TRAFFIC SIGNALS AT E AND WEST THIRD STREETS.

The following was received:

City of Boston,
Office of the Mayor, February 3, 1956.

To the City Council.

Gentlemen:
I transmit herewith further communication relative to your order of October 31, 1955, concerning the installation of traffic signals at the junction of E and West Third streets, outside St. Vincent's Church, South Boston.

Respectfully,
J. B. HYNES, Mayor.

Boston Traffic Commission,
January 31, 1956.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

In further response to City Council order of October 31, 1955, I wish to report that at a meeting of the Traffic Commission held on Thursday, January 26, 1956, it was voted to make E street, South Boston, a "Stop" street at West Third street.

This regulation will become effective February 21, 1956, at which time the necessary signs will be erected.

Sincerely yours,

WM. ARTHUR REILLY, Commissioner.

Placed on file.

USE OF ROSLINDALE MUNICIPAL BUILDING BY U. S. ARMY RESERVE.

The following was received:

City of Boston,
Office of the Mayor, February 3, 1956.

To the City Council.

Gentlemen:
I transmit herewith communication from the Assistant Commissioner of the Real Property Department relative to your order of December 19, 1955, concerning a permit being issued for the use of the auditorium of the Roslindale Municipal Building for three hours on one evening each week by the 319th Engineers Battalion, 94th Infantry Division, of the U. S. Army Reserve (Boston Army Base).

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Real Property Department,
January 31, 1956.

Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:

In response to the attached order of Councillor McCormack to allow the use of the assembly hall of the Roslindale Municipal Building to the 319th Engineers Battalion, 94th Infantry Division, of the U. S. Army Reserve (Boston Army Base) for one evening each week for three hours, would have to report that this auditorium is used very frequently by civic groups, local churches, fraternal organizations, etc., on different dates and hours, for banquets, dances, whists, meetings, etc., and on account of this continual use of this building, I feel that this order cannot be complied with. I will be glad, however, to allow them the use of this assembly hall now and again, but it would be quite impossible to have them as regular tenants.

Very truly yours,
GEORGE P. DONOVAN,
Assistant Commissioner.

Placed on file.

PROCEEDINGS OF CITY COUNCIL.

(Continued from page 200.)

GROUP INSURANCE FOR EMPLOYEES OF BOSTON HOUSING AUTHORITY.

The following was received:

City of Boston,
Office of the Mayor, February 3, 1956.
To the City Council.

Gentlemen:
I transmit herewith communication from the Corporation Counsel relative to your order of January 23, 1956, concerning the furnishing of a written opinion as to whether the employees of the Boston Housing Authority may be considered as state employees, so as to be included in the present statutory plan for group life, accident, hospitalization, and surgical insurance for state employees.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Law Department, January 31, 1956.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

Your Honor has transmitted to me the order passed by the City Council on January 23, 1956, requesting my opinion as to "whether the employees of the Boston Housing Authority may be considered as state employees, so as to be included in the present statutory plan for group life, accident, hospitalization, and surgical insurance for state employees."

I take the order to refer to chapter 32A of the General Laws, which, as inserted by chapter 628 of the Acts of 1955, provides a program of group life insurance, group accidental death and dismemberment insurance, and group general or blanket hospital, surgical, and medical insurance for certain persons "in the service of the Commonwealth." By clause (c) of section 2 of said chapter 32A, the word "employer," as used in that chapter, is explicitly defined to mean "the Commonwealth of Massachusetts." The Supreme Judicial Court has repeatedly said that "the statutes establishing housing authorities make it plain that such an authority, although organized by and in each city and town in cooperation with the state, is nevertheless, when organized, a complete corporate entity in itself, . . . exercising its powers in its own independent right." Johnson-Foster Co. v. D'Amore Construction Co., 314 Mass. 416, 419. Clinton Housing Authority v. Finance Committee of Clinton, 329 Mass. 495, 499. A. Belanger & Sons, Inc., v. Joseph M. Concannon Corporation, 1955 Mass. Adv. Sh. 777, 779. In the circumstances, the conclusion is inescapable, in my opinion, that the Boston Housing Authority and the Commonwealth of Massachusetts are separate entities, with the result that employees of the Boston Housing Authority cannot be considered persons "in the service of the Commonwealth" within the meaning of chapter 32A of the General Laws, and so cannot be considered state employees, so as to be included in the present statutory plan for group life, accident, hospitalization, and surgical insurance for state employees.

Respectfully,
WILLIAM L. BAXTER,
Corporation Counsel.

SNOW-MAKING EQUIPMENT AT COMMONWEALTH COUNTRY CLUB.

The following was received:

City of Boston,
Office of the Mayor, February 3, 1956.
To the City Council.

Gentlemen:
I transmit herewith a report from the Chief Engineer of the Parks and Recreation Department relative to your order of January 9, 1956, concerning the investigation of the snow-making equipment at the Commonwealth Country Club in Newton, Mass.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Parks and Recreation Department,
January 13, 1956.

Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:

I have your memorandum of January 11, 1956, with attached City Council order that the Chairman of the Board of Parks and Recreation be requested, through his Honor the Mayor, to assign an observer to the Commonwealth Country Club in Newton to observe the snow-making equipment presently being operated there, with a view toward eventual use of such equipment in the recreation program of Boston.

I have asked Daniel J. Byrne, Jr., Chief Engineer of this department, to visit the Commonwealth Country Club for the purpose of observing the snow-making equipment and to give me a report on same.

Very truly yours,
FRANK R. KELLEY, Commissioner.

City of Boston,
Parks and Recreation Department,
January 31, 1956.
Frank R. Kelley, Commissioner,
Parks and Recreation Department.

Dear Sir:

In compliance with your request I have had a member of our engineering staff investigate the snow-making equipment at the Commonwealth Country Club in Newton, Mass.

I hereby respectfully report the results of his investigation as follows:

The snow-making equipment installed at the Commonwealth Country Club is sold by the Larchmont Farms Company, Larchmont Lane, Lexington 73, Mass., under the trade name of "Lafco-Sno-System."

The manufacture of snow is accomplished by the proper mixing of compressed air and water and discharging the mixture as a fine fog through rotary-type sprinklers into the atmosphere. The quality of snow is adjusted by use of a pressure regulating valve on the water line.

In order to produce snow it is necessary that weather and atmospheric conditions be similar to those required for natural snow. The ground must be frozen and the temperature 30 degrees or colder. Ideal temperature is between 20 and 27 degrees. Snow can be produced faster on a cold, cloudy day or at night.

The snow-making equipment at the Commonwealth Country Club has been in operation on and off since its installation three years ago. It is used to cover a ski slope approximately 800 feet long by 100 feet wide. This year a great deal of difficulty has been experienced in operating the equipment. Mr. White, of the Commonwealth Country Club, would not recommend the purchase of this equipment as he does not think it is perfected well enough to insure a continuous, profitable operation. The representative of the Larchmont Farms Company claims that the poor service record has been caused by improper drainage of the equipment at the end of the snow-making operation and also by the failure of the rented air compressors to supply the pressure and air volume required.

At the time of observation the club's personnel were clearing the equipment of ice particles by applying hot water to the exterior of the mixing box, and mechanics from the Worthington Company were making repairs to the compressors.

By ten o'clock in the morning all the equipment was operating satisfactorily, and snow was being manufactured on the slopes in preparation for evening operation of the ski slopes. When the equipment is operating correctly, the snow is ideal for skiing.

In general, the layout necessary for a ski slope 100 feet wide on a 1,000 foot hill would be a ski tow extending the length of the hill, and a flood-lighting system covering the slope and tow area. An air compressor of 1,000 cubic feet capacity and a 4-inch water supply to the site is required. Two 3-inch header pipe lines are run parallel to the slope, one for the compressed air and one for the water. Every 100 feet a 1-inch pipe riser is taken off each header pipe and a gate valve installed. An electric outlet is also provided at the same location.

From the gate valves on the riser pipes and from the electrical outlet it is possible to connect sections of pipe and wire, connecting five rotary sprinkler heads in series. The sprinklers are spaced approximately 20 feet on centers. The connection between each sprinkler consists of two lines, one with water and one with compressed air, and an electric cord to the heating element in the mixing box. This battery of five sprinklers makes up to a length of 110 to 130 feet, depending on the length of lead from the first sprinkler to the 3-inch supply lines.

During the initial starting of the snow-making operation, if the mixing box at the base of the sprinkler head contains ice particles, the electricity to the heating element is turned on and the heat melts the ice in the mixing box. The compressed air and water are then turned on and brought together in the mixing box. Through a series of openings the air and water are expanded and contracted several times before emerging into the outside atmosphere as a fine fog which produces, under favorable atmospheric conditions, snow for the ski slopes.

The following cost estimate is for an installation containing forty sprinkler heads, which would be sufficient to maintain snow on a ski slope 100 feet wide by 1,000 feet long. The estimate does not include the cost of installing the necessary electrical and water service from available service to the proposed site area, the cost of which would amount to a considerable sum if the proposed site were at a considerable distance from the existing supply.

Ski tow complete with shelter for machinery	\$4,000
Air compressors (1,000 cubic feet capacity) and shelter	30,000
Header pipe and eight portable sprinkler sections	5,000
Water pump (if necessary)	2,000
Flood lighting and electrical outlets	3,000
	\$44,000

The air compressors may be rented at a charge of approximately \$45 per day.

It is estimated that expenses to operate a ski tow and manufacture snow for the slope would be as follows:

SALARY ADJUSTMENTS FOR EMPLOYEES OF MAINTENANCE DIVISION, FIRE DEPARTMENT.

The following was received:

City of Boston,
Law Department, January 31, 1956.
City Council,
City Hall, Boston, Mass.
Gentlemen:

I have received from the City Clerk an attested copy of the order passed by your Honorable Body on January 16, 1956, requesting my opinion as to whether the civilian members of the Maintenance Division of the Boston Fire Department are employees within that department.

The maintenance personnel in question are undoubtedly employees of the City of Boston within the Fire Department when those words are used in such a context as to comprehend all the activities associated with the administration of the municipal fire organization. That is established by the case cited in your order, namely, Nolan v. Boston Firemen's Relief Fund, 236 Mass. 420, holding, on the authority of Fickett v. Boston Firemen's Relief Fund, 220 Mass. 319, employees in the then repair and construction, veterinary, and fire alarm divisions to be members of the Boston Fire Department within the meaning of the act incorporating the Boston Firemen's Relief Fund. But it does not follow that civilian members of the Maintenance Division are members of, or employees within, the Fire Department when what is actually meant by "Fire Department" is the fire-fighting force. This is plain from Elliott v. Fire Commissioner of Boston, 245 Mass. 330, which, explicitly distinguishing the Fickett and Nolan cases, held that a blacksmith's helper in the repair division was not such a "member of the Fire Department" as to be entitled to a noncontributory pension then available to fire fighters. That is to say, the interpretation to be placed upon the term "Fire Department" varies according to the context in which it is used. See 1944-1945 Opinions of the Attorney General, page 35. See also St. 1921, c. 390, defining the term "members of the Boston Fire Department" as used in the act incorporating the Boston Firemen's Relief Fund to exclude from such act members of the Fire Department who are not members of the fire-fighting force.

Although your order fails to indicate the context to which your inquiry is directed, it is my understanding that your order was prompted by a contention that the civilian personnel of the Maintenance Division are entitled to the increases granted on September 7, 1955, to the members of the fire-fighting force and the Fire Alarm Division. Those increases were effected by amendments to the respective compensation plans for "the fire-fighting force" and for "the Fire Alarm Division." The civilian members of the Maintenance Division are plainly not members of either the fire-fighting force or of the Fire Alarm Division and so are not entitled to said increases. In this connection, it is to be noted that there is no compensation plan for "the Fire Department" as such; for the personnel of the Fire Department, exclusive of the fire-fighting force and the Fire Alarm Division, are comprehended by the compensation plan for municipal employees in general.

Respectfully,

WILLIAM L. BAXTER, Corporation Counsel.

Referred to the Executive Committee.

MAYOR APPROVES MAKING OF FIVE PUBLIC WAYS

Mayor John B. Hynes, on February 3, approved the action of the Public Improvement Commission in recommending the construction of new public ways in Roxbury, West Roxbury, Brighton, Dorchester, and Mattapan, as follows:

Greenwich Court, Roxbury

The laying out and construction of Greenwich court, Roxbury (formerly a part of Greenwich street), as a public highway, from Greenwich street approximately 100 feet southwesterly.

This project is described as follows:

A highway named Greenwich court is hereby laid out, from Greenwich street approximately 100 feet southwesterly and ordered constructed.

Said highway and the land, exclusive of trees, shrubs or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northeasterly by the southwesterly line of Greenwich street, thirty and 00-100 feet; northwesterly by the northwesterly line of Greenwich court as hereby laid out, ninety-nine and 70-100 feet; southwesterly by the southwesterly line of Greenwich court as hereby laid out, thirty and 00-100 feet; southeasterly by the southeasterly line of Greenwich court as hereby laid out, ninety-nine and 70-100 feet.

Trees, shrubs or structures standing upon or affixed to the aforesaid land, shall be removed therefrom within thirty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of said Greenwich court will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on a plan marked "City of Boston, Greenwich Court, Roxbury, January 12, 1956, George G. Hyland, Commissioner of Public Works."

II. ASSIGNMENT OF ADDITIONAL APPARATUS.

Effective immediately, whenever the deputy or district fire chief reports that there is a working fire in progress, the following shall be observed by Fire Alarm.

The Engine Squad Company or Rescue Company assigned to the district shall be dispatched. In the event that there is an Engine Squad Company or Rescue Company at the alarm, another engine company shall be sent. Should the first company arriving at the alarm report a working fire, Fire Alarm shall proceed to send assistance as outlined above.

It is brought to the attention of the department that the Engine Squad or Rescue Company may have to come some distance, and member in charge at the alarm shall be governed accordingly and order such other additional assistance as needed.

By order of Fire Commissioner
FRANCIS X. COTTER.

Chief of Department.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

Invitation for Proposals for Collecting and Removing Garbage and Refuse in South Boston, Charlestown, Brighton, Jamaica Plain, Dorchester North, Dorchester South, Elm Hill, Dudley, Mission Hill, Roxbury, South End, Back Bay, Stuart, North and West Ends, and Hyde Park Districts.

The City of Boston, acting through its Commissioner of Public Works (hereinafter called the Commissioner), hereby invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for collecting and removing garbage and refuse in South Boston, Charlestown, Brighton, Jamaica Plain, Dorchester North, Dorchester South, Elm Hill, Dudley, Mission Hill, Roxbury, South End, Back Bay, Stuart, North and West Ends, and Hyde Park districts. Proposal forms, together with the form of contract, may be had daily, between 9 A.M. and 5 P.M., at the Commissioner's office, 506 City Hall Annex (Contract Office), Boston.

Proposals shall be submitted in duplicate on forms obtained as aforesaid. A proposal may be submitted for a one-(1) year period on any or all districts, except that, if a proposal is submitted for a two-(2) year period in the Brighton district and/or the Jamaica Plain district and/or the Dorchester North district and/or the Dorchester South district and/or the Hyde Park district, the bidder shall also include a bid for a one-(1) year period for the same district. Each copy of the proposal shall be properly filled out, signed, enclosed in an envelope, sealed, marked "Proposal for Collecting and Removing Garbage and Refuse, etc." One copy of the proposal accompanied by a bid deposit in the form of a certified check for FIVE THOUSAND (\$5,000) DOLLARS FOR EACH DISTRICT BID, payable to and to become the property of the City of Boston if, after acceptance, the proposal is not carried out, shall be filed with the Commissioner at his said office on or before 2 P.M., Wednesday, March 7, 1956, at which time all proposals will be publicly opened and read in the Hearing Room, 401 City Hall Annex. The other copy of the proposal, without a bid deposit, shall be filed by the bidder before said day and hour at the office of the City Auditor, City Hall, School street, Boston. No proposal shall be withdrawn after the time hereinbefore set for the opening of proposals. There will be a minimum charge of two dollars (\$2), NOT REFUNDABLE, for each set of proposal forms.

The Commissioner reserves the right to reject any and all proposals.

The successful bidder will be required (a) to furnish a faithful performance bond, executed by a surety company authorized to

do business in the Commonwealth of Massachusetts, in the sum of one hundred per cent (100%) of the amount of the contract for a one-year term or fifty per cent (50%) of the amount of the contract for a two-year term; and (b) to maintain in a company authorized to do business in the Commonwealth of Massachusetts, and keep on file with the city policies, binders or certificates evidencing the maintenance of, Workmen's Compensation insurance.

In each proposal the bidder will list the location and ownership of the dumps he proposes to use, and furnish satisfactory proof to the Commissioner as to his legal right to use them.

WASHINGTON OFFICIAL ASSURES BOSTON OF GOOD SHARE IN HIGHWAY FUNDS AT MAYOR'S "GRASS ROOTS" MEETING

An Undersecretary of Commerce and a Congressman flew on from Washington on Thursday, February 23, to explain to a "grass roots" meeting of Greater Boston city and town officials, called together by Mayor John B. Hynes, at the Parker House, just what Massachusetts may expect as its share of the multibillion-dollar federal highway program now pending before the United States Congress. Undersecretary Louis S. Rothschild, in charge of transportation for the U. S. Commerce Department, assured the assembled mayors and selectmen that this state is allocated 838 million dollars under the plan as it is now drafted. Of that sum the Commonwealth of Massachusetts over a period of years would be required to contribute 10 per cent of the total outlay, or 83 million dollars.

Congressman Laurence Curtis warned this state, however, to be "alert to see that the distribution remains on the same fair basis as it is in the Fallon bill" now under consideration in the U. S. House of Representatives. He said Massachusetts should favor the present federal highway aid plan as outlined in the Fallon bill, with its emphasis on the interstate system, which includes the roads of great national and strategic importance, about one fourth of which are city-to-city links of such through highways.

Undersecretary Rothschild called the new federal roads program the greatest single highway construction proposal in the nation's history, and, for that matter, the entire world. The program looks forward into the next thirteen years with plans to modernize the important highway pattern of the nation, including four coast-to-coast traffic arteries, into a system of up-to-date expressways, at an estimated total cost of 25 billion dollars, and an integrated system of secondary roads involving a total expenditure of 12 billion dollars. The cost, under the main plan, would be borne 90 per cent by the federal government and 10 per cent by the states. The states' share of the secondary road costs would be somewhat larger, he said.

Mayor Hynes was informed that Boston's share in the program hinged upon the plans and recommendations of the State Department of Public Works. The Mayor was subsequently assured by Public Works Commissioner John A. Volpe that the city's needs would be given generous consideration in the allocation of funds. There is nothing in the new federal roads program to prevent the removal of the Washington Street El structure, a project in which the Mayor is vitally interested. Rothschild said if the state and the city come to an agreement on the tearing down of the monstrous El structure and substitute a tunnel in order to open up main arteries of intercommunity traffic to a safer and more efficient use, such a project should stand a good chance of a substantial share of federal funds, especially in the removal of the structure and reconstruction of the streets. Mayor Hynes pointed out that the Washington Street El could be counted as Boston's greatest blight and an important deterrent to the city's plans for conservation and rehabilitation of residential and business property all across the city.

Further discussed at the meeting were the reasons for current misapprehension on the part of Boston and Massachusetts officials about not getting a fair share of the roads program. Congressman Curtis said that under the formula previously considered in Congress, Massachusetts and other seaboard states were definitely short-changed. The "new concept," as Mr. Rothschild described it, gives this state a generous share in the federal funds.

Mayor Hynes described the entire federal program as a "great national need and a big thing for Boston." He said that in the application of the program locally Boston would "fight" for the elimination of the El structure with the aid of federal and state funds.

Congressman Curtis, in whose district a large portion of the El structure is located, said the federal program, as it appeared to him, would make federal funds available for the removal of the structure and reconstruction of the main roads over which it now passes, but that the construction of a subway would pose another problem which may require "other legislation."

Undersecretary Rothschild pointed to Route 128 as a "small example" of the effect the new federal roads program will have on the nation's economy. He said the whole program when completed, in another fifteen or sixteen years, would mark an important era in transportation in this country.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

NATHAN HASKELL DOLE.

COUNCIL CONSIDERS MAYOR HYNES' PROPOSAL TO CREATE NEW POST OF SUPERVISOR OF BUDGETS

An amendment to the city ordinances creating the position of Supervisor of Budgets in the Administrative Services Department of the city was submitted on Monday, by Mayor John B. Hynes, to the City Council. The official filling this post would replace the City Auditor on the Administrative Services Board, under the Mayor's proposal, which was read in the Council and referred to the Committee on Ordinances.

The Mayor's communication to the Council read as follows:

To the City Council.

GENTLEMEN:

Herewith is a communication recently received by me from the Director of Administrative Services recommending the creation of a Supervisor of Budgets, who, by handling budget matters, would make it possible for the Director of Administrative Services to devote his full time to the important duty imposed upon him to make "studies and recommendations with respect to the organization, activities, policies, and procedures of all departments, boards and officers so that the administration thereof shall be economical and efficient." Since, without question, adoption of this recommendation would greatly enhance the effectiveness of the Administrative Services Department, I recommend that your Honorable Body pass at an early date the accompanying ordinance which reorganizes the Administrative Services Department so as to include a Supervisor of Budgets. You will note that the Supervisor of Budgets will serve on the Administrative Services Board in place of the City Auditor, so that an incidental effect of the ordinance will be to strengthen the independence of the office of City Auditor as well as give him more time for his primary function.

Respectfully,

J. B. HYNES, Mayor.

Following is a communication to Mayor Hynes from Charles J. Fox, Director of Administrative Services, on the subject:

DEAR MR. MAYOR:

Based on two years' experience, it is my opinion that the Director of Administrative Services could function more effectively if he was relieved of the direct responsibility of preparing annual and all supplementary budgets together with the associated duties set forth in section 3 of chapter 3A of the revised city ordinances. Under existing conditions, the vast amount of detail involved in the various phases of the budget consumes a major portion of the director's time and thus limits to a considerable degree the attention which can be given to the making of "studies and recommendations with respect to the organization, activities, policies, and procedures of all departments, boards and officers so that the administration thereof shall be economical and efficient."

Under the reorganization ordinance, the position of "Supervisor of Personnel" was created within the Administrative Services Department to handle all matters relating to personnel. I believe it is desirable to follow this precedent and establish within the department the position of "Supervisor of Budgets" to

handle all budget matters. Under this arrangement, the Director of Administrative Services can devote his entire attention to administrative problems and thus function in a true and complete sense as your administrative assistant.

Respectfully,

CHARLES J. FOX, Director.

Following is the text of the proposed ordinance as submitted by the Mayor:

Be it ordained by the City Council of Boston, as follows:

SECTION 1. The first paragraph of section 5 of chapter 3 of the Revised Ordinances of 1947, as amended, is hereby further amended by striking out clause (1), as appearing in section 3 of chapter 8 of the Ordinances of 1953, and inserting in place thereof the following clause:

(1) The director of administrative services, fifteen thousand dollars; the supervisor of budgets, ninety-five hundred dollars; the supervisor of personnel, ninety-five hundred dollars; and the purchasing agent, ninety-five hundred dollars.

SECT. 2. Section 1 of chapter 3A of the Revised Ordinances of 1947, as amended by section 13 of chapter 2 of the Ordinances of 1954, is hereby further amended by striking out the first two sentences and inserting in place thereof the following sentences: There shall be in the city a department, known as the Administrative Services Department, which shall be under the charge of a board, known as the Administrative Services Board, consisting of an officer, known as the Director of Administrative Services, who shall be chairman of the board, an officer known as the Supervisor of Budgets, an officer known as the Supervisor of Personnel, an officer known as the Purchasing Agent, and the collector-treasurer, ex officio. The director of administrative services, the supervisor of budgets, the supervisor of personnel, and the purchasing agent shall each be appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected, and shall devote their whole time to the duties of their respective offices.

SECT. 3. Section 3 of chapter 3A of the Revised Ordinances of 1947, as appearing in section 9 of chapter 8 of the Revised Ordinances of 1947, is hereby amended by striking out, wherever appearing in said section, the words "director of administrative services" and inserting in place thereof, in each instance, the words "supervisor of budgets."

SECT. 4. The powers and duties conferred or imposed on the director of administrative services by section 3 of chapter 3A of the Revised Ordinances of 1947, as appearing in section 9 of chapter 8 of the Ordinances of 1953, and the appropriations relating to such powers and duties, are hereby transferred to the supervisor of budgets created by section 2 of this ordinance.

SECT. 5. Every person holding an office or position subject to the civil service laws and rules shall, if the office or position is abolished by this ordinance, be reappointed without civil service examination or registration to a similar office or position with similar status in a new department or agency, or division of either, created, or a department or agency, or division of either, not abolished, by this ordinance; and every such person shall, upon such reappointment, retain all rights to retirement with pension that shall have accrued or would thereafter accrue to him; and his services shall be deemed to have been continuous to the same extent as if such abolition had not taken place. As used in this section, the term "agency" shall be construed as defined in section 5 of chapter 486 of the acts of 1909 as amended by section 1 of chapter 473 of the acts of 1953.

SECT. 6. This ordinance shall be deemed to be made under section 5 of chapter 486 of the acts of 1909, as amended by section 1 of chapter 473 of the acts of 1953, and shall be so construed that no person, holding whether under general or special law or otherwise an office or position subject to the civil service laws and rules shall, by reason of the adoption of this ordinance, be without a similar office or position or be reduced in rank or compensation.

SECT. 7. Anything in section 3 of chapter 1 of the Revised Ordinances of 1947 to the contrary notwithstanding, this ordinance shall be published by the action of the city council in passing the same.

SECT. 8. This ordinance shall take effect on the Wednesday next following its approval by the mayor.

POLICE DEPARTMENT ORDERS

General Order No. 2,168.

The resignation of Patrolman Joseph E. Morrissey of Division 6 having been presented, it is hereby accepted, to take effect as of Monday, February 13, 1956, at 5:45 o'clock P.M., seven days' notice waived.

THOMAS F. SULLIVAN,
Police Commissioner.

AMENDMENT TO ORIGINAL AWARD OF DAMAGES.

The Public Improvement Commission has voted as follows:

That the amount of \$425 be awarded to Edith C. Brickley for all damages sustained under the order of the Board of Street Commissioners for the laying out and construction of Bowditch road, West Roxbury district.

That the amount of \$3,177.60 be awarded to James R. Raeder for all damages sustained under the order of the Public Improvement Commission for the widening and construction of Summit street, Hyde Park district.

CITY SEEKS RESTRICTIONS ON BRIDGE OPENINGS

Public Works Commissioner George G. Hyland is currently engaged in an attempt to convince the U. S. Army Engineers at Boston that a restriction should be placed on the opening of four major drawbridges here. He said the city could eventually save about \$100,000 each year by operating a drawtenders' pool.

At present, more than \$303,000 is spent by Boston to staff these bridges. Commissioner Hyland's proposal would affect the Charlestown, Congress Street, Summer Street, and L Street bridges. He seeks permission to close bridges to water traffic from 4 P.M. to 9.30 A.M. each weekday and from 9.30 A.M. to 4 P.M. on Sundays. Exceptions would be made on ten-hour notice by shipping interests of the arrival of a vessel, or in emergencies. One man would staff a bridge on routine schedule instead of the present crew of four. At present, the city must keep four men on two shifts at the Charlestown Bridge although, at times, there is only one opening a week in the course of each shift. The same plan, if approved, eventually would be extended to the twelve drawbridges operated by the city. Commissioner Hyland said the belief that marine traffic has prior rights over land traffic is, in his opinion, a "myth."

In support of this claim, Commissioner Hyland quoted a recent article in the *American City* magazine by Walter Kurlyo, Administrative Officer, Bureau of Public Roads, U. S. Department of Commerce, as stating that the Army Corps of Engineers have launched upon a new policy with regard to the maintenance of drawbridges. Mr. Kurlyo had said, in part:

" . . . In an effort to find a reasonable and practicable solution to the problem, the Corps of Engineers has adopted the policy that an economic analysis of comparative costs and benefits be made in bridge clearance cases . . .

"Special operating regulations for existing movable bridges could eliminate the need for at least two of three shifts of bridge-operating personnel, and would tend to reduce the size and number of the traffic jams that presently result from many obviously needless bridge openings.

" . . . Under this new concept, the public is entitled to have clearly shown on the record of any Corps of Engineers hearing how much savings the public can expect in waterway transportation costs as a result of the public monies being expended in bridges for accommodation of navigational needs. Where the expected savings in waterway transportation costs do not equal or exceed the added bridge costs solely for watercraft needs, the navigational clearances desired by the waterway interests obviously are not justified and should not be required."

Commissioner Hyland recently wrote to the U. S. Army Engineers in Boston in this connection as follows:

GENTLEMEN:

Your permission is respectfully requested to amend the existing bridge regulations governing the operation of

drawbridges across navigable waters tributary to Boston Harbor as follows:

Charlestown Bridge, across the Charles River.

Congress Street Bridge, across the Fort Point Channel.

Summer Street Bridge, across the Fort Point Channel.

Summer (L) Street Bridge, across the Reserved Channel.

We request that the existing prescribed regulations be modified so that the aforementioned bridges shall not be required to be opened for the passage of vessels from 4 P.M. to 9.30 A.M. every day of the week and from 9.30 A.M. to 4 P.M. on Sundays, except on a ten- (10) hour notice in advance of the time an opening is desired or at any time in case of an emergency, and that these amended regulations shall take effect on 12.01 A.M., April 1, 1956.

The drawspans of the aforementioned four bridges, all owned and operated by the City of Boston, will be opened at any time during the proposed closed periods by giving an advance notice of ten hours, by calling the Radio Dispatchers Office of the Public Works Department, at Andrew 8-3962, which is on duty at all times. At least one operator will be on duty at all times on each bridge in case any emergency opening is required. These regulations, if prescribed, shall not apply to vessels owned and operated by the United States nor to vessels employed for police or fire protection nor in an emergency where danger to life and/or property is involved.

It should be noted that this petition modifies the original petition submitted to you under date of October 3, 1955. Modification of the original petition is based upon opinions expressed at a hearing held in your office on January 24, 1956. It is our opinion that the proposed amendments for closed periods, particularly that requiring advance notice, will prove to be feasible and, after sufficient experience has been obtained, will provide a basis for extending these regulations to some of the other bridges in Boston Harbor.

May we have an answer at your earliest convenience in order that we may proceed in establishing a new work schedule for drawtenders prior to April 1, 1956.

Very truly yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

Chicago is planning the installation of radio-controlled traffic lights, described as the first of their kind in the world.

In the beginning thirteen intersections will be radio-controlled, with the antenna on top of the Board of Trade Building south of the Loop business area. Traffic lights will be set to favor the prevailing flow of traffic at particular times of day. Neon signs will indicate to the driver how the signals are set. Cable control at 450 intersections would cost about \$3,375,000, or several times the cost of the proposed radio control, City Traffic Engineer Leslie Sorenson explains. The cost of the initial radio installations will be \$40,000.

MAYOR HYNES AND COUNCIL SPEED UP BOSTON SALK POLIO VACCINE PROGRAM

Mayor John B. Hynes, on Monday, requested the City Council to approve an appropriation of \$28,000 to enable the Health Department to participate in the administering of the Salk polio vaccine to Boston school children and expectant mothers.

The Council immediately passed the order covering the request, under suspension of the rules.

Following is the communication sent by the Mayor to the City Council:

GENTLEMEN:

I submit herewith an order providing for the appropriation of \$28,000 to be expended by the Health Department in connection with the antipoliomyelitis vaccination program which should be initiated at the earliest possible date. I am advised by the Health Commissioner that he is ready to go ahead with this all-important work as soon as the necessary funds are made available.

Although the United States Government, the State Department of Public Health and the National Foundation for Infantile Paralysis jointly have made vaccine available, without charge, for all children under 15 years of age, in addition to expectant mothers, nevertheless, the expense of administering the vaccine will have to be borne by the city.

With the exception of 73,000 children in the Boston public schools whose requirements will be attended to through School Department supervision, it is estimated that 115,000 children, including 39,000 in parochial schools and 76,000 either under school age, at home or in institutions, will be eligible to receive two inoculations of vaccine this year under the Health Department program; in addition, 10,000 expectant mothers will also be inoculated under this program.

The efficient administration of this all-important work will require the services of additional doctors, nurses and clerks, and the acquisition of medical equipment, such as hypodermic needles, syringes, sterilizers, and other medication attendant to the administering of the vaccine.

The securing of this vaccine without cost is a most welcome contribution at this particular time, not only because of the savings involved but because of the benefits which will be derived in the matter of public health. Because of the urgency and importance of this program, I respectfully recommend the adoption by your Honorable Body of the accompanying order.

Respectfully,

JOHN B. HYNES, Mayor.

CLAIMS APPROVED.

On February 14 Mayor Hynes approved the action of the Committee on Claims as follows:

Settlement of the claim of Concetta M. DeMinico, 28 Sheafe street, Boston, for compensation for personal injuries caused by a hole in the sidewalk on St. James avenue, northerly side, April 26, 1955, by payment of the sum of \$195.

NEWS IN BRIEF

Events of the Week
in City Government

WHITE FUND BUILDING

The George Robert White Fund has signed up as the first occupant of its new six-story building at 480 Boylston street the Trans World Airlines. This building is still under construction. The airline will occupy over 6,000 square feet, the entire second floor, according to the White Fund officials. The structure will be ready for occupancy by October 1.

Revenue from the White Fund reverts to the City of Boston for future erection of public health and recreation facilities.

ART COMMITTEE

The 1956 Boston Arts Festival Art Committee that determines the rules for the outdoor exhibition has been announced by Nelson W. Aldrich, chairman of the Boston Arts Festival.

Over 2,500 New England artists are expected to submit paintings, sculptures, and drawings from which the national jury (picked by the committee) will choose some 250 works for display this summer at the Public Garden.

The committee, headed by Loring Coleman, of Sudbury, includes: sculptor, Theodore Barabossa; artists, Aiden Ripley, Gardner Cox, Mitchell Siporin, and David Aronson; Mrs. Margaret Brown, Margaret Brown Galleries; Robert Vose, Jr., Vose Galleries; Peter Wick, Museum of Fine Arts; Agnes Mongan, Fogg Museum; James Plaut, Institute of Contemporary Art, and George L. Stout, Isabella Stewart Gardner Museum.

CIVIL SERVICE

Civil Service examinations will be conducted on March 24 to provide eligible lists for three classes of positions in the city service: laboratory assistant in the Hospital Department, for which there are several positions open for both men and women; senior statistical machine operator, Welfare Department, where vacancies occur from time to time, and social worker, Boston City Hospital, where one vacancy occurs at present, for a woman.

Last day for filing applications for these examinations is March 5. Detailed information is available in the various departments referred to, or at the Massachusetts Civil Service Department, State House.

PHYSICAL EDUCATION DIR. REPORTS ON FOOTBALL MEET

Joseph McKenney, Director of Physical Education, Boston School Department, has made the following report to the Superintendent of Schools on the National Football Rules Committee meeting at Long Beach, California:

DEAR MR. HALEY:

I respectfully submit the report of my attendance at the Football Rules Committee of the National Collegiate Athletic Association held at Long Beach, California, January 11 to 14, 1956.

The following members, representing the National Collegiate Athletic Association, were present:

Chairman, H. O. Chrisler, University of Michigan.

Life Member, A. A. Stagg.

New England States, L. R. Jordan, Harvard.

Middle Atlantic, E. A. Geigas, Philadelphia.

South, Wallace Butts, Georgia.

Big Ten, Ray Eliot, Illinois.

Midwest, L. A. Mullins, Kansas.

Southwest, L. R. Meyer, Texas Christian.

Rocky Mts., J. C. Curtice, Utah.

Pacific Coast, F. G. McCormick, California.

Secretary, E. E. Wieman, Colorado.

Also present, by invitation, were:

Representing Football Coaches' Association: Lou Little, Columbia, and Jess C. Neely, Texas.

Representing Intercollegiate Athletic Commissioners: Emil Larson, Rocky Mts.; Abb Curtis, Texas, and Reaves Peters, Missouri.

Representing High Schools: L. K. Anderson, Oklahoma; H. S. Emswiler, Ohio; Joseph McKenney, Boston, and Tom Pruett, Texas.

Representing the Editorial Subcommittee: E. C. Krieger, Ohio, and Wallace Wade, North Carolina.

Representatives of the Athletic Equipment Manufacturers' Association reported on the progress in the production of protective equipment. A lengthy discussion resulted on the type of face guard most suitable, both from an offensive and defensive protective standpoint. (The single bar, used by the Boston schools in 1955, was decided as the most suitable.) Subcommittees were appointed on equipment and injuries to make various studies during the 1956 season to reduce the injury factor both in practice and games.

The use of vinyl protective equipment as a replacement for kapok and foam rubber was explained. The Boston schools made the change partially from kapok and foam rubber in 1954-1955. We hope to complete this project by the 1956 season.

Sixty-six rule changes were discussed by the committee after screening a much larger number which had been submitted by various groups. Seventeen minor changes were made in the rules for 1956.

Progress is still being made in coordinating the National Collegiate Athletic Association and National Federation High School Rules. Chairman Chrisler expressed his thanks and appreciation to the four high school representatives for their cooperation and contributions.

Respectfully yours,

JOSEPH MCKENNEY,

Director of Physical Education.
